Overview

BloomBoard, Inc. ("BBI") is a nationally recognized vendor with a core focus in supporting the preparation, advancement, and retention, of PreK-12 educators. We partner with school districts across the country to embed educator advancement programs into the day-to-day logistics of the classroom. Our fully accredited, competency-based degree and certification programs recognize and respect educators' time, attract and retain strong talent, and help district leaders sustainably develop their educator pipelines. We work with a portfolio of higher education institutions to offer our district partners affordable apprenticeship and residency-like degree and certification programs that develop educators' skills and advance their careers through our unique on-the-job learning model. BBI's partner institutions use our web-based software-as-a-service platform (the "BBI Platform") to engage participants in the portfolio-based learning programs, with tools to facilitate the review of portfolio submissions and the issuance of digital badges. BBI and our faculty partners support participants engaging in the programs by offering concurrent training and facilitation services. By completing a course on the BBI Platform, participants prove through a portfolio of evidence that they have demonstrated the competencies required for that pedagogical or content-specific area. BBI's IHE partners provide faculty oversight for all coursework and issue credit hours and degrees to successful participants.
