This Agreement consists of the provisions set forth below, including provisions of all attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any attachment, the provisions set forth shall control unless otherwise agreed by the parties in writing and by signature and date on the attachment.

A Purchase Order (“PO”), Agreement or Contract is the TIPS Member’s approval providing the authority to proceed with the negotiated delivery order under the Agreement. Special terms and conditions as agreed between the Vendor and TIPS Member should be added as addendums to the Purchase Order, Agreement or Contract. Items such as certificate of insurance, bonding requirements, small or disadvantaged business goals are some, but not all, of the possible addendums.

## Terms and Conditions

### Freight

All quotes to Members shall provide a line item for cost for freight or shipping regardless if there is a charge or not. If no charge for freight or shipping, indicate by stating “No Charge”, “\$0”, “included in price” or other similar indication. Otherwise, all shipping, freight or delivery charges shall be passed through to the TIPS Member at cost with no markup and said charges shall be agreed by the TIPS Member unless alternative shipping terms are agreed by TIPS as a result of the proposal award.

### Warranty Conditions

All new supplies equipment and services shall include ***manufacturer's minimum standard warranty*** unless otherwise agreed to in writing. Vendor shall be legally permitted to sell all products offered for sale to TIPS Members if the offering is included in the Request for Proposal (“RFP”) category. All goods proposed and sold shall be new unless clearly stated in writing.

### Customer Support

The Vendor shall provide timely and accurate customer support for orders to TIPS Members as agreed by the Parties. Vendors shall respond to such requests within a commercially reasonable time after receipt of the request. If support and/or training is a line item sold or packaged with a sale, support shall be as agreed

with the TIPS Member.

### **Agreements**

Agreements for purchase will normally be put into effect by means of a contract, agreement, or purchase order(s) executed by authorized agents of the TIPS Member participating government entities, but other means of placing an order may be used at the Member's discretion. Vendor accepts and understands that when a purchase order or similar purchase document is sent from a customer through TIPS to the Vendor, TIPS is recording the purchase and verifying whether the purchase is within the parameters of the TIPS Contract only. Vendor agrees that TIPS is not a legal party to the purchase order or similar purchase document and TIPS is not responsible for identifying fraud, mistakes, or misrepresentations for the specific order. Vendor agrees that any purchase order or similar purchase document issued from a customer to Vendor, even when processed through TIPS, constitutes a legal contract between the customer and Vendor only. A Vendor that accepts a purchase order or similar purchase document and fulfills an order, even when processed through TIPS, is representing that the vendor has carefully reviewed the purchase order or similar purchase document for legality, authenticity, and accuracy.

### **Tax exempt status**

Most TIPS Members are tax exempt and the related laws and/or regulations of the controlling jurisdiction(s) of the TIPS Member shall apply.

### **Assignments of Agreements**

No assignment of this Agreement may be made without the prior notification of TIPS. Written approval of TIPS shall not be unreasonably withheld. Payment for delivered goods and services can only be made to the awarded Vendor, Vendor designated reseller or vendor assigned company.

### **Disclosures**

- Vendor and TIPS affirm that he/she, or any authorized employees or agents, has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor or service to a public servant in connection with this Agreement.
- Vendor shall attach, in writing, a complete description of any and all relationships that might be considered a conflict of interest in doing business with the TIPS program.
- The Vendor affirms that, to the best of his/her knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this Agreement.

### **Term of Agreement and Renewals**

The Agreement with TIPS is for approximately three (3) years with an option for renewal for an additional one (1) consecutive year. If TIPS offers the renewal extension year, the Vendor will be notified by email to the primary contact of the awarded Vendor and shall be deemed accepted by the Vendor unless the awarded Vendor notifies TIPS of its objection to the additional term. TIPS may or may not exercise the available extension(s) provided in the original solicitation beyond the base three-year term. Whether or not to offer the extension is at the sole discretion of TIPS.

**“Start Date” for Term Calculation Purposes Only:** Regardless of actual award/effective date of Contract, for Agreement “term” calculation purposes only, the Agreement “start date” is the last day of the month that Award Notifications are anticipated as published in the Solicitation

**Example:** *If the anticipated award date published in the Solicitation is May 22, 2020 but extended negotiations delay award until June 27, 2020 The end date of the resulting initial “three-year” term Agreement, (which is subject to an extension(s)) will still be May 31, 2023 in this example.*

**“Termination Date”:** The scheduled Agreement “termination date” shall be the last day of the month of the month of the Original Solicitation’s Anticipated Award Date plus three years.

**Example:** *If the original term is approximately three years, and the solicitation provides an anticipated award date of May 22, 2020, the expiration date of the original three-year term shall be May 31, 2023 in this example.*

**Extensions:** Any extensions of the original term shall begin on the next day after the day the original term expires.

**Example Following the Previous Example:** *If TIPS offers a one-year extension, the expiration of the extended term shall be May 31, 2024 in this example.*

TIPS may offer to extend Vendor Agreements to the fullest extent the original Solicitation permits.

