PRICE SCORING: Turf Nation – 24 Points

Pricing is always a difficult topic, especially sensitive to organizations such as TIPS, which essentially exist to afford their members a price advantage through their members collective buying power. Turf Nation is a premium quality synthetic turf system provider, which means we will not always be the cheapest price. Simply stated there are always going to be lower quality products that can be offered at reduced costs. Turf Nation has built its reputation on quality. **As a direct manufacturing source and as a result of cautiously managed overhead, Turf Nation can typically offer higher quality at lower prices than other competitors.** Turf Nation cannot guarantee that its prices will be lower than other reduced quality systems, but **Turf Nation does represent that the pricing afforded to TIPS is the lowest offered on a national platform and/or buying cooperative program.** While Turf Nation respects each individual facilities right to select the quality of product they desire, Turf Nation is likely be at the highest end of the quality scale/consideration. Turf Nation makes a bold argument that we will always represent “best value”, when products are compared by their physical properties. The synthetic turf industry is a competitive industry with many credible vendors, each competing on thin margins. Turf Nation’s pricing is extremely competitive and meant to be genuine to the concept afforded by TIPS to its members by offered the best pricing available.

REPUTATION SCORING: Turf Nation – 24 Points

Turf Nation has a reputation as the “trusted source” within the synthetic turf industry. Turf Nation has built its success on reliable service, quality turf systems and on-time delivery. Please refer to the Turf Nation Qualifications Dashboard for details on select high profile turf systems successfully completed by Turf Nation. **Turf Nation surfaces have been selected for play and practice by 13 NFL Teams.** Turf Nation has also incorporated a lengthy reference list of select projects to demonstrate our national experience. These lists are not meant to be

exhaustive, but merely a cross section of projects that Turf Nation has proudly completed. All Turf Nation turf systems are proudly manufactured in the USA. Turf Nation exists within an industry that has recently been plagued by bad press related to product failures. Turf Nation has never experienced a premature turf system failure and has

never been sued by a sports field user. Having completed surfaces successfully utilized in the last three (3) NFL Super Bowls (NRG Stadium-2017/MetLife-2014/Superdome-2013) played on synthetic turf, and the surface selected for US Bank Stadium (Home of the Minnesota Vikings) which will host the 2018 NFL Super Bowl, Turf Nation surfaces will have been featured in the last four NFL Super Bowls played on synthetic turf – a fact that Turf Nation and its employees are extremely proud of. Turf Nation surfaces have been featured at the NFL Hall of Fame, NFL Pro Bowl, NCAA BCS Champions, numerous

bowl games, and awarded several prestigious awards by the American Sports Builders Association (ASBA). Specifically, high profile buyers are very selective on who they contract with. If a company's reputation is defined by the company they keep, than Turf Nation's reputation is likely second to none.

Experience – Proven Professionalism

Turf Nation Standards of Installations – Best Practices

The Turf Nation Standards of Installation is incorporated within our submission within the "Turf Nation-Standards of Installation" section. The Turf Nation Standards of Installation is a dynamic document that details every stage of the installation from the moment the contract is signed until the end of the eight (8) year warranty period. All vendors should be required to produce a document that demonstrates they have given the same level of thought and attention to the process. A successful installation requires this level of professionalism forethought and best

practices to ensure the consistency of every surface. Turf Nation utilizes our own Certified Installers to complete the installation process. These experienced craftsmen and craftswomen allow Turf Nation to standardize the installation process, providing the quality control and quality assurance required to ensure optimum performance and maximize player safety for each surface. Unlike many competitors that subcontract the critical installation process to independent third parties, Turf Nation ensures the success of every sports field installation by utilizing our own Certified Installers. 100% Financing
Turf Industry financing can cover the entire cost of the equipment, including soft costs such as installation, maintenance, shipping and taxes. Plus, unlike many other financing structures, there is no down payment required.

Cash Flow Management
Turf Industry payments are typically lower than those associated with traditional financing and, with a fixed payment schedule, there is no guesswork concerning the amount and number of payments owed throughout the life of the surface.

