General Information

The Vendor Agreement ("Agreement") made and entered into by and between The Interlocal Purchasing System (hereinafter referred to as "TIPS" respectfully) a government cooperative purchasing program authorized by the Region 8 Education Service Center, having its principal place of business at 4845 US Hwy 271 North, Pittsburg, Texas 75686. This Agreement consists of the provisions set forth below, including provisions of all Attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any Attachment, the provisions set forth shall control.

The Vendor Agreement shall include and incorporate by reference this Agreement, the terms and conditions, special terms and conditions, any agreed upon amendments, as well as all of the sections of the solicitation as posted, including any addenda and the awarded vendor's proposal. Once signed, if an awarded vendor's proposal varies or is unclear in any way from the TIPS Agreement, TIPS, at its sole discretion, will decide which provision will prevail. Other documents to be included are the awarded vendor's proposals, task orders, purchase orders and any adjustments which have been issued. If deviations are submitted to TIPS by the proposing vendor as provided by and within the solicitation process, this Agreement may be amended to incorporate any agreed deviations.

The following pages will constitute the Agreement between the successful vendors(s) and TIPS. Bidders shall state, in a separate writing, and include with their proposal response, any required exceptions or deviations from these terms, conditions, and specifications. If agreed to by TIPS, they will be incorporated into the final Agreement.

A Purchase Order, Agreement or Contract is the TIPS Member's approval providing the authority to proceed with the negotiated delivery order under the Agreement. Special terms and conditions as agreed to between the vendor and TIPS Member should be added as addenda to the Purchase Order, Agreement or Contract. Items such as certificate of insurance, bonding requirements, small or disadvantaged business goals are some of the addenda possible.

Terms and Conditions

If the terms of the solicitation referenced RS Means Unit Price Book occur, the RS Means Book shall control if it determines the legality of the solicitation award as it relates to the requisite Means Unit Price Book.

Freight

All quotes to members shall provide a line item for cost for freight or shipping regardless if there is a charge or not. If no charge for freight or shipping, indicate by stating "No Charge" or "\$0" or other similar indication. Otherwise, all shipping, freight or delivery charges shall be passed through to the TIPS Member at cost with no markup and said charges shall be agreed by the TIPS Member unless alternative shipping terms are agreed by TIPS as a result of the proposal award.

Warranty Conditions

All new supplies equipment and services shall include manufacturer's minimum standard warranty unless otherwise agreed to in writing. Vendor shall be legally permitted to sell, or an authorized dealer, distributor or manufacturer for all products offered for sale to TIPS Members. All equipment proposed shall be new unless clearly stated in writing.

Customer Support

The Vendor shall provide timely and accurate customer support for orders to TIPS Members as agreed by the Parties. Vendors shall respond to such requests within a commercially reasonable time after receipt of the request. If support and/or training is a line item sold or packaged with a sale, support shall be as agreed with the TIPS Member.

Agreements

Agreements for purchase will normally be put into effect by means of a contract, agreement or purchase order(s) executed by authorized agents of the participating government entities.

Davis Bacon Act

Davis Bacon Act requirements will be met when Federal Funds are used for construction and/or repair of buildings or as otherwise required by applicable statute or regulation.

Other Wage Rates

Other wage rates may be required by some TIPS Members and acceptance of a project by the Vendor may require the Vendor to comply with the TIPS Member's required wage rate.

Tax exempt status

Most TIPS Members are tax exempt and the related laws of the jurisdiction of the TIPS Member shall apply.

Assignments of Agreements

No assignment of Agreement may be made without the prior written approval of TIPS. Payment for delivered goods and services can only be made to the awarded Vendor, Vendor designated reseller or vendor assigned company.

Disclosures

- Vendor and TIPS affirm that he/she, or any authorized employees or agents, has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan,

- gratuity, special discount, trip, favor or service to a public servant in connection with this Agreement.
- Vendor shall attach, in writing, a complete description of any and all relationships that might be considered a conflict of interest in doing business with the TIPS program.
- The Vendor affirms that, to the best of his/her knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this Agreement.

Term of Agreement and Renewals

The Agreement with TIPS is for approximately two (2) years with an option for renewal extension for an additional two (2) consecutive one (1) year terms. The first renewal extension year shall be automatic unless the awarded vendor notifies TIPS of its objection to the first additional one (1) year renewal extension. If TIPS offers the second one (1) year renewal extension terms, the vendor will be notified by email to the primary contact of the awarded Vendor and shall be deemed accepted by the Vendor unless the awarded vendor notifies TIPS of its objection to the additional term. TIPS may or may not exercise the available extension(s) provided in the original solicitation beyond the base term. Whether or not to offer the renewal extension years is at the sole discretion of TIPS.

