Overview

<p>CDW Government, LLC (CDW•G) is the wholly owned subsidiary of CDW LLC, a leading multi-brand technology solutions provider to business, government, education, and healthcare organizations in the US, the UK and Canada. We established CDW•G in 1998 to focus on the specific needs of the government and education sectors. We have teams segmented to serve State and Local, K12, Higher Education, and Federal customers, and organized into 11 geographic regions for a higher level of specialization. We have 28 offices near major cities, and field coworkers across the US. Our offerings range from discrete hardware and software products to integrated IT solutions such as mobility, security, data center optimization, cloud computing, virtualization, and collaboration. As a vendor-neutral reseller, we prioritize solutions over brands and have a product portfolio that includes more than 100,000 products from more than 1,000 vendors. We provide our products and solutions through our sales and service delivery teams, consisting of nearly 6,000 customer-facing coworkers, including more than 2,000 field sellers, highly skilled technology specialists and advanced service delivery engineers. We provide expert consulting, design, configuration, installation, and lifecycle management services. Our technology services include e-Procurement integration, Leasing services, Managed services, Pre-shipment configuration, Professional services, Warranty and maintenance. We provide custom turn-key solutions in Cloud, Collaboration, Data center
 and Networking, Managed Print Services, Point of Sale, Security, Software Management, and Total Mobility Management. The full range of products and services we offer enables our customers to develop the best valued total solution for their needs. In 2022, CDW generated sales of \$24B, reaching 166 on the Fortune 500 and positioning us as a leader in our industry. As one of the largest IT solution providers in North America, CDW•G is No. 4 on CRN’s 2022 Solution Provider 500 list. Our stability helps assure TIPS members that we can support them

throughout the contract term. Our professional services team—over 1,000 professionals strong—deploys from our US offices to deliver the personal service that helps you understand and meet your business and technology needs. Our engineers and project managers are trained on the latest technologies and many hold advanced certifications from our top manufacturers. In addition to our CDW•G-badged professionals, we also have a large

Business Diversity program, which specializes in increasing procurement opportunities for HUB and other diverse suppliers. Since 2007 we have spent \$20 billion with certified small, diverse suppliers and currently feature over 1,300 diverse suppliers. CDW•G also recognizes the importance of responsible environmental management. Our
efforts include participating in electronics recycling programs, consistently meeting and exceeding our waste diversion goal of 90% at our US distribution centers, and implementing smart packaging solutions. Our customerfocused philosophy drives us to provide outstanding customer service and the best value. We aim to have TIPS members view us as a valuable extension of their IT staff. Our customers’ environments are always evolving; our
expertise across a wide range of technologies and sectors makes solution implementation economically viable for our customers. Our account teams serve as a liaison between our internal technical resources, external partners, and original equipment manufacturers (OEMs) to create a seamless experience for TIPS members. We leverage our distributor relationships as a world-class value-added reseller (VAR), as well as our capabilities as a specialized systems integrator and managed service partner to be a true one stop shop for full lifecycle support.</p>