Appropriation Based Funds No Problem
Many of our clients deal with appropriation based funds, which means they are appropriated each year and not guaranteed in advance. With Turf Industry, appropriation based funds are no problem. We are comfortable with appropriation based funds because of our focus on municipal, college and university financing. This is a big differentiator from most financial programs who avoid this type of financing.

Capital Conservation
With no need to expend a lump sum to obtain your equipment, Turf Industry financing can help you conserve capital that can be reinvested into your facility, helping you grow.

Tax Benefits
Unlike traditional equipment loans, Turf Industry payments can be deducted from operating income, reducing your tax liability and saving you money.

Asset Flexibility
Turf Industry field financing allows you to match the term with the useful life of the surface, enabling you to make replacements or upgrades when needed.

Lead and Heavy Metal – CPSC Compliance

The term “Lead Free” indicates that the item is completely devoid of lead. NO synthetic turf surface is “Lead Free”, any vendor that implies that their surfacing system is lead free is either uneducated or intentionally misrepresenting their product in an attempt to gain your acceptance, either situation should be of serious concern to TIPS. Lead and Heavy Metal testing for the ENTIRE SYSTEM are available for each and every Turf Nation synthetic turf system. The Consumer Product Safety Commission (CPSC) announced back in 2008 that as of December 31, 2011, they would be lowering the acceptable lead content for synthetic turf to 100 parts per million as the previous standard prior to 2011 was

300 parts per million. Third party testing to validate 2011 compliance by Consumer Product Safety Commission Standards for every Turf Nation synthetic turf system is available, which means the ENTIRE SYSTEM as installed is less than 100 parts per million, and that the test has been performed by the required testing method – Lead digested by ASTM 3052 @ 210°. It is critical that every potential vendor provide testing for the entire system utilizing the proper test (CPSC requirement) to ensure the system will be less than 100 parts per million. The independent third party testing submitted confirms that every Turf Nation synthetic turf system is 2011 compliant by CPSC standards for lead content.

Superior Fiber Quality:

A synthetic turf system fails ultimately when the fiber wears down to point where it can no longer support enough infill to be safe upon impact by a player. Therefore, fiber quality is the primary component that determines the lifecycle and ultimately the return on investment. Turf Nation utilizes a proprietary resin technology best known as TRUE-C8. In an industry that has been recently plagued by field failures due to premature fiber degradation, TRUE-C8 is the highest quality DOW resin available in the industry. Superior fiber chemistry is what the TIPS members should seek in purchasing a synthetic turf systems to avoid premature field failures.

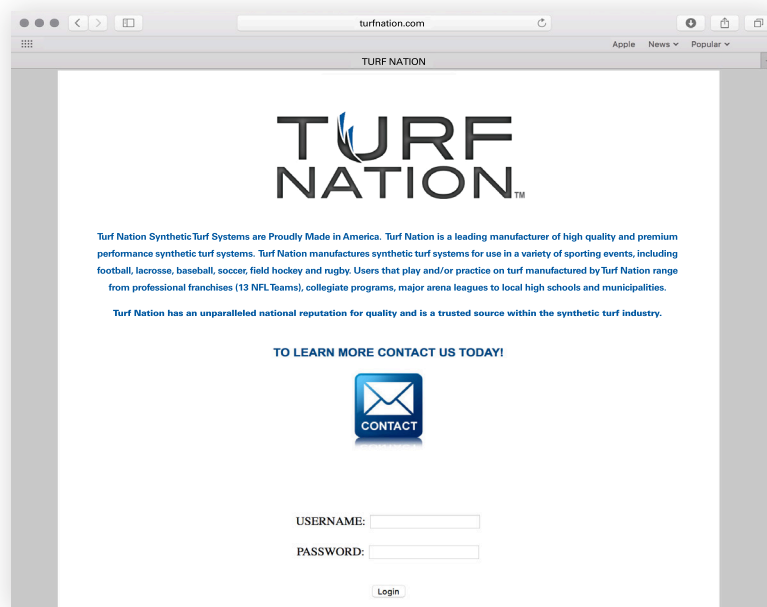

Website Portal – TIPS Exclusive

Turf Nation has invested the time to complete a comprehensive Website Portal for TIPS and its member agencies as a dynamic communication hub and informational depository. The creation of this web portal allows the TIPS synthetic turf members to access all the information associated with the program 24 hours a day, 7 days a week. This type of robust digital platform is what is required to ensure and enhance the TIPS success within this bid category. The fact that Turf Nation has elected to build this site in advance of an award we hope will clearly demonstrate our commitment to making this program a success for the TIPS and the TIPS member agencies.

