**\*Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

# HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

**NOTE:** Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.13 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**
- **23.7 percent for professional services contracts,**
- **26.0 percent for all other services contracts, and**
- **21.1 percent for commodities contracts.**

## - - Agency Special Instructions/Additional Requirements - -

In accordance with 34 TAC §20.14(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only contracts that have been in place for five years or less shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.

*\*Continuous Contract: Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.*

The notice must specify at a minimum the contracting agency's name and its point of contact for the contract, the contract award number, the subcontracting opportunity they (the subcontractor) will perform, the approximate dollar value of the subcontracting opportunity and the expected percentage of the total contract that the subcontracting opportunity represents. A copy of the notice required by this section must also be provided to the contracting agency's point of contact for the contract no later than ten (10) working days after the contract is awarded.
- The respondent must submit monthly compliance reports (Prime Contractor Progress Assessment Report – PAR) to the contracting agency, verifying its compliance with the HSP, including the use of and expenditures made to its subcontractors (HUBs and Non-HUBs). - The respondent must seek approval from the contracting agency prior to making any modifications to its HSP, including the hiring of additional or different subcontractors and the termination of a subcontractor the respondent identified in its HSP. If the HSP is modified without the contracting agency's prior approval, respondent may be subject to any and all enforcement remedies available under the contract or otherwise available by law, up to and including debarment from all state contracting.
- The respondent must, upon request, allow the contracting agency to perform on-site reviews of the company's headquarters and/or work-site where services are being performed and must provide documentation regarding staffing and other resources.

When completing this section you **MUST** comply with items a, b, c and d, thereby demonstrating your Good Faith Effort of having notified Texas certified HUBs and trade organizations or development centers about the subcontracting opportunity you listed in SECTION B-1. Your notice should include the scope of work, information regarding the location to review plans and specifications, bonding and insurance requirements, required qualifications, and identify a contact person. When sending notice of your subcontracting opportunity, you are encouraged to use the attached HUB Subcontracting Opportunity Notice form, which is also available online at <http://www.window.state.tx.us/procurement/prog/hub/hub-subcontracting-plan>.

Retain supporting documentation (i.e., certified letter, fax, e-mail) demonstrating evidence of your good faith effort to notify the Texas certified HUBs and trade organizations or development centers. Also, be mindful that a working day is considered a normal business day of a state agency, not including weekends, federal or state holidays, or days the agency is declared closed by its executive officer. The initial day the subcontracting opportunity notice is sent/provided to the HUBs and to the trade organizations or development centers is considered to be "day zero" and does not count as one of the seven (7) working days.

- Provide written notification of the subcontracting opportunity you listed in SECTION B-1, to three (3) or more Texas certified HUBs. Unless the contracting agency specified a different time period, you must allow the HUBs at least seven (7) working days to respond to the notice prior to your submitting your bid response to the contracting agency. When searching for Texas certified HUBs, ensure that you use the State of Texas' Centralized Master Bidders List (CMBL) and Historically Underutilized Business (HUB) Search directory located at <http://mycpa.state.tx.us/tpasscmlsearch/index.jsp>. HUB Status code "A" signifies that the company is a Texas certified HUB.
- List the three (3) Texas certified HUBs you notified regarding the subcontracting opportunity you listed in SECTION B-1. Include the company's Vendor ID (VID) number, the date you sent notice to that company, and indicate whether it was responsive or non-responsive to your subcontracting opportunity notice.

- Provide written notification of the subcontracting opportunity you listed in SECTION B-1 to two (2) or more trade organizations or development centers in Texas to assist in identifying potential HUBs by disseminating the subcontracting opportunity to their members/participants. Unless the contracting agency specified a different time period, you must provide your subcontracting opportunity notice to trade organizations or development centers at least seven (7) working days prior to submitting your bid response to the contracting agency. A list of trade organizations and development centers that have expressed an interest in receiving notices of subcontracting opportunities is available on the Statewide HUB Program's webpage at <http://www.window.state.tx.us/procurement/prog/hub/mwb-links-1/>.

- List two (2) trade organizations or development centers you notified regarding the subcontracting opportunity you listed in SECTION B-1. Include the date when you sent notice to it and indicate if it accepted or rejected your notice.

## Sharp's Sustainability Practices and "Green" Initiatives

### **Responsible Approach to Product Design:**

Sharp's Environmental Initiatives and dedication to developing energy efficient document systems set a high standard in the industry. Most Sharp MFDs utilize Sharp's advanced micro-fine toner technology, which offers a lower consumption rate and produces less waste than conventional toners, resulting in longer replacement intervals. Long-life consumable parts help minimize service intervals and down time, resulting in lower operating costs and all Sharp MFD supplies are packaged using fully recyclable materials. With two different energy saving modes, power can be reduced or shut off at set intervals. Additionally, all Sharp document systems are ENERGY STAR® certified, and RoHS compliant to restrict the use of hazardous substances.

As Sharp strives for sustainable product design, it considers environmental friendliness a key factor in all stages of a product's life cycle, from design to manufacture to disposal. To this end, Sharp provides extensive recycling programs for its products and supplies.

