## **Overview**

*Built By Grid, LLC, (DBA "Grid") is a leading manufacturer of Club Lockers for the commercial fitness industry. Based in Dallas, Texas; Grid has 50,000 square feet of manufacturing space, a team of 85+ and has invested over \$5MM since 2019 in best-in-class robotic manufacturing equipment and supporting systems. With our specific concentration on the commercial fitness market, Grid has built a robust resume of national club brands that we serve equally as the direct manufacturer AND as the direct installation team. We know fitness and we are experts at construction – we offer best in class products, service, and warranty. Grid is positioned with highly automated manufacturing and large capacity resulting in scalable growth, short lead times and consistent product. We can offer product that is 100% built in Dallas, TX with 95% of raw materials being sourced within 700 miles. Our central US location combined with in-house freight management allows us to provide competitive freight rates. While Grid, as a brand, is the new kid on the block, we have a team of manufacturing and fitness construction veterans. Starting with the hands building the product each day, to the engineers designing the locker, to the executive team managing and our sales team providing the best flooring solutions for each setting; Grid was built from the ground up to do nothing but provide the best locker and sports flooring program for all levels of use.*
