Overview

Founded in 1983 by S. Balolia, Grizzly Industrial is a national retail, mail order and e-commerce company in the U.S.A. providing high quality woodworking and metalworking machinery and accessories.

We have 770,000 square feet of space at our two large distribution centers and showrooms located on the West Coast and the mid South to facilitate fast and economical shipping. We also have offices in Asia with our own quality control engineers that oversee the production of our equipment. Each of our facilities has a service center with a complete machine shop and trained technicians to help in after-service.

Our machines have won numerous awards for quality and value.

With an intense focus on providing excellent customer service and products that will last a long time, our goal has always been to sell the best quality products at the best price. We sell our products directly to the end users. There are no middlemen.

We have one of the largest, fully stocked parts departments in the industry with a solid inventory of over 87,000 different parts! At any given time, we have over a million parts in stock. Our in-house technical documentation department has been recognized by several magazines for having the best manuals in the industry.
