Overview

Founded in 1982, 9to5 Seating LLC is a vertically integrated manufacturer, specializing in the design and production of ergonomic office seating to accommodate the rigorous demands of today's office environments. While 9to5 Seating has many years of experience in the manufacture of office seating, it truly differentiates itself from its competitors by its vertical integration with manufacturing facilities globally. It is through this combination of domestic and global manufacturing that we are able to offer the customer the options and the wide selection of upholstery material only available when the product is manufactured in the United States, but at prices that rival products that are totally of foreign manufacture.

In 2019, 9to5 Seating joined Flokk, which is well recognized across the industry as one of the most innovative and design-oriented manufacturers of workplace furniture.
