## Overview

*Nationally Licensed Synexis Dealer*

*Patented technology that continuously reduces pathogens 24/7/365 in the air and on surfaces in occupied spaces.*

*The Synexis® technology uses ambient humidity and oxygen present in the air. The oxygen and humidity are broken apart by a photocatalytic reaction and put back together as hydrogen peroxide in its gas phase. Our patented technology creates a safe level of hydrogen peroxide (H<sub>2</sub>O<sub>2</sub>) gas, which reduces the presence of microorganisms and helps lower the opportunities for cross-contamination and recontamination. DHP can reach the toughest and most out-of-reach areas of your building. As a near ideal gas, DHP travels wherever the air goes providing an immune system for your building.*

AWARDED CONTRACTS    "View EDGAR Doc" on Website
