Supplier Notes

Dear Officer,:

SchoolMint, a school choice and enrollment platform for PreK-12 schools, is delighted to respond to this RFP

SchoolMint’s approach to building school choice and enrollment platform is guided by its overall commitment to equity. We believe that to achieve equity, we must create tools to serve both sides of the equation—for parents, a search engine to research and evaluate different options, and for school staff, powerful integrated systems to centralize work and gain key insights from parent choices and behaviors.

Our School Search Tool, and Enrollment Platform, work hand in hand to meet both sides of this equation and we’re confident that our offering will help school districts achieve its goals to:

- Increase family access to information about school and program choices
- Increase family participation in school choice
- Increase school accountability and highlight school strengths
- Increase school autonomy and transparency
- Provide Texas districts with information about enrollment trends and school choices

Thanks so much for your consideration.

Regards,
Jinal Jhaveri

(a) a felony offense under Title 5, Texas Penal Code; (b) an offense for which a defendant is required to register as a sex offender under Chapter 62, Texas Code of Criminal Procedure; or (c) an equivalent offense under federal law or the laws of another state.

To: TIPS RFP REVIEW OFFICER

Dear Officer,:

SchoolMint, a school choice and enrollment platform for PreK-12 schools, is delighted to respond to this RFP

SchoolMint's approach to building school choice and enrollment platform is guided by its overall commitment to equity. We believe that to achieve equity, we must create tools to serve both sides of the equation—for parents, a search engine to research and evaluate different options, and for school staff, powerful integrated systems to centralize work and gain key insights from parent choices and behaviors.

Our School Search Tool, and Enrollment Platform, work hand in hand to meet both sides of this equation and we're confident that our offering will help school districts achieve its goals to:

- Increase family access to information about school and program choices
- Increase family participation in school choice
- Increase school accountability and highlight school strengths
- Increase school autonomy and transparency
- Provide Texas districts with information about enrollment trends and school choices

Thanks so much for your consideration.

Regards,

Jinal Jhaveri

Founder and CEO, SchoolMint

Description of our offerings.

The SchoolMint team has thoroughly reviewed the requirements of this RFP. In the following section you will be get a detailed look into our programs functionality as well as our comprehensive professional services offering. Through this overview we hope that Granite School District has confidence in our ability to fulfil that the requirements of the RFP.

2.1.1 Solution Overview

SchoolMint offers a suite of tools to meet the registration needs of Granite School District. Our system has been designed and developed to address the pain points and objectives laid out in the RFP - simplicity, ease of use, and operational efficiency.

Registration Management

SchoolMint is going to allow Granite School District to bring their entire registration and re-enrollment (1st day forms) online and save countless hours assembling paper registration packets and manually entering data. The district will drastically reduce printing and mailing costs, have better access to registration data, and ease the burden on families.

SchoolMint will provide both a Parent Portal and Administrative Portal to Granite School District.

Parents will submit all registration requirements (for both new or returning students), upload documents, capture e-signatures and flag fees to be paid through one mobile-friendly app (or web-browser). Parents will have no need to take time off work or re-enter the same information again and again. Parents will then access the Parent Portal where they can check the “status” of their registrations, manage communications settings, upload additional documents, edit their address or other fields and so on year-round.

To serve a wide range of parents, SchoolMint offers several options to meet parents where they are most comfortable—on desktop (Google Chrome, Safari, Firefox, Internet Explorer 9+), iPhone, iPad, or Android devices. Parents can create one family account using either an email address or a phone number, and submit registration forms for multiple students from that same account. Updates and/or requests can be delivered via email or text so that parents never miss important announcements from schools.

Completely customizable registration forms, once completed, can be routed through the system to the appropriate staff based on the information parents enter. Automatic alerts, or workflows are triggered when registrations are complete, and reports show any registrations or requirements that are missing.

Below you will find several exhibits that will give you insight into both the parent and administrative experience through SchoolMint.

Support

Multilingual Support

Although not specifically called out in the RFP we wanted to highlight that SchoolMint is fully translated and supported by default in English and in Spanish. Through an integration with a third-party translation company, we can provide translations of the platform to fit the needs of the specific demographics your schools serve. So far we have provided translations in languages like Vietnamese, Bengali, Arabic, Korean, French, Haitian Creole, and several other languages (20+). Since we use a reputable translation agency, the translations are high quality and context specific, as opposed to word by word translations like Google Translate. We also have interfaces to enter translation

strings in directly into the system, if Texas School District's would like to use their own translations for Texas School District's specific custom text.

Customizable Administrative Tools and Reporting

Our customizable admin portal is designed to make the day-to-day administrative functions seamless. In addition to a customized UI that fits the branding of your district, SchoolMint provides an array of features that put school administrators in control, including the ability to quickly lookup parent information and to enter in application details on behalf of parents. We also provide various standard and customizable real-time reports of applications and their statuses. Below you will find several examples of reports/workflows that are accessible through SchoolMint. Through SchoolMint, Texas School District's will be able to access data and workflows so improve efficiencies and all the district to make data driven decisions.

2.1.2 Professional Services Overview (Implementation, Training and Support)

SchoolMint's Customer Success team provides close and dedicated support to schools during the implementation process, and Texas School District's will be no exception. At the start of the project, SchoolMint will provide Texas School District's with a fully designated project manager who will work with Texas School District's stakeholders to configure the Core Module system, and to design and develop any customizations required for a successful implementation. The designated project manager will work closely with the SchoolMint design, product, and engineering teams to understand your requirements and ensure the needs of Texas School District's are continually met and exceeded throughout the development process.

Once the requirements are gathered, and your system is customized and configured, your project manager will work with you to provide training resources that are best for your teams and families. In the past, we've led online and in-person training sessions to walk key staff members through the system and answer their questions, and packets and other print-materials are distributed for families. Additionally, each webinar and training session is recorded so that those who could not attend can view the training session at their convenience. Beyond this high-touch training, the SchoolMint Customer Success Team maintains a Udemy Course and library of training videos on topics related parent and admin functionality (application, lottery, waitlist management, etc) that are accessible 24/7, and a resource library containing how-to articles and answers to frequently asked questions is also always available.