### **Recycling Programs**

#### **Toner/Ink Recycling Program:**

As part of its commitment to helping preserve the environment, Sharp offers customers free, zero waste to land fill recycling for all Sharp consumables, including cartridges, bottles, toner collection containers and drum units. Sharp encourages customers to recycle their used Sharp toner cartridges in bulk, to reduce our carbon footprint, by providing all collection and shipping materials with a pre-paid recycling kit for their return to our recycling facility. Visit [www.sharpusa.com/recycle](http://www.sharpusa.com/recycle) for more information.

#### **End-of-Life Product Recycling:**

As part of Sharp's Super Green Strategy, Sharp provides our customers a recycling option for Sharp MFDs which have reached their end of life.

All Sharp MFDs, with authorizing documentation, can be shipped to one of three regional Sharp recycling centers. Sharp will be responsible for all disposition and Zero-Waste-to-Landfill recycling costs associated with the disposition of Sharp equipment.

#### **Electronic Manufacturers Recycling Management Company (MRM):**

MRM is a recycling company created as a joint venture of Sharp, Panasonic, and Toshiba. It provides national voluntary takeback services for those three companies, as well as for Vizio and Mitsubishi. MRM also works with other manufacturers in states which have takeback laws, to help these companies meet their obligations.

MRM's vendor requirements show a strong policy of responsible recycling, including rules that do not allow the export of e-waste (whole units) to developing countries. MRM uses only environmentally responsible recyclers who comply with all applicable laws. All MRM recyclers are Third-Party Certified by either e-Stewards or R2. MRM contracts with recyclers require adequate record keeping, tracking and reporting the markets for recycled material and ultimate disposition of the key recycled materials, performance audits and inspections, provisions for safe reuse or refurbishment, and significant insurance requirements.

The MRM program has expanded nationwide to offer recycling opportunities at approximately 1,800 collection points. To date, MRM has recycled over 675,533,054 pounds of e-waste since it was founded in late 2007.

### **Sharp's Electronics Corporation Environmental Leadership**

As a testament to its commitment to the environment, Sharp is a three-time winner of the **ENERGY STAR** annual Excellence in Energy Proficiency Product Design and also a four-time winner of the **U.S. Environment Protection Agency's (EPA) SmartWay® Excellence Award**, which recognizes companies for conserving energy and lowering greenhouse gas emissions in logistics and transportation. These awards recognize environmentally responsible businesses and their efforts on recycling, waste reduction and affirmative procurement practices.

### **Sharp Business Products are EPEAT® Registered:**

**EPEAT (Electronic Product Environmental Assessment Tool)** is a third-party global rating system for greener electronics that requires ongoing independent verification of manufacturer claims. Customers can use EPEAT as the environmental benchmark to help them make informed purchasing decisions. By using EPEAT standards to purchase greener electronics, customers are assured their organization's environmental sustainability goals are met and will help to preserve our natural resources. All products being proposed are EPEAT registered.

The **International Standards Organization (ISO)** establishes performance objectives and environmental management systems to prevent pollution, ensure compliance with regulations and achieve continual improvement. Sharp Electronics Corporation Headquarters undergoes annual audits and has been certified since 2004.

In 1995, Sharp Corporation in Japan, began the process of acquiring ISO environmental management system certification for its production facilities. Currently, all Sharp manufacturing facilities worldwide are ISO 9001 and ISO 14001 certified. Further, in 2002, Sharp introduced its own Environmental Management System, which adds 49 additional control points for all our plants to supplement those specified by ISO standards, which is maintained today.

### **EPA's Plug-In to eCycling Program:**

The U.S. **EPA's "Plug-In to eCycling"** program has been a voluntary partnership with electronics manufacturers, retailers, recyclers and government agencies to reduce the environmental impact of electronic products during production, use, transport, recycling and disposal. Sharp is an inaugural participant and proud supporter of the EPA's e-cycling initiative and its Sustainable Materials Management Electronics Challenge Program.

### **Sharp's Corporate Environment Philosophy**

Sharp is deeply committed to its corporate sustainability plan and promotes an overall company strategy for protecting the global environment. Critical policies, strategies, and measures relating to environmental sustainability management are implemented across the entire Sharp Corporation. Specifically, Sharp Corporation's Environmental Department in charge of Environmental Affairs serves as the chair of the semiannual General Global Environmental Conferences, where general managers responsible for environmental affairs from each division and overseas base become thoroughly familiar with Sharp Corporation's environmental policies and discuss environmental policies, objectives and measures for each division.

Sharp also holds Company-Wide GP (Green Product) and GF (Green Factory) Conferences in Japan and regional environmental conferences to ensure that Sharp Corporation's environmental policies are thoroughly

disseminated and to discuss environmental policies and measures for each department and site. Sharp also works closely with members of environmental departments at each site in Japan and worldwide through various committees, project activities, and Eco Best Practice Forums, while promoting various environmental initiatives across the entire Sharp Group.

Sharp is taking active measures to curb greenhouse gas emissions resulting from its business activities by reducing CO<sup>2</sup> emissions through the introduction of cogeneration systems and energy-efficient equipment, the installation of solar power generation systems, and the meticulous implementation of energy-saving activities at plants and offices. At the same time, Sharp is also reducing emissions of greenhouse gases such as PFCs (perfluorocarbons) by installing abatement systems and adopting replacement gases with lower global warming potential.
