Overview

Founded in 2010, j5create is one of the largest computer accessory brands, built on high-performance innovation. However, we are much more than a company of consumer-packaged goods. We empower people to experience the latest technology. Our story begins with 5 early adopters and technology enthusiasts who were motivated to make an impact in the IT industry with two ideas: (1) all devices should function together regardless of platform or operating system; and (2) we can use technology to provide inclusive computing solutions. Since that time, we've been focused on creating USB™ peripherals to maximize your computer's potential.
