**Provisions for purchase with federal funds for contracts exceeding \$100,000**  
**These forms are for non-construction contracts**

Many TIPS members (grantees and sub-grantees) purchase goods and services with federal funds. When a member engages a contract exceeding \$100,000 and paid with federal funds, provisions are triggered by various Code of Federal Regulations requirements. Primarily 34 CFR 80.36 from the Department of Education and 7 CFR 3015 & 3016 from the Department of Agriculture for School Lunch Program. There may be other Federal programs from time to time that are not enumerated above that may fund certain projects using outside vendors. These are not optional for the contracting entity and in order to spend the federal funds certain provision and certifications must be in place to ensure legal compliance.

If your company wishes to be eligible to participate in a TIPS contract in which a member utilizes federal funds on contracts exceeding \$100,000, you must complete the following forms can provide the certifications as required on the subsequent pages.

## A Warranty You Can Trust – The Complete Guide

### The CommScope Enterprise 20-Year Extended Product Warranty and Applications Assurance Program

In an age when network infrastructure is an essential fabric of an organization, it is important to have complete confidence in your connectivity supplier's warranty. Organizations can rely on the CommScope Enterprise 20 Year Extended Product Warranty and Applications Assurance (full text of the SYSTIMAX®, Uniprise® and Wired for Wireless® warranties are included in the appendices of this document). The CommScope warranty states that installations of CommScope Enterprise products will meet the relevant CommScope performance specifications for such products, which include all key electrical and optical parameters as specified by relevant international and regional cabling standards. It offers a 20-year warranty on components and cabling channel specifications, providing comprehensive coverage and assurance for a wide range of applications including voice, data, video, and building management. Taking this warranty one step beyond current applications, the CommScope Applications Assurance uniquely covers any future applications introduced by recognized standards bodies or user forums that utilize the relevant channel specifications in the ISO/IEC 11801 or TIA/EIA 568-C standards. These comprehensive application assurances are possible because CommScope Labs has an industry-leading applications test program that includes sophisticated performance modelling and stringent testing of network applications. Its results are compiled into a collection of Application Guides and a Performance Specifications covering more than 50 applications and their implementation over copper and fiber optic media. The CommScope Applications Assurance covers all major enterprise applications ranging from telephony and Gigabit Ethernet to cable TV and building management systems. This exceptional expertise provides the technical foundation in both cabling solutions and applications to enable the CommScope Warranty to extend to future, as yet undefined applications.

All eligible installations receive the Extended Product Warranty and Applications Assurance as soon as they are completed and registered by an approved Enterprise PartnerPRO Network Partner known in this document as the Partner.

The Warranty may be transferred to a new site owner if it is required by the End User and a site inspection, subject to CommScope approval, is performed to ensure it is still in compliance with the CommScope design guidelines and installation procedures.

All CommScope products are developed in industry-leading laboratory facilities where they are designed and tested using advanced techniques. They are also manufactured in dedicated factories and installed by our network of highly skilled and approved Enterprise Partners. As a result, CommScope Enterprise cabling systems are warranted to give users outstanding service for 20 years, which we believe is the best product warranty and applications assurance in the industry.