The Website Portal provides, but is not limited to the following functionality:

- Product Information
- Product Testing
- TIPS Exclusive Offers
- TIPS Exclusive Discounts
- Maintenance Documentation
- Health and Safety Documentation
- Financing Program Details
- Value Added Services
- Local Representative Contact Details
- Material Safety Data Sheets

The Website Portal also allows for TIPS members to track the progress of their projects once awarded. TIPS member agencies will be able to log in, see progress reports, daily reports, and images of the project on a daily basis. This type of modern day communication tool critical to keep the TIPS member agencies aware of the progress of the awarded projects.

Program Success – Dedicated Support Team

Programs and buying group bids such as the current process for synthetic turf that TIPS is engaged in require a real commitment from the vendor to be successful. Turf Nation is committed to making this TIPS program a success. Turf Nation as a national brand has the resources, experienced staff and local presence to ensure the program is a success. Turf Nation will dedicate significant resources to work with the various state TIPS agencies to secure local contracts and projects. Turf Nation will appoint a single representative to work directly with each state agency. This dedicated representative will work diligently to promote the program at the state level and work with the local TIPS member agencies. Turf Nation has control of every aspect of the manufacturing process including the fiber production, tufting, backing and shipping logistics.

Insured Warranty

The Turf Nation submission provides for an INSURED WARRANTY with every field. The insured warranty provided is underwritten by an A.M. Best carrier with an “A” rating, is non-prorated, and prepaid for 8-years. The insured warranty provides for full replacement throughout the entire 8-year warranty period, including labor, disposal, installation and infill material. This comprehensive warranty is true bumper to bumper coverage and should be considered “required protection” from any synthetic turf vendor. The warranty language and Insured Warranty provided are superior to the warranty requirements as detailed in the RFP. The Turf Nation Insured Warranty is the best in the industry because of the detailed coverage provided. The Insured Warranty will apply to every TIPS project at no additional charge.

Conclusion:

Turf Nation has taken significant time to understand, appreciate and predict what TIPS and its various state agencies require to make this contract for synthetic turf a success. Success should not merely be measured by cost savings, but also with consideration to the best value presented by a vendor for TIPS and its members. The Value Added Services incorporated within the Turf Nation submission and

In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**

- - Agency Special Instructions/Additional Requirements - -

In accordance with 34 TAC §20.14(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. If using existing contracts with Texas certified HUBs to satisfy this requirement, only contracts that have been in place for five years or less shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.

After dividing the contract work into reasonable lots or portions to the extent consistent with prudent industry practices, and taking into consideration the scope of work to be performed under the proposed contract, including all potential subcontracting opportunities, the respondent must determine what portions of work, including goods and services, will be subcontracted. Note: In accordance with 34 TAC §20.11., an "Subcontractor" means a person who contracts with a prime contractor to work, to supply commodities, or to contribute toward completing work for a governmental entity.

a. Check the appropriate box (Yes or No) that identifies your subcontracting intentions:

- **Yes**, I will be subcontracting portions of the contract. (If **Yes**, complete Item b, of this SECTION and continue to Item c of this SECTION.)
- **No**, I will not be subcontracting any portion of the contract, and I will be fulfilling the entire contract with my own resources. (If **No**, continue to SECTION 3 and SECTION 4.)

b. List all the portions of work (subcontracting opportunities) you will subcontract. Also, based on the total value of the contract, identify the percentages of the contract you expect to award to Texas certified HUBs, and the percentage of the contract you expect to award to vendors that are not a Texas certified HUB (i.e., Non-HUB).

***Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

Check the appropriate box (Yes or No) that indicates whether your response/proposal contains an explanation demonstrating how your company will fulfill the entire contract with its own resources.

