Overview

Sprague Pest Solutions, a family owned and operated corporation, was founded in 1926 and is the largest family-owned commercial pest service provider in the United States. We have been headquartered in Tacoma, Washington for the last 96 years and currently provide pest prevention to over 30,000 commercial clients.

Across Sprague's entire footprint on the West Coast, we have served a myriad of local governmental agencies. Our unique, low-profile approach is founded in the utilization of data, experience, and comprehensive Integrated Pest Management (IPM) practices to provide solutions that not only eliminate pests but also provide positive experiences for your employees and protecting your facilities. Sprague utilizes service software which houses our service data and reporting tools. Our field service software is connected to our customer portal for on-demand access and has cloud redundancy to ensure 100% uptime. In addition to our field service software, client's will also have access to our Customer Portal and Online Logbook, which provide service history, activity trends, billing details and payment options.
