Pricing Models

Pricing for Line Items or Catalog

It is the intention of TIPS to establish an agreement to furnish and/or deliver all goods and services provided by awarded vendors to its members. Proposers are requested to submit a proposal for offering their complete and total line of available products and services to governmental entities, including school districts.

If a name brand is mentioned in the specifications, proposals on any reputable manufacturer's regularly produced equipment of such items of a similar nature or similarly used and substantially equivalent will be considered.

The list or category of goods or services sought by this solicitation is inclusive and not exclusive. There may be other similarly used items that are sold by the responding vendors that may be included as part of the proposing vendor's "catalog" (defined below) now or during the life of the agreement that are considered included in this solicitation and subject to the minimum discount proposed. Pricing may also be exclusively line item pricing or, and recommended, in combination with a minimum catalog discount.

Example: During the life of the agreement, models change and new products come to market that are in the same category and are added to the vendor's "catalog" and are available for purchase by users of the agreement. If you fail to propose a minimum discount off your catalog, it may limit the ability to change pricing of catalog items and services during the life of the award.

Definition of "catalog"

"Catalog" means the available list of tangible personal property or services, in the most current listing, regardless of date, during the life of the contract, that takes the form of a catalog, price list, schedule, shelf price or other form that:

- A. is regularly maintained by the manufacturer or vendor of an item; and
- B. is either published or otherwise available for inspection by a customer during the purchase process;

C. to which the minimum discount proposed by the proposing vendor may be applied.

Adding New or Replacement Goods Items During the Life of the Agreement

Is easiest proposing a Minimum Discount off (PREFERRED MODEL) catalog prices for goods or a markup on vendor's cost of a good item. See Pricing sheets 1.

Pay Careful Attention to This When Completing the Pricing spreadsheets.

Adding New or Replacement Services During the Life of the Agreement

Is easiest proposing a Discount off (PREFERRED MODEL) catalog prices for Services because there is no manufacturer or supplier's price in which to apply a markup percentage. See Pricing sheets 2.

Pay Careful Attention to This When Completing the Pricing spreadsheet.

Explanation:

Markup on cost

It is NOT recommended proposers use the Markup pricing method because many members are not allowed to use a bid with a markup pricing method, specifically when using Federal Grant Funds. Using this pricing method may limit the effectiveness of your award.

If you choose to use the markup pricing method:

When proposing a markup on cost model, the vendor shall be required to provide proof of actual cost to the vendor of the goods sold to verify pricing markup is properly and legally applied for the sale of the goods.

NEW ITEMS: TIPS will allow the addition of new goods items to be added to the agreement when they become available to the market through the vendor under the discount off published pricing model or markup on cost model. You must stipulate a discount or markup on catalog price in the appropriate section of the pricing Excel sheet to be eligible for this option. You may stipulate discount off specific brands or lines of goods if you desire. Be thorough and concise. Any items added must be available to all customers, within legal or contractual limitations, if any. (Example: Apple products are not permitted to be sold to the education market without special agreement from Apple but may be sold to other government customers.)

REPLACEMENT OF DISCONTINUED OR LIMITED AVAILABILITY ITEMS: [When proposing a Line Item pricing model](#) - TIPS will allow replacement items to the original list item if it is no longer manufactured or is available in limited quantities. Limited availability must be documented by a letter from the manufacturer. Vendor may replace it with an item of like kind and quality and the price will remain the same as proposed, except if it is cheaper, vendor shall lower the price accordingly and if it is more expensive due to vendor's actual cost from the manufacturer, it will be priced and the same discount shall apply as the item it replaces. Vendor shall be required to prove the pricing if the cost is higher than the original core list price to customer.

Note: If you propose a minimum Discount off catalog, you avoid this process since you are adding an item to your catalog and list price and the proposed minimum discount off catalog would apply to the new item.

