To Whom It May Concern:

It is a great honor to write this reference on behalf of Luna & Associates and TIPS. Clearwater USD 264 was looking into obtaining roof bids for the middle school. It was suggested to me that I contact Denise Shibley of Luna & Associates. It was the best thing I could have done.

Ms. Shibley has a wealth of experience and knowledge about roofs. She answered all my questions and offered suggestions. Luna & Associates took care of the bid process, pre-bid tour of the roof, and explaining the alternate bid options. In the end, the district received very competitive bids that our board was very pleased with.

The Clearwater district joined TIPS as part of the process. They were excellent as well.

I have replaced and repaired many roofs as a superintendent over the years. Working with Luna & Associates and TIPS is the best process I've done. Without a doubt I would use them again. They both have earned my highest recommendation.