“Start Date” for Term Calculation Purposes Only: Regardless of actual award/effective date of Contract, for Agreement “term” calculation purposes only, the Agreement “start date” is the last day of the month that Award Notifications are anticipated as published in the Solicitation.

Example: *If the anticipated award date published in the Solicitation is May 22, 2020 but extended negotiations delay award until June 27, the end date of the resulting initial “two-year” term Agreement, (which is subject to an extension(s)) will still be May 31, 2022.*

“Termination Date”: The scheduled Agreement “termination date” shall be the last day of the month of the month of the Original Solicitation’s Anticipated Award Date plus two years.

Example: *If the original term is approximately two years, and the solicitation provides an anticipated award date of May 22, 2020, the expiration date of the original two-year term shall be May 31, 2022.*

Extensions: Any extensions of the original term shall begin on the next day after the day the original term expires.

Example Following the Previous Example: *If TIPS offers a one-year extension, the expiration of the extended term shall be May 31, 2023.*

TIPS may offer to extend Vendor Agreements to the fullest extent the original Solicitation permits.

Total term of Agreement can be up to the number of years provided in the solicitation or as limited by statute.

Automatic Renewal Clauses Incorporated in Awarded Vendor Agreements with TIPS Members Resulting from the Solicitation and with the Vendor Named in this Agreement.

No Agreement for goods or services with a TIPS Member by the awarded vendor named in this Agreement that results from the solicitation award named in this Agreement, may incorporate an automatic renewal clause that exceeds month to month terms with which the TIPS Member must comply. All renewal terms incorporated in an

Agreement by the vendor with the TIPS Member shall only be valid and enforceable when the vendor receives written confirmation by purchase order, executed Agreement or other written instruction issued by the TIPS Member for any renewal period. The purpose of this clause is to avoid a TIPS Member inadvertently renewing an Agreement during a period in which the governing body of the TIPS Member has not properly appropriated and budgeted the funds to satisfy the Agreement renewal. This term is not negotiable and any Agreement between a TIPS Member and a TIPS awarded vendor with an automatic renewal clause that conflicts with these terms is rendered void and unenforceable.

Shipments

The Vendor shall ship, deliver or provide ordered products or services within a commercially reasonable time after the receipt of the order from the TIPS Member. If a delay in said delivery is anticipated, the Vendor shall notify TIPS Member as to why delivery is delayed and shall provide an estimated time for completion of the order. TIPS or the requesting entity may cancel the order if estimated delivery time is not acceptable or not as agreed by the parties.

Invoices

The awarded Vendor shall submit invoices or payment requests to the TIPS Member participating entity clearly stating "Per TIPS Agreement # xxxxxxx." Each invoice or pay request shall include the TIPS Member's purchase order number or other identifying designation as provided in the order or contract by the TIPS Member. If applicable, the shipment tracking number or pertinent information for verification of TIPS Member receipt shall be made available upon request.

Pricing

Price increases will be honored according to the terms of the solicitation. However, the Vendor shall honor previous prices for thirty (30) days after written notification to TIPS of an increase, except any price changes related to the, then current, RS Means Unit Price Book is valid. Price of a specific Job Order Contract proposal to a TIPS Member shall not change within 60 days of date of proposal as a result of an updated RS Means Unit Price Book unless agreed by the TIPS Member. All pricing submitted to TIPS shall include the participation fee, as provided in the solicitation, to be remitted to TIPS by the Vendor. Vendor will not show adding the fee to the invoice presented to customer. Failure to render the participation fee to TIPS shall constitute a breach of this agreement and shall be grounds for termination of this agreement and any other agreement held with TIPS.

Participation Fees and Reporting of Sales to TIPS by Vendor

The Participation Fee that was published as part of the Solicitation and the fee published is the legally effective fee, along with any fee conditions stated in the Solicitation. Collection of the fees by TIPS is required under Texas Government Code §791.011 Et seq. Fees are due on all TIPS purchases reported by either Vendor or Member. Fees are due to TIPS upon payment by the Member to the Vendor, Reseller or Vendor Assigned Dealer. Vendor, Reseller or Vendor Assigned Dealer agrees that the participation fee is due to TIPS for all Agreement sales immediately upon receipt of payment including partial payment, from the Member Entity and must be paid to TIPS at least on a monthly basis, specifically within 31 calendar days of receipt of payment, if not more frequently, or as otherwise agreed by TIPS in writing and signed by an authorized signatory of TIPS. Thus, when an awarded Vendor, Reseller or Vendor Assigned Dealer receives any amount of payment, even partial payment, for a TIPS sale, the legally effective fee for that amount is immediately due to TIPS from the Vendor and fees due to TIPS should be paid at least on a monthly basis, specifically within 31 calendar days of receipt of payment, if not more frequently.