**Automatic Renewal Clauses Incorporated in Awarded Vendor Agreements with TIPS Members Resulting from the Solicitation and with the Vendor Named in this Agreement.**

No Agreement for goods or services with a TIPS Member by the awarded vendor named in this Agreement that results from the solicitation award named in this Agreement, may incorporate an automatic renewal clause that exceeds month to month terms with which the TIPS Member must comply. All renewal terms incorporated in an Agreement by the vendor with the TIPS Member shall only be valid and enforceable when the vendor receives written confirmation by purchase order, executed Agreement or other written instruction issued by the TIPS Member for any renewal period. The purpose of this clause is to avoid a TIPS Member inadvertently renewing an Agreement during a period in which the governing body of the TIPS Member has not properly appropriated and budgeted the funds to satisfy the Agreement renewal. This term is not negotiable and any Agreement between a TIPS Member and a TIPS awarded vendor with an automatic renewal clause that conflicts with these terms is rendered void and unenforceable.

**Shipments**

The Vendor shall ship, deliver or provide ordered products or services within a commercially reasonable time after the receipt of the order from the TIPS Member. If a delay in said delivery is anticipated, the Vendor shall notify TIPS Member as to why delivery is delayed and shall provide an estimated time for completion of the order. TIPS or the requesting entity may cancel the order if estimated delivery time is not acceptable or not as agreed by the parties.

**Invoices**

Each invoice or pay request shall include the TIPS Member’s purchase order number or other identifying designation as provided in the order by the TIPS Member. If applicable, the shipment tracking number or pertinent information for verification of TIPS Member receipt shall be made available upon request.

**Payments**

The TIPS Member will make payments directly to the Vendor, the Vendor Assigned Dealer or as agreed by the Vendor and the TIPS Member after receiving invoice and in compliance with applicable payment statute(s), whichever is the greater time or as otherwise provided by an agreement of the parties.

## **Pricing**

Price increases will be honored according to the terms of the solicitation. All pricing submitted to TIPS shall include the participation fee, as provided in the solicitation, to be remitted to TIPS by the Vendor. Vendor will not show adding the fee to the invoice presented to TIPS Member customer.

## **Participation Fees and Reporting of Sales to TIPS by Vendor**

The Participation Fee that was published as part of the Solicitation and the fee published is the legally effective fee, along with any fee conditions stated in the Solicitation. Collection of the fees by TIPS is required under Texas Government Code §791.011 Et seq. Fees are due on all TIPS purchases reported by either Vendor or Member. Fees are due to TIPS upon payment by the Member to the Vendor, Reseller or Vendor Assigned Dealer. Vendor, Reseller or Vendor Assigned Dealer agrees that the participation fee is due to TIPS for all Agreement sales immediately upon receipt of payment including partial payment, from the Member Entity and must be paid to TIPS at least on a monthly basis, specifically within 31 calendar days of receipt of payment, if not more frequently, or as otherwise agreed by TIPS in writing and signed by an authorized signatory of TIPS. Thus, when an awarded Vendor, Reseller or Vendor Assigned Dealer receives any amount of payment, even partial payment, for a TIPS sale, the legally effective fee for that amount is immediately due to TIPS from the Vendor and fees due to TIPS should be paid at least on a monthly basis, specifically within 31 calendar days of receipt of payment, if not more frequently.

## **Reporting of Sales to TIPS by Vendor**

Vendor is required to report all sales under the TIPS contract to TIPS. When a public entity initiates a purchase with a TIPS Awarded Vendor, if the Member inquires verbally or in writing whether the Vendor holds a TIPS Contract, it is the duty of the Vendor to verify whether or not the Member is seeking a TIPS purchase. Once verified, the Vendor must include the TIPS Contract number on any communications and related sales documents exchanged with the TIPS Member entity. To report sales, the Vendor must login to the TIPS Vendor Portal online at [https://www.tips-usa.com/vendors\\_form.cfm](https://www.tips-usa.com/vendors_form.cfm) and click on the PO's and Payments tab. Pages 3-7 of the [Vendor Portal User Guide](#) will walk you through the process of reporting sales to TIPS. Please refer to the TIPS [Accounting FAQ's](#) for more information about reporting sales and if you have further questions, contact the Accounting Team at [accounting@tips-usa.com](mailto:accounting@tips-usa.com). The Vendor or vendor assigned dealers are responsible for keeping record of all sales that go through the TIPS Agreement and submitting same to TIPS. Failure to render the participation fee to TIPS shall constitute a breach of this agreement with our parent governmental entity, Texas Education Service Center Region 8, as established by the Texas legislature and shall be grounds for termination of this agreement and any other agreement held with TIPS and possible legal action. Any overpayment of participation fees to TIPS by a Vendor will be refunded to the Vendor within ninety (90) days of receipt of notification if TIPS receives written notification of the overpayment not later than the expiration of six (6) months from the date of overpayment and TIPS determines that the amount was not legally due to TIPS pursuant to this agreement and applicable law. It is the Vendor's responsibility to identify which sales are TIPS Agreement sales and pay the correct participation fee due for TIPS Agreement sales. Any notification of overpayment received by TIPS after the expiration of six (6) months from the date of overpayment will be non-refundable. Region 8 ESC and TIPS reserve the right to extend the six (6) month deadline to notify if approved by the Region 8 ESC Board of Directors. TIPS reserves all rights under the law to collect the fees due. Please contact TIPS at [tips@tips-usa.com](mailto:tips@tips-usa.com) or call (866) 839-8477 if you have questions about paying fees.

