

TIPS VENDOR AGREEMENT

Between

Kirby Restaurant + Chemical Supply

(Company Name)

THE INTERLOCAL PURCHASING SYSTEM (TIPS) For RFP 171102 Commercial Cafeteria Equipment and Furniture - Part 1

General Information

The Vendor Agreement ("Agreement") made and entered into by and between The Interlocal Purchasing System (hereinafter referred to as "TIPS" respectfully) a government cooperative purchasing program authorized by the Region 8 Education Service Center, having its principal place of business at 4845 US Hwy 271 North, Pittsburg, Texas 75686. This Agreement consists of the provisions set forth below, including provisions of all Attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any Attachment, the provisions set forth shall control.

The vendor Agreement shall include and incorporate by reference this Agreement, the terms and conditions, special terms and conditions, any agreed upon amendments, as well as all of the sections of the solicitation as posted, including any addenda and the awarded vendor's proposal. Once signed, if an awarded vendor's proposal varies or is unclear in any way from the TIPS Agreement, TIPS, at its sole discretion, will decide which provision will prevail. Other documents to be included are the awarded vendor's proposals, task orders, purchase orders and any adjustments which have been issued. If deviations are submitted to TIPS by the proposing vendor as provided by and within the solicitation process, this Agreement may be amended to incorporate any agreed deviations.

The following pages will constitute the Agreement between the successful vendors(s) and TIPS. Bidders shall state, in a separate writing, and include with their proposal response, any required exceptions or deviations from these terms, conditions, and specifications. If agreed to by TIPS, they will be incorporated into the final Agreement.

A Purchase Order, Agreement or Contract is the TIPS Member's approval providing the authority to proceed with the negotiated delivery order under the Agreement. Special terms and conditions as agreed to between the vendor and TIPS Member should be added as addendums to the Purchase Order, Agreement or Contract. Items such as certificate of insurance, bonding requirements, small or disadvantaged business goals are some of the addendums possible.

Terms and Conditions

Freight

All quotes to members shall provide a line item for cost for freight or shipping regardless if there is a charge or not. If no charge for freight or shipping, indicate by stating "No Charge" or "\$0" or other similar indication. Otherwise, all shipping, freight or delivery charges shall be passed through to the TIPS Member at cost with no markup and said charges shall be agreed by the TIPS Member.

Warranty Conditions

All new supplies equipment and services shall include manufacturer's minimum standard warranty unless otherwise agreed to in writing. Vendor shall be legally permitted to sell, or an authorized dealer, distributor or manufacturer for all products offered for sale to TIPS Members. All equipment proposed shall be new unless clearly stated in writing.

Customer Support

The Vendor shall provide timely and accurate customer support to TIPS Members. Vendors shall respond to such requests within one (1) working day after receipt of the request. Vendor shall provide training regarding products and services supplied by the Vendor unless otherwise clearly stated in writing at the time of purchase. (Unless training is a line item sold or packaged and must be purchased with product.)

Agreements

All Agreements and agreements between Vendors and TIPS Members shall strictly adhere to the statutes that are set forth in the Uniform Commercial Code as most recently revised.

Agreements for purchase will normally be put into effect by means of a purchase order(s) executed by authorized agents of the participating government entities.

Davis Bacon Act requirements will be met when Federal Funds are used for construction and/or repair of buildings.

Tax exempt status

A taxable item sold, leased, rented to, stored, used, or consumed by any of the following governmental entities is exempted from the taxes imposed by this chapter:(1) the United States; (2) an unincorporated instrumentality of the United States; (3) a corporation that is an agency or instrumentality of the United States and is wholly owned by the United States or by another corporation wholly owned by the United States;(4) the State of Texas; (5) a Texas county, city, special district, or other political subdivision; or (6) a state, or a governmental unit of a state that borders Texas, but only to the extent that the other state or governmental unit exempts or does not impose a tax on similar sales of items to this state or a political subdivision of this state. Texas Tax Code § 151.309. Most TIPS Members are tax exempt and the related laws of the jurisdiction of the TIPS Member shall apply.

Page 2 of 12

Assignments of Agreements

No assignment of Agreement may be made without the prior written approval of TIPS. Payment can only be made to the awarded Vendor or vendor assigned company.

Disclosures

1. Vendor affirms that he/she has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor or service to a public servant in connection with this Agreement.
2. Vendor shall attach, in writing, a complete description of any and all relationships that might be considered a conflict of interest in doing business with Members in the TIPS program.
3. The vendor affirms that, to the best of his/her knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this Agreement.

Renewal of Agreements

The Agreement with TIPS is for one (3) year with an option for renewal for additional one (1) consecutive year. Total term of Agreement can be up to the number of years provided in the solicitation, if sales are reported through the Agreement and both parties agree.

Automatic Renewal Clauses Incorporated in Awarded Vendor Agreements with TIPS Members Resulting from the Solicitation and with the Vendor Named in this Agreement.

No Agreement for goods or services with a TIPS Member by the awarded vendor named in this Agreement that results from the solicitation award named in this Agreement, may incorporate an automatic renewal clause with which the TIPS Member must comply. All renewal terms incorporated in an Agreement by the vendor with the TIPS Member shall only be valid and enforceable when the vendor receives written confirmation by purchase order or executed Agreement issued by the TIPS Member for any renewal period. The purpose of this clause is to avoid a TIPS Member inadvertently renewing an Agreement during a period in which the governing body of the TIPS Member has not properly appropriated and budgeted the funds to satisfy the Agreement renewal. This term is not negotiable and any Agreement between a TIPS Member and a TIPS awarded vendor with an automatic renewal clause that conflicts with these terms is rendered void and unenforceable.

Shipments

The Vendor shall ship ordered products within a commercially reasonable time after the receipt of the order. If a product cannot be shipped within that time, the Vendor shall notify TIPS and the requesting entity as to why the product has not shipped and shall provide an estimated

shipping date, if applicable. TIPS or the requesting entity may cancel the order if estimated shipping time is not acceptable.

Invoices

The awarded vendor shall submit invoices or payment requests to the TIPS Member participating entity clearly stating "Per TIPS Agreement # xxxxxxxx. Each invoice or pay request shall include the TIPS Member's purchase order number or other identifying designation as provided in the order by the TIPS Member. If applicable, the shipment tracking number or pertinent information for verification of TIPS Member receipt shall be made available upon request. The Vendor or vendor assigned dealer shall not invoice for partial shipments unless agreed to in writing in advance by TIPS and the TIPS Member.

Payments

The TIPS Member will make payments directly to the Vendor or vendor assigned dealer at net 30 days after receiving invoice or in compliance with applicable statute, whichever is the lessor time or as otherwise provided by an agreement of the parties.

Pricing

The Vendor agrees to provide pricing to TIPS and its participating governmental entities that is at least equal to the lowest pricing available to like cooperative purchasing customers and the pricing shall remain so throughout the duration of the Agreement.

Price increases will be honored according to the terms of the solicitation. However, the Vendor shall honor previous prices for thirty (30) days after written notification to TIPS of an increase.

All pricing submitted to TIPS shall include the participation fee, as provided in the solicitation, to be remitted to TIPS by the Vendor. Vendor will not show adding the fee to the invoice presented to customer. Failure to render the participation fee to TIPS shall constitute a breach of this agreement and shall be grounds for termination of this agreement and any other agreement held with TIPS.

Participation Fees

Vendor or vendor assigned dealer Agreements to pay the participation fee for all Agreement sales to TIPS on a monthly scheduled report. Vendor must login to the TIPS database and use the "Submission Report" section to report sales. The Vendor or vendor assigned dealers are responsible for keeping record of all sales that go through the TIPS Agreement. Failure to pay the participation fee will result in termination of Agreement. Please contact TIPS at tips@tips-usa.com or call (866) 839-8477 if you have questions about paying fees.

Indemnity

The Vendor agrees to indemnify and hold harmless and defend TIPS, TIPS Member(s), officers and employees from and against all claims and suits by third parties for damages, injuries to persons (including death), property damages, losses, and expenses including court costs and reasonable attorney's fees, arising out of, or resulting from, Vendor's work under this Agreement, including all such causes of action based upon common, constitutional, or statutory law, or based in whole or in part, upon allegations of negligent or intentional acts on the part of the Vendor, its officers, employees, agents, subcontractors, licensees, or invitees. Vendor further agrees to indemnify and hold harmless and defend TIPS, TIPS Member(s), officers and employees, from and against all claims and suits by third parties for injuries (including death) to an officer, employee, agent, subcontractors, supplier or equipment lessee of the Vendor, arising out of, or resulting from, Vendor's work under this Agreement whether or not such claims are based in part upon the negligent acts or omissions of the TIPS, TIPS Member(s), officers, employees, or agents.

Multiple Vendor Awards

TIPS reserves the right to award multiple vendor Agreements for categories when deemed in the best interest of the TIPS Membership. Bidders scoring the solicitation's specified minimum score or above will be considered for an award. Categories are established at the discretion of TIPS.

State of Texas Franchise Tax

By signature hereon, the bidder hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes owed the State of Texas under Chapter 171, Tax Code.

Miscellaneous

The Vendor acknowledges and agrees that continued participation in TIPS is subject to TIPS sole discretion and that any Vendor may be removed from the participation in the Program at any time with or without cause. Nothing in the Agreement or in any other communication between TIPS and the Vendor may be construed as a guarantee that TIPS Members will submit any orders at any time. TIPS reserves the right to request additional proposals for items or services already on Agreement at any time.

Purchase Order Pricing/Product Deviation

If a deviation of pricing/product on a purchase order or contract modification occurs, TIPS is to be notified within 48 hours of receipt of order.

Termination for Convenience

TIPS reserves the right to terminate this agreement for cause or no cause for convenience with a thirty-day written notice. Termination for convenience is required under Federal Regulations

2 CFR part 200. All purchase orders presented to the Vendor by a TIPS Member prior to the actual termination of this agreement shall be honored at the option of the TIPS Member. The awarded vendor may terminate the agreement with ninety (90) days written notice to TIPS 4845 US Hwy North, Pittsburg, Texas 75686.

TIPS Member Purchasing Procedures

Purchase orders or their equal are issued by participating TIPS Member to the awarded vendor indicating on the PO "Agreement Number". Order is emailed to TIPS at tipspo@tips-usa.com.

- Awarded vendor delivers goods/services directly to the participating member.
- Awarded vendor invoices the participating TIPS Member directly.
- Awarded vendor receives payment directly from the participating member.
- Awarded vendor reports sales monthly to TIPS (unless prior arrangements have been made with TIPS to report monthly).

Form of Agreement

If a vendor submitting an Proposal requires TIPS and/or TIPS Member to sign an additional agreement, a copy of the proposed agreement must be included with the proposal.

In response to submitted supplemental Vendor Agreement documents, TIPS will review proposed vendor Agreement documents. Vendor's Agreement document shall not become part of TIPS's Agreement with vendor unless and until an authorized representative of TIPS reviews and approves it.

Licenses

Awarded vendor shall maintain in current status all federal, state and local licenses, bonds and permits required for the operation of the business conducted by awarded vendor. Awarded vendor shall remain fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of services under the Agreement. TIPS reserves the right to stop work and/or cancel Agreement of any awarded vendor whose license(s) expire, lapse, are suspended or terminated.

Novation

If awarded vendor sells or transfers all assets or the entire portion of the assets used to perform this Agreement, a successor in interest must guarantee to perform all obligations under this Agreement. TIPS reserves the right to accept or reject any new party. A simple change of name agreement will not change the Agreement obligations of awarded vendor.

Site Requirements (when applicable to service or job)

Cleanup: Awarded vendor shall clean up and remove all debris and rubbish resulting from their work as required or directed by TIPS Member. Upon completion of work, the premises shall be left in good repair and an orderly, neat, clean and unobstructed condition.

Preparation: Awarded vendor shall not begin a project for which TIPS Member has not prepared the site, unless awarded vendor does the preparation work at no cost, or until TIPS Member includes the cost of site preparation in a purchase order.

Site preparation includes, but is not limited to: moving furniture, installing wiring for networks or power, and similar pre-installation requirements.

Registered sex offender restrictions: For work to be performed at schools, awarded vendor agrees that no employee of a sub-contractor who has been adjudicated to be a registered sex offender will perform work at any time when students are, or reasonably expected to be, present. Awarded vendor agrees that a violation of this condition shall be considered a material breach and may result in the cancellation of the purchase order at the TIPS Member's discretion.

Awarded vendor must identify any additional costs associated with compliance of this term. If no costs are specified, compliance with this term will be provided at no additional charge.

Safety measures: Awarded vendor shall take all reasonable precautions for the safety of employees on the worksite, and shall erect and properly maintain all necessary safeguards for protection of workers and the public. Awarded vendor shall post warning signs against all hazards created by the operation and work in progress. Proper precautions shall be taken pursuant to state law and standard practices to protect workers, general public and existing structures from injury or damage.

Smoking

Persons working under Agreement shall adhere to local smoking policies. Smoking will only be permitted in posted areas or off premises.

Marketing

Awarded vendor agrees to allow TIPS to use their name and logo within website, marketing materials and advertisement. Any use of TIPS name and logo or any form of publicity, inclusive of press release, regarding this Agreement by awarded vendor must have prior approval from TIPS.

Supplemental agreements

The TIPS Member entity participating in the TIPS Agreement and awarded vendor may enter into a separate supplemental agreement or contract to further define the level of service requirements over and above the minimum defined in this Agreement i.e. invoice requirements, ordering requirements, specialized delivery, etc. Any supplemental agreement or contract developed as a result of this Agreement is exclusively between the participating entity and awarded vendor. TIPS, its agents, TIPS Members and employees shall not be made party to any claim for breach of such agreement.

Survival Clause

All applicable software license agreements, warranties or service agreements that were entered into between Vendor and Customer under the terms and conditions of the Agreement shall survive the expiration or termination of the Agreement. All Orders, Purchase Orders issued or contracts executed by TIPS or a TIPS Member and accepted by the Vendor prior to the expiration or termination of this agreement, shall survive expiration or termination of the Agreement, subject to previously agreed terms and conditions agreed by the parties or as otherwise specified herein relating to termination of this agreement.

Legal obligations

It is the responding vendor's responsibility to be aware of and comply with all local, state and federal laws governing the sale of products/services identified in this Solicitation and any awarded Agreement thereof. Applicable laws and regulations must be followed even if not specifically identified herein.

Audit rights

Due to transparency statutes and public accountability requirements of TIPS and TIPS Members', the awarded Vendor shall, at their sole expense, maintain appropriate due diligence of all purchases made by TIPS Member that utilizes this Agreement. TIPS and Region 8 ESC each reserve the right to audit the accounting for a period of three (3) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. In order to ensure and confirm compliance with this agreement, TIPS shall have authority to conduct random audits of Awarded Vendor's pricing that is offered to TIPS Members. Notwithstanding the foregoing, in the event that TIPS is made aware of any pricing being offered to eligible entities that is materially inconsistent with the pricing under this agreement, TIPS shall have the ability to conduct the audit internally or may engage a third-party auditing firm to investigate any possible non-complying conduct. In the event of an audit, the requested materials shall be reasonably provided in the format and at the location designated by Region 8 ESC or TIPS.

Force Majeure

If by reason of Force Majeure, either party hereto shall be rendered unable wholly or in part to carry out its obligations under this Agreement then such party shall give notice and fully particulars of Force Majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied upon, and the obligation of the party giving such notice, so far as it is affected by such Force Majeure, shall be suspended during the continuance of the inability then claimed, except as hereinafter provided, but for no longer period, and such party shall endeavor to remove or overcome such inability with all reasonable dispatch.

Scope of Services

The specific scope of work for each job shall be determined in advance and in writing between TIPS Member and Awarded vendor. It is permitted for the TIPS Member to provide a general scope, but the awarded vendor should provide a written scope of work to the TIPS Member as part of the proposal. Once the scope of the job is agreed to, the TIPS Member will issue a Purchase Order and/or an Agreement or Contract and/or an Agreement with the estimate referenced as an attachment along with required bond and any other special provisions agreed to for the TIPS Member. If special terms and conditions other than those covered within this solicitation and awarded Agreements are required, they will be attached to the Purchase Order and/or an Agreement or Contract and shall take precedence over those in the base TIPS Vendor Agreement.

Project Delivery Order Procedures

The TIPS Member having approved and signed an interlocal agreement, or other TIPS Membership document, may make a request of the awarded vendor under this Agreement when the TIPS Member has services that need to be undertaken. Notification may occur via phone, the web, email, fax, or in person. Upon notification of a pending request, the awarded vendor shall make contact with the TIPS Member as soon as possible, but must make contact with the TIPS Member within two working days.

Scheduling of Projects

Scheduling of projects (if applicable) will be accomplished when the TIPS Member issues a purchase order or other document that will serve as "the notice to proceed". The period for the delivery order will include the mobilization, materials purchase, installation and delivery, design, weather, and site cleanup and inspection. No additional claims may be made for delays as a result of these items. When the tasks have been completed the awarded vendor shall notify the client and have the TIPS Member inspect the work for acceptance under the scope and terms in the PO. The TIPS Member will issue in writing any corrective actions that are required. Upon completion of these items, the TIPS Member will issue a completion notice and final payment will be issued.

Support Requirements

If there is a dispute between the awarded vendor and TIPS Member, TIPS or its representatives will assist in conflict resolution or third party (mandatory mediation), if requested by either party. TIPS, or its representatives, reserves the right to inspect any project and audit the awarded vendors TIPS project files, documentation and correspondence.

Incorporation of Solicitation

The TIPS Solicitation, whether a Request for Proposals, the Request for Competitive Sealed Proposals or Request for Qualifications solicitation, the Vendor's response to same and all associated documents and forms made part of the solicitation process, including any addenda,

that resulted in the execution of this agreement are hereby incorporated by reference into this agreement as if copied verbatim.