Shipping cost:

Pricing presented for goods offered should not include shipping costs from dealer to Member customer. IF shipping is included in the price regardless of the situation, then you simply state no additional cost for shipping or delivery to any customer. Example if the truck includes deliver but parts do not, them be sure to specify the variations in your pricing. Shipping method is determined by the vendor and the Member/Customer at the time of the quote/purchase by the Member/Customer and satisfactory shipping methods and costs are agreed at that time. Shipping should be passed through at actual cost to the TIPS Member.

**SPECIFICATIONS and PRICING FORMAT
(EXCEL SPREADSHEET)**

Proposals on any reputable manufacturers regularly produced goods falling within the general categories solicited herein will be considered for award. If a name brand is mentioned, it is only to illustrate type and quality and is not intended to restrict competition. Any list included herein is inclusive and not exclusive. There may be other similarly used items that are sold by the responding vendors that may be included as part of the proposing vendor’s “catalog” (Defined above) now or during the life of the contract that are considered included in this RFP. Example: During the life of the contract, models change and new products come to market that are in the same category and are added to the vendor’s “catalog” and are available for purchase by users of the contract provided the catalog discount or cost markup proposed is honored by the awarded vendor.

TIPS leaves it to the proposer to determine what goods or services that perform or serve this function and the proposer may list or include anything applicable.

This solicitation is seeking providers for: Commercial Cafeteria Equipment and Furniture

Proposal should list offerings to be considered as part of Commercial Cafeteria Equipment and Furniture, Supplies and Services that can be provided by the vendor. Servicing of Commercial Cafeteria Equipment and Furniture, installation of Commercial Cafeteria Equipment and Furniture, rental of Commercial Cafeteria Equipment and Furniture, repair of Commercial Cafeteria Equipment and Furniture or any related service to support Commercial Cafeteria Equipment and Furniture should be included in this proposal. All Commercial Cafeteria Equipment and Furniture, or any related supply or equipment should be included.

A discount off list price pricing model is ideal as list prices change over the life of the awarded agreement. Possible pricing models are discussed in this document. Any other goods and services that are logically related to this general category. TIPS reserves the sole right to determine whether or not proposed goods or services are logically related to this general category.

Proposals should include any and all listings of product names, manufacturers, sizes, packaging, quantity, pricing, warranties, description of services and any other related information. If a catalog is proposed, then a percentage off catalog is acceptable.

Vendors are requested to submit a list or excel spreadsheet of all types of commercial cafeteria equipment and furniture. All items should have a percent of discount off manufacturers suggested pricing or percent of cost above manufacturers cost is acceptable. You may reference a website with a percent discount or include a flash drive or cd with pricing. Catalogs are also accepted with a discount noted. **DO NOT INCLUDE ITEMS THAT ARE NOT CONSIDERED Commercial Cafeteria Equipment and Furniture related.**

(Note: TIPS must be able to verify customer quotes when requested by the TIPS Member from the pricing submitted from this vendor proposal.)

Value Added Pricing

Value added services should be explained in detail. If bidder can offer greater quantities at lower pricing, these “value added” prices should be submitted in this section.

Additional Services:

Bidder should list in the Pricing Sheet 2 excel spreadsheet all related supplies, equipment, services, installation, repair, maintenance, and hourly fee or other defined unit cost according to category offered on this contract. Offering must be related to this category. No inappropriate offerings will be considered.

The Vendor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for services. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by TIPS participating members.

NOTHING IN PART 1 OF THIS SOLICITATION IS REQUESTING SERVICES THAT ARE CONSIDERED A PUBLIC WORK/CONSTRUCTION.

PART TWO ADDRESSES THOSE POTENTIAL NEEDS

Pricing Sheets 1 and 2 must be downloaded from the “Attachments” section, completed and uploaded to the “Response Attachments” PRICING sections.

Since the list of items a vendor may carry is potentially very long, and items are removed and added to the market frequently, it may be more advantageous to propose a **minimum discount** off your catalog for goods and services. You may offer different discounts for different brands or lines or services of goods if you choose.