## **Indemnity**

The Vendor agrees to indemnify and hold harmless and defend TIPS, TIPS Member(s), officers and employees from and against all claims and suits by third parties for damages, injuries to persons (including death),

property damages, losses, and expenses including court costs and reasonable attorney's fees, arising out of, or resulting from, Vendor's performance under this Agreement, including all such causes of action based upon common, constitutional, or statutory law, or based in whole or in part, upon allegations of negligent or intentional acts on the part of the Vendor, its officers, employees, agents, subcontractors, licensees, or invitees. Parties found liable shall pay their proportionate share of damages as agreed by the parties or as ordered by a court of competent jurisdiction over the case. **NO LIMITATION OF LIABILITY FOR DAMAGES FOR PERSONAL INJURY OR PROPERTY DAMAGE ARE PERMITTED OR AGREED BY TIPS/ESC REGION 8.** Per Texas Education Code §44.032(f), and pursuant to its requirements only, reasonable Attorney's fees are recoverable by the prevailing party in any dispute resulting in litigation.

#### **State of Texas Franchise Tax**

By signature hereon, the Vendor hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes owed the State of Texas under Chapter 171, Tax Code.

#### **Miscellaneous**

The Vendor acknowledges and agrees that continued participation in TIPS is subject to TIPS sole discretion and that any Vendor may be removed from the participation in the Program at any time with or without cause. Nothing in the Agreement or in any other communication between TIPS and the Vendor may be construed as a guarantee that TIPS or TIPS Members will submit any orders at any time. TIPS reserves the right to request additional proposals for items or services already on Agreement at any time.

#### **Purchase Order Pricing/Product Deviation**

If a deviation of pricing/product on a Purchase Order or contract modification occurs between the Vendor and the TIPS Member, TIPS must be notified within five (5) business days of receipt of change order.

#### **Termination for Convenience of TIPS Agreement Only**

Termination for convenience is conditionally required under Federal Regulations 2 CFR part 200 if the customer is using federal funds for the procurement. All purchase orders presented to the Vendor, but not fulfilled by the Vendor, by a TIPS Member prior to the actual termination of this agreement shall be honored at the option of the TIPS Member. The awarded Vendor may terminate the agreement with ninety (90) days prior written notice to TIPS 4845 US Hwy North, Pittsburg, Texas 75686. The vendor will be paid for goods and services delivered prior to the termination provided that the goods and services were delivered in accordance with the terms and conditions of the terminated agreement. This termination clause does not affect the sales agreements executed by the Vendor and the TIPS Member customer pursuant to this agreement. TIPS Members may negotiate a termination for convenience clause that meets the needs of the transaction based on applicable factors, such as funding sources or other needs.

#### **TIPS Member Purchasing Procedures**

Usually, purchase orders or their equal are issued by participating TIPS Member to the awarded vendor and should indicate on the order that the purchase is per the applicable TIPS Agreement Number. Orders are typically emailed to TIPS at tipspo@tips-usa.com.

**Discount Offered - CAUTION READ CAREFULLY BECAUSE VENDORS FREQUENTLY MAKE MISTAKES ON THIS ATTRIBUTE QUESTION**

Remember this is a MINIMUM discount percentage so, be sure the discount percentage inserted here can be applied to ANY OFFERING OF GOODS OR SERVICES THROUGH OUT THE LIFE OF THE CONTRACT

CAUTION: BE CERTAIN YOU CAN HONOR THIS MINIMUM DISCOUNT PERCENTAGE ON ANY OFFERED SERVICE OR GOOD NOW OR DURING THE LIFE OF THE CONTRACT.

If awarded on PART 1, what is the MINIMUM percentage discount off of any item or service you offer to TIPS Members that is in your regular catalog (as defined in the solicitation specifications document), website, store or shelf pricing or when adding new goods or services to your offerings during the life of the contract? The resulting price of any goods or services Catalog list prices after this discount is applied is a ceiling on your pricing and not a floor because, in order to be more competitive in the individual circumstance, you may offer a larger discount depending on the items or services purchased and the quantity at time of sale.