SECTION HEADERS OR TITLES

THE SECTION HEADERS OR TITLES WITHIN THIS DOCUMENT ARE MERELY GUIDES FOR CONVENIENCE AND ARE NOT FOR CLASSIFICATION OR LIMITING OF THE RESPONSIBILITIES OF THE PARTIES TO THIS DOCUMENT.

NEW STATUTORY REQUIREMENT EFFECTIVE SEPTEMBER 1, 2017.

Texas governmental entities are prohibited from doing business with companies that fail to certify to this condition as required by Texas Government Code Sec. 2270.

By executing this agreement, you certify that you are authorized to bind the undersigned Vendor and that your company (1) does not boycott Israel; and (2) will not boycott Israel during the term of the Agreement.

You certify that your company is not listed on and we do not do business with companies that are on the Texas Comptroller of Public Accounts list of Designated Foreign Terrorists Organizations per Texas Gov't Code 2270.0153 found at <https://comptroller.texas.gov/purchasing/docs/foreign-terrorist.pdf>

You certify that if the certified statements above become untrue at any time during the life of this Agreement that the Vendor will notify TIPS within 1 business day of the change by a letter on your letterhead from an authorized representative of the Vendor stating the non-compliance decision and the TIPS Agreement number and description at:

Attention: General Counsel
ESC Region 8/The Interlocal Purchasing System (TIPS)
4845 Highway 271 North
Pittsburg, TX, 75686.
And by an email sent to bids@tips-usa.com

Special Terms and Conditions

It is the intent of TIPS to award to reliable, high performance vendors to supply products and services to government and educational agencies. It is the experience of TIPS that the following procedures provide TIPS, the Vendor, and the participating agency the necessary support to facilitate a mutually beneficial relationship. The specific procedures will be negotiated with the successful vendor.

- **Agreements:** All vendor Purchase Orders and/or Agreements/Contracts must be emailed to TIPS at tipspo@tips-usa.com. Should an agency send an order direct to vendor, it is the vendor's responsibility to forward the order to TIPS at the email above within 24 business hours and confirm its receipt with TIPS.
 - **Promotion of Agreement:** It is agreed that Vendor will encourage all eligible entities to purchase from the TIPS Program. Encouraging entities to purchase directly from the Vendor and not through TIPS Agreement is a violation of the terms and conditions of this Agreement and will result in removal of the Vendor from the TIPS Program.
 - **Daily Order Confirmation:** All Agreement purchase orders will be approved daily by TIPS and sent to vendor. The vendor must confirm receipt of orders to the TIPS Member (customer) within 24 business hours.
 - **Vendor custom website for TIPS:** If Vendor is hosting a custom TIPS website, then updated pricing must be posted by 1st of each month.
 - **Back Ordered Products:** If product is not expected to ship within 3 business days, customer is to be notified within 24 hours and appropriate action taken based on customer request.

27	Primary Address City	Primary Address City	Longview (Required)
28	Primary Address State	Primary Address State (2 Digit Abbreviation)	TX (Required)
29	Primary Address Zip	Primary Address Zip	75602 (Required)
30	Search Words:	Please list search words to be posted in the TIPS database about your company that TIPS website users might search. Words may be product names, manufacturers, or other words associated with the category of award. YOU MAY NOT LIST NON-CATEGORY ITEMS. (Limit 500 words) (Format: product, paper, construction, manufacturer name, etc.)	Please see page 19 (Required)
31	Yes - No	Most of our members receive Federal Government grants and they make up a significant portion of their budgets. The members need to know if your company is willing to sell to them when they spend federal budget funds on their purchase. There are attributes that follow that are provisions from the federal regulations in 2 CFR part 200. Your answers will determine if your award will be designated as Federal or Education Department General Administrative Regulations (EDGAR)compliant. Is it your intent to be able to sell to our members regardless of the fund source, whether it be local, state or federal? Valid Responses: [Please Select], Yes, No	Yes (Required)
32	Yes - No	Certification of Residency (Required by the State of Texas) The vendor's ultimate parent company or majority owner: (A) has its principal place of business in Texas; OR (B) employs at least 500 persons in Texas? Valid Responses: [Please Select], Yes, No	Yes (Required)
33	Company Residence (City)	Vendor's principal place of business is in the city of?	Longview (Required)
34	Company Residence (State)	Vendor's principal place of business is in the state of?	Texas (Required)
35	Felony Conviction Notice:	(Required by the State of Texas) My firm is, as outlined on PAGE 5 in the Instructions to Bidders document: (Questions 36 - 37) Statutory citation covering notification of criminal history of contractor is found in the Texas Education Code #44.034. Following is an example of a felony conviction notice: State of Texas Legislative Senate Bill No. 1, Section	(No Response Required)

44.034, Notification of Criminal History, Subsection (a), states "a person or business entity that enters into a contract with a school district or ESC 8/TIPS must give advance notice to the district or ESC 8/TIPS if the person or an owner or operator of the business entity has been convicted of a felony.

The notice must include a general description of the conduct resulting in the conviction of a felony."

Subsection (b) states "a school district may terminate a contract with a person or business entity if the district determines

that the person or business entity failed to give notice as required by Subsection (a) or misrepresented the conduct resulting in the conviction. The district must compensate the person or business entity for services performed before the termination of the contract."

|----|-----------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|
| 36 | Yes - No | A publicly held corporation; therefore, this reporting requirement is not applicable?
Valid Responses: [Please Select], Yes, No | No _____ (Required) |
| 37 | Yes - No | Is owned or operated by individual(s) who has/have been convicted of a felony?
Valid Responses: [Please Select], Yes, No | No _____ (Required) |
| 38 | If your firm is owned or operated by the following individual(s) who has/have been convicted of a felony: | Please provide details of the conviction. This is not necessarily a disqualifying factor and the details of the conviction determines the eligibility. Providing false or misleading information about the conviction is illegal. | _____ (Optional) |
| 39 | Pricing Information: | Pricing information section. (Questions 39 - 43) | (No Response Required) |
| 40 | Discount Offered | What is the MINIMUM percentage discount off of any item or service you offer to TIPS Members that is in your regular catalog (as defined in the RFP document), website, store or shelf pricing? This is a ceiling on your pricing and not a floor because, in order to be more competitive in the individual circumstance, you may offer a larger discount depending on the items or services purchased and the quantity at time of sale. Must answer with a number between 0% and 100%. | N/A _____ %
(Required) |
| 41 | TIPS administration fee | By submitting a proposal, I agree that all pricing submitted to TIPS shall include the participation fee, as designated in the solicitation or as otherwise agreed in writing and shall be remitted to TIPS by the Vendor as agreed in the Vendor agreement. I agree that the fee shall not and will not be added by the vendor as a separate line item on a TIPS member invoice, quote, proposal or any other written communications with the TIPS member. | (No Response Required) |
| 42 | Yes - No | Vendor agrees to remit to TIPS the required administration fee?
TIPS/ESC Region 8 is required by Texas Government Code § 791 to be compensated for its work and thus, failure to agree shall render your response void and it will not be considered.
Valid Responses: [Please Select], Yes, No | Yes _____ (Required) |
| 43 | Yes - No | Do you offer additional discounts to TIPS members for large order quantities or large scope of work?
Valid Responses: [Please Select], Yes, No | Yes _____ (Required) |
| 44 | Start Time | Average start time after receipt of customer order is _____ working days? | 1 Day _____ (Required) |

45	Years Experience	Company years experience in this category?	48 _____ (Required)
46	Resellers:	<p>Does the vendor have resellers that it will name under this contract? Resellers are defined as other companies that sell your products under an agreement with you, the awarded vendor of TIPS.</p> <p>EXAMPLE: Walmart is a reseller of Samsung Electronics. If Samsung were a TIPS awarded vendor, then Samsung would list Walmart as a reseller.</p> <p>(If applicable, vendor should download the Reseller/Dealers spreadsheet from the Attachments section, fill out the form and submit the document in the "Response Attachments" RESELLERS section.</p> <p>Valid Responses: [Please Select], Yes, No</p>	No _____ (Required)
47	Prices are guaranteed for?	<p>Vendor agrees to honor the pricing discount off regular catalog (as defined in the RFP document), website, store or shelf pricing for the term of the award?</p> <p>Valid Responses: [Please Select], YES, NO</p>	Yes _____ (Required)
48	Right of Refusal	<p>Does the proposing vendor wish to reserve the right not to perform under the awarded agreement with a TIPS member at vendor's discretion?</p> <p>Valid Responses: [Please Select], Yes, No</p>	No _____ (Required)
49	NON-COLLUSIVE BIDDING CERTIFICATE	<p>By submission of this bid or proposal, the Bidder certifies that:</p> <p>1) This bid or proposal has been independently arrived at without collusion with any other Bidder or with any Competitor;</p> <p>2) This bid or proposal has not been knowingly disclosed and will not be knowingly disclosed, prior to the opening of bids, or proposals for this project, to any other Bidder, Competitor or potential competitor;</p> <p>3) No attempt has been or will be made to induce any other person, partnership or corporation to submit or not to submit a bid or proposal;</p> <p>4) The person signing this bid or proposal certifies that he has fully informed himself regarding the accuracy of the statements contained in this certification, and under the penalties being applicable to the Bidder as well as to the person signing in its behalf. Not a negotiable term. Failure to agree will render your proposal non-responsive and it will not be considered.</p>	(No Response Required)
50	Texas HB 89- Texas Government code §2270 compliance	<p>Texas 2017 House Bill 89 has been signed into law by the governor and as of September 1, 2017 will become law codified as Texas Government Code § 2270 and 808 et seq.</p> <p>The relevant section addressed by this form reads as follows:</p> <p>Texas Government Code Sec. 2270.002. PROVISION REQUIRED IN CONTRACT. A governmental entity may not enter into a contract with a company for goods or services unless the contract contains a written verification from the company that it: (1) does not boycott Israel; and (2) will not boycott Israel during the term of the contract.</p> <p>I verify by my "YES" response to this attribute that, as a company submitting a proposal to this solicitation, that I am authorized to respond for the company and affirm that the company (1) does not boycott Israel; and (2) will not boycott Israel during the term of this contract, or any contract with the above-named Texas governmental entity in the future. I further affirm that if our company's position on this issue is reversed and this affirmation is no longer</p>	Yes _____ (Required)

valid, that TIPS will be notified in writing by email to TIPS@TIPS-USA.com within one (1) business day and we understand that our company's failure to affirm and comply with the requirements of Texas Government Code 2270 et seq. shall result in a "no award" determination by TIPS and if a contract exists with TIPS, be grounds for immediate contract termination without penalty to TIPS and Education Service Center Region 8.
FAILURE TO RESPOND "YES" WILL RESULT IN NO CONSIDERATION OF YOUR PROPOSAL.
I swear and affirm that the above is true and correct by a "YES" response.

Valid Responses: [Please Select], YES

| 54 | Regulatory Standing | <p>Regulatory Standing explanation of no answer on previous question.</p> | <p>_____ (Optional)</p> |
| 55 | Antitrust Certification Statements (Tex. Government Code § 2155.005) | <p>By submission of this bid or proposal, the Bidder certifies that:</p> <p>I affirm under penalty of perjury of the laws of the State of Texas that:
(1) I am duly authorized to execute this contract on my own behalf or on behalf of the company, corporation, firm, partnership or individual (Company) listed below;
(2) In connection with this bid, neither I nor any representative of the Company has violated any provision of the Texas Free Enterprise and Antitrust Act, Tex. Bus. & Comm. Code Chapter 15;
(3) In connection with this bid, neither I nor any representative of the Company has violated any federal antitrust law;
(4) Neither I nor any representative of the Company has directly or indirectly communicated any of the contents of this bid to a competitor of the Company or any other company, corporation, firm, partnership or individual engaged in the same line of business as the Company.</p> | <p>(No Response Required)</p> |
| 56 | Suspension or Debarment Instructions | <p>Instructions for Certification:
1. By agreeing to the Attribute question #56, the vendor</p> | <p>(No Response Required)</p> |

and prospective lower tier participant is providing the certification set out herein in accordance with these instructions.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and / or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participants," "person," "primary covered transaction," "principal," "proposal" and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this form that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this form that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction" without modification in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and / or debarment.

57 Suspension or Debarment Certification

Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Yes _____ (Required)

By submitting this offer and certifying this section, this bidder:
 Certifies that no suspension or debarment is in place, which would preclude receiving a federally funded contract as described above.
 Valid Responses: [Please Select], Yes, I certify, No, I do not certify

58 Non-Discrimination Statement and Certification

In accordance with Federal civil rights law, all U.S. Departments, including the U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.
 Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.
 To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.
 (Title VI of the Education Amendments of 1972; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975; Title 7 CFR Parts 15, 15a, and 15b; the Americans with Disabilities Act; and FNS Instruction 113-1, Civil Rights Compliance and Enforcement – Nutrition Programs and Activities)
 All U.S. Departments, including the USDA are equal opportunity provider, employer, and lender.

Yes _____ (Required)

Not a negotiable term. Failure to agree will render your proposal non-responsive and it will not be considered. I

certify that in the performance of a contract with TIPS or its members, that our company will conform to the foregoing anti-discrimination statement and comply with the cited and all other applicable laws and regulations.

59 2 CFR PART 200 Contract Provisions
Explanation

Required Federal contract provisions of Federal Regulations for contracts with ESC Region 8 and TIPS Members:
The following provisions are required to be in place and agreed if the procurement is funded in any part with federal funds.
The ESC Region 8 and TIPS Members are the subgrantee or Subrecipient by definition. Most of the provisions are located in 2 CFR PART 200 - Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards at 2 CFR PART 200. Others are included within 2 CFR part 200 et al.
In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

(No Response Required)

60 2 CFR PART 200 Contracts

Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.
Notice: Pursuant to the above, when federal funds are expended by ESC Region 8 and TIPS Members, ESC Region 8 and TIPS Members reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.
Does vendor agree?
Valid Responses: [Please Select], Yes, I agree, No, I do not agree

Yes (Required)

61 2 CFR PART 200 Termination

Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of \$10,000)
Pursuant to the above, when federal funds are expended by ESC Region 8 and TIPS Members, ESC Region 8 and TIPS Members reserves the right to terminate any agreement in excess of \$10,000 resulting from this procurement process for cause after giving the vendor an appropriate opportunity and up to 30 days, to cure the causal breach of terms and conditions. ESC Region 8 and TIPS Members reserves the right to terminate any agreement in excess of \$10,000 resulting from this procurement process for convenience with 30 days notice in writing to the awarded vendor. The vendor would be compensated for work performed and goods procured as of the termination date if for convenience of the ESC Region 8 and TIPS Members. Any award under this procurement process is not exclusive and the ESC Region 8 and TIPS reserves the right to purchase goods and services from other vendors when it is in the best interest of the ESC Region 8 and TIPS.
Does vendor agree?
Valid Responses: [Please Select], Yes, I agree, No, I do not agree

Yes (Required)

62 2 CFR PART 200 Clean Air Act

Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal

Yes (Required)

Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). Pursuant to the Clean Air Act, et al above, when federal funds are expended by ESC Region 8 and TIPS Members, ESC Region 8 and TIPS Members requires that the proposer certify that during the term of an award by the ESC Region 8 and TIPS Members resulting from this procurement process the vendor agrees to comply with all of the above regulations, including all of the terms listed and referenced therein.
Does vendor agree?
Valid Responses: [Please Select], Yes, I agree, No, I do not agree

63 2 CFR PART 200 Byrd Anti-Lobbying Amendment

Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. Pursuant to the above, when federal funds are expended by ESC Region 8 and TIPS Members, ESC Region 8 and TIPS Members requires the proposer certify that during the term and during the life of any contract with ESC Region 8 and TIPS Members resulting from this procurement process the vendor certifies to the terms included or referenced herein.
Does vendor agree?
Valid Responses: [Please Select], Yes, I agree, No, I do not agree

Yes _____ (Required)

64 2 CFR PART 200 Federal Rule

Compliance with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR part 15). (Contracts, subcontracts, and subgrants of amounts in excess of \$100,000)
Pursuant to the above, when federal funds are expended by ESC Region 8 and TIPS Members, ESC Region 8 and TIPS Members requires the proposer certify that in performance of the contracts, subcontracts, and subgrants of amounts in excess of \$100,000, the vendor will be in compliance with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR part 15).
Does vendor certify that it is in compliance with the Clean Air Act?
Valid Responses: [Please Select], Yes, I certify, No, I do not

Yes _____ (Required)

not certify

65 2 CFR PART 200 Procurement of Recovered Materials

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.
Does vendor certify that it is in compliance with the Solid Waste Disposal Act as described above?
Valid Responses: [Please Select], Yes, I certify, No, I do not certify

Yes (Required)

66 Indemnification

The ESC Region 8 and TIPS is a Texas Political Subdivision and a local governmental entity; therefore, is prohibited from indemnifying third parties pursuant to the Texas Constitution (Article 3, Section 52) except as specifically provided by law or as ordered by a court of competent jurisdiction. A provision in a contract to indemnify or hold a party harmless is a promise to pay for any expenses the indemnified party incurs, if a specified event occurs, such as breaching the terms of the contract or negligently performing duties under the contract. Article III, Section 49 of the Texas Constitution states that "no debt shall be created by or on behalf of the State ... " The Attorney General has counseled that a contractually imposed obligation of indemnity creates a "debt" in the constitutional sense. Tex. Att'y Gen. Op. No. MW-475 (1982). Contract clauses which require the System or institutions to indemnify must be deleted or qualified with "to the extent permitted by the Constitution and Laws of the State of Texas." Liquidated damages, attorney's fees, waiver of vendor's liability, and waiver of statutes of limitations clauses should also be deleted or qualified with "to the extent permitted by the Constitution and laws of State of Texas."
Not a negotiable term. Failure to agree will render your proposal non-responsive and it will not be considered. Do you agree to these terms?

