- Student success through security assurance

What is your company's unique value proposition?

Proctor360 provides turn-key solutions for secure online test proctoring with flexible options for all proctoring and exam types.

Services/Solutions

1. Proctor360

I. 360 Total View: Online exam proctoring that captures a 360° view of the remote testing environment during the exam using a proprietary testing headset for truly high-stakes exam delivery online.

II. Webcam Live Remote Proctoring: Standard remote proctoring capturing the test-taker's webcam, screen activity, and audio during exam sessions – all monitored by live, human remote proctors.

III. AI Auto Proctoring: Online exam proctoring capturing the test-taker's webcam, screen activity, and audio during exam sessions – all monitored by AI in realtime and designed to detect and flag common cheating and exam content theft behavior.

IV. Institutional SaaS Remote Proctoring: Institutions and Test Centers can use our AWS cloud-based proctoring platform to proctor their own students' online exams live in real time.

2. HirePro360 (Launching Q3 '22): Secure pre-employment exam proctoring and remote interview platform that integrates with standard enterprise video conference tools (Zoom, Teams, Meet, etc). Includes secure workforce and applicant ID verification!

3. TestPro360

I. Secure online test engine with multiple question types, integrated whiteboard, question bank, and exam results digital certification.

II. Fully integrated with Proctor360's remote proctoring platform for total exam security