Reporting of Sales to TIPS by Vendor

Vendor is required to report all sales under the TIPS contract to TIPS. When a public entity initiates a purchase with a TIPS Awarded Vendor, if the Member inquires verbally or in writing whether the Vendor holds a TIPS

Contract, it is the duty of the Vendor to verify whether or not the Member is seeking a TIPS purchase. Once verified, the Vendor must include the TIPS Contract number on any communications and related sales documents exchanged with the TIPS Member entity. To report sales, the Vendor must login to the TIPS Vendor Portal online at https://www.tips-usa.com/vendors_form.cfm and click on the PO's and Payments tab. Pages 3-7 of the [Vendor Portal User Guide](#) will walk you through the process of reporting sales to TIPS. Please refer to the TIPS [Accounting FAQ's](#) for more information about reporting sales and if you have further questions, contact the Accounting Team at accounting@tips-usa.com. The Vendor or vendor assigned dealers are responsible for keeping record of all sales that go through the TIPS Agreement and submitting same to TIPS. Failure to render the participation fee to TIPS shall constitute a breach of this agreement with our parent governmental entity, Texas Education Service Center Region 8, as established by the Texas legislature and shall be grounds for termination of this agreement and any other agreement held with TIPS and possible legal action. Any overpayment of participation fees to TIPS by a Vendor will be refunded to the Vendor within ninety (90) days of receipt of notification if TIPS receives written notification of the overpayment not later than the expiration of six (6) months from the date of overpayment and TIPS determines that the amount was not legally due to TIPS pursuant to this agreement and applicable law. It is the Vendor's responsibility to identify which sales are TIPS Agreement sales and pay the correct participation fee due for TIPS Agreement sales. Any notification of overpayment received by TIPS after the expiration of six (6) months from the date of overpayment will be non-refundable. Region 8 ESC and TIPS reserve the right to extend the six (6) month deadline to notify if approved by the Region 8 ESC Board of Directors. TIPS reserves all rights under the law to collect the fees due. Please contact TIPS at tips@tips-usa.com or call (866) 839-8477 if you have questions about paying fees.

Indemnity

The Vendor agrees to indemnify and hold harmless and defend TIPS, TIPS Member(s), officers and employees from and against all claims and suits by third parties for damages, injuries to persons (including death), property damages, losses, and expenses including court costs and reasonable attorney's fees, arising out of, or resulting from, Vendor's work under this Agreement, including all such causes of action based upon common, constitutional, or statutory law, or based in whole or in part, upon allegations of negligent or intentional acts on the part of the Vendor, its officers, employees, agents, subcontractors, licensees, or invitees. Parties found liable shall pay their proportionate share of damages as agreed by the parties or as ordered by a court of competent jurisdiction over the case. **NO LIMITATION OF LIABILITY FOR DAMAGES FOR PERSONAL INJURY OR PROPERTY DAMAGE ARE PERMITTED OR AGREED BY TIPS/ESC REGION 8.** Per Texas Education Code §44.032(f), reasonable Attorney's fees are recoverable by the prevailing party in any dispute resulting in litigation.

State of Texas Franchise Tax

By signature hereon, the bidder hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes owed the State of Texas under Chapter 171, Tax Code.

Miscellaneous

The Vendor acknowledges and agrees that continued participation in TIPS is subject to TIPS sole discretion and that any Vendor may be removed from the participation in the Program at any time with or without cause. Nothing in the Agreement or in any other communication between TIPS and the Vendor may be construed as a guarantee that TIPS or TIPS Members will submit any orders at any time. TIPS reserves the right to request additional proposals for items or services already on Agreement at any time.

Purchase Order Pricing/Product Deviation

If a deviation of pricing/product on a purchase order or contract modification occurs, TIPS is to be notified within five (5) business days of receipt of change order.

Termination for Convenience of TIPS Agreement Only

TIPS reserves the right to terminate this agreement for cause or no cause for convenience with a thirty (30) days prior written notice. Termination for convenience is conditionally required under Federal Regulations 2 CFR part 200 if the customer is using federal funds for the procurement. All purchase orders presented to the Vendor, but not fulfilled by the Vendor, by a TIPS Member prior to the actual termination of this agreement shall be honored at the option of the TIPS Member. The awarded Vendor may terminate the agreement with ninety (90) days prior written notice to TIPS 4845 US Hwy North, Pittsburg, Texas 75686. The vendor will be paid for goods and services delivered prior to the termination provided that the goods and services were delivered in accordance with the terms and conditions of the terminated agreement. This termination clause does not affect the sales agreements executed by the Vendor and the TIPS Member customer pursuant to this agreement. TIPS Members may negotiate a termination for convenience clause that meets the needs of the transaction based on applicable factors, such as funding sources or other needs.