Must answer with a number between 0% and 100%.

3  
6

**MINIMUM Discount Term**

If awarded on PART 1, does the vendor agree to at least offer, for the life of the Agreement, the Minimum Discount Percentage off list or catalog proposed by Vendor in response to the Attribute entitled "Discount Offered - CAUTION READ CAREFULLY BECAUSE VENDORS FREQUENTLY MAKE MISTAKES ON THIS ATTRIBUTE QUESTION"?

TIPS will utilize this response to satisfy the Long Term Cost scoring evaluation criteria on PART 1. A "YES" answer will be awarded the maximum 10 points for this criterion out of the 100 total points and a "NO" answer is awarded 0 points.

**3  
7** Yes - No

If awarded on Part 1 of the TIPS Contract, for the duration of the Contract, Vendor agrees to provide, upon request, their then current catalog pricing, as defined in the solicitation and below, to TIPS upon request for any goods and services offered on PART 1 of the Vendor's TIPS Contract, if any.

"Catalog" means the available list of tangible personal property or services, in the most current listing, regardless of date, during the life of the contract, that takes the form of a catalog, price list, schedule, shelf price or other form that:

- A. is regularly maintained by the manufacturer or Vendor of an item; and
- B. is either published or otherwise available for inspection by a customer during the purchase process;
- C. to which the minimum discount proposed by the proposing Vendor may be applied.

**3  
8** TIPS administration fee

By submitting a proposal, I agree that all pricing submitted to TIPS shall include the participation fee, as designated in the solicitation or as otherwise agreed in writing and shall be remitted to TIPS by the Vendor or the vendor's named resellers and as agreed in the Vendor agreement. I agree that the fee shall not and will not be added by the vendor as a separate line item on a TIPS member invoice, quote, proposal or any other written communications with the TIPS member.

**3  
9** REQUIRED FOR PART 2 JOC - PRICING OF Regular Hours Coefficient

**What is your regular hours coefficient for the RS Means Price Book? (FAILURE TO RESPOND PROHIBITS PART 2 JOC EVALUATION)**

Remember that this is a ceiling price proposed. You can discount lower than your proposed contract coefficient, but not higher.

This is one of three pricing questions that are required for consideration for award on this solicitation. Please consider your answer carefully. An explanation of the TIPS scoring of pricing is included in the attachments for your information.

The below is an Example of how pricing model works (not intended to influence your proposed coefficient, you should propose a coefficient that you determine is right for your business):

To propose the exact pricing as the RS Means Unit Price Book, you would insert a 1.0 and to propose a 5% discount for the RS Means Price Book would be a .95 regular hours coefficient and so on.

**4  
0** REQUIRED FOR PART 2 JOC - PRICING OF After Hours Coefficient

**What is your after hours coefficient for the RS Means Price Book for work performed after normal working hours? (FAILURE TO RESPOND PROHIBITS PART 2 JOC EVALUATION)**

Remember that this is a ceiling price proposed. You can discount to any TIPS Member customer a lower coefficient than your proposed contract coefficient, but not higher.

This is one of three pricing questions that are required for consideration for award on this solicitation. Please consider your answer carefully. An explanation of the TIPS scoring of pricing titled "Pricing Coefficient Instruction" is included in the attachments for your information.

The below is an EXAMPLE of how the pricing model works (It is not intended to influence your proposed coefficient, you should propose a coefficient that you determine is reasonable for your business for the life of the contract): The most common after hours coefficient is time and a half of the RS Means Unit Price Book prices. To illustrate this coefficient, if your regular hours coefficient is .95, your after hours coefficient would be 1.45.

**4 1 REQUIRED FOR 2 PART JOC - PRICING for Markup of Non-Prepriced Items in RS Means Unit Price Book**

**YOU MUST ENTER A PERCENTAGE NOT A COEFFICIENT.**

**What is your proposed Markup Percentage on materials not found in the RS Means Price Book? (FAILURE TO RESPOND PROHIBITS PART 2 JOC EVALUATION)**

If any materials being utilized for a project cannot be found in the RS Means Price Book, this question is what is the markup percentage on those materials?

When answering this question please insert the number that represents your percentage of proposed markup. **YOU MUST ENTER A PERCENTAGE NOT A COEFFICIENT.**

Example: if you are proposing a 30 percent markup, please insert the number "30". Remember that this is a ceiling markup. You may markup a lesser percentage to the TIPS Member customer when pricing the project, but not a greater percentage.