Yes (Required)

67 Remedies

The parties shall be entitled to exercise any right or remedy available to it either at law or in equity, subject to the choice of law, venue and service of process clauses limitations agreed herein. Nothing in this agreement shall commit the TIPS to an arbitration resolution of any disagreement under any circumstances. Any Claim arising out of or related to the Contract, except for those specifically waived under the terms of the Contract, may, after denial of the

Yes (Required)

Board of Directors, be subject to mediation at the request of either party. Any issues not resolved hereunder must be referred to non-binding mediation to be conducted by a mutually agreed upon mediator as a prerequisite to the filing of any lawsuit over such issue(s). The parties shall share the mediator's fee and any associated filing fee equally. Mediation shall be held in Camp or Titus County, Texas. Agreements reached in mediation shall be reduced to writing, and will be subject to the approval by the District's Board of Directors, signed by the Parties if approved by the Board of Directors, and, if signed, shall thereafter be enforceable as provided by the laws of the State of Texas. Do you agree to these terms?

79 Insurance and Fingerprint Requirements
Information

Insurance

If applicable and your staff will be on TIPS member premises for delivery, training or installation etc. and/or with an automobile, you must carry automobile insurance as required by law. You may be asked to provide proof of insurance.

Fingerprint

It is possible that a vendor may be subject to Chapter 22 of the Texas Education Code. The Texas Education Code, Chapter 22, Section 22.0834. Statutory language may be found at: <http://www.statutes.legis.state.tx.us/>

If the vendor has staff that meet both of these criterion:

(1) will have continuing duties related to the contracted services; and

(2) has or will have direct contact with students

Then you have "covered" employees for purposes of completing the attached form.

TIPS recommends all vendors consult their legal counsel for guidance in compliance with this law. If you have questions on how to comply, see below. If you have questions on compliance with this code section, contact the Texas Department of Public Safety Non-Criminal Justice Unit, Access and Dissemination Bureau, FAST-FACT at

NCJU@txdps.state.tx.us and you should send an email identifying you as a contractor to a Texas Independent School District or ESC Region 8 and TIPS. Texas DPS phone number is (512) 424-2474.

See form in the next attribute to complete entitled:

Texas Education Code Chapter 22 Contractor Certification for Contractor Employees

(No Response Required)

80 Texas Education Code Chapter 22 Contractor
Certification for Contractor Employees

Introduction: Texas Education Code Chapter 22 requires entities that contract with school districts to provide services to obtain criminal history record information regarding covered employees. Contractors must certify to the district that they have complied. Covered employees with disqualifying criminal histories are prohibited from serving at a school district.

Definitions: Covered employees: Employees of a contractor or subcontractor who have or will have continuing duties related to the service to be performed at the District and have or will have direct contact with students. The District will be the final arbiter of what constitutes direct contact with students. Disqualifying criminal history: Any conviction or other criminal history information designated by the District, or one of the following offenses, if at the time of the offense, the victim was under 18 or enrolled in a public school:

(a) a felony offense under Title 5, Texas Penal Code; (b) an offense for which a defendant is required to register as a sex offender under Chapter 62, Texas Code of Criminal Procedure; or (c) an equivalent offense under federal law or the laws of another state.

I certify that:

NONE (Section A) of the employees of Contractor and any subcontractors are covered employees, as defined above. If this box is checked, I further certify that Contractor has taken precautions or imposed conditions to ensure that the employees of Contractor and any subcontractor will not become covered employees. Contractor will maintain these precautions or conditions throughout the time the contracted services are provided.

OR

Yes _____ (Required)

SOME (Section B) or all of the employees of Contractor and any subcontractor are covered employees. If this box is checked, I further certify that:

(1) Contractor has obtained all required criminal history record information regarding its covered employees. None of the covered employees has a disqualifying criminal history.

(2) If Contractor receives information that a covered employee subsequently has a reported criminal history, Contractor will immediately remove the covered employee from contract duties and notify the District in writing within 3 business days.

(3) Upon request, Contractor will provide the District with the name and any other requested information of covered employees so that the District may obtain criminal history record information on the covered employees.

(4) If the District objects to the assignment of a covered employee on the basis of the covered employee's criminal history record information, Contractor agrees to discontinue using that covered employee to provide services at the District.

Noncompliance or misrepresentation regarding this certification may be grounds for contract termination.

Valid Responses: [Please Select], Yes, I certify - NONE (Section A), Yes, I certify - SOME (Section B)

81	Solicitation Deviation/Compliance	Does the vendor agree with the General Conditions Standard Terms and Conditions or Item Specifications listed in this proposal invitation? Valid Responses: [Please Select], Yes, I agree, No, if no please explain in next attribute	Yes _____ (Required)
82	Solicitation Exceptions/Deviations Explanation	If the bidder intends to deviate from the General Conditions Standard Terms and Conditions or Item Specifications listed in this proposal invitation, all such deviations must be listed on this attribute, with complete and detailed conditions and information included or attached. TIPS will consider any deviations in its proposal award decisions, and TIPS reserves the right to accept or reject any bid based upon any deviations indicated below or in any attachments or inclusions. In the absence of any deviation entry on this attribute, the proposer assures TIPS of their full compliance with the Standard Terms and Conditions, Item Specifications, and all other information contained in this Solicitation.	Yes _____ (Optional)
83	Agreement Deviation/Compliance	Does the vendor agree with the language in the Vendor Agreement? Valid Responses: [Please Select], Yes, I agree, No, if no please explain in next attribute	Yes _____ (Required)
84	Agreement Exceptions/Deviations Explanation	If the proposing Vendor desires to deviate from the Vendor Agreement language, all such deviations must be listed on this attribute, with complete and detailed conditions and information included. TIPS will consider any deviations in its proposal award decisions, and TIPS reserves the right to accept or reject any proposal based upon any deviations indicated below. In the absence of any deviation entry on this attribute, the proposer assures TIPS of their full compliance with the Vendor Agreement.	_____ (Optional)
85	Texas Business and Commerce Code § 272 Requirements as of 9-1-2017	SB 807 prohibits construction contracts to have provisions requiring the contract to be subject to the laws of another state, to be required to litigate the contract in another state, or to require arbitration in another state. A contract with such provisions is voidable. Under this new statute, a	(No Response Required)

"construction contract" includes contracts, subcontracts, or agreements with (among others) architects, engineers, contractors, construction managers, equipment lessors, or materials suppliers. "Construction contracts" are for the design, construction, alteration, renovation, remodeling, or repair of any building or improvement to real property, or for furnishing materials or equipment for the project. The term also includes moving, demolition, or excavation. BY RESPONDING TO THIS SOLICITATION, AND WHEN APPLICABLE, THE PROPOSER AGREES TO COMPLY WITH THE TEXAS BUSINESS AND COMMERCE CODE § 272 WHEN EXECUTING CONTRACTS WITH TIPS MEMBERS THAT ARE TEXAS GOVERNMENT ENTITIES.

Certification Regarding Lobbying

Applicable to Grants, Subgrants, Cooperative Agreements, and Contracts Exceeding \$100,000 in Federal Funds.

Submission of this certification is a prerequisite for making or entering into this transaction and is imposed by section 1352, Title 31, U.S. Code. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with the awarding of a Federal contract, the making of a Federal grant, the making of a Federal loan, the entering into a cooperative agreement, and the extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all covered subawards exceeding \$100,000 in Federal funds at all appropriate tiers and that all subrecipients shall certify and disclose accordingly.

FELONY CONVICTION NOTICE

FOR RESPONSE TO TIPS SOLICITATION

Statutory citation covering notification of criminal history of contractor is found in the Texas Education Code #44.034. Following is an example of a felony conviction notice:

State of Texas Legislative Senate Bill No. 1, Section 44.034, Notification of Criminal History, Subsection (a), states "a person or business entity that enters into a contract with a school district must give advance notice to the district if the person or an owner or operator of the business entity has been convicted of a felony. The notice must include a general description of the conduct resulting in the conviction of a felony." Subsection (b) states "a school district may terminate a contract with a person or business entity if the district determines that the person or business entity failed to give notice as required by Subsection (a) or misrepresented the conduct resulting in the conviction. The district must compensate the person or business entity for services performed before the termination of the contract."

THIS NOTICE IS NOT REQUIRED OF A PUBLICLY-HELD CORPORATION

Complete only one of the three below: A or B or C.

I, the undersigned agent for the firm named below, certify that the information concerning notification of felony convictions has been reviewed by me and the following information furnished is true to the best of my knowledge.

Official: DANE LEWIS
Print Authorized Company Official's Name

A. My firm is a publicly held corporation; therefore, this reporting requirement is not applicable.

Signature of Authorized Company Official: _____

OR

B. My firm is not owned nor operated by anyone who has been convicted of a felony:

Signature of Authorized Company Official: Dane B. Lewis

OR

C. My firm is owned or operated by the following individual(s) who has/have been convicted of a felony:

Name of Felon(s): N/A

Details of Conviction(s): _____

Federal Requirements for Procurement and Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms.

The Education Service Center Region 8 and TIPS Members anticipate possibly using federal funds for procurement under this potential award and is required to obtain the following compliance assurance.

1. Will you be subcontracting any of your work under this award if you are successful? (Circle one)

☐ YES or NO ☒

2. If yes, do you agree to comply with the following federal requirements? (Circle one)

☐ YES or NO ☐

2 CFR §200.321 Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms.

(a) The non-Federal entity must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible.

(b) Affirmative steps must include:

- (1) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
- (2) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
- (3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
- (4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;
- (5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce ; and
- (6) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (1) through (5) of this section.

Texas Government Code 2270 Verification Form

Texas 2017 House Bill 89 has been signed into law by the governor and as of September 1, 2017 will become law codified as Texas Government Code § 2270 and 808 et seq.

The relevant section addressed by this form reads as follows:

Texas Government Code Sec. 2270.002. PROVISION REQUIRED IN CONTRACT. A governmental entity may not enter into a contract with a company for goods or services unless the contract contains a written verification from the company that it: (1) does not boycott Israel; and (2) will not boycott Israel during the term of the contract.

I, DANE LEWIS as an authorized representative of
KIRBY RESTAURANT & CHEMICAL SUPPLY, a contractor/vendor
Insert Name of Company

engaged by

ESC Region 8/The Interlocal Purchasing System (TIPS)
4845 Highway 271 North
Pittsburg, TX, 75686

verify by this writing that the above-named company affirms that it (1) does not boycott Israel; and (2) will not boycott Israel during the term of this contract, or any contract with the above-named Texas governmental entity in the future. I further affirm that if our company's position on this issue is reversed and this affirmation is no longer valid, that the above-named Texas governmental entity will be notified in writing within one (1) business day and we understand that our company's failure to affirm and comply with the requirements of Texas Government Code 2270 et seq. shall be grounds for immediate contract termination without penalty to the above-named Texas governmental entity.

AND

our company is not listed on and we do not do business with companies that are on the the Texas Comptroller of Public Accounts list of Designated Foreign Terrorists Organizations per Texas Gov't Code 2270.0153 found at <https://comptroller.texas.gov/purchasing/docs/foreign-terrorist.pdf>

I swear and affirm that the above is true and correct.

Welcome to the 2016/2017 Product Reference Guide!

This guide is designed to be used as a quick comprehensive reference that showcases products from industry leading foodservice equipment and supplies manufacturers. We've included dozens of new and innovative foodservice products to keep you up to date with the latest technology in the industry, and we've also included some old favorites.

Our commitment is to help you meet your goals. We use our strong partnerships with these leading manufacturers and our commitments to expertise in our field to enhance your business. By partnering

How To Find What You Need

Look in the [Category Index](#) on page 2.

Look for products offered by a [specific supplier](#) in the Supplier Index on page 3.

Look for the [type of product](#) in the Product Index on pages 4 and 5.

If there's you cannot find in this catalog, please call us and we'll be glad to help you.

Customer Service

We value our customers and are dedicated to offering each and every one of you the best products and services available. Our business has been built on a foundation of service, knowledge, expertise, training, and commitment.

Our informed salespeople will share essential product information and help you as you make important buying decisions. As your "partner" in business, our objective is your long-term success.

Our Membership in SEFA, the national foodservice marketing, buying and training group, is an honor awarded only to the very best in the industry. We meet stringent requirements in market leadership, education, finance and marketing. As SEFA Members, we can provide tools such as this Reference Guide to help you train your employees and to help you find the right equipment and supplies to meet your needs.

Industry Insights

We'd like to express our thanks to the many fine chefs who submitted a favorite recipe or tip. Top Chefs are featured throughout the guide. Look for an index of Notable Chefs on pages 6 & 7. You'll also find tips of the trade to keep you informed about rules and regulations, safety guidelines, tips for product selection and more. You'll also find QR codes that link to videos on some of the products featured in the guide. Some of the information could even be incorporated into your own employee training. We're sure this Reference Guide will prove to be a valuable resource tool in your day to day operations.

We encourage you to take a look at what we have to offer. Call us and we'll be happy to show you our complete line of products and discuss the variety of services we have available. Please retain this Reference Guide as a source for your equipment and supply needs throughout the year.

Glass Door Refrigerators/Freezers (Swing Door)

Provides exceptional display for profitable food and beverages in high impulse sales areas. Oversized refrigeration system holds 33°F to 38°F (Refrigerator) and -10°F (Freezer). Non-peel or chip black laminated vinyl exterior; white exterior also available. NSF, white aluminum interior liner with stainless steel floor. Self closing door.

- Refrigerator—"Low-E" thermal insulated glass door.
- Freezer—Triple pane thermal glass door.

Additional models available.

Traditional Reach-Ins

Highest quality materials and oversized refrigeration system provide you with colder product temperatures, lower utility costs, exceptional food safety, and the best value in today's foodservice marketplace. Bottom mount refrigerator holds 33°F to 38°F. Freezer is ideally suited for both frozen foods and ice cream with -10°F hold temperature (T19FZ maintains 0°F). Model T49 shown. ENERGY STAR®.

CARE OF YOUR REFRIGERATION

Location will vary the frequency of cleaning, but it is recommended that the condenser on all your refrigeration equipment be cleaned once a month.

How To Clean The Condenser

Disconnect the electrical power to the unit.

Remove the louvered grill.

Vacuum or brush the dirt, lint and paper from the finned condenser coil.

If you have significant dirt build up you can blow out the condenser with compressed air. (Caution must be used to avoid eye injury. Eye protection is recommended.)

When finished be sure to replace the louvered grill. The grill protects the condenser. Reconnect the electrical power to the unit.

**Specification Line®**

Standard features include stainless steel finish, LED digital thermometer, easy access flip-up shroud, one-piece top mount refrigeration system, thermostatic expansion valve metering, hot gas condensate removal, advanced control technology, door heater with on/off switch, field door rehanging ability, built-in door locks, 3 wire shelves per section, and ABS door liners. 3-year parts & labor; 5-year compressor parts warranty. Choose from over 950 models.

Model SSR1-SH shown

**6000XL Series Reach-In Refrigerators/Freezers**

Top mount refrigeration system and patented ABS liner improves insulation and decreases thermal leakage. Design improvements include oversized evaporators and condensers, unique tri-seal door gasket, high-efficiency fans, stay-open doors for easier loading, seamless liners for easy cleaning, and field reversible doors. 3-year parts & labor warranty.

6176XL-S	Freezer, 3 S/S Doors

REFRIGERATION HINTS

Separate food items into several categories depending upon the frequency they are needed. Store infrequently used items away from frequently used items. For example, beef patties and French fries can be stored together in one refrigerator; other items used less frequently can be stored in another refrigerator. Label items to avoid searching with the door open.

Do not set the thermostat below the needed temperature. Though doing this fractionally decreases the freezing or cooling time, it uses significantly more energy.

Let hot items cool before placing them in the refrigerator.

Do not store food in a way that it blocks circulation within the refrigerator. Use several trays so that cold air can circulate well over all the products.

Position the refrigeration equipment away from sources of heat such as ovens and grills.

Continental

Refrigerator

Reach-Ins

Reach-ins constructed of aluminum interior and side panels, while a stainless steel front provides the durability needed to stand up to rigorous use. Solid door boasts a self-closing feature so you never have to worry about the unit being left open accidentally. ENERGY STAR®. Model 2R shown

**Enviro-Therm Remote Refrigeration Rack System**

ColdZone delivers green refrigeration technologies that conserve energy and save costs. Enviro-Therm Remote Refrigeration Systems are specifically designed for foodservice and convenience store applications. These energy-efficient systems are engineered to dramatically reduce heat and noise typically associated with standard refrigeration equipment, and use ozone-friendly refrigerants that meet or exceed governmental guidelines. Units available from 1/2 HP up to 40 HP in both single circuit and multiple circuit racks. Contact us for additional information.

**Nova™ Reach-Ins**

NOVA™ products offer the ultimate in custom-built refrigerator and freezer products, with many high end features including solid and glass-doors, half doors, pass-thru, roll-in, and heated cabinets. Standard models ship the same day! 3-year parts & labor; 5-year compressor warranty. ENERGY STAR®.

AdvantEDGE™ Reach-Ins

Basemount reach-ins provide stainless steel interior and exterior and are available in one, two or three door models. Come standard with curved handle with recessed door pocket, automatic condensation evaporation, microprocessor with digital display, 4 vinyl coated shelves per door, door-open alarm, and casters. Same day shipping available on standard models. UL, CuL and ETL sanitation. ENERGY STAR®.