TIPS Member Purchasing Procedures

Usually, purchase orders or their equal are issued by participating TIPS Member to the awarded vendor and should indicate on the order that the purchase is per the applicable TIPS Agreement Number. Orders are typically emailed to TIPS at tipspo@tips-usa.com.

- Awarded Vendor delivers goods/services directly to the participating member.
- Awarded Vendor invoices the participating TIPS Member directly.
- Awarded Vendor receives payment directly from the participating member.
- Fees are due to TIPS upon payment by the Member to the Vendor. Vendor agrees to pay the participation fee to TIPS for all Agreement sales upon receipt of payment including partial payment, from the Member Entity or as otherwise agreed by TIPS in writing and signed by an authorized signatory of TIPS.

Form of Agreement and Reporting

If a vendor submitting an offer requires TIPS and/or TIPS Member to sign an additional agreement, a copy of the proposed agreement must be included with the proposal to the TIPS Member. TIPS does not require a review a TIPS Member's Job Order contract TYPE AIA or other similar Contract provided by the TIPS Member. This clause does not relieve the Vendor from the responsibility to report the contract execution and the amount of the contract and any change orders.

Licenses

Awarded Vendor shall maintain, in current status, all federal, state and local licenses, bonds and permits required for the operation of the business conducted by awarded Vendor. Awarded Vendor shall remain reasonably fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of goods or services under the Agreement. Novation

If awarded Vendor sells or transfers all assets, rights or the entire portion of the assets or rights required to perform this Agreement, a successor in interest must guarantee to perform all obligations under this Agreement. A simple change of name agreement will not change the Agreement obligations of awarded vendor. TIPS will consider Contract Assignments on a case by case basis. TIPS must be notified within five (5) business days of the transfer of assets or rights.

In order to ensure and confirm compliance with this agreement, TIPS shall have authority to conduct random audits of Awarded Vendor's pricing that is offered to TIPS Members with 30 days' notice unless the audit is ordered by a Court Order or by a Government Agency with authority to do so without notice. Do you want TIPS Members to be able to spend Federal grant funds with you if awarded? Is it your intent to be able to sell to our members regardless of the fund source, whether it be local, state or federal?

Most of our members receive Federal Government grants and they make up a significant portion of their budgets. The members need to know if your company is willing to sell to them when they spend federal budget funds on their purchase. There are attributes that follow that are provisions from the federal regulations in 2 CFR part 200. Your answers will determine if your award will be designated as Federal or Education Department General Administrative Regulations (EDGAR)compliant.

Do you want TIPS Members to be able to spend Federal grant funds with you if awarded and is it your intent to be able to sell to our members regardless of the fund source, whether it be local, state or federal?

Vendor's principal place of business is in the city of?

4**Company Residence (State)**

Vendor's principal place of business is in the state of?

5**Discount Offered - CAUTION READ CAREFULLY BECAUSE VENDORS FREQUENTLY MAKE MISTAKES ON THIS ATTRIBUTE QUESTION**

Remember this is a MINIMUM discount percentage so, be sure the discount percentage inserted here can be applied to ANY OFFERING OF GOODS OR SERVICES THROUGH OUT THE LIFE OF THE CONTRACT

CAUTION: BE CERTAIN YOU CAN HONOR THIS MINIMUM DISCOUNT PERCENTAGE ON ANY OFFERED SERVICE OR GOOD NOW OR DURING THE LIFE OF THE CONTRACT.

What is the MINIMUM percentage discount off of any item or service you offer to TIPS Members that is in your regular catalog (as defined in the solicitation specifications document), website, store or shelf pricing or when adding new goods or services to your offerings during the life of the contract? The resulting price of any goods or services Catalog list prices after this discount is applied is a ceiling on your pricing and not a floor because, in order to be more competitive in the individual circumstance, you may offer a larger discount depending on the items or services purchased and the quantity at time of sale.

Must answer with a number between 0% and 100%.

3
6**Yes - No**

If awarded on Part 1 of the TIPS Contract, for the duration of the Contract, Vendor agrees to provide catalog pricing, as defined in the solicitation and below, to TIPS upon request for any goods and services offered on PART 1 of the Vendor's TIPS Contract, if any.