EXAMPLE: You need special materials that are not in the RS Means Unit Price Book for a project. You would buy the materials and mark them up to the TIPS Member customer by the percentage you propose in this question. If the materials cost you, the contractor, \$100 and you proposed a markup on this question for the material of 30 percent, then you would charge the TIPS Member customer \$130 for the materials.

**YOU MUST ENTER A PERCENTAGE NOT A COEFFICIENT.**

**4 2 Yes - No**

Vendor agrees to remit to TIPS the required administration fee or, if resellers are named, guarantee the fee remittance by or for the reseller named by the vendor?

TIPS/ESC Region 8 is required by Texas Government Code § 791 to be compensated for its work and thus, failure to agree shall render your response void and it will not be considered.

**4 3 TIPS Administration Fee Paid by Vendor - Not Charged to Customer**

Vendor understands and agrees that it owes TIPS a TIPS Administration Fee (published in the RFP/RCSP document) on every TIPS sale made under an awarded TIPS Contract. Vendor further understands and agrees that Vendor shall submit pricing with this proposal which includes and accounts for the TIPS Administration Fee and **shall never** separately charge the TIPS Member Customer the TIPS fee or add the TIPS Administration Fee line item to an invoice or similar purchase document. Submission of this proposal is Vendor's certification that Vendor agrees to this mandatory term.

**4 4 Yes - No**

Do you offer additional discounts to TIPS members for large order quantities or large scope of work?

**4 5 Years in Business as Proposing Company**

Years in business as proposing company?

4  
6

**Resellers:**

If awarded on PART 1, does the vendor have resellers that it will name under this contract?

Resellers are defined as other companies that sell your products under an agreement with you, as the awarded vendor of TIPS.

EXAMPLE: BIGmart is a reseller of ACME brand televisions. If ACME were a TIPS awarded vendor, then ACME would list BIGmart as a reseller.

(Resellers are only permitted under a PART 1 award. If applicable, Vendor should add all Authorized Resellers within the TIPS Vendor Portal upon award).

4  
7

**Right of Refusal**

The proposing vendor has the right not to sell under the awarded agreement with a TIPS member at vendor's discretion unless required by law.

4  
8

"Construction contracts" are for the design, construction, alteration, renovation, remodeling, or repair of any building or improvement to real property, or for furnishing materials or equipment for the project. The term also includes moving, demolition, or excavation. BY RESPONDING TO THIS SOLICITATION, AND WHEN APPLICABLE, THE PROPOSER AGREES TO COMPLY WITH THE TEXAS BUSINESS AND COMMERCE CODE § 272 WHEN EXECUTING CONTRACTS WITH TIPS MEMBERS THAT ARE TEXAS GOVERNMENT ENTITIES.

## ADDENDUM NO. 1 TIPS 220106 Comprehensive HVAC (2 Part with JOC)

This Addendum #1 **does not** require action from responding Vendors and **does not** require resubmission for Vendors who have already submitted. It is only to correct a misstatement originally included in Pages 4-5 of the solicitation attachment entitled “220106 RCSP Specifications.” The original pages 4-5 provided for and discussed a term of years of, “approximately two (2) years with an option for renewal extension for an additional three (4) consecutive one (1) year terms.” This Addendum No. 1 corrects it to properly state and describe a term of, “approximately two (2) years with an option for renewal extension for an additional two (2) consecutive one (1) year terms” as expanded upon below. Specifically, the section entitled “Term of Agreement and Renewals” starting on Page 4 and ending on Page 5 of the attachment entitled “220106 RCSP Specifications” is now changed to read as follows:

### **“Term of Agreement and Renewals**

The Agreement with TIPS is for approximately two (2) years with an option for renewal extension for an additional two (2) consecutive one (1) year terms. The first renewal extension year shall be automatic unless the awarded vendor notifies TIPS of its objection to the first additional one (1) year renewal extension. If TIPS offers the second one (1) year renewal extension terms, the vendor will be notified by email to the primary contact of the awarded Vendor and shall be deemed accepted by the Vendor unless the awarded vendor notifies TIPS of its objection to the additional term. TIPS may or may not exercise the available extension(s) provided in the original solicitation beyond the base term. Whether or not to offer the renewal extension years is at the sole discretion of TIPS.

**“Start Date” for Term Calculation Purposes Only:** Regardless of actual award/effective date of Contract, for Agreement “term” calculation purposes only, the Agreement “start date” is the last day of the month that Award Notifications are anticipated as published in the Solicitation.

**Example:** *If the anticipated award date published in the Solicitation is August 27, 2020 but extended negotiations delay award until September 24, 2020 the end date of the resulting initial “two-year” term Agreement, (which is subject to an extension(s)) will still be August 31, 2022 in this example*

**“Termination Date”:** The scheduled Agreement “termination date” shall be the last day of the month of the month of the Original Solicitation’s Anticipated Award Date plus two years.

