Overview

Formative Loop is a research-based math fluency software program. Our program is unique in that the teacher uses her computer to track and assess progress, but the students are working on paper and pencil. Formative Loop empowers teachers with technology to be more effective and efficient, allowing them to pinpoint gaps in their students' math skills mastery. It is a tool to use alongside the math program you already have in place, it will fine tune your school's math instruction.
