Overview

Splendid Technology Services, LLC (STS) is an all-in-one answer to any network challenge. From concept to design, through implementation all the way to support and routine maintenance, STS is dedicated to helping our customers realize quality solutions to any technology problem. In 2007 STS shifted its focus to Public Sector—specifically to K-12 private, charter, and ISD's. Today, 95% of our clientele fit into this market vertical. We provide all of our services under one roof – we do not subcontract out. A network design from the STS team will be implemented by members of that same team, and we have built our portfolio out (cable, route/switch, wireless, VOIP, local AV, servers, etc...) around being a single source vendor for our clients.