- Yes (If Yes, in the space provided below list the specific page(s)/section(s) of your proposal which explains how your company will perform the entire contract with its own equipment, supplies, materials and/or employees.)

Respondent understands and agrees that, if awarded any portion of the requisition:

- The respondent will provide notice as soon as practical to all the subcontractors (HUBs and Non-HUBs) of their selection as a subcontractor for the awarded contract. The notice must specify at a minimum the contracting agency's name and its point of contact for the contract, the contract award number, the subcontracting opportunity they (the subcontractor) will perform, the approximate dollar value of the subcontracting opportunity and the expected percentage of the total contract that the subcontracting opportunity represents. A copy of the notice required by this section must also be provided to the contracting agency's point of contact for the contract no later than ten (10) working days after the contract is awarded.
- The respondent must submit monthly compliance reports (Prime Contractor Progress Assessment Report – PAR) to the contracting agency, verifying its compliance with the HSP, including the use of and expenditures made to its subcontractors (HUBs and Non-HUBs). (The PAR is available at <http://www.window.state.tx.us/procurement/prog/hub/hub-forms/progressassessmentrpt.xls>).
- The respondent must seek approval from the contracting agency prior to making any modifications to its HSP, including the hiring of additional or different subcontractors and the termination of a subcontractor the respondent identified in its HSP. If the HSP is modified without the contracting agency's prior approval, respondent may be subject to any and all enforcement remedies available under the contract or otherwise available by law, up to and including debarment from all state contracting.
- The respondent must, upon request, allow the contracting agency to perform on-site reviews of the company's headquarters and/or work-site where services are being performed and must provide documentation regarding staffing and other resources.

LIMITED WARRANTY: Your synthetic turf surface is designed, engineered and manufactured to the strict standards and specifications stipulated by Turf Nation, Inc. ("Turf Nation"). Subject to the terms and conditions set out herein Turf Nation (the "Warrantor") warrants your synthetic turf surface will be serviceable as a sports field for the particular sports activity specified at the time of purchase, under normal conditions, for a period of eight (8) years from the date of substantial completion of the installation contract (the "Warranty Period").

Further, the Warrantor warrants your synthetic turf surface shall be free of manufacturing and workmanship defects resulting in material UV degradation, a lack of tensile strength or delamination of the backing layer during the Warranty Period and the installation of your synthetic turf surface shall comply in all material respects with the Turf Nation Standards for Installation.

GENERAL TERMS, CONDITIONS AND EXCLUSIONS IN RESPECT TO YOUR WARRANTY:

The liability of the Warrantor under this Warranty shall be limited to the cost of repair or replacement of the affected area of the synthetic turf, to a maximum amount not exceeding the original purchase price of the synthetic turf paid by the Warrantor Holder. The Warrantor reserves the right to correct any defect prior to the synthetic turf being removed, replaced, or otherwise remedied. If replacement is necessary, in Warrantor's sole discretion, the Warrantor shall provide a synthetic turf of at least equal value should the identical surface not be available. The remedy of repair or replacement of the synthetic turf surface will be inclusive of labor costs, infill and other materials required by Warrantor to reasonably affect the remedy. There will be no cash payment. This limited Warranty gives you specific legal rights and you may also have other rights which may vary from jurisdiction to jurisdiction. All synthetic turf manufactured by Turf Nation is intended solely for use as a sports surface and are designed to be sport specific, and thus, are not recommended for any other purpose.

Payment in Full

The warranties herein are entirely conditional on Warrantor having received payment in full for all products and services agreed to be supplied and to which this Warranty applies.

Non-Transferability

The warranties herein are extended only to the original Warranty Holder and are not transferable to successors not listed in the enclosed Certificate of Warranty.

First Quality Products

The warranties herein are not applicable to synthetic turf sold as second quality, irregular, used or mill end materials.

Improper Maintenance or Inadequate Care

Your synthetic turf surface requires routine maintenance. You are required to follow the recommendations described in the Turf Nation Care and Maintenance Manual. The Warrantor is not responsible for damage to your synthetic turf caused by, or attributable to, improper maintenance or inadequate care, which could void all or part of your Warranty coverage granted herein.