G-Series Pass-Thru Refrigerators

Designed to provide real cost saving benefits in important areas such as lifetime service costs. Value-added features include microprocessor controller with LED temperature readout; load-sure guard protects against improper loading; damage resistant stainless steel breaker caps; 3 epoxy coated shelves and 6"H casters for ease of mobility. Reliable refrigeration costs less to run and maintain and is built to last. UL NSF.

Mini-Pak Refrigeration System

The versatile Mini-Pak Refrigeration System from ColdZone can incorporate up to five compressors and an icemaker condenser circuit into one cost-effective package. The customizable system offers a number of options and configurations to meet specific refrigeration needs. The Mini-Pak includes all the features of a traditional rack system at the price comparable to single compressor units. It's ideal for schools, small restaurants, C-stores, and QSR's. *Contact us for additional information.*

Reach-In Refrigerators/Freezers

ES and EB Series feature top or bottom mounted compressors, oversized coils, and high velocity fans for rapid cooling. Digital controls from 33°F to 54°F (Ref), -10°F to 54°F (Frzr). Defrost is time initiated and terminated. 2 1/2" thick insulation finished in stainless steel interior and exterior with galvanized steel back. Lockable, field reversible doors. Multiple pressure relief ports for smooth re-entry. Choose solid, glass, or half-door for your busy commercial kitchen. Model ESR2 shown.

Model	Description
ESR1	Refrigerator, 1 Door (Top Mount)
ESR2	Refrigerator, 2 Doors (Top Mount)

Refrigerated Display Cases

Open air merchandisers provide industry-leading value and flexibility to fit almost any space requirement. All models share a common width so they may be easily interchanged. Models HOAM48 and VOAM48-79 shown.

Standard features include:

- LED canopy lighting for optimum product display.
- Electronic controller systems for reliable performance.
- Larger pack-out space than many models of similar size.
- Meets 2017 Department of Energy standards.

Model	Description
VOAM48-79	Vertical, 48"Wx34"Dx79"H
VOAM72-79	Vertical, 72"Wx34"Dx79"H
HOAM48	Horizontal, 48"Wx34"Dx46"H
HOAM72	Horizontal, 72"Wx34"Dx46"H
VOAM36-60	Vertical, 36"Wx34"Dx60"H
VOAM72-72	Vertical, 72"Wx34"Dx72"H

BLG/BMG Plus Glass Door Merchandisers

ENERGY STAR® qualified BMG/BLG Plus merchandisers feature full-height glass doors with 4 adjustable cantilever shelves per door for maximum product visibility and double strip LED lighting for maximum illumination. BMG/BLG Plus models also increase pack-out and product visibility with 23½" deep shelving and are available in six cooler sizes with swing and slide door options and also in four freezer sizes with swing doors.

Model	Description
BLG-48-HGP	Freezer, 48½", 2 door, 8 shelf (Swing Door)
BMG-48-HGP	Refrigerator, 48½", 2 door, 8 shelf (Swing Door)
BMG-27-HGP	Refrigerator, 26½", 1 door, 4 shelf (Swing Door)
BLG-27-HGP	Freezer, 26½", 1 door, 4 shelf (Swing Door)
BLG-74-HGP	Freezer, 74½", 3 door, 12 shelf (Swing Door)
BMG-74-HGP	Refrigerator, 74½", 3 door, 12 shelf (Swing Door)

Additional models available.

Vertical Air Curtain Merchandisers

Perfect for impulse traffic areas. Oversized refrigeration system holds 35°F to 40°F. Exclusive, reversing condenser fan motors. Permanent non-peel or chip white laminated vinyl exterior with white aluminum interior and stainless steel floor and deck pans. Foamed-in-place polyurethane high density insulation (CFC free). Adjustable PVC coated shelves. Model TAC-72 comes with 2 white cantilever shelves. Black also available. Model TAC-14GS shown.

Model	Description
TAC-48GS-LD	Glass Side, 30¼"Dx80⅝"Hx48"L, 4 Shlvs
TAC-48-LD	30⅞"Dx80⅝"Hx48"L, 4 Shlvs

REASONS TO USE GLASS MERCHANDISERS

Products and key brands are in front of the customer.

Promotes impulse buying, increasing product sales.

Products and packages look their best because there are no broken packages.

Consumers have easier access to products and have the option of self-service.

See-through glass allows employees to stay on top of product inventory.

Horizontal Air Curtain Merchandisers

Provides fast, easy access to product while maximizing attention to merchandising. Oversized refrigeration system holds 35°F to 40°F. Fan motors reverse during defrost off cycles keeping condenser coil free from dust and debris. Non-peel or chip white powder coated steel exterior. NSF white aluminum interior liner with stainless steel floor. Model THAC-60 shown.

Model	Description
THAC-48	48⅞"Lx30⅞"Dx43⅜"H, 3 Shlvs
THAC-36	36⅞"Lx30⅞"Dx43⅜"H, 3 Shlvs
THAC-36-S	36⅞"Lx30⅞"Dx43⅜"H, 3 Shlvs (S/S)
THAC-48-S	48⅞"Lx30⅞"Dx43⅜"H, 3 Shlvs (S/S)
THAC-60	60⅞"Lx30⅞"Dx43⅜"H, 3 Shlvs
THAC-60-S	60⅞"Lx30⅞"Dx43⅜"H, 3 Shlvs (S/S)

Impulse Refrigerated Self-Service Drop-In Counter Cases

Designed to turn precious counter space into increased sales. Units drop into existing counters and are perfect for cafeteria style serving lines. Innovative air curtain ensures integrated average product temperature of 41°F. Breeze™ slide-out refrigeration package, proven to simplify maintenance and expedite service. Cases offer compact footprints and flexible product merchandising. Model DOS3637R shown.

EFFECTIVE MERCHANDISING TIPS

What you see, smell, and hear directly affects what you will decide to buy.

FACT: 60% of food quality perception is based on the environment.

A black interior makes your case disappear and your fresh, colorful products "pop".

Create a colorful border around your fresh products using larger platters.

See the freshness! Tiered glass shelving allows maximum visibility on every level.

Adjust shelves to accommodate a variety of merchandise and to add visual interest.

Mirrored ends and reflective rear doors help the display appear fresh and full.

Combine single serving foods onto a large platter to create a fresh image.

Create a theme by adding props, greenery, colorful fabrics or bottles of wine. Be creative!

Remember, it's all about stimulating the desire to purchase. Make your displays attractive and enticing using shapes, colors, textures, props and creativity.

True

Dry Display Cases - Curved Glass Bakery

Non-refrigerated dry display case combines efficient, high volume merchandising with an elegant curved glass front for sophisticated presentation of breads, desserts, and pastries. Six exterior colors available. Stainless steel top. White aluminum interior sides and top. Energy efficient "Low-E" thermal glass rear doors. Doors extend full width of cabinet shell.

TCGDZ-59	59 ⁷ / ₈ " L, 2 Slide Doors, 6 Shelves

Notable Chefs

William Mooney

The Brothers Moon
Hopewell, NJ

Chocolate Mousse

Makes 3 quarts, serves 2-20
10 eggs

6 tbsp. butter
3¹/₂ cups Semi-sweet chocolate
(chopped in small pieces)

1¹/₂ cup sugar
2 cups heavy cream

Melt chocolate with butter over a double boiler.
Separate the eggs. (Be careful separating eggs. It's very important that no yolk is in with whites).
In a very clean bowl, whip all of the whites with 1¹/₂ of the sugar to medium firm peaks (full volume). Then chill.
Whip heavy cream to medium stiffness (full volume).
Whip egg yolks with the rest of sugar until light in color and ribbons appear when whip is lifted.
Combine the egg yolks to the melted chocolate.
Gently fold together chocolate and yolk, mix with the egg whites and cream. (Optional flavors added now)
Portion - chill - eat - yummy!

True

Deli Cases

Attractive display case brilliantly displays deli meats and cheeses. Oversized, factory balanced, refrigeration system holds 38°F to 40°F. 18600PTBM Series Prep Tables

Do you need a production center that keeps your costs low, productivity high, and delivers a quality product? Delfield's pizza prep stations meet those needs with an integrated production center that promotes efficiency and production quality. In addition to the standard features, a wide offering of options are available that allow you to configure your pizza prep table to meet your specific needs. 3-year parts & labor warranty. Model 18699PTBM shown.

Model	Description
18648PTBM	12-Pan Cap., 1/4 HP, 10 Amps
18660PTBM	14-Pan Cap., 1/3 HP, 12 Amps
18672PTBM	18-Pan Cap., 1/2 HP, 14 Amps
18691PTBM	22-Pan Cap., 1/2 HP, 14 Amps
18699PTBM	24-Pan Cap., 1/2 HP, 14 Amps
186114PTBM	28-Pan Cap., 3/4 HP, 16 Amps

4400 Series Front-Breathing Refrigerators

Save as much as \$400 per year in energy costs. These ENERGY STAR® 100% front breathing units provide a compact area where storage and assembly areas are combined to create an efficient production system. Choose flat top or top with backsplash with doors or drawers in sizes 27" to 72"W. Mega Top also available. 3-year parts & labor warranty. Model 4472N-30M shown.

Model	Description
4427N	27" Refrigerator Base Flat Top & Work Top
4427N-6	27" Salad Top Refrigerator Base
4448N	48" Refrigerator Base Flat Top & Work Top
4448N-12	48" Salad Top Refrigerator Base, 2 Door
4464N	64" Refrigerator Base Flat Top & Work Top
4464N-12	64" Salad Top Refrigerator Base, 2 Door

Additional models available.

4400 Series Front-Breathing Refrigerators, Mega Top

Food is kept at safe, consistent temperatures, keeping your meal quality high and your food waste cost low. Front breathing technology allows unit to be flush against a wall or built into a cabinet or existing line up. Stainless steel top, sides, and front. Backs are galvanized; interior is easy to clean ABS. 1/2 size plastic pans and anti-microbial polyethylene cutting boards. Model D4460N-24M shown with optional full extension plus drawer system. 3-year parts & labor warranty.

Model	Description
4427N-9M	Single-section, 27"W, (1) door, (9) 1/2 size plastic pans
4432N-12M	Single-section, 32"W, (1) door, (12) 1/2 size plastic pans
4448N-18M	Two-section, 48"W, (2) doors, (18) 1/2 size plastic pan
4460N-12M	Two-section, 60"W, (2) doors, (12) 1/2 size plastic pans
4460N-18M	Two-section, 60"W, (2) doors, (18) 1/2 size plastic pans
4460N-24M	Two-section, 60"W, (2) doors, (24) 1/2 size plastic pans

Additional models available.

Pizza/Cold Prep Tables

Unparalleled quality in Pizza/Cold Prep Tables available in a range of models and sizes. Features include: refrigerated cold-wall condiment rails, ambient temperature dough drawers, under-counter refrigerated storage space in various sizes and configurations, self-closing doors, front locking casters, easy-to-use electronic digital control panel, as well as granite top, backsplash, and side rails. Model GPZ225A shown.

Model	Description
GPZ166A	2-Door, 65 3/8" Wx31 1/2" DxDx44 1/8" H
GPZ223A	2-Door, 87 7/8" Wx31 1/2" DxDx44 1/8" H
GPZ225A	3-Door, 88 3/8" Wx31 1/2" DxDx44 1/8" H

Compact Undercounter Refrigerators, Freezers & Prep Tables

Door and drawer models available on select models. Stainless steel exterior sides, top, and doors offer durability with an attractive appearance. Anodized aluminum interior and liner stand up to kitchen wear. Self-contained, front-breathing design allows "zero clearance" installation. Meets NSF 7 requirement. Refrigerator models are ENERGY STAR® listed. Prep Tables come with pans, adapter bars, and cutting boards. Model UPT4812 shown.

Model	Description
UPT276-L	Prep 27"W, Hinged Left, Holds 6 Pans (included), Roll Top & Shelf
UST276-L	Prep 27"W, Hinged Left, Holds 6 Pans (included)
UPT328-L	Prep 32"W, Hinged Left, Holds 8 Pans (included)
UST3212-L	Prep 32"W, Hinged Left, Holds 12 Pans (included) (6"D pans only in front row)
UPT4812-LR	Prep 48"W, Hinged Left, Right, Holds 12 Pans (included), Roll Top & Shelf
UST4812-LL	Prep 48"W, Hinged Left, Left, Holds 12 Pans (included)

Additional models available.

TS Series Self-Contained Prep Tables

All day temperature performance to NSF7 requirements. No pan stirring required. Traulsen's TempAssure air flow system circulates cold air around and underneath the pans as well as lofting a protective blanket of cold air over the food surface. Even cooling prevents dried or frozen product. Includes Intela-Traul micro-processor control and stainless steel interior/exterior. Model TS072HT shown.

Model	Description
TS048HT	48", Holds (6) 1/3 Pans
TS066HT	66", Holds (9) 1/3 Pans
TS072HT	72", Holds (10) 1/3 Pans
TS090HT	90", Holds (12) 1/3 Pans

8000N Series Raised Rail Preparation Tables

Engineered for high-heat kitchens, the wrapped wall system is designed to hold foods at precisely the ideal temperature. Raised rail holds 6"D pans and comes with a drain for easy clean-up. Separate dual control system for rail and base allows shutting rail off at night for up to 60% energy savings. Model 8268N shown.

Model	Description
8148N	48", Holds (6) 1/3 Pans
8260N	60", Holds (8) 1/3 Pans
8268N	68", Holds (9) 1/3 Pans
8383N	83", Holds (10) 1/3 Pans
8395N	95", Holds (12) 1/3 Pans
84111N	111", Holds (14) 1/3 Pans

Additional models available.

9000K Refrigerated Sandwich/Saladtop Series

Maximum top capacity for condiments and maximum base storage capacity with "front breathing", side-compressor 9000K series. With full depth interiors, you can add high capacity drawers, tray racks for 18"x26" sheet pans or simply store more items in the large storage space that is available. Comes fully assembled and includes expansion valve refrigeration, high impact ABS door liners, hot gas evaporator, and casters.

Model	Description
9030K-7	48", Holds (3) 12"x20" Pans
9040K-7	60", Holds (4) 12"x20" Pans
9045K-7	72", Holds (5) 12"x20" Pans
9050K-7	84", Holds (5) 12"x20" Pans

Corn Fritters

Yields 1 1/4 quarts = 48 balls

- 3 1/2 cups flour
- 2 tbsp. baking powder
- 1 tsp. salt
- 2 eggs
- 2 cups milk
- 2 tbsp. melted butter
- 1 cup corn

Sift dry ingredients into wet ingredients.

Mix.

Fold in corn.

With a small ice cream disher, scoop and fry at 360° to golden brown.

Dip into room temperature softened goat cheese and garnish with scallions.

NORLAKE

AdvantEdge™ Food Preparation Tables

Come standard with cutting board, stainless steel construction, self-closing doors, and 1/6 size pans. Available in standard and mega-top configurations. 3-year parts & labor, 5-year compressor warranty.

Model	Description

**TBC Series Blast Chillers**

Epicon™ control offers three ways to start chilling.

1. Smart Probe™ mode requires no buttons to be pushed.
2. Auto menu mode for simple menu item recall. Operation is regulated by the food probes, ensuring proper cycle performance every time.
3. Manual menu mode for advanced operators.

All modes offer chill setting adjustments, such as HACCP documentation, provided at the end of cycle through an on-board printer and USB port.

Model	Description
TBC5-50	Undercounter, (5) levels, chills 40#-75#
TBC13-24	Reach-In, 13 levels, chills 75#-150#
TBC1H-20	Roll-In, chills 150#-250#

Additional models available.

**Blast Chillers & Shock Freezers**

The largest line of blast chillers and shock freezers is now more versatile than ever. Increase productivity and coordinate meal plans more efficiently while promoting food safety and conserving energy. Optional thaw feature allows food products to be safely thawed and held at temperature, all within HACCP guidelines. Optional UV light sterilizes all metal surfaces within the cabinet for an added layer of sanitation. With 24 different models ranging from 5 to 120-pan, HURRICHILL has a unit for any application. Model AP20BCF200-3 shown.

Model	Description
AP5BCF45-2	Cap.: 45 lb. chill, 27 lb. freeze, 5-pans, 29½"Wx28¼"Lx35½"H
AP7BCF70-2	Cap.: 100 lb. chill, 60 lb. freeze, 7-pans, 32¼"Wx36"Lx53"H
AP10BCF100-2	Cap.: 100 lb. chill, 60 lb. freeze, 10-pans, 29½"Wx28¼"Lx60½"H
AP12BCF110-3	Cap.: 160 lb. chill, 90 lb. freeze, 12-pans, 32¼"Wx36"Lx74"H
AP20BCF200-2	Cap.: 200 lb. chill, 120 lb. freeze, 20-pans, 47¼"Wx42"Lx86⅝"H
AP40BCF450-3	Cap.: 450 lb. chill, 270 lb. freeze, 40-pans, 59"Wx50⅝"Lx86⅝"H

Additional models available.

**Versa Drawer™**

Each drawer is its own separate compartment and can operate as a refrigerator, freezer, chiller or thaw cabinet. Operate any of the drawers in any mode, at any time. Fewer refrigeration systems mean reduced service cost and energy consumption. Built-in alarm notifications and service diagnostics. Each drawer holds 2 full size pans. Available in 2- or 4-drawer undercounter models.