A zero discount off catalog proposal is permitted, but TIPS encourage vendors to propose the best discount they feel is necessary to compete with other retailers to provide the greatest benefit to TIPS members. Please propose a minimum discount off catalog for all non-line items proposed so you will be covered when future items are available in you catalog. By doing this, the pricing is a ceiling and not a floor. You may always lower your price or increase your minimum discount percentage to be more competitive in a particular situation

You may propose all goods as a line item list if you prefer but the PREFERRED proposal method is a minimum discount off catalog prices. Line item proposal prices may only be increased by the markup method or by application of the US Department of Labor (General (not industry specific) Consumer Price Index (CPI) percentage increase applied annually, so proposing the discount off catalog price may provide easier price adjustments but ensures that they are applied fairly to all customers of the vendor because they are published for all customers to see. **You may propose, both discount off a catalog AND line item pricing for specific lists of items if you choose to.**

Caution: Using the Markup method of pricing may exclude some members when using Federal funds as Federal regulations prohibit this type of pricing and some local regulations prohibit this type of pricing and it always requires the proposer to make available to TIPS or its members proof of the cost of the item to the proposer to verify the markup is applied according to the terms of this solicitation ad resulting award.

You may stipulate different discounts off on specific brands or lines of goods if you desire.

PRICING FORMAT (EXCEL SPREADSHEETS 1 and 2)

DO NOT PROPOSE “PRICE TO BE DETERMINED” or “ON REQUEST”. This method is not lawful to award by TIPS.

Pricing Sheet 1 excel sheet

There are three (3) sections in the Excel sheet #1, Section A, B, and C provided in the solicitation documents, please complete all that are applicable to your proposal. The discount off catalog price is the preferred method and please propose that method in addition to any other method you desire to cover future item or service availability.

Example: If you are providing a line item pricing sheet AND a discount off the rest of your catalog, be sure to provide both the line item prices on the list of items proposed and a minimum discount off the rest of your catalog. If different sections of your catalog have different minimum discounts, please note accordingly.

Pricing Sheet 2 excel sheet

List any other services, maintenance agreements, mileage fees, maximum travel costs, etc. with line item pricing for year One and maximum percentage increase in pricing for years Two and Three of the awarded contract AND/OR discount off Catalog price as defined above if services are routinely listed in your catalog and priced therein.

Vendor may provide additional pricing in another format.

ALL PRICING SHALL BE FIRM AND CALCULABLE AT THE TIME OF SALE DURING THE LIFE OF THE CONTRACT AND MUST CONFORM AND COMPLY WITH THE VENDOR’S PROPOSED PRICING MODEL IN RESPONSE TO THE ORIGINAL SOLICITATION. DO NOT PROPOSE “PRICE TO BE DETERMINED”. If you have question on this process , call TIPS for clarification.

Example: Proposed catalog, web or store price for an item is \$10.00 each and your proposed minimum discount is 5%, then the price is firm and calculable as \$9.50.

Please provide any explanatory information on your pricing proposal you believe is necessary to fully inform TIPS of your intent.

Service Incidental to the Sale of Goods

Many times, the sale of goods may be accompanied by the installation or set up of said goods. Proposers may submit pricing for the services in the Pricing Sheet 2 spreadsheet or in an attachment.

Any and All SERVICES may be proposed, but must be priced either as a line item or as a discount off the published Catalog price for said services. You may provide a catalog of services or a link to the available services or you may create a TIPS-specific Catalog list of services with applicable pricing. Please specify or illustrate your chosen method.

If LINE ITEM GOODS pricing, and during the life of the award, prices may be increased only commensurate, dollar for dollar as your cost for the item increases. To increase the price of a line item prices good, vendor must submit proof from the manufacturer or distributor that the pricing has increased and by how much.