"Catalog" means the available list of tangible personal property or services, in the most current listing, regardless of date, during the life of the contract, that takes the form of a catalog, price list, schedule, shelf price or other form that:

- A. is regularly maintained by the manufacturer or Vendor of an item; and
- B. is either published or otherwise available for inspection by a customer during the purchase process;
- C. to which the minimum discount proposed by the proposing Vendor may be applied.

3
7**TIPS administration fee**

By submitting a proposal, I agree that all pricing submitted to TIPS shall include the participation fee, as designated in the solicitation or as otherwise agreed in writing and shall be remitted to TIPS by the Vendor or the vendor's named resellers and as agreed in the Vendor agreement. I agree that the fee shall not and will not be added by the vendor as a separate line item on a TIPS member invoice, quote, proposal or any other written communications with the TIPS member.

8**REQUIRED FOR PART 2 JOC - PRICING OF Regular Hours Coefficient**

What is your regular hours coefficient for the RS Means Price Book? (FAILURE TO RESPOND PROHIBITS PART 2 JOC EVALUATION)

Remember that this is a ceiling price proposed. You can discount lower than your proposed contract coefficient, but not higher.

This is one of three pricing questions that are required for consideration for award on this solicitation. Please consider your answer carefully. An explanation of the TIPS scoring of pricing is included in the attachments for your information.

The below is an Example of how pricing model works (not intended to influence your proposed coefficient, you should propose a coefficient that you determine is right for your business):

To propose the exact pricing as the RS Means Unit Price Book, you would insert a 1.0 and to propose a 5% discount for the RS Means Price Book would be a .95 regular hours coefficient and so on.

3
9**REQUIRED FOR PART 2 JOC - PRICING OF After Hours Coefficient**

What is your after hours coefficient for the RS Means Price Book for work performed after normal working hours? (FAILURE TO RESPOND PROHIBITS PART 2 JOC EVALUATION)

Remember that this is a ceiling price proposed. You can discount to any TIPS Member customer a lower coefficient than your proposed contract coefficient, but not higher.

This is one of three pricing questions that are required for consideration for award on this solicitation. Please consider your answer carefully. An explanation of the TIPS scoring of pricing titled "Pricing Coefficient Instruction" is included in the attachments for your information.

The below is an EXAMPLE of how the pricing model works (It is not intended to influence your proposed coefficient, you should propose a coefficient that you determine is reasonable for your business for the life of the contract): The most common after hours coefficient is time and a half of the RS Means Unit Price Book prices. To illustrate this coefficient, if your regular hours coefficient is .95, your after hours coefficient would be 1.45.

4
0**REQUIRED FOR 2 PART JOC - PRICING for Markup of Non-Prepriced Items in RS Means Unit Price Book**

What is your proposed Markup Percentage on materials not found in the RS Means Price Book? (FAILURE TO RESPOND PROHIBITS PART 2 JOC EVALUATION)

If any materials being utilized for a project cannot be found in the RS Means Price Book, this question is what is the markup percentage on those materials?

When answering this question please insert the number that represents your percentage of proposed markup. Example: if you are proposing a 30 percent markup, please insert the number "30".

Remember that this is a ceiling markup. You may markup a lesser percentage to the TIPS Member customer when pricing the project, but not a greater percentage.

EXAMPLE: You need special materials that are not in the RS Means Unit Price Book for a project. You would buy the materials and mark them up to the TIPS Member customer by the percentage you propose in this question. If the materials cost you, the contractor, \$100 and you proposed a markup on this question for the material of 30 percent, then you would charge the TIPS Member customer \$130 for the materials.

Contractor will maintain these precautions or conditions throughout the time the contracted services are provided.

OR

SOME (Section B) or all of the employees of Contractor and any subcontractor are covered employees. If this box is checked, I further certify that:

(1) Contractor has obtained all required criminal history record information regarding its covered employees. None of the covered employees has a disqualifying criminal history.

Warranty

McKinstry Warranties/Guarantees

McKinstry's guarantee of performance allows us to commit to our clients that the equipment and systems installed will meet or exceed established performance standards. Our first priority will be to make certain that all newly installed equipment and systems will operate to ensure occupant safety, health, and comfort. The second priority will be to meet the project's operational and utility savings. If the equipment is maintained based on the manufacturer's guidelines, yet it does not meet the first and/or second priority, McKinstry will take the necessary steps to correct or improve equipment performance. If it is determined that the newly installed equipment has failed, we will find a final repair resolution or we will replace it.

