Overview

Automagical Apps provide a suite of Google Workspace Addons, Google Chat apps, and Chrome extensions powered by AI (including some integrations with OpenAI the makers of ChatGPT). Automagical Forms uses AI to detect questions in a PDF, Google Doc, Slide, or Gmail attachment and easily creates a Google Form or Canvas Quiz with the click of a button. Automagical Forms has been used by tens of millions of users and allowing AI to help teachers since early 2020. Slides Translator allows students and teachers the ability to easily translate their slides content into any language, voice typing to create content in their native language, as well as have content read aloud in almost any language. Automagical TeacherHelper and Automagical StudentHelper are Google Chat Apps that bring AI to assist teachers and students with their routines and help stay focused and productive, with a focus on Google Classroom integrations. We use our own AI and also integrate with OpenAI (the makers of ChatGPT) and Google AI integrations where appropriate. We have a huge focus on data privacy, ethical AI, and have privacy agreements with districts all over the country.
