### Overview

*Emics Inc dba Informed K12. At Informed K12, we're on a mission to help school district administrators improve operational efficiency and gain insight into their most critical school business processes. Our platform enables school districts to bring their paper-based processes online, track those processes and unlock the data currently trapped on paper forms. This allows them to eliminate waste, operate more efficiently and make better decisions. We support the systemic change needed to improve productivity, accountability and equity within our school systems.*