McKinstry offers more options due to our network of buying power and our relationships with local equipment providers. We are able to reduce the initial cost of equipment, in addition to being able to arrange for extensions to the warranty period of the equipment. This combination of strong buying power and extended warranties gives us a value-added advantage we will pass on to you.

WARRANTY ENFORCEMENT ROLE

McKinstry can implement our Knowledge Response Center (KRC), an innovative 24x7 web-based system suite that allows clients to log and track warranty issues. The KRC utilizes InfoCentre™ to document relevant facility data and work flow processes in order to effectively and efficiently manage the warranty, and remote monitoring to enable the flow of real time and proactive site-specific information using the building automation systems. InfoCentre powers and serves as the information hub for our services—clients will be able to view warranty requests, note when the issue was logged, view progress on the issue, and receive confirmation when the issue is resolved. All this is handled seamlessly with minimal time commitment from the client organization. In addition, this process provides a single repository of archived information relevant to your specific facilities. Our standard warranty services include:

- Development and management of the warranty work order process;
- Management of the vendor dispatch process;
- Tracking and follow up on completion of work;
- Routine vendor performance reporting;
- Follow up with customer and project team on work satisfaction;
- Ongoing equipment status and warranty work reporting details; and
- Warranty preventative maintenance management and scheduling.

We will commission projects to ensure all equipment and systems installed meet or exceed performance standards. We guarantee its installation and workmanship for one year against defects. Equipment typically carries the manufacturer's warranties, yet based on our relationship with vendors, we will extend warranties at no or low cost. Your warranty time period starts at the date of substantial completion. If equipment is used for temporary service, its warranty date typically will start when it is put into service.

COMMITMENT TO LONG-TERM PARTNERSHIP

McKinstry is very experienced in system performance and warranty concerns. We understand the value of equipment performing as intended. We routinely complete services—at no additional cost to the customer—after the original warranty expires to ensure our clients are satisfied and that the system operates as intended. McKinstry will provide the client with a single point of contact for long-term accountability regarding maintenance and training on all new equipment installed as part of any project.

Performance contracts finance multiple energy measures over a term of 12-20 years through a fixed and scheduled debt service payment.

- Under the ESPC model, you have the greatest control over the technology deployed and realize any production upside associated with the project.
- ESPC contracts are cash flow neutral or positive from day one. Once the payment period is over, you realize significant annual savings for the remaining life of the energy measures.

Power Purchase Agreement (PPA)

We deliver a solar system at no cost to you. In return, you enter into a long-term contract to purchase the solar-generated electricity at a fixed rate and escalator.

- Contract terms are 20-25 years, and the investor is responsible for the operation and maintenance of the system for the contract duration.
- The PPA rate is typically lower than your utility retail rate, giving you immediate savings with no upfront cost or risk of ownership.