NOTE: FAILURE TO PROPOSE SERVICES SHALL EXCLUDE THEM FROM YOUR OFFERING THROUGH THIS AWARD SO, PLEASE INCLUDE THEM IS SOME CALCULABLE WAY. YOU MAY PROVIDE A PERCENTAGE DISCOUNT OFF POSTED PRICES OR CATALOG PRICES FOR THE LOCATION OF THE STORE OR IN SOME SPECIFIC MANNER THAT FITS YOU BUSINESS MODEL.

When using line item pricing, vendor should provide on pricing template 2 a maximum price increase percentage for annually for renewal years. Complete all excel pricing forms.

The following evaluation criteria are mandated for consideration by Texas Education Code § 44.031 (b).

NOTICE: This document is only part of the complete solicitation. The ION Wave system questions and other included documents provided in ION Wave for this specific solicitation title comprise the whole and complete solicitation.

NOTICE:

This is a two-part solicitation.

Due to changes in the procurement statutes in recent years and various interpretations of its requirements for installation of fixtures in public buildings, TIPS has determined that going to a two part process will best meet the legal needs of all of our members.

TIPS Members sometimes consider the installation services of the goods supplied under this contract as a public work/construction, since they may be considered fixtures.

Proposing vendor may respond to part one or to both parts. You may NOT respond to part two unless you have responded to Part 1. No company will be awarded on Part 2 unless they are awarded on Part 1. If you just sell the Commercial Cafeteria Equipment and Furniture with no installation, Part 1 is sufficient. If you provide installation services, you should respond to Part 2 for the contract to be effective and usable by TIPS members. Failure to respond to part 2 WILL NOT affect your award chances on the Part 1. It is acceptable to propose on only Part 1, but it may limit your sales opportunities for sales of goods and delivery/installation services.

It is highly recommended that you respond to both parts to take advantage of all opportunities.

If you need help with proposing the RS Means pricing model, please contact us for assistance.

If you need help or explanation of the RS Means unit price book, TIPS has staff that can provide some guidance, but understanding of the unit price book method is the responsibility of the proposer.

- **Part 1** of the two-part solicitation is the goods and non-construction services section that must be procured according to Texas Education Code §44.031 and the solicitation description is a Request for Proposals. Only services that are considered non-construction are permitted under Part 1. Depending on the judgment of the TIPS Member entity, this may include installation of the Commercial Cafeteria Equipment and Furniture.
- **Part 2** of the two-part solicitation is the installation section for projects that the work required for installation is considered a public work construction project and the solicitation description is a Request for Competitive Sealed Proposals as permitted under Texas Government Code §2269; Job Order Contracts. How the installation is classified is dependent on the judgment of the TIPS member and the work involved in the specific scope of the project.

Example: if the member is purchasing a modular building and there must be engineered footings, sidewalks, plumbing or electrical service installed at the site for the building, they may be required by statute to engage an independent engineer and the project may be considered a construction or public works project that requires procurement according to Texas Government Code 2269.

The first one (1) year extension is automatic unless either party exercises its right to termination as provided in the Part 2 JOC Vendor Agreement. EXCEPT IN PART 2 DOCUMENT, NOTHING IN THIS SOLICITATION IS REQUESTING SERVICES THAT ARE CONSIDERED A PUBLIC WORK/CONSTRUCTION. WITHOUT A RESPONSE TO PART 2, AN AWARDED VENDOR MAY NOT PROVIDE PUBLIC WORK CONSTRUCTION SERVICE UNDER THIS CONTRACT.

SPECIFICATIONS and PRICING FORMAT

Specifications for Part 2 include installation of a Commercial Cafeteria Equipment and Furniture. Depending on the scope and circumstances, the pricing of this work may be required by Texas Government Code §2269 to be procured by a method enumerated in the statute. The method permitted by a purchasing cooperative such as TIPS is the Job Order Contract (JOC) method. The statute requires the use of a unit pricing model and the unit price book TIPS specifies is the RS Means price book. The statute also requires the pricing to be submitted as a coefficient of the Unit Price Book's line item prices. The part 2 pricing sheet provides for your proposal of the coefficient and a markup for non-listed items.