Accidents, Abuse, or Abnormal Wear

The warranties herein do not cover claims related to your synthetic turf resulting from accidents or abuse such as staining, soiling, tearing, burning, vandalism, flooding, cutting, damage caused by animals, acts of God, acts of nature or by improper cleaning and application of harmful chemicals.

Synthetic Turf on Steep Inclines and Other Areas

The warranties herein do not cover damage or appearance changes in synthetic turf installed on steep inclines where adequate infill levels cannot be maintained or in areas subject to activity or use other than ordinary foot traffic.

Subsurface Failure

The use of proper materials and compaction of the subsurface below your synthetic turf is critical to maintaining a level, flat and safe playing surface. Your warranties herein do not cover claims caused by, or attributable to, the failure of the base or subsurface.

Pad Failure (if applicable)

Some synthetic turf surfaces are installed with a shock absorption pad beneath the turf surface. Deterioration of the pad can cause problems with your synthetic turf. The Warrantor is not responsible for any defects caused by failure of such pad.

Changes in Synthetic Turf Color

The warranties herein do not cover changes in turf color resulting from non-natural causes such as spills or the application of chemicals, liquids, garbage, residue from objects placed on the turf or other deleterious substances.

Differences in Samples

The warranties herein do not cover minor and normal differences in the color, texture or mottling between the turf sample, illustrations or other photographic marketing material and the actual installed synthetic turf.

Temporary and/or Permanent Markings

You may wish to add temporary and/or permanent painted markings to your synthetic turf for various sports

TURFTM NATION

activities. You must only use paint that is specifically formulated for use on synthetic turf from an approved Turf Nation paint vendor. Failure to do so may result in permanent damage to the synthetic turf. Please review the Turf Nation Care and Maintenance Manual for suggested line paint products and consult the paint supplier in regard to proper application and maintenance of painted markings. Failure to specifically follow the approved paint supplier's proper application and maintenance procedures for the paint could void your warranty. Applying paint to the surface, even when applied properly, will change the texture of the surface and could negatively impact the turf's performance and safety. The Warrantor is not responsible for the performance of the marking paint product or the resulting consequences of its use or application.

Geographic Locale

The warranties herein apply only in the United States and Canada.

Consequential or Incidental Damages

EXCEPT AS PROVIDED IN THIS WARRANTY AND TO THE EXTENT PERMITTED BY LAW, THE WARRANTOR IS NOT RESPONSIBLE FOR INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM ANY BREACH OF WARRANTY OR CONDITION, NEGLIGENCE OR UNDER ANY OTHER LEGAL THEORY, INCLUDING BUT NOT LIMITED TO: LOSS OF USE; LOSS OF REVENUE; LOSS OF ACTUAL OR ANTICIPATED PROFITS (INCLUDING LOSS OF PROFITS ON CONTRACTS); LOSS OF THE USE OF MONEY; LOSS OF ANTICIPATED SAVINGS; LOSS OF BUSINESS; LOSS OF OPPORTUNITY; LOSS OF GOODWILL; LOSS OF REPUTATION; OR ANY INDIRECT OR CONSEQUENTIAL LOSS OR DAMAGE HOWSOEVER CAUSED INCLUDING THE REPLACEMENT OF EQUIPMENT AND PROPERTY, ANY COSTS OF RELOCATION ON A PERMANENT OR TEMPORARY BASIS, ANY TRAVEL, TRANSPORTATION AND ACCOMMODATION COSTS.