EcoDistricts

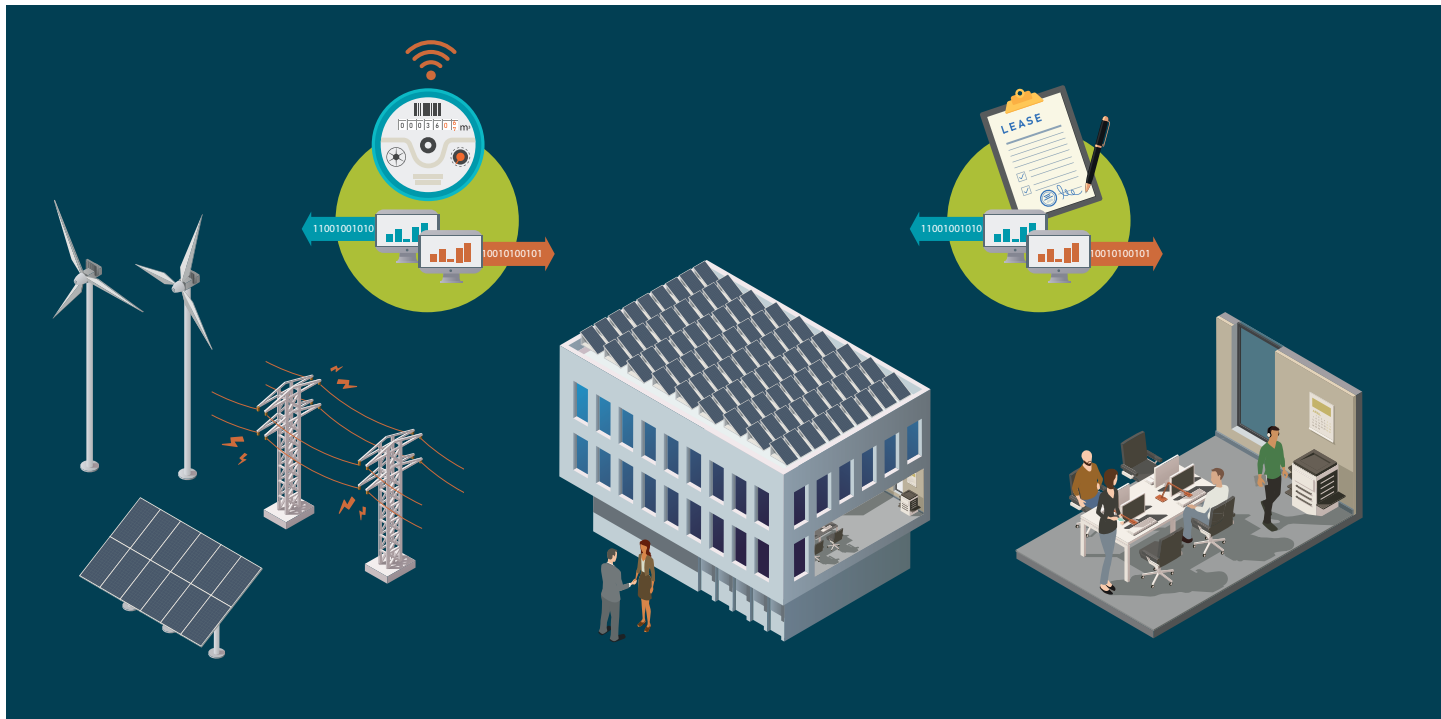

The Built Environment Reimagined

Connected. Smart. Resilient.

EcoDistricts offer a new shared-energy paradigm that eradicate unnecessary waste, accelerate zero-carbon opportunities and forever change how occupants interact with the built environment.

INNOVATING WASTE & CLIMATE HARM FROM THE BUILT ENVIRONMENT

Today's neighborhoods, campuses and cities waste money and natural resources. Every building operates as a standalone island, divorced from its neighbors and the utility that feeds it.

There are currently more than 5 million commercial buildings in the U.S. These buildings consume 40 percent of our energy while producing 40 percent of our carbon emissions. Half of that energy is wasted due to inefficient operations and system design.

Limited visibility isolates utilities from the buildings they serve. Utilities struggle to see beyond the meter and work in partnership with building owners to balance grid energy supply with building energy demand. Likewise, neighboring properties cannot reach beyond the meter to share energy resources (often left with no other choice than to throw away excess energy as waste heat vented into the atmosphere). Within the building, lease agreements limit tenant engagement, leaving utility efficiency and demand management efforts ineffective.

EcoDistricts unify the entire energy value chain. Sharing energy across buildings eradicates waste and opens new opportunities

for zero-energy and zero-carbon aspirations. Adding smart building controls, Internet of things (IoT) sensors and digital backbones provides building performance insights to all stakeholders. These networks also pull local utilities beyond the meter. A unified energy value chain is especially important as distributed energy resource adoption rises. As solar PV and other distributed energy resources connect to the grid, utilities need visibility to forecast, manage and optimize grid operations. As a result, our buildings become tools to fight the climate and affordability crises instead of sources of frustration and waste. EcoDistricts are a sustainable solution with benefits for building owners and tenants, for utilities and for our environment.

In an EcoDistrict, buildings are more than standalone islands. Each is a part of a greater ecosystem of energy nodes. These nodes allow for an interactive system that optimizes energy use and allows the built environment to work in harmony with the grid.

Effective EcoDistrict design includes a combination of five core elements:

Shared Energy:

Microgrids, peer-to-peer energy trading, transactive energy, centralized heating and cooling, thermal energy storage, waste heat usage and virtual power plants share energy between buildings. Energy sharing is enabled as distributed energy resources increase and central grids become smarter.

Zero Carbon:

Zero-carbon commitments take a holistic approach spanning 100 percent clean energy (generated on-site or purchased off-site), high-efficiency energy targets, electrification and electric vehicle chargers. EcoDistricts enable zero-carbon aspirations with clear, actionable plans.

Digital Backbones:

Digital infrastructure (sensors, meters, blockchain, data platforms, mobile apps) allows buildings to operate better, be more energy efficient and participate in programs such as virtual power plants and demand response auctions.

Utility & Building Owner Partnerships:

Utilities and building owners partner early in the design process. Structured partnerships allow seamless communication between the building and the grid, decreasing energy consumption and adding renewable energy generation depending on the needs of the grid. Conversely, utilities can better forecast energy requirements to better serve communities.

