Overview

Established in the early 1980s Globe Trailers established a reputation of quality, value, and superior customer satisfaction. In 2004 Globe Trailers was purchased by the Walters family whose 60-year history as the world's leading Manufacturing and Engineering of Welding and Cutting replacement components gave them the expertise to greatly improve upon existing trailer designs. Our trailers are manufactured in Bradenton, FL in our 60,000 square foot facility covering 10 acres. The equipment used for manufacturing our trailers includes computerized plasma burning tables, optical beam cutting machines, state of the art welding machines, overhead crane systems, milling machines, cutting shears, and CNC Whitney punches. Additionally, our plant also has its own in-house sandblasting and paint facilities. Our welders are all certified up to AWS T-1 steel and are government certified. We are proud of our trailers and our employees. That's why Globe Trailers offers the best warranty in the trailer industry, and why we here at Globe Trailers say, There "IS" A World Of Difference.
