Overview

CMC is a full service systems integration company that has served business and educational entities throughout Texas for over twenty years. We integrate professional services with industry-leading hardware and software to provide complete IT solutions. We focus on helping clients design, deploy and manage information systems that meet their organizational goals. CMC works closely with our clients to identify their unique challenges and tailor-fit a solution to reduce operating costs, improve business processes and support successful growth.

Whether your organization is a small school district or a national enterprise, the basic challenges and objectives will likely be the same. How do we use technology to drive efficiencies, improve service levels, and free up resources to focus on core functions? CMC recognizes that it must address these requirements by providing trusted advice and impartial guidance and maintaining an up-to-date understanding of current technologies and industry trends. Our areas of expertise include virtualization, storage, data management, systems management, networking, communications, and key business applications.
