Overview

ECD is a certified minority owned company based in Corona, California. Since its inception in 1993, ECD's goal has been to become a leader in its industry by providing a product designed for a healthier work place.

ECD's ergonomic office seating provides you with a healthy choice providing you the correct ergonomic solution in your increasingly technology filled office.

For over 23 years, ECD has built products considering its users' needs and evaluations of the product. This approach has brought us to the path we are about to fully embark on – Your chair, your way. Need a different size seat because you are larger or smaller – we can do that. Need a special arm function – we can do that. Need a special foam because you find that to be more comfortable – we can do that too. Taller, shorter, tailbone issues, highly ergonomic control, simple control, weight activated control – we can do that.