Model	Description
18650VDR	Worktop, 2 Drawer (Right Compressor)
18650VDL	Worktop, 2 Drawer (Left Compressor)
18682VDR	Worktop, 4 Drawer (Right Compressor)
18682VDL	Worktop, 4 Drawer (Left Compressor)
F2984VDR	Equipment Stand, 2 Drawer (Right Compressor)
F2984VDL	Equipment Stand, 2 Drawer (Left Compressor)

**Blast Chillers & Shock Freezers**

Only ThermalRite Blast Chillers and Freezers feature CypenVac™ Technology, winner of the Kitchen Innovations award, which can reduce energy usage up to 43%. Newly designed, easy-to-use, electronic, touch-screen control panel. Meets the demands of HACCP guidelines for proper food chilling and freezing. 2-year parts & labor warranty. Additional warranty for years 3-5 on compressor (part only).

Model	Description
GBF44-26S TS	7" Touch Screen, (4) 12"x20" pan cap., 44 lbs. Blast; 26 lbs. Shock
GBF143-110S TS	7" Touch Screen, (14) 12"x20" pan cap., 143 lbs. Blast; 110 lbs. Shock
GBF171-132S TS	7" Touch Screen, (17) 12"x20" pan cap., 171 lbs. Blast; 132 lbs. Shock

Additional models available.

WHY DO YOU NEED A BLAST CHILLER?

Peace of Mind – Knowing that you have properly chilled your hot food through the danger zone and are in full compliance with the FoodSafe practices of HACCP.

Food Quality – Blast chilling maintains food texture, flavor and appearance. Your customers can count on the same great taste every time.

Wider Menu/Greater Choices – Increase your profitability by adding new menu items.

Less Shrinkage – Increase the yield of your prepared foods by not losing out to normal moisture loss through evaporation during slow cooling.

Less Waste – Finish chilled entrees as needed. Take away the risk of over-preparing and discarding good (profitable) product.

Time & Labor Savings – Prepare foods when you want to; when the staff is available; and when the pace best suits your creative juices without the normal hustle and bustle of a busy kitchen. Cook now, blast chill and finish later.

Improved Shelf Life – Capture that seasonal or special bulk buy opportunity and blast chill for a few extra days or shock freeze to stock up for the winter.

**Blast Chillers**

Great for batch cooking applications resulting in cost savings, better utilization of labor, and increased efficiency. With undercounter, worktop and upright units from 30-200 lbs. cap., Randell Blast Chillers chill food safely exceeding HACCP guidelines. Automatic cooling system with food probes for accurate temperature control. Solid state control with digital read-outs for more accurate data collection. Dual stainless steel air flow plenums for easy cleaning.

Model	Description
BC-10E	Worktop/Undercounter, 10 pan (100#)
BC-18	Upright 18 pan (180#)
BC-3	27"W Undercounter 3 pan (30#)
BC-5	Upright 5 pan (50#)
BC-5E	Worktop/Undercounter 5 pan (50#) 47¼"Wx42"Lx86⅝"H

Additional models available.

Griddlestands

Griddlestands feature easy glide, fully extendable drawers designed to hold 6" deep pans side-by-side and hold up to 250 lb. capacity. Front breathing models come standard with stainless steel interior, exterior and rear. Heavy-duty drawer tracks have built-in drawer safety clips. Cabinets have the option of a left or right condensing unit. Model DL60G shown.

Model	Description
DL36G	Refrigerator, 36", 2 Drawer
DL48G	Refrigerator, 48", 2 Drawer
DL60G	Refrigerator, 60", 2 Drawer
DL72G	Refrigerator, 72", 4 Drawer
DL84G	Refrigerator, 84", 4 Drawer
DL96G	Refrigerator, 96", 4 Drawer

Additional models available.

Continental
Refrigerator

Chef Bases

The ECB Series is uniquely designed to eliminate heat-induced distortion of the work top surface caused by prolonged exposure to mounted cooking equipment. Heat resistant drawer gaskets will never warp. Stainless steel corner guards secure mounted cooking equipment. 2 1/2" thick insulation finished in stainless steel interior and exterior, with galvanized steel back. Digital controls from 33°F to 54°F. Time initiated and terminated defrost.

Model	Description
ECB52D2	2 Drawer, 52"
ECB52-60D2	2 Drawer, 60"
ECB72D4	4 Drawer, 72"
ECB82D4	4 Drawer, 82"
ECB82-84-D4	4 Drawer, 84"
ECB82-86-D4	4 Drawer, 86"
ECB96D4	4 Drawer, 96"

FX Series Refrigeration

Better temperature control and stability. Operate at any temperature setting between -5°F to 40°F, allowing you to store a variety of food products. And, the industry's only system that will hold fresh fish without ice...precisely at 32°F. The magnet-to-magnet seal of the lid to the insert locks cold air in. This cut down on spoilage, waste, and reduces the risk of bacterial contaminant, which in turn boosts profits.

Model	Description
FX-1	Built-In: Refr/FrZR, 46"W, 16.3"H, 1 drawer (40° refr, 0° frZR), unfinished top
FX-1CSRE	Chef Stand: Refr/FrZR, 39"W, 1 drawer (40° refr, 0° frZR), finished top, casters
FX-2CS	Chef Stand: Refr/FrZR, 96"W, 2 drawer (40° refr, 0° frZR), finished top, casters
FX-2WS	Work Top: Refr/FrZR, 46"W, 35.6"H, 2 drawer (40° refr, 0° frZR), finished top, casters
FX1-4N1	Built-In: Refr/FrZR/Rapid Chiller/Safety Thaw, 46"W, 16.3"H, 1 drawer (40° refr, -5° blast chiller), 4 hr blast chill, 6 hr safety thaw, unfinished top

Additional models available.

METRO

C5™ R-Series with Refrigeration Armour

Heavy duty mobile refrigerators built for on-site holding, transport, and serving of chilled food and beverages. Stainless steel construction with foamed-in-place polyurethane insulation provides superior rigidity and improved energy efficiency. All-in-one, easily removable refrigeration cassette is mounted on vibration/shock isolators for complete refrigeration system protection. Available with adjustable slides to hold 12"x20" steam and 18"x26" sheet pans, or fixed for 12"x20" steam pans. NEMA 5-15P

Model	Description
C5R9-SB	Adjustable bottom load slides, 120V, 5.0A, 60Hz,
C5R9-SL	Adjustable lip load slides, 120V, 5.0A, 60Hz,
C5R9-SF	Fixed lid load slides, 120V, 5.0A, 60Hz

Refrigerator/Freezer Worktops

An exceptional combination of refrigeration units that provide a functional work surface for easy preparation. Stainless fronts, tops and sides, castors, and self-closing doors. One-piece reinforced stainless steel back splash prevents food and bacteria entrapment. Height doesn't include 6 1/4" for casters. Model TWT-48 shown.

Model	Description
TWT-27	30 1/8" Dx 33 3/8" Hx 27 3/8" L, 1 Door, 2 Shlvs
TWT-27F	30 1/8" Dx 33 3/8" Hx 27 3/8" L, 1 Door, 2 Shlvs

Shelleymatic® Air Curtain Milk Coolers

Retains 40°F temperature for up to 2 hours, with lids open. Interior is lined with 22 gauge, stainless steel. Cabinet is fully insulated with 2" high-density foamed-in-place polyurethane. Capacity 8, 12, or 16 milk crates. Uses HFC-134A refrigerant.

Model	Description
NLFAC-8	Holds 8 milk crates
NLFAC-12	Holds 12 milk crates
NLFAC-16	Holds 16 milk crates

Shelleymatic®

Milk or Beverage Dispensers

Mobile, self-contained milk dispenser is available in 12 and 18 crate capacities. Drop front allows for easy access. Door lock is standard. Casters provide serving mobility and convenience. Cabinet maintains temperature of 36°F to 40°F with lids closed. Fiberglass/laminate panels are available to match any décor. Uses HFC-134A refrigerant. UL, NSF, 120V.

Model	Description
NDF-18	18 crate cap.
NDF-12	12 crate cap.

NOVA™ Milk Coolers

New design incorporates 50% reduction in energy consumption. Powerful refrigeration system maintains product temperature for longer periods of time with the door open. Storage for 8, 12, or 16 cases of milk cartons. Drop lid provides self-serve milk with easy access. Heavy-duty floor racks and key locking feature. 3-year parts & labor; 5-year compressor warranty. ENERGY STAR®. Model AR124 shown.

Model	Description
AR082SSS/0-A	Open Front, 8 case cap.
AR122SSS/0-A	Open Front, 12 case cap.
AR162SSS/0-A	Open Front, 16 case cap.

Notable Chefs

Jude D. Tauzin

**Tony Chachere's
Creole Foods**
Opelousas, LA

**Pan Seared Redfish
with mixed greens
and a Louisiana
Crawfish Vinaigrette**

Yield: 4 servings

4 ea. Redfish filet- scaled-skin on (5oz.)

2 tbsp. olive oil

2 tbsp. Tony Chachere's Spice & Herb Seasoning

Drizzle the 2 tbsp. of olive oil into a large skillet on high heat. Once pan is hot, place in the seasoned Redfish and reduce heat to medium high. Allow fish to caramelize (about 2 minutes) then flip the fish and repeat the process. Place in oven and bake for 8 minutes. Remove fish from oven, and reserve for plating.

Warm Crawfish Vinaigrette

1 tsp. butter

1/2 lb. Louisiana Crawfish Tails

1/2 tsp. Tony Chachere's More Spice Seasoning

1 tbsp. Creole mustard

2 oz. Rice Wine vinegar

4 oz. olive oil

Place the sauté pan with butter on the stove over high heat. Add crawfish tails and toss occasionally until heated throughout. Season with Tony Chachere's, remove from heat and add the Creole mustard and the rice wine vinegar. Slowly add the olive oil to create an emulsion. (Reserve for plating)

For Service: Place a small handful of mixed greens on the plate, place a piece of Redfish on top of the greens and spoon over the crawfish. Garnish with your favorite tomatoes or fresh vegetables.

KOOLAIRE®

Ice Kube Machines

Koolaire® is engineered from the ground up to be a durable, low cost, basic featured ice machine. With front access to the food zone, white components in the food zone, and a tool-free parts removal food zone, the Koolaire® ice machine is very simple to maintain. Basic features you need, reliability you expect, and a price that fits your budget. Model K0500 shown on K570 bin (bins sold separately).

**THE ICE MACHINE
CONDENSER QUESTION**

Which one is ideal? A water-cooled model is quiet, easy to install and does not emit excess heat into the room. The trade off is the cost of the water. In many areas, water-cooled machines are not even allowed, so check with the local authorities.

Self-contained air-cooled machines are the easiest and cheapest to install; however, they make the most noise and exhaust heat into the surrounding air. Remote air-cooled models have a low noise advantage over water-cooled and use no more water than a self contained air-cooled, but they are expensive to install.

Ice-O-Matic®

Ice. Pure and Simple

ICE Series™ Modular Cube Ice Machines

Redesigned to offer better reliability coupled with carefree operation and maintenance. Produces pure, crystal-clear, long-lasting cube ice for the most demanding foodservice and hospitality needs. Model ICE0400 shown on B55 bin (bins sold separately).

B-420	310 lb. bin
B-570	430 lb. bin
B-970	710 lb. bin

WHAT MAKES FOR AN EASY CLEANING PROCESS?

- Ask yourself the following questions...
- How many steps does it take to get to the food zone?
 - Are special tools required?
 - Are parts, like the water trough, removable so they can be easily cleaned in a sink?
 - Are the components light colored so you can spot mold growth?
 - Can you see the evaporator surfaces to confirm that lime and scale are not building up?
 - Is the water pump easily accessible and removable to clean any buildup of scale, lime, or sediment?

Ice-O-Matic®
Ice. Pure and Simple

Slope Front Storage Bins

Slope-front storage bins include a built-in scoop holder so you never have to search for the scoop again. Industry-leading design includes a safe-hold door hinge, tightly sealed bin doors, and a stainless exterior. One-piece polyethylene bin liners and industrial foam insulation provide maximum ice preservation with less congealing. Constructed with practicality in mind for years of carefree operation.

EZH2O® Bottle Filling Stations

Bottle filling station provides a rapid fill of filtered water to quench thirst and minimize plastic bottle waste in the environment! One-handed operation allows for a quick fill between activities. Electronic sensor for touchless, sanitary operation. WaterSentry® Plus filter with enhanced sediment capabilities. Silver Agion anti-microbial protects against mold and mildew growth. Innovative Green Ticker™ tracks the bottles saved from landfills. *Contact us for additional information.*

DUO-PAK Multi-Circuit Condensing Unit

Performs the function of 2 condensing units! Replaces either a 95M (1HP) or 70M (3/4HP) condensing unit and a 199L (2HP) or 149L (1 1/2HP) condensing unit. Supplies refrigeration to both a walk-in cooler and a freezer. Available as PCL (pre-charged with refrigerant and up to 40' of pre-charged lines provided) or PR (pre-assembled remote system shipped with nitrogen holding charge). Liquid line sight glass. Energy efficient PSC fan motors. Two 14" fan blades. ETL listed to UL Standard 1995. *Contact us for additional information.*

"M" Series Strip Doors

Reduce energy costs with the ideal strip door for walk-in coolers and freezers. M-Series doors are available in both 6" and 8" wide standard or low temp polar reinforced flexible PVC strips. All doors include universal mounting hardware. Each strip features a loop top for easy installation—strips just slide onto the mounting bar. Complaint with the Energy Independence & Security Act of 2007.

Perfect Fall Soup

- Sweet onions, chopped small dice
- Extra virgin olive oil
- Sweet corn, cut off of cob
- Fresh tomatoes, chopped roughly
- Spanish monastrell wine
- Available squashes, chopped medium dice
- Available potatoes, chopped medium dice
- Organic heavy cream
- Fresh herbs, i.e. basil, thyme or flowers
- Sea salt
- Fresh pepper
- Local aged hard cheese, shaved

Sauté the onions on high heat in the olive oil, add the corn, red wine and tomatoes. Cook until the wine reduces by 75%.

Then add the squash and potatoes and add water to just cover the ingredients. Now add the cream, about 20% of the volume of the pot. Simmer for 20 minutes, give or take, until squash and potatoes are almost tender, but still al dente.

Season with salt and pepper. Add the herbs and simmer for a few minutes longer.

Serve and garnish with the cheese and maybe a little fresh black pepper.

Multi-Pak

The all new Multi-Pak is a multi-circuited vertical discharge condensing unit that can be configured to handle multiple compressors up to a total of 20 HP. Design can go from a single fan model up to a 4 fan version. Systems have single point electrical and are provided with a fused disconnect for easy electrical installation. Each compressor has individual circuit breaker protection. *Contact us for additional information.*

M108-PR-80-6PK	Replacement Strip Pkg of 6 Polar Reinforced PVC 8" Loop Strip 80"H

Additional models available.

Walk-In Refrigerators & Freezers

Kolpak's modular construction can meet your exact requirements in an indoor or outdoor cooler, freezer or combination, with the size, roof configuration, and options you want. You get quality with features that make Kolpak a sound investment: energy saving 4" thick foamed-in-place urethane insulation; standard galvalume metal finish for greater corrosion resistance; energy saving 120 series refrigeration operates at higher ambient temperatures. *Contact us for additional information.*

ArcticFox™ Total Cooling Control

Provides maximum energy efficiency through electronic expansions valves and Tru-Dmnd™ defrost technology. Tru-Dmnd™ initiates defrost cycles only when needed, avoiding up to 93% of standard system defrost cycles and up to 12% fewer cycles than a "smart defrost" control. Self-adjusting defrost cycles means no need for seasonal adjustments. The 120° ambient refrigeration design maximizes performance range on the hottest days. Programmable light control and door ajar alarm included. *Contact us for additional information.*

Polar-Pak® System

Easily installed without the services of a refrigeration technician or plumber. Corners, wall panels, and doors are quickly assembled on the unit's floor, and ceiling panels lifted in place. Self-contained wall-mounted refrigeration unit, equipped with casters, is rolled up and fitted into place. Top mount offers an easy install and is flush to the ceiling allowing maximum use of storage space. Energy efficiency 4" urethane panels meet insulation requirements. *Contact us for additional information.*

CONSERVING ELECTRICITY WITH YOUR WALK-IN

You can help conserve electricity and control your costs by adopting the following practices in the use of your Walk-ins.

1. Use proper operating temperature: Many users set thermostats lower than necessary, causing a waste of electricity. If in doubt about proper temperatures, contact your dealer.
2. Organize stored products for fewest door openings: Infrequent, short openings minimize cold air loss. Don't prop doors open.
3. Keep cooking coils clear of stored product.
4. Turn off inside lights when the walk-in is unoccupied: Lights consume electricity and generate heat.
5. Eliminate unnecessary packaging material: These materials retard product cooling and increase electricity use.
6. Leave air space between stored products.
7. Cool hot foods to room temperature before placing them in the walk-in: Most foods can be cooled to room temperature before being placed in the cooler or freezer. If in doubt, check with local health officials.
8. Use proper defrost cycles in freezers: Two defrost cycles are required for normal use. If excessive frost forms on coils, call for service.
9. Keep compressors clean: Dirt, leaves, paper and other matter on the compressor increase electricity use. Vacuum the compressor regularly.

