

Industrial Power is an Awarded Vendor through TIPS! You may purchase class 3-8 trucks through TIPS Contract 200803

Hino

Hino's corporate mission is to make the world a better place to live by helping people and goods get where they need to go. This support comes in many forms in our medium and heavy duty trucks. It starts with the peace of mind in the industry-leading warranty that includes an industry-first, 5-year, unlimited mile warranty on Allison transmissions, free roadside assistance, preventive maintenance coverage, and a comprehensive telematics solution to optimize your fleet.

Isuzu

Since 1984, over 500,000 Isuzu trucks have been delivered in North America. The Isuzu low cab forward design introduced U.S. business owners to a smarter way to work with trucks that are maneuverable, offer a low cost of ownership and deliver remarkable durability. After two years, Isuzu trucks became the best-selling low cab forward trucks in America - an accolade that still holds true today.

Autocar

Building trucks and designing the best tools in the industry is our way of life. It would be easy to talk about introducing the world's first truck. And we could tell you about our customer service and the team standing behind you... But we would rather just show you. You see, we are your work partners, and together, we have a job to do. We want to make sure you are the most successful, profitable, and efficient business you can be. And we won't rest until that job is done.
