All of this leads to a long-term, low-maintenance solution.

Additional Membrane Solutions

Duro-Last also offers other PVC membrane solutions. Although we are committed to the benefits of prefabrication, we realize that it may not be the ideal solution for all jobs and roofing contractors. Roll goods from Duro-Last enable installation on challenging roofs that are difficult to measure and projects in extreme weather.

A complete line of custom prefabricated accessories is available for each membrane product line.

Duro-Tuff®

Duro-Tuff was introduced to provide a better roll good product while also providing a cost-effective, secure and watertight installation.

- Roll widths: 5', 10'

Duro-Last EV contains DuPont's™ Elvaloy®, which provides durable flexibility in roofing membranes. Duro-Last EV is flexible and weldable in low temperatures and performs well in cold, harsh environments.

It's as Easy as it "Seams"

Prefabrication from Duro-Last: Fewer Seams = Fewer Leaks

When you install a Duro-Last custom prefabricated roofing system, up to 85% of the seams are completed in a factory-controlled environment before the roofing system is delivered to the job site. By eliminating most of the on-site seaming, Duro-Last dramatically reduces the potential for leaks — and adds the advantages of a faster, quieter and easier installation, with less maintenance and reliable performance for years to come.

The Prefab Four

1. Factory welded seams mean better first-time quality and less callbacks
2. Prefabricated accessories provide easier transitions, superior waterproofing and aesthetics
3. Less labor for Time off the Roof™
4. Clean installations offer less job site waste and disruptions

Prefabrication Benefits for Any Duro-Last Roof

Custom prefabricated accessories and details from both Duro-Last and our EXCEPTIONAL® Metals division offer the perks of factory prefabrication to roofs installed with any Duro-Last membrane — even roll goods.

Custom prefabricated stack and curb flashings eliminate rooftop labor on the most critical roof areas — penetrations and transitions. Many of these accessories, including metal scuppers and collector boxes, come with the Duro-Last membrane already welded to it. Flashings for difficult areas like corners and parapet wall transitions come pre-welded as well.

The benefit of these products is twofold: First, having the welding completed in our factory-controlled environment provides a better-looking finished product along with the necessary watertight integrity. Second, rooftop labor is greatly reduced, getting roofing crews off the roof faster and on to the next job.

Deck-to-Sky and Installation Solutions

Increasing Efficiency

As a full roofing systems provider, Duro-Last offers many different products for fast and efficient roof installation, including:

Fasteners

TIP-TOP® Screw Manufacturing, Inc., a sister company to Duro-Last, is a manufacturer of roofing fasteners including concrete screws, heavy-duty fasteners, construction fasteners, insulation fasteners and insulation plates for the Duro-Last roofing system and other applications.

Adhesives

For adhered applications, Duro-Last offers both solvent-based and water-based adhesives for membrane, along with low-rise foam options for insulation and cover board applications.

The Duro-Last Duro-Bond® Roofing System

This system is a mechanically-attached installation option using non-penetrating “induction weld” technology. This technique bonds the Duro-Last PVC membrane to a PVC-coated fastening plate beneath the roof membrane, which also fastens insulation and recovery board materials to the roof deck. The OMG RhinoBond® is the preferred induction fastening system.

We’ve Got You Covered

Duro-Last offers complete roofing systems — with solutions from Edge-to-Edge & Deck-to-Sky™. Deck-to-Sky options include everything from cover boards and vapor barriers to both polyisocyanurate (ISO) and expanded polystyrene (EPS) insulation. All of these products contribute to roofing system assembly best practices, making the “World’s Best Roof” even more durable. Through our easy ordering process, competitive pricing and logistical service support, our Duro-Guard® line of products is both cost-effective and convenient.

Additional Duro-Guard Products Include:

- Duro-Guard EPS Flute Fill Combo
- Fan Fold
- DensDeck®, Securock® and DEXcell® roof boards
- Duro-Last Vapor Barrier

Reduce, Recycle, Reimagine

Duro-Last was Sustainable Before it was Cool

Sustainability has been a part of the Duro-Last culture for more than 20 years. Our founder, John R. Burt, came up with the idea to make flooring out of scrap. He was able to look at old PVC roofs and manufacturing scrap and reimagine it into resilient flooring, walkway pads and concrete expansion joints.

Recycling

Duro-Last has a focus on recycling at every step of the product lifecycle. In addition to our manufacturing process that allows scrap to be recycled back into production, we can take old roofs back at the end of their useful life through our Take Back Program.

In addition, our prefabricated roof systems allow roofing contractors to reduce scrap on the job site — meaning less waste ends up in a landfill.

Energy

By reflecting up to 86% of the sun's energy, Duro-Last's white membranes can greatly reduce energy consumption and costs. With a total solar emittance of up to 95%, the Duro-Last membrane is ENERGY STAR® qualified, meaning our roofing systems release energy and heat efficiently.

Inspection

Upon completion of a commercial job, a Duro-Last Quality Assurance Technical Representative will inspect the Duro-Last roofing system. A warranty will not be issued until a roof has passed our inspection. This means that between the inspections in our manufacturing plant and on the roof, every field seam will be inspected.

Spec Generator

Our Spec Generator makes it easy to specify and order Duro-Last. This online tool features the full spectrum of Duro-Last roofing systems along with corresponding warranties, technical data and roof details to ensure the best roofing solution for any situation.