Quick Ship Coolers & Freezers

Designed for maximum cold holding performance with minimum environmental impact, all while saving you money on energy and operating costs. 48-hour shipping now available on 7'6" Single Compartment Coolers or Freezers with Remote Refrigeration Systems. Indoor Walk-Ins feature standard door, right or left hinged (no options), NSF .100 smooth aluminum floor (coolers available floorless), and 26 gauge stucco-embossed Galvalume steel in and out. *Contact us for additional information.*

Air Shield

Keep the cool air where it belongs and eliminate the hassles of strip curtains. Reduces the amount of warm air infiltration-up to 20%. Mounts vertically, adjacent to the walk-in door on the interior wall surface. Channels a barrier of refrigerated air and is automatically activated when the door is opened and shuts off when the door closes. Use on 26", 30", 34" and 36"W door openings and 74" to 80"H. NSF. UL listed. 1-year parts & labor warranty. *Contact us for additional information.*

Walk-In Freezers & Coolers

Walk-in coolers, freezers and combination cold rooms are custom designed to satisfy exacting job site conditions. Choose from a large selection of metal finishes, walk-in accessories, and custom engineered refrigeration systems. Get a step closer to LEED certification with superior insulation, LED lighting, scroll compressors, hot gas defrost, and many more options to maximize energy savings. Upgrade to a System 200 and retrieve HACCP records at the push of a button. *Contact us for additional information.*

Refrigeration Systems

Complete selection of high performance refrigeration equipment and accessories for the most efficient and reliable installation possible. Our factory engineered remote, remote quick connect, pre assembled remote or top/side quick connect self contained units are available for any indoor or outdoor application. All systems are fully EISA compliant and come with a 5-year compressor warranty with labor warranties available on pre-charged systems. *Contact us for additional information.*

Kold Locker™ Walk-ins

SAME DAY SHIPMENT! Choose from over 10,000 Indoor or Outdoor Coolers, Freezers and Combination Cooler/Freezers! Sizes from 4'x5' to 8'x20'. Heights from 6'7" and 7'7" with floor; 7'4" floorless. Three temperatures: +35°F, -10°F, -20°F. 26 gauge stucco embossed coated steel. 26" wide self-closing doors. FRP threshold. 15-year panel; 18-month parts & labor warranty.

Quick Ship Walk-Ins

Free freight to domestic U.S. locations. Ship within 5 working days after order is received. Coolers, freezers, and combination models are available with either a matching remote or packaged refrigeration system. Indoor and outdoor models available. Outdoor models include weather hood for the roof-mounted refrigeration system, membrane covering for the walk-in roof, and rain canopy for entry door. *Contact us for additional information.*

1-Piece Outdoor Walk-in

Save on construction cost and installation time with 1-piece walk-ins from ICS.

- Cooler, freezer, and dry storage combinations up to 14'x50'
 - 4" to 6" wall thickness, with and without floors in multiple compartments
 - Fully engineered to meet a multitude of local and state regulations
 - Many color, texture, and architectural finish options available (as shown).
- Contact us for additional information.

Refrigerated Trailers

ICS Refrigerated Trailers are the answer to your temporary and mobile storage needs. These units can be operated as coolers or freezers in the same space with their unique refrigeration system. They can be purchased with generator for remote use and come equipped with lighting, load levelers, and spare tire, ready to use in your mobile application. Contact us for additional information.

Walk-Ins

ThermalRite experts will custom design a walk-in to maximize your usable space. Built to order in exact dimensions—no need to settle for nominal dimensions or standard sizes. Foamed-in-place urethane provides the best insulation available today. Many finishes available, including the exclusive antibacterial Sanisteel®, a 2015 Kitchen Innovations award winner. Choose from a range of energy-saving light sources. Contact us for additional information.

Quick Ship Walk-ins

Under our ICS Quick Ship walk-in program, we'll ship your ICS Panel or 1-piece walk-in within five days of receiving your order. Set options and pricing are offered for this program in coolers, freezers, and dry-storage, with or without refrigeration. Sizes range from 6'x6' to 10'x10' for Panel offerings and 8'x8' to 8'x20' in the 1-piece offerings. Call us today for your short lead time needs. Contact us for additional information.

Refurbishment Services

Has your walk-in seen better days, but it has not reached the end of its life? Maybe it's time for an ICS makeover. Refurbishing a walk-in is easy when you work with the professionals at ICS. They provide all the materials to repair or replace floors, walls, and doors. Looking for installation services as well, look no further. And what's more, they can refurbish any manufacturer's equipment. So when it's time to update the walk-in, think ICS. Contact us for additional information.

Coffee Percolators & Brewer

Stainless steel percolators available in 3 sizes. Equipped with a clear water level gauge and indicator signals when coffee is done brewing. 120V. 1350W. The Pour-Over Brewer has 2 switches for warming and brewing. Heating plates ensure optimal temperature for extended periods. Accepts standard filters and decanters sold separately. 120V. 1650W. ETL listed and ETL sanitation.

Model	Description
CP-40	40-Cup Percolator
CP-60	60-Cup Percolator
CP-100	100-Cup Percolator
CBS-2	Coffee Brewer

Pour-Over Coffee Brewers

If you're looking for rich, flavorful coffee but are tight on counter space, plug in a Bloomfield Lo-Profile® brewing system. At a little under 19" tall, they're short in stature but long on features. A ready-to-brew light indicates the proper water temperature to help eliminate brewing guesswork and the patented water delivery system gently spreads a precise amount of water over the coffee grounds for complete saturation and optimum flavor. UL, NSF.

Model	Description
8543-D2	Koffee King 2 Warmer In-Line Pour-Over, 1700W
8571-D3	Koffee King 3-Warmer Stepped Right, Pour-Over, 1800W
8542-D1	Koffee King 1 Warmer In-Line Pour-Over, 1600W
9003-D3	Integrity 3 Warmer In-Line Pour-Over, 1800W

West Bend® Coffee Makers

Fast-brewing coffee makers include dual thermostats for quick heat up and consistent holding temperature. Brew up to 100 cups in less than one minute per cup. Feature mug clearance, cool-touch handles and knobs, non-drip Thomlison® faucets, 2-year limited warranty. NSF and UL Commercial Rated (except 58030 & 58002 models, household use only). Classic urn family shown.

Model	Description
58030	30 Cup Classic Coffee Maker
58002	42 Cup Classic Coffee Maker
58055R	55 Cup, Aluminum Urn
58001R	101 Cup, Aluminum Urn
54160	60 Cup S/S Contemporary Coffee Maker
54100	100 Cup S/S Contemporary Coffee Maker
13550	55 Cup S/S Traditional Coffee Maker

Additional models available.

Hot Water Dispenser

The Bloomfield hot water dispenser with LCD panel combines style, function, reliability, and value with a pioneering new development in water boiler filtration. A water filter is essential to reduce problematic scale build-up and to remove impurities that can leave an unpleasant taste. FilterFlow revolutionizes the water boiler design by incorporating the filter cartridge within the boiler casing ensuring premium water quality and reduced scale build-up. Model 1228-DLX, 3 Gal., dispenses 205 cups per hour.

Citrus Juicers

Serving fresh citrus juice is a great way to "squeeze" more profit out of your business. Easy to assemble, disassemble, and clean. Hygienic surgical stainless steel bowl with pulp strainer and splash guard make juicing fast and easy. Compact JUC-100 makes glasses of juice on demand. High speed JUC-200 is built for continuous use and makes gallons of lemonade, orange, lime or grapefruit juice in minutes. Both include 3 cones for all sizes of citrus. ETL. UL. CSA. NSF. 1-year warranty.

Model	Description
JUC-100	150 RPM
JUC-200	High Output, 1800 RPM

Commercial Juice Presses & Citrus Squeezers

Whether it's a glass of orange juice or lime juice for a refreshing margarita, Focus Foodservice commercial juice presses or hand-held citrus squeezers produce the sweetest juice possible. Jupiter™ and Olympus™ cast iron tabletop juicers are available in black and white. Opti-Squeezers will produce the maximum amount of juice for any hand-held squeezer, using 50% less effort to do it.

Model	Description
97302	Olympus XLarge, White
97306	Olympus XLarge, Black
97332	Jupiter, White
97336	Jupiter, Black
8927	Opti-Squeeze Lemon
8928	Opti-Squeeze Lime
8929	Opti-Squeeze Orange

Value Bar Blenders

Any 16 oz. icy drink served perfectly smooth and with no ice chunks—in as little as 25 seconds! Stainless steel blades quickly cut through ice and other ingredients. High/low/off toggle switch is easy to reach and control. 1-year warranty. UL, NSF, CSA.

Model	Description
HBB909	32 oz. S/S Container
HBB908	44 oz. Poly Container
51000	48 oz. Plastic Container (Proctor Silox)

Fury™ Blender

Large paddle switches make operating the power blender fast and easy. Just set the adjustable timer to suit your recipe, and simply hit START for smooth results every time. Powerful 3 HP motor with stainless steel blades are made to last and get the job done fast. Stackable Wave~Action® 64 oz. container provides a super smooth drink profile, every time. Model HBH550.

Tempest™ Blender

For ultimate flexibility, operators can choose from high and low speeds, timed cycles, and a jump cycle (starts in low speed, then ramps up to high). Includes 64 oz. stackable container, timer with automatic shut off, and a jar pad sensor, which turns the motor off when container is not in place. 3 HP motor. 2-year or 20,000 cycle parts & labor full replacement warranty. Model HBH650.

Spindle Drink Mixer

Great for everything from mixing ice cream shakes to “flashing” bar drinks and blending eggs, pancake, and waffle batter. Powerful 1/3 HP motor per mixing head mixes twice as fast. Two-way motor activation allows operators to start and stop mixing action by inserting cup into cup guide, or by using the pulse switch on top of mixer. NSF. UL.

Model	Description
HMD200	Single Spindle
HMD400	Triple Spindle

Tango Blenders

Powerful 1 HP motor blends a 16 oz. daiquiri in 15 seconds! Adjustable timer automatically stops blender so you can do other tasks. Comes with a stackable 48 oz. Wave~Action® container, 2 speeds and pulse for precision blending. 2-year or 20,000 cycle parts & labor full replacement warranty. CUL. UL. NSF. Model HBH450R.

Xtreme Hi-Power Blenders

Heavy-duty 3.5 HP motor and 45,000 RPM provide awesome speed and performance. Optional solid sound enclosure keep it quiet. Choose simple paddle switches for quick and easy operation or easy-to-clean electronic membrane keypad. Choose from a 64 oz. unbreakable, BFA-free, co-polyester or stainless steel container. cETLus. NSF. Limited 3-year motor; 2-year parts & labor warranty. Model MX1000XTX shown.

Model	Description
MX1300XTX	Electronic Keypad, LCD Display, 4 Programmable Selections, Adj. Speed Controls
MX1500XTX	Electronic Keypad, LCD Display, 4 Programmable Selections, Adj. Speed Controls, Sound Enclosure
MX1000XTX	Toggle Switches
MX1050XTX	Electronic Keypad
MX1100XTX	Electronic Keypad, 30 Second Countdown Timer
MX1200XTX	Adj. Speed Control

Additional models available.

Electric Glass Washers & Accessories

Bar Maid Glass Washers get glassware cleaner, faster using less water and chemicals than most other glass washing systems. Install in virtually any bar sink in seconds with no special plumbing or electrical hook-ups. Five spinning brushes scrub inside and out removing tough stuff like lipstick and fruit pulp. Combine with Bar Maid LoSUDS detergent, sanitizer, and test strips and you have the ultimate glass washing system!

Model	Description
A200	Glass Washer, Upright
SS100	Glass Washer, Submersible
DIS201	Sanitizer Tablets, 6 bottles/cs., 150 tabs/bottle
DIS202	Quaternary Strips, 12 disp/cs., 100 tests/dispenser
DIS302	Chlorinated Strips, 12 disp/cs., 100 tests/dispenser
LDET200	LoSuds Detergent, 4 gal./cs.

CLEAN GLASSES RAISE PROFITS

Any grease, dirt, or soap film on a glass can leave beverages flat. A properly cleaned glass allows water to sheet off evenly, leaving it to dry without spots and streaks. Soda and sparkling wine will taste fresher with more fizz. Wine lovers will experience the true color, aroma, and taste of fine wines. When serving beer, clean glasses also promote an appealing "head" on the beer that leaves a lace with every sip. Controlling the head on a beer also carries profit and loss factors. An electric glass washer and proper chemicals may be something to consider for consistent profits and customer satisfaction in beverage service.

Follow QR Code to read the KitchenBiz Article: **INCREASE PROFITS THROUGH PROPER BEVERAGE SALES**

Champion®

The Dishwashing Machine Specialists

Glasswashers

Clean and sanitize up to 2,000 glasses per hour. Choose rotary or pass-through, both providing up to 12" of clearance for taller stemware. The three-pump injection system provides precise chemical dispensing. Upper and lower wash and rinse arms produce sparkling clean glasses every time. Fresh, cool water sanitizes glasses in the final rinses so they are ready for immediate use. Model CG shown.

Model	Description
CG	Rotary-Type
CG4	Pass-Thru, 38 1/2" Hx48"W
CG6	Pass-Thru, 38 1/2" Hx72"W

Glass Polisher

When your glassware sparkles, so does your reputation. Portable glass polisher saves time and effort by ensuring wet glasses get gently polished and dried simultaneously in seconds. Eliminates the need for potentially unsanitary hand polishing and reduces breakage. Removable polishing heads are easily installed and dishwasher safe. Polishes all types and sizes of glassware. Model GP100, polishes up to 350 glass per hour.

ADCRAFT

The REDHEAD Electric Glass Washer

Removes stains on glass surface. Features that you can rely on include quick and easy installation, heavy duty construction, and a powerful 1/3 HP motor. Comes complete with four 7" brushes and one 8 3/4" center brush. 115V, 4/5 amps. CE. Model GW-120.

Delta 5 Glass Washer

ENERGY STAR® qualified and rated by NSF as both a dishwasher and a glasswasher using 1.16 gallons of water per cycle. Cleans up to 40 racks (1,440 glasses) per hour. Built-in chemical pumps and priming switches. Built-in scrap accumulator prevents drain from clogging. 90-second operating cycle with push-button start. 11 1/2" clearance accommodates taller wares. NSF and c-UL-us listed. Model Delta 5-E.

Delta® 1200 Rotary Glasswasher

Composite carousel rack prevents damage to glassware. 12" vertical clearance accommodates taller glassware. Single-switch, auto-fill, auto-stop operation. Adjustable rinse control allows hot or cold water final rinse for flexible sanitizing methods. Built-in chemical pumps and onboard chemical storage. NSF and c-ETL-us listed. Delta 1200, 1200 glasses per hour.

Glass Frosters

Push button defrost system, self-contained, no plumbing required. Black, stainless, or all stainless exterior. Stainless steel interior Available in 2, 3, 4, and 5 foot models. 24"Dx34"H.

Model	Description
FR24PS2	2'L, Black
FR24SS2	2'L, Stainless Steel
FR36PS2	3'L, Black
FR36SS2	3'L, Stainless Steel
FR48PS2	4'L, Black
FR48SS2	4'L, Stainless Steel
FR60PS2	5'L, Black
FR60SS2	5'L, Stainless Steel

Dual Zone Self-Contained Wine Centers

Perlick's new line of dual-zone wine centers can be tailored to fit your exact wine serving and storage needs. Now you can properly store and dispense wine at two separate temperatures in the same cabinet—White Wine (40°F-55°F) or Red Wine (55°F-70°F). Customize your dual zone wine center with options to suit your specific needs: *Stainless solid or glass doors with full-extension wine shelves, wine drawers, 1, 2, 3, 4 or 5-faucet wine tapping.*

Model DZS60 Wine Center shown with stainless steel glass door, full-extension shelves (left) and solid stainless door w/single-faucet wine dispensing (right).

Concessionaire Beer Dispensers

Dispensers feature high impact corner bumpers, stainless steel exterior, front vented compressor, self-closing field reversible doors, and 5" casters. Portable and self contained cabinet stores a CO₂ drum, regulator, and liquid waste tank in an access area. Foamed-in-place insulation saves energy and adds structural strength. 5-year compressor; 1-year labor warranty.

Model	Description
DDC68	68" 2 door - 2 keg
DDC92	92" 3 door - 3 keg

AdvantEDGE™ Back Bar Refrigerators

Shallow depth back bar refrigerators complement the standard size models but in a smaller footprint of 24" in depth versus the standard 27¹/₈"D. Available with solid or glass doors, interior LED lights, and are NSF approved for bottled and canned products. Stainless steel top/floor and black vinyl coated exterior front, sides, and back, galvanized steel interior. 3-year parts & labor, 5-year compressor warranty. Model NLBB60N shown.

Model	Description
<i>Standard Depth</i>	
NLBB59	59"W Solid Doors
NLBB69	69"W Solid Doors
NLBB79	79"W Solid Doors
<i>Narrow Depth</i>	
NLBB48N	48"W Solid Doors
NLBB60N	60"W Glass Doors
NLBB72N	72"W Glass Doors

Additional models available.

Keg Coolers

Store and serve up icy, cold draft beer. For your next bar/restaurant design, consider the performance, sustainability, and versatility of a Continental Refrigerator Keg Cooler. Built to last with all stainless steel countertop, heavy-duty galvanized interior, and reinforced stainless steel floor. Choose standard or shallow depth with single, dual or triple faucets.

Model	Description
KC24	24", Black Enamel Finish Exterior
KC50	50", Black Enamel Finish Exterior
KC59	59", Black Enamel Finish Exterior
KC69	69", Black Enamel Finish Exterior
KC79	79", Black Enamel Finish Exterior
KC90	90", Black Enamel Finish Exterior

Additional models available.

Back Bar Coolers

Maximize the number of cool, refreshing drinks on hand with Back Bar Coolers from Continental Refrigerator. Features wear resistant, textured baked enamel black finish exterior, stainless steel countertop, galvanized steel interior and reinforced stainless steel floor. Choose standard, narrow, or pass-through models with hinged or sliding glass doors.

Model	Description

Crunchy Artichoke & Tomato Salad

3 ea. Globe artichokes, cleaned
2 lbs. Heirloom tomatoes, cut to desired shape
1/2 lb. arugula
2 tbsp. fresh mint, fine ribbons
1 ea. lemon, juiced & zested
3 tbsp. extra virgin olive oil
4 oz. goat cheese, fresh or soft ripened
Salt & pepper to taste

Shave the artichokes on a slicer as thin as possible. In a mixing bowl, season the artichokes and tomatoes with the lemon juice, oil and some salt & pepper. Let stand for 5 minutes. Add in the arugula, mint and cheese. Season with a touch more salt, toss and serve.