Engaged Occupants:

Education and automation encourage occupant engagement. Occupants are educated on behaviors that make the energy system as efficient and clean as possible. Occupants also have an opportunity to participate in automated programs through demand response programs.

The five core elements of an EcoDistrict can be combined in many ways to meet specific needs:

EcoDistrict Model 1

Multiple generation and storage systems, smart grid, energy sharing, engaged utility, building owner and occupants.

EcoDistrict Model 2

Variety of generation and storage systems, energy sharing between multiple buildings.

EcoDistrict Model 3

Shared waste heat between buildings.

EcoDistrict Model 4

Generation and storage connected to a smart grid.

MCKINSTRY-CLISE ECODISTRICT

The McKinstry-Clise EcoDistrict in Seattle, Washington, is a unique agreement between multiple entities to utilize waste heat from a data center located within the Westin Building to heat Amazon's corporate headquarters. The EcoDistrict uses a system of underground pipes, heat exchangers, heat recovery chillers and water storage tanks to heat the 4.1 million square feet of Amazon's corporate headquarters. This novel shared-heating approach, engineered and delivered by McKinstry, is one of the nation's largest heat-recovery systems to cross property lines.

The EcoDistrict's heat recovery system provides up to 5 megawatts (roughly 17 million Btu/hour) to Amazon and will save over 75 percent of the energy that would otherwise be purchased from

the local utility. Amazon shifted its large corporate campus from primarily natural gas heating to electric heating via heat-recovery chillers.

The McKinstry-Clise EcoDistrict is on track to save 80 million kilowatt-hours (kWh) of electrical energy over the next 20 years. The Westin Building data center, in turn, will benefit from the ability to dissipate heat through this new virtual cooling tower. This will significantly reduce water consumption and refrigeration compressor use in the data center.

The McKinstry-Clise EcoDistrict is a scalable model that can expand by creating and connecting additional nodes to the network.

COOLING TOWER

Before the EcoDistrict, the Westin Building vented excess heat into the atmosphere in the form of steam. Now, that heat is being put to good use across the street – and the Westin Building's cooling towers don't have to work as hard to cool the building.

THERMAL STORAGE TANK

The Amazon campus has a 440,000 gallon thermal storage tank that the Westin Building can draw upon in an emergency.

SERVER HEAT

The data center racks in the Westin Building emit a lot of heat. That heat is captured by the building's water-based cooling system and sent down to the heat exchanger in the basement.

UNDERGROUND PIPES

The City of Seattle was an important partner in the EcoDistrict project and helped clear the way for the hot and cold water pipes to cross underneath the street like a standard utility.

HEAT RECOVERY CHILLER

The heat recovery chiller transfers heat from the EcoDistrict water piping to heat the Amazon corporate campus. The cool water is then piped back to the Westin Building, where it will start the cycle again.

HEAT EXCHANGER

The heat exchanger transfers heat from the hot water through steel plates into pipes that head underground from the Westin Building to the Amazon campus.

SOUTH LANDING ECODISTRICT

McKinstry's South Landing EcoDistrict in Spokane, Washington, is an audacious statement to prove zero-energy and zero-carbon buildings are possible in any market at zero cost premium through innovative EcoDistrict approaches.

Everything about the South Landing EcoDistrict challenges the construction industry to think differently. The multi-building development is centered around a central energy plant and advanced EcoDistrict that powers shared energy economies between buildings and tenants. The zero-energy, zero-carbon Catalyst building includes the latest smart building technologies and energy systems. The neighboring Morris Center houses a central energy plant to power the shared EcoDistrict. Future buildings will be added to the central energy plant to expand the EcoDistrict. In fact, the EcoDistrict will soon expand to include McKinstry's SIERR building and its neighboring Regional Health Partnership (RHP) building.

McKinstry engineers performed more than 40,000 energy models to perfect the EcoDistrict. Deployed systems include solar PV arrays, thermal energy and battery storage systems, high-performance variable air volume (VAV) systems and dedicated outdoor air systems (DOAS).

The South Landing EcoDistrict is designed for grid-optimal operations. McKinstry partnered with Avista Utilities to design the EcoDistrict. Thousands of IoT sensors pull the local utility beyond the meter to manage energy loads and balance energy demand, generation and storage with larger grid needs. Because South Landing EcoDistrict compliments the local utility grid, resiliency is increased for building occupants and the entire Spokane community. The thermal and electric storage housed within the central energy plant allow the buildings to continue operations during power outages and emergencies.

The South Landing EcoDistrict proves what's possible when the right players partner to create a zero-carbon, grid-optimal built environment. The South Landing EcoDistrict is more than an one-off proof of concept. It delivers a template that can be adapted for any market.
