## FIRM EXPERIENCE AND HISTORY

### ***History***

SPRINTURF is one of the original three artificial turf companies. Formed in 1998, SPRINTURF has over 1100 installations throughout the United States.

In 2010, Integrated Turf Solutions (ITS), one of only 2 companies in North America manufacturing the FULL range of artificial turf products, acquired SPRINTURF, one of the most reputable turf marketers and installers in the country. The SPRINTURF brand will remain unchanged. The new SPRINTURF becomes the FIRST fully integrated polyethylene turf company in North America. This is the first step towards a world class model, providing best-in-class economics, logistics, quality and service. The SPRINTURF brand is synonymous with high-performing Dual-Yarn systems. Over 90% of SPRINTURF installations since 2006 are Dual-Yarn installations, incorporating high durability, resiliency (or bounce back) and the exclusive infill fly-out reduction technology (IFR™).

SPRINTURF operates 2 manufacturing facilities; one in Dadeville, AL and the other in Chatsworth, GA. The Dadeville facility extrudes the full range of polyethylene, polypropylene and nylon yarns, including the latest generation of multi-shape, dual-color spinneret monofilament yarns, and the exclusive range of mono-tape fibers. The Chatsworth, GA facility houses the tufting, urethane coating and "Easy-Back" coating operations. The Dadeville and Chatsworth facilities have provided yarn and finished turf products for over 1,000 fields in North America. SPRINTURF is the only company in North America that extrudes 100% of their fibers in-house and in America.

SPRINTURF is fully funded by shareholders and has no bank or outside debt. Our resin supply is from blue chip manufacturers such as Exxon and Dow; our insurance is with Wells Fargo and five out of our top seven executives have been owners or CEOs in the turf industry prior to SPRINTURF.

### ***American Jobs & Investment***

SPRINTURF is heavily invested in America and American jobs. SPRINTURF is the only turf company that manufactures 100 percent of the turf in-house and in America. Starting with the resin pellet and ending with the installed field, SPRINTURF is a one-stop shop. Every job is in America; every investment dollar is in America. Our hard assets in the United States dedicated to turf exceed that of the other three major turf companies combined.

### ***Safety***

SPRINTURF is one of the safest playing surfaces of any kind. Its patented 100 percent all-rubber system offers a playing surface that we would create for our own children. The polymers used in the manufacture of SPRINTURF synthetic turf products are purchased from blue chip companies such as Dow and Exxon.

### ***Quality***

The SPRINTURF system is unique in many ways. SPRINTURF is the only turf manufacturer with no field failures over the last decade. Since SPRINTURF manufactures 100 percent in-house, world-class quality systems are designed around prevention versus detection.

100% of the fibers are made in-house and in America. SPRINTURF has been manufacturing slit tape fibers since 2002 and spinnerette monofilament since 2006. In addition to quality control, eliminating imports of any kind gives SPRINTURF a compliance advantage with U.S. laws and regulations.

100% of the tufting and urethane coating is done in-house, giving us total control of manufacturing from pellet to finished product. We also have a fully equipped in-house lab including Instrons, color cameras, UV weatherometers and a Lisport accelerated wear tester.

By controlling all manufacturing and testing, SPRINTURF confidently offers an eight (8) year manufacturer's warranty that is fully insured by a third party. SPRINTURF is also the only turf company to guarantee a minimum 10 tuft bind. Thus far, there have been zero fiber failures for all yarns manufactured in SPRINTURF facilities.

SPRINTURF also offers a unique maintenance program, Sprintcare. Information on Sprintcare is included. Sprintcare can be added at an additional cost. SPRINTURF supports you from cradle (resin pellet) to grave (field removed a decade from now).

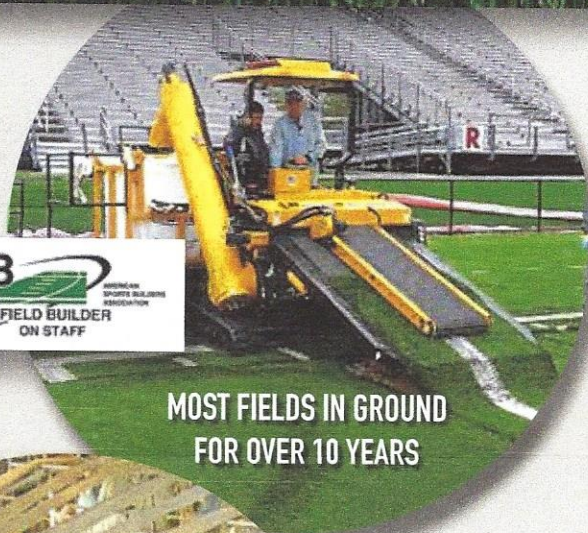

### ***Economics & Logistics***

Since there are not multiple hands in the pot, SPRINTURF offers competitive, if not the best, pricing while making sure all production complies with strict US regulations on heavy metals, etc.