Braised Beef Brisket (Machaca)

- 5 lb. piece beef brisket
- 2 cups red wine
- 20 oz. tomato juice
- 1/4 cup lime juice
- 1 cup red wine vinegar
- 1/2 cup salt
- 1/2 cup chopped garlic
- 2 tbsp. black pepper
- 4 tbsp. ancho powder or 2 whole chiles
- 1 tbsp. cinnamon
- 1/2 cup coffee, ground (Guatamalan bean preferred)
- 2 bay leaves
- 1 Spanish onion, rough cut

Season brisket with coffee, ancho powder and salt. Grill/sear beef to caramelize. Cut beef into similar size pieces (3). Put in large braising pan or metal hotel pan with all remaining ingredients. Add enough water to cover brisket. Cover with foil and place in 300°F oven for 3-4 hours. Discard whole onions and bay leaves. Remove brisket from liquid and pull all meat. Reserve liquid to reheat.

Pot Roast

- 6 lb. roast, preferable shoulder or chuck
- 2 large onions, sliced
- 2 large carrots, sliced
- 4 stalks celery, sliced
- 1 red pepper, cored and sliced in half
- 1 parsnip
- 4 cloves garlic
- 2 tomatoes, quartered
- 1/2 cup ketchup
- 1/2 cup sweet red wine
- 1/4 cup soy sauce
- 5 bay leaves
- 1 tbsp. kosher salt
- 3 tbsp. granulated garlic
- 3 tbsp. paprika
- 3 cups water

Preheat oven to 350°F. Line bottom of pan with vegetables and place roast on top. Mix remaining ingredients, except water, and rub onto roast. Add water to pan. Bake covered for 2 hours. Turn over and bake an additional 30 minutes uncovered.

Platinum Sectional Ranges

Designed to withstand the rigors of high-volume restaurants, hotel, and institutional kitchens. Heavy duty ranges, griddles, charbroilers, hot tops, fryers and broilers can be combined for a custom line-up to fit the needs of any operation. Stainless steel welded grates, front, sides and shelf; front and rear gas; porcelain oven interior fits full size pans in either direction; 2-year parts & labor warranty.

Large Gas Pizza Deck Ovens

For a heavy duty, high volume, fast recovery pizza oven, look no further than the Blodgett 1048 and 1060 ovens featuring bottom air intake. Designed to transfer just the right amount of heat to the top ensuring a perfectly cooked pizza time after time. Can be stacked to optimize your production capacity. 32" legs.

Model	Description
1048 Single	48"Wx37"Dx10"H
1060 Single	60"Wx36"Dx10"H

PIZZA OVENS

The most important piece of equipment in any pizza operation is the oven. Pizza ovens deliver high heat, rapid temperature recovery, and a high production environment. These "specialty" ovens range in size from countertop to large, multi-level floor models. The oven is an expensive investment and selecting the proper one is crucial.

Some things to consider when selecting the right pizza oven for your operation:

- How big a footprint is available for an oven?
- What is the volume production necessary during the busiest shift?
- What is the budget for equipment purchases?
- Will more than one oven be needed, or is the unit stackable?
- What is the skill level of the operator?
- What is the available power source?
- Will a ventilation system be required?

FPR Rotating Pizza Oven

FPR series ovens are the most advanced "Jet Air" compact ovens, with rotating shelves, known for their 100% uniform baking, and a display oven that no one can match. Bake directly on the rotating nickel plated perforated shelves in 25% to 45% less time than traditional deck ovens. No cold spots. Save from 35% to 65% in energy costs versus deck ovens. Model FPR3

Cooking the perfect pizzas

Low Temperature Cook & Hold Ovens

Gently re-circulated heated air moves uniformly and consistently around meats, seafood, poultry, vegetables, baked goods, and more. Because the ovens operate at a lower temperature than standard or convection ovens, meats come out richly browned and flavorful, seafood is moist and appetizing, and vegetables are colorful and nutritious. Model VCH16 shown.

Model	Description
-------	-------------

Institutional Series

VCH5	Holds (5) 18"x26" or (10) 12"x20" pans
VCH8	Holds (8) 18"x26" or (16) 12"x20" pans

BUILT TO LAST

Ovens & Oven Proofer

Compact oven gives high quality hearth bake in a minimum of space. Natural convection and radiant heat design does not dry out product. Each deck individually thermostatically controlled. Stainless steel construction easily cleaned and maintained. Positive magnetic door closure. Bake right on the deck or use full or half size sheet pans.

Model	Description
OP-3	3 Pan Oven, 9 Pan Proofer
OP-3SL	3 Pan Oven, 9 Pan Proofer, Slim Line
OP-4H	4 Half Pan Oven, 8 Half Pan Proofer
DO-PBG	6 Pan Oven, 16 Pan Proofer
DO-PB-9G	9 Pan Oven, 24 Pan Proofer
DO-PB-12G	12 Pan Oven, 32 Pan Proofer

Additional models available.

DECK OVENS VS. CONVEYOR OVENS

A deck oven lends itself to a wide variety of menu items. It is simply designed and usually requires less servicing. The deck oven requires a higher skill level to operate.

Conveyor ovens reduce bake times and out-produce deck ovens due to the dynamic of forced air. They also offer increased consistency. Because no tending is necessary, conveyor ovens can be used by lesser skilled employees.

Rotating Rack Oven

Mini-rotating rack oven does the work of a full-size model at half the size. Standard features include a continuously rotating 8-pan rack and unique airflow system. Internal steam production for bagels or similar products. In-shot burner technology provides energy efficiency with low maintenance. Rack and slides can be removed without tools for servicing and easy dishwasher cleaning. Digital programmable controls. The 12-pan stand provides storage for baking pans and supplies.

Model	Description
XR8-G	Mini-Rotating Rack Oven w/Stand, Gas
XR8-E	Mini-Rotating Rack Oven w/Stand, Electric

Pizza Ovens

Stackable, stainless steel pizza ovens are perfect for use in kitchens with limited space. Ideal for pizzas, breads, and various bakery products. Features two removable ceramic hearth baking shelves with a 3 1/4" deck height, a thermostat range of 284°F to 680°F, a 15-minute continuous timer, and a 6 foot power cord. CE.

Model	Description
PO-18	23"Wx25"Dx21"H, 240V, 2850W, 12 Amps
PO-22	26"Wx28"Dx21"H, 240V, 3600W, 15 Amps

1100 Series Impinger®II Express Conveyor Ovens

Now UL710B approved for ventless operation! Advanced Air Impingement technology enhances bake quality and uniformity—Faster bake times improve time of service. Front-loading removable conveyor for improved cleaning in tight spaces. 18"W, 56"L conveyor belt with product stop 28" baking chamber. Temperature range to 575°F with up to 30-minute cook time. Stackable up to 3 high. Available with optional FastBake™ technology.

SternoCandleLamp

Clothes Pin S'Mores

Yield: 40

Ingredients

- 20 whole graham crackers/ split in half
- 14 oz. dipping milk chocolate
- 20 marshmallows (halved)

Equipment

- 40 clothes pins
- 40 clothes pin holders
- Sterno Butane Professional Culinary Torch

Line a large sheet tray with parchment paper.

Break Graham Crackers into halves.

Follow the package instructions for melting the Dipping Chocolate in the microwave or a double boiler.

Using a spoon spread about 2 teaspoons of chocolate on the top of each Graham Cracker (leave about a 1/2 inch space near the bottom free of chocolate).

While the chocolate is still warm affix a marshmallow to the chocolate.

Let cool under refrigeration for at least 20 minutes or until the chocolate has hardened.

Carefully insert each Graham Crackers into the open end of a clothes pin.

Carefully insert the head of each clothes pin into a clothes pin holder to make a mini stand.

Using the Sterno Butane Professional Culinary Torch, flambé each Clothes Pin S'More to order.

Creation Express™ Mobile Cooking Carts

Attractive and compact with a designer flair. Two built-in induction stoves for energy efficient cooking. Available with three-stage cooking exhaust filtration system. Stainless steel cabinet and top surface are easy to clean and sanitize. Exterior is laminate over stainless steel, in a choice of standard or custom finishes. Induction stoves are 115VAC with 1500 Watt output. Power management system (standard) requires 220 VAC 50 amp power supply.

Model	Description
2065	34"Lx22"Wx40 ¹ / ₂ "H, 1 stove, 1 filter (Filtration included)
2075	34"Lx22"Wx40 ¹ / ₂ "H, 2 stoves, 1 filter (Filtration included)
2085	48"Lx22"Wx40 ¹ / ₂ "H, 3 stoves, 2 filters (Filtration included)
2060	34"Lx22"Wx35 ¹ / ₂ "H, 1 stove
2070	34"Lx22"Wx35 ¹ / ₂ "H, 2 stoves
2080	48"Lx22"Wx35 ¹ / ₂ "H, 3 stoves

Mini JetStar™ Popcorn Popper

The 4 ounce popper is perfect for small kiosks, coffee shops, small business lobbies, break areas, rental facilities or where ever you might want to pop and dispense popcorn. 15⁷/₈"Wx14⁷/₈"Dx23³/₄"H. Model J4R.

Grill-Max® Electronic Roller Grills

Electronic controls significantly improve multi-zone temperature control throughout entire grill surface. Significantly improves food safety and minimizes product waste as a result of accurate temperature control. LED display provides temperature reading for both the cook and hold cycles.

Model	Description
30CE	30 Hot Dog Cap., 23 ³ / ₄ "Wx20 ⁵ / ₈ "Dx12 ¹ / ₂ "H, Chrome
50CE	50 Hot Dog Cap., 35 ³ / ₄ "Wx20 ⁵ / ₈ "Dx12 ¹ / ₂ "H, Chrome
75CE	75 Hot Dog Cap., 35 ³ / ₄ "Wx28 ¹ / ₂ "Dx15 ¹ / ₂ "H, Chrome
30SCE	30 Hot Dog Cap., 23 ³ / ₄ "Wx20 ⁵ / ₈ "Dx12 ¹ / ₂ "H, Duratec
50SCE	50 Hot Dog Cap., 35 ³ / ₄ "Wx20 ⁵ / ₈ "Dx12 ¹ / ₂ "H, Duratec
75SCE	75 Hot Dog Cap., 35 ³ / ₄ "Wx28 ¹ / ₂ "Dx15 ¹ / ₂ "H, Duratec

Additional models available.

Roller Grill

Cook hot dogs, brats, and sausages with stainless steel non-stick roller grills. Features 360 degree roller rotation, separate temperature controls for front and back rollers, removable catch tray, and separate on/off switch. 30 dog capacity. Optional food shield available (SN30). NSF. Model RG30 shown.

Hot Dog Steamer & Bun Warmer

Constructed of stainless steel, the HDS-1200W Hot Dog Steamer will steam your dogs to perfection! Convenient humidity control system keeps buns fresh while your hot dogs steam. Tempered glass on both sides provides excellent merchandising. Steams 100 standard hot dogs and 36-48 buns.

The BW-450 Bun Warmer, with removable stainless steel pan and bun rack, make it easier to clean and sanitize with gentle warming heat for up to 32 buns.

MagiCater Transportable Grills

Modular design makes set up/take down simple. Stainless steel front, side, back, service shelf, radiants, and pilot system. Stainless steel water tubs prevent grease fires and promote easy cleaning. Heavy duty top grid(s), stainless steel legs with heavy duty casters, new spark igniter system. Available in 30" and 60" models. Model LPAGA60SS shown with optional 2-steam pan set, 30" steam support, and 30" stainless hood.

Model	Description
LPAGA-60	60" Grill (AGA-CGA Approved)
LPG-60-SS	60" S/S (Natural Gas)
LPG-30-SS	30" S/S (Natural Gas)
9801-0509000-C	Steam Set (2 needed for 30" steam support)
5109-0344701	30" Steam Pan Support
S/S Hood 60"	60" Hood (for LPG60/LPAGA60)

Additional models available.

MJ Performance Gas Fryers

Whether it's a single fryer, a fryer with built-in filtration, or a battery of fryers with a filtration system, Master Jet fryers achieve a long and dependable life through simplicity of design. Model offerings provide 40, 50, and 80-lb. oil capacity options with and without electrical hook-up. LP also available. Model MJ45ESD shown with optional casters.

Model	Description
PMJ135	40 lb. oil cap., 12"x15" fry area, thermostatic controls, s/s frypot & door, enamel cabinet, 110K BTU, 6" adj. legs
PMJ145	50 lb. oil cap., 14"x15" fry area, thermostatic controls, s/s frypot & door, enamel cabinet, 122K BTU, 6" adj. legs
MJ1CF	80 lb. oil cap., 18"x19" fry area, thermostatic controls, s/s frypot & door, enamel cabinet, 150K BTU (for chkn & fish), 6" adj. legs

Additional models available.

Frymaster

Portable Oil Filters

Designed to support routine oil filtration which preserves oil life and maintains consistent fried food quality. Powerful steel gear pump with 1/3 HP motor filters 50-lbs. of oil in 5 minutes. 5 ft. hose returns filtered oil with ease amply reaching the frypot to wash crumbs from the walls and the bottom of the frypot. Stainless steel pan and pump housing is made to stand up to heavy use and make the filter easy to clean.

Model	Description
PF50S	50 lb. cap., Std. Gravity Drain
PF50R	50 lb. cap., Reversible Pump
MF90AU/80LP	Portable oil filter, low-profile design, reversible pump for fryers with front drain only, 80-lb oil cap., 5' return hose, pan height 9 ³ / ₄ ", 4 GPM steel gear pump with 1/3 hp motor, filter starter kit, casters

Frymaster

Frymaster

Built-In Filtration Systems

Designed to support good oil station management and maximize oil life. Frymaster puts filtration where it's most convenient to use - right within the fryer - eliminating the need for additional floor and storage space. The filtering process is fast and easy, encouraging frequent filtering. The filter, housed beneath two fryers or one fryer and spreader, is capable of filtering up to six fryers individually, without having to be moved from fryer to fryer saving valuable labor.

Model	Description
<i>Includes FootPrint PRO® Filtration System with 4 gal/minute pump</i>	
FPP235	(2) MJ35 Performance Gas Frypots, 40 lb. cap., 110,000 BTU/hr.
FPP245C	(2) MJ45 Performance Gas Frypots, 50 lb. cap., 122,000 BTU/hr
FPPH255C	(2) H55 High Efficiency Gas Frypots, 50 lb. cap., 80,000 BTU/hr
FPPH355C	(3) H55 High Efficiency Gas Frypots, 50 lb. cap., 80,000 BTU/hr.

Frymaster

OCF Fryers

Open-pot, oil-conserving fryers provide outstanding results with 40% less oil, 10% less energy. Made of stainless steel on the outside, but their hearts are green on the inside. They are healthier for the environment, customers, workers, and the bottom line. Green benefits range from reduction of oil use to less energy consumption.

Model	Description
FPEL214-2LCA	Electric, (1) full frypot/(1) split frypot (left)
FPEL314-4LCA	Electric, (1) full frypot/(2) split frypots (left)
FPEL314-4RCA	Electric, (1) full frypot/(2) split frypots (right)
FPEL314-2LCA	Electric, (2) full frypots/(1) split frypot (left)
FPEL314-2RCA	Electric, (2) full frypots/(1) split frypot (right)
FPEL314CA	Electric, (3) full frypots, 3000 controller

Additional models available.

*Includes 3000 controller, rack-type basket support, basket hanger, twin baskets, filter starter kit, auto top-off, built-in filtration, stainless steel frypot, door, and cabinet sides with adjustable casters.

MagiCater

MagiCater Outdoor Fryers

Come standard with a stainless steel cabinet and fry tank, 2 fry baskets per tank. Four (MCF14) and five (MCF18) tubes per tank positioned for easy cleaning. High limit shut-off safely shuts off gas flow if fryer temperature exceeds high limit. Millivolt thermostat control adjusts from 200°F to 400°F. Includes 14" easy roll wheels and swivel casters, 40 lb. LP tank. 1-year parts & labor warranty. CSA. NSF.

Model	Description
MCF14	40 lb. oil cap., 115k BTU
MCF18	65 lb. oil cap., 150k BTU

Frymaster

High-Efficiency, Open-Pot, Gas Fryers

The H55 fryer is a premium open-pot fryer that combines state-of-the-art technology with decades of frying experience and customer satisfaction to set the standard for high-efficiency frying. H55 fryers are the industry's first green fryers meeting ENERGY STAR® guidelines and are the foundation of Frymaster's ever-evolving conserving fryer technology.

Model	Description
H55SD*	50 lb. oil cap.
FPH55SD*	50 lb. oil cap. (w/Built-in filtration)

*Includes analog controller, rack-type basket support, basket hanger, twin baskets, automatic melt cycle, boil-out temp control, electric ignition, center mounted RTD, 1° compensating temperature probe, stainless steel frypot and door, enamel cabinet, 6" adjustable legs.

1814 Gas Fryers

Frymaster's 1814 gas high-production tube fryers meet the demands of a varied menu while offering a trio of savings—conserving oil, energy and space. The savings add up quickly using 12-20% less oil, upwards of 50% less energy, and 11-15% less space. The thermo-tube heat transfer system provides superior heat-to-oil transfer. The SMART4U® Lane controller has features that make it easy to produce consistent, great-tasting food. NSF. ENERGY STAR®. Model 11814/HD50G/11814 shown.

