Overview

Technisoft provides a fully automated Teacher Incentive Allotment, Teacher Designation and Educator Payout Calculation System called "Appraiser". Our system assigns teacher designations (Master, Exemplary, or Recognized) based on both teacher performance and student outcomes, in accordance with the district's local designation system and the standards set by the Texas Education Agency (TEA). It offers comprehensive dashboards and extensive reports that enable analysis of teacher performance, student performance, and staff payouts at various levels, i.e., district, school, appraiser, and teacher. Additionally, the system facilitates the convenient export of data in various formats as required by Texas Tech University. Moreover, it calculates the incentive payouts for staff members based on the payout breakdown defined by the districts.