Pricing

It is the intention of TIPS to establish an agreement for delivery of installation and ancillary services that are considered by the TIPS member as a public work construction project for Commercial Cafeteria Equipment and Furniture sold as "goods" through Section "A" of this solicitation. Due to the varied scope and nature of these types of projects, TIPS members in various jurisdictions have different interpretations of what is and what is not a public work construction project requiring the Job Order Contracting (JOC) procurement process under Texas Statutes. Therefore, TIPS is providing the option for members that require the JOC process to procure those services relating to this solicitation using this contract. **FAILURE TO PROVIDE THE JOC PRICING SHEET WITH YOUR PROPOSAL MAY LIMIT THE USE OF YOUR AWARD UNDER THIS SOLICITATION.** Proposers must provide pricing based on a multiplier coefficient of the R.S. Means price book sections for the categories solicited.

Wage Rates

TIPS members usually, depending on the jurisdiction, have to designate or follow specific wage rates for their construction projects. Many times, this is Davis-Bacon Act and sometimes it may be another local wage rate determination. Regardless, the contractor must comply with the designated wage rates and the RS Means Unit Price Book has taken into account the local wage rates for the geographic area.

Maximum Aggregate Contract Price

Texas Government Code §2269.403 (b) requires that the governmental entity shall establish the maximum aggregate contract price when it advertises the proposal. Because this solicitation is available for piggyback by multiple entities, there is no accurate method to project the maximum aggregate price. Therefore, an arbitrary maximum aggregate contract price for sales by all awarded contractors under this solicitation is set at \$10,000,000,000,. This arbitrary figure is not a guarantee of any sales under the award and it should not be construed as an estimate of total sales during the contract period. If and when the \$10,000,000,000 figure is reached, the awarded contracts will expire immediately and a new solicitation may be issued if in the best interest of TIPS and its members.

Job Order Contracting (JOC)

It is the intention of TIPS to establish a contract to furnish and/or deliver construction services using the Job Order Contracting construction delivery method. The work includes minor construction, repair, rehabilitation and alteration services for a wide variety of colleges and universities, schools, cities, counties, healthcare and other government and non-profit agencies.

Unit Price Book (UPB) will be the current edition of RS Means Facilities Construction Cost Data at the time of the project acceptance – the published quarterly updates will be allowed.

Estimating Requirements: Awarded contractor must use Cost Works, JOC Works, RS Means Online, 4 Clicks, or other approved estimating software. Other software than one of the four software programs listed above must be approved by TIPS.

The Contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for construction work. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by TIPS participating members.

A contract will be established with standard specifications and pricing based upon a coefficient that is applied to a Unit Price Book (UPB) from RS Means. When a specific project or job order is issued, TIPS member and the contractor will agree on the scope of work and the cost is determined by applying the coefficient to the appropriate units in the UPB. Pricing will be evaluated based upon completion of Pricing Exhibit.

Pricing Exhibit document must be downloaded from the "Attachments" section, completed and uploaded to the "Response Attachments" PRICING section.

Bonding

Proposer must provide a letter from their Surety company(ies) that specify the bonding capacity of the proposer. Bonding surety must be authorized to do business in the State of Texas and be listed on the Department of the Treasury's Listing of Approved Sureties (Department Circular 570)

Bonding capabilities documentation must be scanned and uploaded to the "Response Attachments" BONDING section.

Job Order Contracting Definitions

CITY COST INDEX, Defined pricing indices published by R.S. Means (see R.S. Means) as local modifiers to the national cost data.