Disclaimer of Implied Warranties

TO THE EXTENT PERMITTED BY LAW, THIS WARRANTY AND REMEDIES SET FORTH HEREIN ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, REMEDIES AND CONDITIONS, WHETHER ORAL OR WRITTEN, STATUTORY, EXPRESS OR IMPLIED. AS PERMITTED BY APPLICABLE LAW, THE WARRANTOR SPECIFICALLY DISCLAIMS ANY AND ALL STATUTORY OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OTHER THAN THE PURPOSE INTENDED BY THE WARRANTOR, AND WARRANTIES AGAINST HIDDEN OR LATENT DEFECTS. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE OF THIS WARRANTY. IF THE WARRANTOR CANNOT LAWFULLY DISCLAIM STATUTORY OR IMPLIED WARRANTIES THEN TO THE EXTENT PERMITTED BY LAW, ALL SUCH WARRANTIES SHALL BE LIMITED IN DURATION TO THE WARRANTY PERIOD OF THIS EXPRESS WARRANTY AND TO REPAIR OR REPLACEMENT SERVICE AS DETERMINED BY THE WARRANTOR IN ITS SOLE DISCRETION. No third party is authorized to make any modification, extension, or addition to this warranty on behalf of the Warrantor or its affiliates. Upon the making of a valid claim by the Warranty Holder and the determination by Warrantor that the synthetic turf cannot be restored by repair, the Warrantor will arrange for replacement of the affected areas of your synthetic turf surface, subject to the costs of such replacement not exceeding the original purchase amount paid by the Warranty Holder for the synthetic turf being replaced. THIS IS NOT A PRO-RATED WARRANTY. The warranties herein shall be applicable to the replacement synthetic turf for the balance of the Warranty Period.

Infill (if applicable)

The infill layer in your synthetic turf surface is one of its most important components. It is the component that helps the turf retain its impact absorption and appearance. An infill level that is too high will adversely affect the performance and useful life of the synthetic turf. An infill level that is too low interferes with the anchoring of the turf surface, causes wrinkling and/or buckling of the turf, fails to protect the turf fibers from premature wear and abrasion and has a negative impact on safety and the useful life of the synthetic turf surface. You must maintain infill levels within the recommended parameters found in the Turf Nation Care and Maintenance Manual, in order to qualify for the warranties herein.

Turf Installation

Proper installation is as important as the original quality and durability of the synthetic turf. An improperly installed synthetic turf will not look as good, be as safe, nor last as long. Improper installation can lead to delamination, buckling, wrinkling, seam rupture and loss of tufts in the seam areas. ONLY A TURF NATION CERTIFIED INSTALLER IS QUALIFIED TO PROFESSIONALLY INSTALL YOUR NEW TURF NATION SYNTHETIC TURF. The TURF NATION Standards for Installation must be followed in order to qualify for the warranties set out herein. Before installing your new synthetic turf surface or having it repaired during the Warranty Period, ensure your installer is certified by Turf Nation. Failure to do so may void your warranties.

NON-WARRANTED TURF SURFACE CHARACTERISTICS:

Appearance Retention*

All synthetic turf surfaces will change in appearance over time. This is primarily due to foot traffic and normal wear and tear. Synthetic turf in heavy

TURFTM NATION

traffic areas will exhibit the most change. A good quality synthetic fiber and infill, providing it is properly maintained, will help extend the surface's appearance. The tips of the tufts in certain types of synthetic turf, over time and with use, will fibrillate, causing it to split or bloom. This is normal and should be expected. Over the useful life of your synthetic turf surface, subtle color variations will occur due to exposure to natural sunlight. These variations are normal and to be expected.

Crushing*

Crushing is the compaction of the pile thickness in the synthetic turf due to foot traffic or repeated use or placement of heavy objects, including motorized equipment. Regular use of a Turf Nation approved sweeper/vacuum in high traffic areas may help reduce changes in appearance caused by crushing.

Indentations*

Indentations will occur from placing heavy objects on the turf or repeatedly operating motorized equipment on the surface without the recommended tires or underinflated tires, thereby causing crushing, as aforementioned, or indentation damage to the subsurface. Brushing the affected area will usually restore the crushed tufts to their original position. Please review the Turf Nation Care and Maintenance Manual for recommended load limits of motorized equipment and appropriate tire type and inflation.

Matting*

Matting is the entanglement of synthetic turf fibers and tufts of the yarn tips and may be caused by a low infill level, or more often, improper maintenance. The improper application, maintenance and/or removal of temporary or permanent painted markings can cause matting. Residue from a spill that was not cleaned up thoroughly or not rinsed completely will also lead to matting.

