Overview

Teltech Communications was founded in 1999 with a keen focus on customer service and strong relationships. As a Native-American/woman-owned business, the hard work, dedication, and perseverance it took to succeed came with no surprise. That identified core values which are still the heart of our company identity and have an active influence in our day-to-day operations and every business decision.

Originally launched as Teltech Communications, a telecommunications equipment reseller working with industry leading broadband service companies, the business quickly evolved to include warehousing, asset management, forward and reverse logistics, professional resources and, most recently, "technology solutions," which is our overarching way of saying, "whatever you need, we are up to the challenge!"