**Example:** *If the original term is approximately two years, and the solicitation provides an anticipated award date of August 27, 2020, the expiration date of the original two-year term shall be August 31, 2022 in this example.*

**Extensions:** Any extensions of the original term shall begin on the next day after the day the original term expires.

**Example Following the Previous Example:** *If TIPS offers a one-year extension, the expiration of the extended term shall be August 31, 2023 in this example.*

TIPS may offer to extend Vendor Agreements to the fullest extent the original Solicitation permits.

Total term of Agreement can be up to the number of years provided in the solicitation or as limited by statute.”

## ADDENDUM NO. 2 TIPS 220106 Comprehensive HVAC (2 Part with JOC)

This correction ***does not*** require action from responding Vendors and ***does not*** require resubmission for Vendors who have already submitted ***unless you wish to correct the optional form entitled "PART 2 JOC Pricing of Itemized List of Means Non-Prepriced Items" based on the information herein.*** This Addendum is only to correct a misstatement on the original optional attachment entitled "PART 2 JOC Pricing of Itemized List of Means Non-Prepriced Items." The attachment mistakenly provided for and discussed "Attribute 39." Specifically, any erroneous reference to "Attribute 39" on the specified attachment should be considered immediately replaced with "the Attribute Question asking for Pricing for Markup of Non-Prepriced Items in RS Means Unit Price Book." Please disregard any reference to Attribute 39 on this optional form and consider it to be referencing the Attribute Question asking for "Pricing for Markup of Non-Prepriced Items in RS Means Unit Price Book" instead.

## TEXAS TO TEST FOR LEAD IN SCHOOLS' DRINKING WATER

Texas will begin a program to test drinking water in elementary schools and child care facilities across the state by 2024

Texas will begin a program to test drinking water in thousands of elementary schools and child care facilities across the state.

This will be the first time the state's roughly 25,000 schools and child care facilities will undergo mandated water inspections for lead and copper, since the state did not previously have any testing requirement, reported The Texas Tribune.

The Lead & Copper Rule requires community water systems to sample 20% of elementary schools and 20% of child

# About UNITY CONTROLS

UNITY is a software development and facility optimization firm, focused on producing and delivering high performance, building automation solutions that provide visibility, automated control, and analysis over a large array of energy endpoints.

Our team has directly managed the installation of over 1,400 building automation solutions across the United States and we've learned that strong, verifiable results can be reliably replicated in a wide variety of commercial building types. The industry is full of incremental solutions but we have discovered that the most sizable and repeatable results are achieved when taking a comprehensive approach to each facility.

# Case Studies

## CUSTOMER NEEDS

Danner owns and operates a factory in Portland, Ore. where they manufacture boots and other footwear. Danner was having operational and energy related financial issues at their factory. They engaged UNITY to design a controls solution to provide them with monitoring, control and automation abilities to identify and resolve issues.

- 24 roof top units with multiple controllers
- Temperature issues
- Manual scheduling
- Disconnected legacy energy systems
- No visibility into RTU performance / costs
- Building pressure issues
- Escalating energy consumption

*“Danner continues to design and manufacture a complete line of hiking, hunting, uniform, work and lifestyle boots in its world-class factory in Portland, Ore., USA.”*

## PROJECT & RESULTS

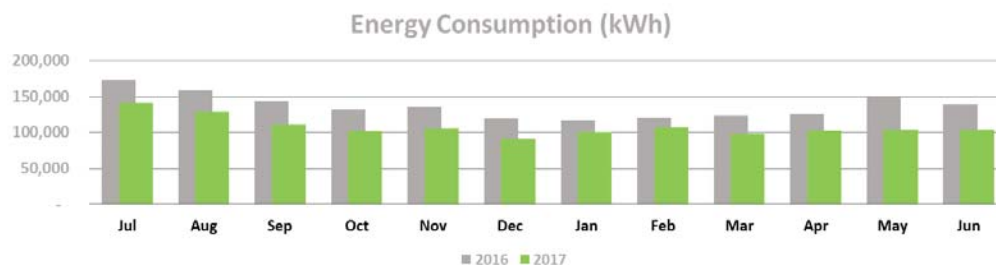

UNITY was installed at Danner in July 2016 in only a few days. The system provides Danner with a central point of interface to schedule, monitor and optimize their facility; via the onsite UNITY controller or web dashboard.

UNITY’s flexible software provides Danner with full visibility into temperature, pressure, relative humidity, HVAC modes / cycling, lighting, alerts, schedules and external factors such as outside air temperature. Danner has been able to leverage UNITY to create a much better work environment while decreasing their management and energy costs.