Shading*

Shading is a change in pile direction that results in an apparent change in color due to the light reflecting in different ways. Solid color turf will exhibit this more often than textured or multi-hued surfaces. This is normal. Severe cases of shading are also known as pooling or watermarking. This condition is the result of permanent pile reversal that occurs after installation. It has no known cause and is usually confined to only certain areas of an installation. Pooling or watermarking is not considered a manufacturing defect.

Shedding*

Shedding is a normal characteristic of synthetic turf, particularly sporting surfaces. It is more apparent in monofilament products as compared to slit filament products. Regular sweeping /vacuuming will remove most of the loose fibers during the first year of service.

Seams*

Seams are required in the process of installing synthetic turf surfaces. Seams do show, and with some types of surfaces seams can be more apparent. **THERE ARE NO INVISIBLE SEAMS.**

**Each of these items are characteristic of synthetic turf surfaces and are not considered manufacturing defects.*

WARRANTY HOLDER OBLIGATIONS UNDER THIS WARRANTY:

What You Must Do

In order to maintain and protect your coverage under the terms of these warranties, you must do the following:

1. Have your synthetic turf surface installed according to Turf Nation Standards for Installation guidelines by a Turf Nation Certified Installer;
2. Read your Warranty carefully;
3. Read your Turf Nation Care and Maintenance Manual carefully;

4. Keep proof of purchase in the form of the contract, bill, invoice, and/or statement from your Turf Nation product provider, displaying the price you paid for the synthetic turf
5. Regularly maintain and care for your synthetic turf surface according to the explicit recommendations described in the Turf Nation Care and Maintenance Manual;
6. Keep current and retain detailed Maintenance Logs (found in the Turf Nation Care and Maintenance Manual) pertaining to your maintenance program and the scheduling of the services provided.

Obtaining Warranty Service

Prompt recognition and notification of a problem or defect in your synthetic turf surface is important to its longevity. Notify your local Installation Company ("Local Installation Company" as identified in the enclosed Certificate of Warranty) in writing upon discovering a problem or defect during the Warranty Period. Such written notice of a problem or defect shall be given immediately, and in any event the sooner of the last day of the Warranty Period or thirty days of when you first noticed, or reasonably should have noticed, said problem or defect. Be sure to document and describe the specific problem together with a photographic depiction and include a copy of your original invoice. Your Installation Company Representative will take appropriate action, including the notification of Turf Nation, Inc., if necessary. If you are unable to contact your Local Installation Company for any reason, or if you do not get a satisfactory reply from them, please write to Turf Nation at: 3525 Old Dixie Highway S. TURF NATION™

INSURED WARRANTY

Turf Nation provides the opportunity to have the manufacturers warranty insured by a reputable insurance company. There is an extra and separate charge for the insured warranty.

An Insured Warranty is a warranty that is provided to the customer by turf nation in which the warranty obligations are backed-up by a policy of insurance issued by a third party insurance company. The warranty is **NON PRO-RATED**.

Synthetic turf surfaces are a significant investment and should be protected.

WARRANTY

Our manufacturer's Warranty is our promise to stand behind the product you purchase. Details covered in this document include: the term (length of coverage), the coverage (protection parameters), and any exclusions (what is not covered). This document governs the circumstances under which you will have coverage.

CERTIFICATE OF INSURANCE

The Certificate of Insurance, often referred to as an Acord Certificate, provides evidence and a summary of the insurance coverage in place. Upon the completion of your project, you should receive your own copy of this document identifying your organization as the Certificate Holder. This is your evidence that your project is now covered by the insurance policy.

INSURANCE POLICY

The insurance policy provides the specific language and details of the insurance coverage and the circumstances under which it will, or will not, apply. A good policy must provide true risk transfer to the insurer and be issued by an insurance company with an appropriate financial rating. It is **CRITICAL** to review and understand the contents. Not all insurance policies are created equal!

NOTE : An Insured Warranty is necessary for anyone purchasing a synthetic turf field. However, it does not diminish the importance of selecting the best synthetic turf surface and vendor in the first place. Not all synthetic turf surfaces are created equal ... ample face-weight, multi-layer backing, advanced seaming systems and a professional installation can prevent you from experiencing problems with the system throughout its life cycle. Do everything possible to prevent a problem in the first place by taking the time to make educated and informed decisions. The Insured Warranty is the additional guarantee your investment will be preserved.