COEFFICIENT is the contractors' coefficient multiplier that is applied to the local city cost index and the total sum of line item estimates for each individual Job Order. It will include all overhead items such as office, safety equipment, vehicles and fuel, computers, communication devices, printers, programs, insurance maintenance, two percent TIPS management fee, final site cleanup and all contingencies.

JOB ORDER is a line item estimate taken from a job order proposal using the coefficient and R.S. Means which upon agreement to by the TIPS member becomes a lump sum fixed price contract and a notice to proceed for the stated scope attached to the purchase order.

It is based upon the contracts priced coefficient applied to the city cost index and the line items in the unit price book (RS Means). When the line items are agreed to it becomes a lump sum firm fixed price contract for that negotiated scope of services.

JOB ORDER PROPOSAL is the response from the contractor to the TIPS Member from the clients request for a specific project. It will contain the line item estimate for the project as defined in the UPB and include a written scope of work for services to be performed

NON PRE-PRICED ITEMS are those items that cannot be found or reasonably compared to listed line items in the UPB.

PURCHASE ORDER is the TIPS member's approval providing the authority to proceed with the negotiated delivery order under the contract. Special terms and conditions as agreed to between the contractor and TIPS member will be added as addendums to the PO. Items such as certificate of insurance, bonding requirements, small or disadvantaged business goals are some of the addendums possible.

PREMIUM HOURS are defined as those hours not included in regular hours or recognized holidays. Premium hours are to be approved by the TIPS member for each delivery order and noted in the delivery order proposal as a line item during negotiations.

The specific scope of work for each job shall be determined in advance and in writing between TIPS Member and Awarded contractor. It is okay if the TIPS member provides a general scope, but the awarded contractor should provide a written scope of work to the TIPS member as part of the proposal. Once the scope of the job is agreed to, the TIPS member will issue a PO with the estimate referenced as an attachment along with bond and any other special provisions agreed to for the TIPS member. If special terms and conditions other than those covered within this solicitation and awarded contracts are required, they will be attached to the PO and shall take precedence over those in the base TIPS contract.

Description, Specifications and Pricing

The Part 2 INSTALLATION SERVICES section of this awarded contract will use a job order contract (JOC) for a fixed term or maximum dollar value, whichever occurs first, in which a contractor is selected based on a competitive proposals to perform various separate job orders in the future, during the life of the contract. Contract award is based on the bid coefficient factor which the contractor will multiply against “pre-priced” R.S. Means unit price book. The bid coefficient factor represents all of the contractor’s costs (indirect and direct), overhead and profit. The other adjustment factor is updated annually based on the City Cost Index published for the closest location.

The Part 2 INSTALLATION SERVICES scope is exclusive to the contractor. The most important decision in administering the Part 2 INSTALLATION SERVICES contract is therefore the drafting of the scope. Because the contractor has been selected and the unit price is fixed (by the unit price book and the contractor’s coefficient factor), the Part 2 INSTALLATION SERVICES contract allows contractor input prior to design, which can expedite the work.

The Contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for construction work. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by TIPS participating members.

A contract will be established with standard specifications and pricing based upon a coefficient that is applied to an R.S. Means Unit Price Book (UPB). When a specific project or job order is issued, TIPS member and the contractor will agree on the scope of work and the cost is determined by applying the coefficient to the appropriate units in the UPB. Based on the scope of work, the contractor may apply a coefficient less than the TIPS contractor coefficient, if agreed upon by the contractor and the TIPS member. Pricing will be evaluated based upon completion of Pricing Exhibit.

The Part 2 INSTALLATION SERVICES contract will include, but not limited to, the following RS Means Divisions:

- RS Means (Division 1 – General Conditions)
- RS Means (Division 2 – Existing Conditions)
- RS Means (Division 3 – Concrete)
- RS Means (Division 5 – Metals)
- RS Means (Division 6 – Woods and Plastics)
- RS Means (Division 9 – Finishes)
- RS Means (Division 11 – Equipment)
- RS Means (Division 12 – Furnishings)
