Overview

Guard911® was formed in 2013 with the single focus of providing an early warning system for armed intruder tragedies. Our goal is simple: get the first 1 or 2 officers on scene as quickly as possible, to neutralize the threat. The company was formed by law enforcement and technology experts with a deep psychological approach to these emergencies. Our SchoolGuard® app was formed specifically to protect schools in the case of an active shooter emergency. SchoolGuard® provides a panic button for teachers and staff by immediately alerting nearby law enforcement through the Hero911® rapid-response network while simultaneously calling 911 with the touch of a single button.

SchoolGuard® places a panic button in the hand of every teacher and staff member with a compatible smartphone. The SchoolGuard® service allows for unlimited downloads per school. The app is portable, effective, and invisible to the students. Features of SchoolGuard® also include:

Instantly alerts ALL teachers and staff members

Instantly alerts ALL participating schools within 5 miles

Instantly alerts ALL participating law enforcement officers, ON & OFF duty, who are in close proximity

Instantly alerts ALL neighboring schools of an active shooter emergency

Displays a mapped location of the school shooting alert

Is invisible to students so they can remain focused on academics