BEST'S FINANCIAL STRENGTH RATING GUIDE – (FSR)

A Best's Financial Strength Rating (FSR) is an independent opinion of an insurer's financial strength and ability to meet its ongoing insurance policy and contract obligations. An FSR is not assigned to specific insurance policies or contracts and does not address any other risk, including, but not limited to, an insurer's claims-payment policies or procedures; the ability of the insurer to dispute or deny claims payment on grounds of misrepresentation or fraud; or any specific liability contractually borne by the policy or contract holder. An FSR is not a recommendation to purchase, hold or terminate any insurance policy, contract or any other financial obligation issued by an insurer, nor does it address the suitability of any particular policy or contract for a specific purpose or purchaser. In addition, an FSR may be displayed with a rating identifier, modifier or affiliation code that denotes a unique aspect of the opinion.

Best's Financial Strength Rating (FSR) Scale

Rating Categories	Rating Symbols	Rating Notches*	Category Definitions

Poor	D	-	Assigned to insurance companies that have, in our opinion, a poor ability to meet their ongoing insurance obligations. Financial strength is extremely vulnerable to adverse changes in underwriting and economic conditions.

* Each Best's Financial Strength Rating Category from "A+" to "C" includes a Rating Notch to reflect a gradation of financial strength within the category. A Rating Notch is expressed with either a second plus "+" or a minus "-".

F	Status assigned to insurance companies that are publicly placed in liquidation by a court of law or by a forced liquidation; an impaired insurer.
S	Status assigned to rated insurance companies to suspend the outstanding FSR when sudden and significant events impact operations and rating implications cannot be evaluated due to a lack of timely or adequate information; or in cases where continued maintenance of the previously published rating opinion is in violation of evolving regulatory requirements.

Rating Disclosure – Use and Limitations

A Best's Credit Rating (BCR) is a forward-looking independent and objective opinion regarding an insurer's, issuer's or financial obligation's relative creditworthiness. The opinion represents a comprehensive analysis consisting of a quantitative and qualitative evaluation of balance sheet strength, operating performance and business profile or, where appropriate, the specific nature and details of a security. Because a BCR is a forward-looking opinion as of the date it is released, it cannot be considered as a fact or guarantee of future credit quality and therefore cannot be described as accurate or inaccurate. A BCR is a relative measure of risk that implies credit quality and is assigned using a scale with a defined population of categories and notches. Entities or obligations assigned the same BCR symbol developed using the same scale, should not be viewed as completely identical in terms of credit quality. Alternatively, they are alike in category (or notches within a category), but given there is a prescribed progression of categories (and notches) used in assigning the ratings of a much larger population of entities or obligations, the categories (notches) cannot mirror the precise subtleties of risk that are inherent within similarly rated entities or obligations. While a BCR reflects the opinion of A.M. Best Rating Services, Inc. (AMBRS) of relative creditworthiness, it is not an indicator or predictor of defined impairment or default probability with respect to any specific insurer, issuer or financial obligation. A BCR is not investment advice, nor should it be construed as a consulting or advisory service, as such; it is not intended to be utilized as a recommendation to purchase, hold or terminate any insurance policy, contract, security or any other financial obligation, nor does it address the suitability of any particular policy or contract for a specific purpose or purchaser. Users of a BCR should not rely on it in making any investment decision; however, if used, the BCR must be considered as only one factor. Users must make their own evaluation of each investment decision. A BCR opinion is provided on an "as is" basis without any expressed or implied warranty. In addition, a BCR may be changed, suspended or withdrawn at any time for any reason at the sole discretion of AMBRS.

BCRs are distributed via the AMBRS website at www.ambest.com. For additional information regarding the development of a BCR and other rating-related information and definitions, including outlooks, modifiers, identifiers and affiliation codes, please refer to the report titled "Understanding Best's Credit Ratings" available at no charge on the AMBRS website. BCRs are proprietary and may not be reproduced without permission.
