### SERVING STATES

TX | NM

### Overview

CCSI offers the Automated Logic line of controls and backs it up with a support team to service building & campus wide control systems with upgrades and ongoing operational support. This enables possibilities no other system can provide. Imagine your HVAC technician servicing or locking out an AHU from his SmartPhone or Tablet while standing directly at the unit. There are many features which we are excited to showcase. These features are also standard options as part of the Automated Logic WebCTRL software.