**9 month payback!**

**21% reduction in energy consumption** over the first 12 months since installation

UNITY identified VSD and LED opportunities that will **decrease consumption by an additional 14%**

## CUSTOMER NEEDS

Shari's is a family owned restaurant chain with nearly 100 locations spread across WA, OR, ID, WY and NE. Each year, Shari's serves over 50,000 cups of coffee and 4,000 eggs while a typical location grills over 200lbs of beef weekly! Shari's, like all foodservice, contends with extremely high energy intensity per square foot. UNITY was chosen to help Shari's bring visibility and control to this demanding and expensive environment.

- Limited or no visibility into HVAC performance
- Food safety risk
- Manual scheduling
- Disconnected legacy energy systems
- No centralized tool to monitor and control multiple locations
- Building pressure issues
- Escalating energy consumption

*“At Shari's, we put the family in family dining. From a warm smile and personal greeting to the fast, friendly service throughout your meal, we make your family feel like they are part of ours. We're all about the guest. And we're always open when you're hungry, 365 days a year..”*

## PROJECT & RESULTS

UNITY in collaboration with the Energy Trust of Oregon completed a pilot at 4 Shari's locations with disparate layouts located in different climate zones.

UNITY's flexible software exceeded the pilot goals at each of the test sites – providing the prescribed visibility and control of temperature, pressure, relative humidity, HVAC modes / cycling, lighting, refrigeration, freezers, alerts, and scheduling automation.

Shari's shaved their energy usage by 13% across UNITY locations and in only 7 months, UNITY identified HVAC and pressure imbalance issues that were costing Shari's over \$12,000 annually!

**13% average reduction in energy consumption** for their sites controlled by UNITY

UNITY software identified under performing HVAC units and building pressure issues that will **save over \$12,000 annually**

# Additional Success Stories

## THE WATER TOWER

Built in 1903 as a furniture factory, this Portland, OR facility was turned into a retail destination in the 1970's and then renovated again in 2008 for use as an office building. Featuring exposed beams and wooden floors, the Water Tower provides historical appeal for tenants and their clients. However, the three-story, 114,976 sq. ft. facility also lacks the insulated building envelope of modern structures and is dependent on standalone HVAC systems to heat and cool a large number of tenant spaces. Prior to this project, all HVAC systems were controlled by individual programmable thermostats in the tenant spaces. Working with the Energy Trust of Oregon, Kite & Lightning presented Melvin Mark, the property management company, with a proposal to install UNITY to centrally manage over 110 water-source heat pumps and rooftop package units, as well as the boiler that serves the central loop for the heat pumps. Upon approval by the building owners, Kite & Lightning completed the initial installation in 3 weeks, then completed the project by adding relays to shut off 20+ HVAC console units during unoccupied periods.

After a short transition phase, where we directly responded to tenant issues, Melvin Mark's team took over day-to-day management of the facility. Scheduling and set points are now under central control. The team has been pleased to find that many of the comfort issues can be solved remotely over the Internet. Even in cases where a building manager or the HVAC service firm must go onsite, Melvin Mark estimates they are saving 1 ½ hours on a typical 2 hour call, due to the ability to remotely diagnose an issue before dispatching someone.

In the first officially-tracked quarter of operation (during the summer months), electrical consumption was down over 9% vs. the prior year. During the heating season, because 2/3rds of the HVAC systems are water-source heat pumps, it is expected that UNITY will be able to continue to save significant electricity, as well as natural gas.

## JEFFERSON OFFICE PARK

Working with the property management company, Norris & Stevens and the Energy Trust of Oregon, we installed our UNITY Building Automation Solution at Jefferson Office Park in Portland, OR. The office complex has four buildings served by 14 rooftop HVAC systems. At the time of installation, the office park had a vacancy rate of 25-30%, but the complex was filled up during the next 6-9 months. Since January 2012, despite the higher than average occupancy levels, total electricity use has been reduced by 11%, total gas use has been reduced by 39% and ROI was realized in 19 months.

## IVARS - PIER 54 SEATTLE

Over the past several years, UNITY has undergone tremendous transformations. Our product architecture has evolved substantially and we are very proud of our offering and the many partnerships that we've formed. We wanted to take a second and highlight an early UNITY installation at Pier 54 in Seattle. This was a unique project in a more than 100 year old pier. Part of a pilot program with Puget Sound Energy this project was one of the first to utilize our new in-depth performance monitoring package and we were quickly able to detect issues with one of the main HVAC units. After further examination we discovered that the gas line was 3/4" too small and as a result was unable to properly heat the space. This issue had gone undetected for nearly 30 years. The gas piping repair was made and the restaurant comfort levels were improved significantly.

## ***Puget Sound Energy (PSE) Study***

UNITY was developed by the team that designed, manufactured and sold ESMS energy management control systems. Many of the algorithms and system protocols that made ESMS an industry leader in HVAC optimization have been improved upon and currently power the UNITY software intelligence.

