Overview

Chem-Aqua is a solutions provider. We provide our customers with custom designed programs that solve their water treatment problems and make their systems more efficient. Our Corporate Offices are located in Irving, Texas. We have manufacturing plants in Irving, TX, Monmouth Junction, NJ, Indianapolis, IN, Macon, GA, and Brampton, ON, as well as 18 other manufacturing and distribution plants serving over 58 countries across the globe. Effective water treatment encompasses more than adding chemicals and testing water. It requires a comprehensive program of products, equipment, and services that address the unique mechanical, operational, and chemical requirements of each system. Chem-Aqua takes a Total Systems Approach that allows us to find cost-saving opportunities other water treatment companies miss and equips us to be a valuable business partner