However, UNITY was designed with the mistakes of ESMS in mind. UNITY has an open language, is fully scalable with all hardware components readily available off the shelf. The results are uniquely flexible and fully scalable solution. UNITY without customization is able to speak with all devices/systems with open protocols and can be installed in any location in the world with little or no delay – a 100% scalable solution!

The following Puget Sound Energy (PSE) award commending ESMS is a testament to the strong foundation and history that UNITY was born from.

For having an idea and demonstrating to McDonald's owner/operators and Puget Sound Energy the energy saving benefits of installing an ESMS, LLC energy management control system. In 1999, ESMS installed controls in a few McDonald's test stores which resulted in the 2001/2002 installations of energy management control systems in over forty (40) Pacific Northwest region McDonald's restaurants; resulting in energy savings of over 1.7 million Kilowatt-Hours and 3,800 Kilowatts of demand savings per year. The average annual savings per store is 42,000 KWh (9% reduction) and 102 KW (9.5% reduction). This saves more than \$3,000.00 per year in reduced energy costs per site. Those stores served with natural gas realized an additional 12.8% average reduction in natural gas usage at the facility.

Puget Sound Energy (PSE), a subsidiary of Puget Energy (NYSE: PSD), is an investor-owned utility with more than 1.2 million customers in 11 counties, primarily in western Washington. As the largest utility in Washington state, PSE provides its customers with "The Energy to Do Great Things" by delivering electricity and natural gas services.

## Pacific Gas & Electric (PG&E) Study

PG&E’s Emerging Technologies Program commissioned Fisher-Nickel, Inc. (Food Service Technology Center) to complete a food service energy management test between three different systems in three different applications – QSR Burger, QSR Chicken and Casual Dining. The vendor selection found that UNITY was 1 of only 7 vendors of the 25 researched that had all 5 desired features – hardware solution, software solution, consulting services, integrated end-use of HVAC and lighting.

Amongst other findings, the study concluded that there are several viable EMS vendors with somewhat comparable hardware packages “the individual software-driven features offered between products varied significantly”. UNITY outperformed the other systems yielding the greatest savings over the observed 12 month test period – 11.2% on electric and 21% on gas.

#### SITE 3—CASUAL DINING

The Kite & Lighting Unity EMS installed at Site 3 offers energy monitoring and control solutions for HVAC and air balance, lighting, refrigeration, and additional energy consuming and generating equipment. The Unity system communicates wirelessly between its hardware components and actively updates the information to a control unit as well as online to remote access points. Figure 10 shows an interactive dashboard detailing the controlled and monitored systems at the site. The components controlled include the functions of the three RTUs, the indoor and outdoor lighting, and the ice machine (for peak load-shifting). Additional monitoring points include, walk-in and evaporative cooler temperatures, refrigerator door positions, as well as energy use at a whole-building power meter installed as part of the EMS.

A retrofit Gaylord DCV-R demand control ventilation system was installed on the existing hood—along with VFDs on the exhaust and makeup air fans. The DCV-R collects air and effluent temperatures using resistance temperature sensors installed in the hood, the duct collar, and outside of the hood in the room. The controller analyzes the sensory input and dictates the fan speed through a variable frequency drive. A DCKV control cabinet serves as the cross section for input and output signals and features a “100% Fan Button” as well as a “Exhaust Fan Start/Stop” button. EMS integration was accomplished with current sensors placed on the exhaust and makeup air fan electrical circuits and provided supervisory and alarm functionality to the DCKV system.

## Energy Trust of Oregon Study

Energy Trust of Oregon engaged with Cadmus to evaluate their Building Performance Tracking and Control Systems (BPTaC) Pilot which was originally implemented by ICF and Lockheed Martin. Unity was chosen as the energy management system (EMS) platform to test. Installations were completed in 2013 with results tracked for up to 2 years. Cadmus presented the following high-level description of Unity’s system -

*“The dashboard relays parameters for temperature, lighting levels, and the status of various pieces of equipment. The EMS uses open-source software and communicates wirelessly to a variety of sensors and controllers installed at the facility. For example, current draw is detected by a shadow meter placed on the mains with a current transducer around the wires.*

*By clicking on an icon, users can schedule and adjust setpoints for individual systems. A high level reporting screen provides average parameters for all control points over a user-specified time period. Alerts can be set to notify users of building issues, such as a refrigerator door left open or if the demand is above a present limit.”*

### Building Performance Tracking and Controls Pilot: Energy Savings Review

September 12, 2014

Energy Trust of Oregon, Inc.  
421 SW Oak Street #300  
Portland, OR 97204

Unity worked closely with the four test sites to install, commission and advise the owners/operators as the software automated their operations and provided valuable insights. The results were an average of 9% electric savings and 16% gas savings. The Energy Trust of Oregon used these results and the UNITY functionality as the baseline for EMS systems to be eligible for financial incentives in small/medium commercial facilities.