Model	Description
11814G	(1) 63 lb. oil cap. frypot, 18"x14"x3 ³ / ₄ " fry area, 3 twin baskets, 119K BTU, Lane controller
21814GF	(2) 63 lb. oil cap. frypots, 18"x14"x3 ³ / ₄ " fry area/ frypot, 6 twin baskets, 119K BTU/ frypot, Lane controller, built-in filtration
11814/HD50G/11814	(2) 63 lb. oil cap. frypots, 18"x14"x3 ³ / ₄ " fry area/ frypot, 119K BTU/ frypot; (1) 50 lb. oil cap. frypot, 14"x14"x3 ¹ / ₂ " fry area, 100K BTU, 8 twin baskets, casters & built-in filtration, Lane controller

FRYER TIPS

Determining If Your Fryer Can Keep Up With Demand

Fryer productivity is usually measured by pounds of product per hour. Generally, a fryer that will handle a minimum of 80 pounds of French fries per hour is sufficient. In smaller, less demanding, environments, a 65 lb. fryer may be sufficient.

Frying Oil Life

The life of the frying oil can be indefinitely prolonged by filtering the fat twice every day (or at the end of every shift) and then adding 10% new oil, which is enough to rejuvenate the original oil. (If less than 10% of the oil was absorbed by the fried products, dip out enough to permit the addition of the 10% new oil. The oil removed can be used on the griddle or for other cooking needs.) For example, for a 35 lb. fryer, 3½ lbs. of fresh oil must be added. With this method, high annual savings in fat costs can be realized.

Oil Filters

If you fry breaded, watery or battered products in large quantities, you will need to filter more often. Remember to rinse well. Soap residue is the number one enemy of cooking fat as it accelerates cooking fat breakdown.

Oil Breakdown

According to several master fry chefs, water is one of the major causes of rapid breakdown of cooking oil. Ideally, if a balance can be maintained between the frying of dry items (i.e. breaded products) and wet items (i.e. frozen French fries), the life of the cooking oil can be considerably extended. When this is not possible, and most or all of the fried items are wet, several slices of dried bread can be nested between the twin baskets periodically, and “fried” to absorb the water which has been added by the wet products.

Single and Double Deep Fryers

Stainless steel fryer basket with collapsible heat-resistant handle features temperature control switch to 375°F. Tank has a capacity of 6 liters and has handles for easy removal. Calibration marks on tank insert make measuring oil easy. DF-6 models cook up 15 lbs. per hour. DF-12 models cook up to 25 lbs. per hour and include a faucet for worry-free oil removal. CE. NSF. UL listed.

Model	Description
DF-6L	15 lbs./Hr. Single Tank Fryer
DF-6L/2	15 lbs./Hr. Double Tank Fryer
DF-12L	25 lbs./Hr. Single Tank Fryer w/Faucet
DF-12L/2	25 lbs./Hr. Double Tank Fryer w/Faucet

High Efficiency Decathlon Gas Fryers

Maximize your profits and make the most of your energy dollars with innovative design changes that have improved the efficiency over 40%. The HD gas fryers have low idle costs, offer low gas consumption per pound of food cooked, and extend oil life. 6" vs 4" diameter tubes provide 36% more surface area for heat transfer from the input energy to the oil. This minimizes the heat stress on the oil, preserving oil life. NSF. ENERGY STAR®. CSA .

Model	Description
HD150G	Single, tube-type design, 50-lb oil cap., 14"Wx14"Dx3 ³ / ₄ "H fry area, 100K BTUH
HD160G	Single, tube-type design, 80-lb oil cap., 18"Wx18"Dx3 ³ / ₄ "H fry area, 125K BTUH
CFHD160	Single, tube-type design, 80-lb oil cap., 18"Wx18"Dx3 ³ / ₄ "H fry area, 125K BTUH w/built-in filtration

*Includes thermatron controller, rack-type basket support, basket hanger, twin baskets, automatic melt cycle, boil-out temperature control, stainless steel frypot, front, door & cabinet sides and 6" adjustable legs.

Fryer Baskets

E-Z Grip® vinyl-coated handle fryer baskets are ergonomically designed to naturally fit the shape of a hand gripping a fryer basket. E-Z Grip® Plus* includes patented corner protection and double hook construction to extend the life of the basket. *2-year warranty. Standard fryer baskets also available in nickel plated steel wire and vinyl-coated handle for operator comfort.

Additional models available.

KleenScreen Plus® Filtration System

Top performing stainless steel fryers can match the demands of any size operation. The KleenScreen Plus® Filtration System saves time and extends oil life. 304 stainless steel fry tank with twin baskets. 53% thermal efficiency. 1" full port drain valve (1¹/₄" on 85 lb. models). 1/2" rear gas connection (single fryers) or 1¹/₄" rear gas connection (batteries). Millivolt, Solid State, or Computer controls. Electronic ignition standard on (D) and (C) controls.

Model	Description
2GR45MF	2 Battery w/KleenScreen, 45-50 lb./tank
2GR65MF	2 Battery w/KleenScreen, 65-70 lb./tank
2GR85MF	2 Battery w/KleenScreen, 85-90 lb./tank
3GR45MF	3 Battery w/KleenScreen, 45-50 lb./tank
3GR65MF	3 Battery w/KleenScreen, 65-70 lb./tank
3GR85MF	3 Battery w/KleenScreen, 85-90 lb./tank
4GR45MF	4 Battery w/KleenScreen, 45-50 lb./tank

Custom KleenScreen System for "GR Series" gas fryers also available.

Super Marathon Fryers w/Built-In Filtration

Safeguards workers by minimizing handling of hot oil with these all-purpose fryers featuring built-in filtration. The 50-lb. oil capacity of each frypot accommodates a wide range of frying needs, everything from French fries, breaded products and specialty foods to bone-in chicken. Model SCFSM250 shown.

Model	Description
SCFSM250G	(2) 50 lb. oil cap. fryers, 14" x 14" fry area, 120K BTU per frypot

Tube-type fryers include millivolt controls, durable temperature probe, rack-type basket support, basket hanger, twin baskets, stainless steel frypot, door and cabinet sides, casters, built-in filtration with 4 GPM pump and filter starter kit.

Countertop Fryers

With Globe's gas or electric countertop fryers, you can serve plenty of tasty, restaurant-quality fries, onion rings, shrimp, tenders, and more. Stainless steel construction, with configurations from 10 to 32 lb. oil cap., nickel-plated fry baskets with insulated handles, and high limit thermostat protection. Unit ships natural gas or LP. Model GF30G shown.

Model	Description
GF15G	Gas, 15 lb. oil cap.
GF15PG	Gas, 15 lb. oil cap. (LP)
GF30G	Gas, 30 lb. oil cap.
GF30PG	Gas, 30 lb. oil cap. (LP)
PF10E	Electric, 10 lb. oil cap.
PF16E	Electric, 16 lb. oil cap.
PF32E	Electric, 32 lb. oil cap.

**Solstice FD Filter Drawer/
Frying System**
Faster cooking and more cooking power for quality production and increased profits. Burner design improves efficiency over 13%. Two-step filtering makes for ease of filtering. Filter drawer designed to fit under fryers increase oil life up to 50%; no extra space required under hood. Upgraded controls aid the cooking process by controlling cooking times and temperatures for a more consistent product.

SG14TS-SSTC	50 lb. fryer, Solid State Controls, 50K BTU each side

Standard & Economy Fryers
Stand-alone fryers with a welded tank feature long lasting, high temperature alloy stainless steel heat baffles mounted in the heat exchanger tubes for maximum heating and combustion efficiency.
And, don't forget to inquire about the first ever ENERGY STAR® value-priced fryer; the VF35 uses 35% less gas and has the same production rate as the 35C+S. Model 35C+S shown.

Model	Description
VF-35S	59 lb. Fries/Hr., 70,000 BTU (Energy Star®)
35C+S	63 lb. Fries/Hr., 14"x14" Fry Area, 90K BTU (S/S Tank)
45C+S	85 lb. Fries/Hr. 14"x14" Fry Area, 122K BTU (S/S Tank)
65C+S	105 lb. Fries/Hr., 18"x18" Fry Area, 150,000 BTU (S/S Tank)
SG-14S	Solstice 50 lb., Millivolt Controls
SG-18S	Solstice 75 lb., Millivolt Controls

Solstice Supreme High Efficiency Fryers
Solstice tube fired gas fryers provide dependable atmospheric heat transfer and fuel saving ENERGY STAR® performance. Atmospheric burner system reaches 70% thermal efficiency and delivers lower flue temperatures. Self-cleaning burner performs a daily 30-second cleaning cycle keeping burners at optimum performance. Down draft protection safely monitors fryer, making this a low maintenance, highly reliable fryer. 10-year tank warranty. Model 2-SSH60W-C-S/FD shown.

Model	Description
SSH55-SSTC	Full S/S Tank, 50 lb. cap., 14"x14" Fry Area, 80K BTU
SSH60-SSTC	Full S/S Tank, 60 lb. cap., 14"x18" Fry Area, 80K BTU
SSH60W-SSTC	Full S/S Tank, 60 lb. cap., 18"x14" Fry Area, 100K BTU
SSH75-SSTC	Full S/S Tank, 75 lb. cap., 18"x18" Fry Area, 105K BTU
SSH55T-SSTC	Twin S/S Tanks, (2) 25 lb. cap., 7"x14" Fry Area, (2) 40K BTU

Reduced Oil Volume (ROV) Fryers
Pitco's ROV (Reduced Oil Volume) fryers will save 50% in oil cost while maintaining the high production that is expected of Pitco Solstice Supreme fryers. Labor savings are also a key component of the ROV fryers which come with 3 to 4 minute automatic filtration and oil top off features. A must of anyone looking to reduce costs in their operation. Model SSHLV14C-2/FD shown.

Model	Description
SELV14-C/FD	Electric, 30 lb. cap., 17kW
SELV-184-C/FD	Electric, 40 lb. cap., 17kW
SELV-14T-C/FD	Electric, (2) 15 lb. tanks, 17kW (Combined)
SSHLV14-C/FD	Gas, 32 lb. cap., 75K BTU

SSHLV-184-C/FD	Gas, 42 lb. cap., 80K BTU

Doughnut Fryers

Consistently fry high quality donuts and bakery products with less oil and fewer BTUs. Atmospheric burner system combined with stainless steel heat tubes utilizes high temperature alloy stainless steel baffles. Large cool zone for better frying. Traps particles and crumbs, prevents a major cause of fat breakdown and eliminates taste transfer.

Model	Description
24P Mech	150 lb. Oil Cap., 120,000 BTU (Mechanical T-Stat)
34P Mech	210 lb. Oil Cap., 110,000 BTU (Mechanical T-Stat)

SwivelMAX™ Gas Connector Fittings & Kits

Blue Hose™ kits with SwivelMAX® enable easier movement of caster-mounted appliances at angles, back & forth, and from side-to-side, while relieving stress at the ends of the hose. Required by code in many states for both caster and fixed leg mounted gas-fired cooking equipment. Prevents premature failure of the connector and provides more aisle space by allowing the appliances to be positioned closer to the wall. Available with one or two SwivelMAX® fittings. CSA and NSF certified.

Model	Description
1650KIT2S48	1/2"x48" Gas Connector Kit, 2 Swivels
1675KIT2S48	3/4"x48" Gas Connector Kit, 2 Swivels
16100KIT2S48	1"x48" Gas Connector Kit, 2 Swivels
16125KIT2S48	1 1/4"x48" Gas Connector Kit, 2 Swivels
SM50	1/2" SwivelMAX™ fitting
SM75	3/4" SwivelMAX™ fitting
SM100	1" SwivelMAX™ fitting
SM125	1 1/4" SwivelMAX™ fitting

Safety-Set™ Placement System

Safety-Set™ allows equipment to be returned to its design specified location after cleaning or maintenance. Satisfies NFPA codes 17A (5.6.4) and 96 (12.1.2.3). Open floor design allows casters to rest level on the floor to ensure even cooking. Fast, easy installation with choice of adhesive foam tape or thumb screw hardware pack. Withstands 1,000 lbs. of crush force and is compatible with 4", 5", and 6" casters. Certified to NSF/ANSI Standard 169–Special Purpose Food Equipment & Devices.

SafetyQuik® Gas Connector Fitting

Safety Quik® does the work of both a quick-disconnect and shut-off valve. The Safety Quik QDV fitting, with its innovative safety-sleeve, incorporates added special safety design features. With this unique item, the gas connector cannot be disconnected until the gas valve on the Safety Quik is shut off – and the valve cannot be opened until the gas connector is attached. Includes automatic safety thermal shut-off that stops gas flow if temperature exceeds 350°F.

Model	Description
16100KITCF48	1" Gas Connector Kit w/Safety Quik QDV
1650KITCF48	1/2" Gas Connector Kit w/Safety Quik QDV
1675KITCF48	3/4" Gas Connector Kit w/Safety Quik QDV
CF-100	1" SafetyQuik QDV
CF-50	1/2" SafetyQuik QDV
CF-75	3/4" SafetyQuik QDV

Gas Connector Kits

Kits feature the Blue Hose™ flexible stainless steel gas connector with StressGuard® and anti-microbial PVC coating. SnapFast® one-handed quick disconnect with thermal shut-off, restraining cable with hardware, full port valve, and elbows. With a limited lifetime warranty, the Dormont gas connector kits are designed for use in all commercial kitchen applications. CSA and NSF design certified.

Model	Description

16100KIT48	1"x48" Gas Connector Kit
16125KIT48	1 1/4"x48" Gas Connector Kit

ADVANTAGES OF USING FLEXIBLE GAS APPLIANCE CONNECTORS

- Improves sanitation and safety. Equipment can be easily moved and cleaned on a regular basis, reducing dirt and grease build-up. That means improved cleanliness and reduced fire hazards. In most traditional installations, there are 6"-9" of dead space behind stoves and grills. That space is blocked from cleaning and can fill with debris and grease, causing unpleasant odors and attracting insects and rodents.
- Increases aisle work space and decreases the space needed behind equipment.
- Easier movement makes servicing and cleaning easy.
- Longer product life because torsion stress is greatly reduced.

Gas Appliance Connector & Installation Kits

Safe.T.Link gas connectors and installation kits assure safe installation of your gas appliances. Includes AGA-certified foodservice gas ball valve, 90° street elbow, and installation hardware. SureLink adjustable restraining cable and SwiveLink gas connector swivel provide the most reach with shortest hose, reducing stress and keeping gas flow unrestricted. Posi-Set ensures proper relocation of equipment after moving, cleaning, or repairs.

Model	Description
HG-4D-24SK	Kit w/QD 3/4" NPT & 24" Hose w/SwiveLink Fittings
HG-4D-36SK	Kit w/QD 3/4" NPT & 36" Hose w/SwiveLink Fittings
HG-4D-48SK	Kit w/QD 3/4" NPT & 48" Hose w/SwiveLink Fittings
HG-4D-60SK	Kit w/QD 3/4" NPT & 60" Hose w/SwiveLink Fittings
HG-4D-72SK	Kit w/QD 3/4" NPT & 72" Hose w/SwiveLink Fittings
Posi-Set	Wheel Placement System

Ventless Fryers, Griddles & Cooktops

Create a line up of electric cooking equipment without the need for extensive ventilation. Install kitchens in facilities where extensive ductwork and rooftop fans are not practical, are prohibited or are too expensive. These hoods give you the flexibility to set up a range of electric equipment such as ovens, fryers, ranges, griddles, steamers, induction, and more. Self-contained air filtration and fire suppression systems are included. Safe and agency approved. Model WVU-96 shown.

Model	Description
WVU-72	Universal Ventless Hood with 72" opening
WVU-96	Universal Ventless Hood with 96" opening
WVC-46	Canopy Style Ventless Hood for all oven types
WF866RW	Auto-Lift Dual Fryer & Drawer Warmer Base, 208V/240V
WVO2HFG	24" Griddle, 2 French Plate Cooktop, Conv. Oven Base, 208V/240V
WV4HSRW	4 Spiral Plate Cooktop & Drawer Warmer Base, 208/240V
WVG136	Griddle & Double Door Cabinet Base, 208/240V
Additional models available.	

Pasta Perfect Cookers

Pasta Perfect produces up to 500 ten-ounce servings of pasta per hour by cooking large quantities in advance, then warming individual orders as they're received. With automatic basket lifts and electronic time controls, every pasta dish is cooked perfectly every time. And, it's done in less than seven square feet of floor space. Available in gas or electric.

Model	Description
SSPG14	Gas Pasta Cooker
SSPE14	Electric Pasta Cooker
SSRS14	Rinse Station

Pasta Magic™

Pasta Magic gas cookers have been redesigned both outside and inside, and offer state-of-the-art features and benefits for quick, consistent, and perfect pasta preparation. Model GPCSC shown with stainless steel cabinet and optional casters.

Model	Description
GPCSC	15 gal. cap., 6" steel legs w/1" adjustment
GPCBSC	15 gal. cap., automatic timed basket lifts, casters
GPCRSC	15 gal. cap., rinse tank, swing away hot/cold rinse faucet
GPCRBSC	15 gal. cap., automatic timed basket lifts, rinse tank, swing away hot/cold rinse faucet, casters

Mini Combi Oven-Steams

Attract more customers and increase sales by featuring aromatic and visually appealing fresh cooked food. The "mini" combi oven significantly improves the quality of food and speed of preparation so you can now offer a greater selection of healthy food choices for your customers. EasyToUch™ controls are easily programmed for most frequently served foods, offer service diagnostics, and HACCP logging. Model OES 6.10 Mini shown.

Model	Description
OES 6.10 mini	Elec Boilerless, 3 Pans (2 1/2")
OES 10.10 mini	Elec Boilerless, 10 Pans (2 1/2")

Eclipse™ Ergonomic Tilting Braising Pans

A 15-gallon version now available in both gas and electric. The 15-gallon model will fit into most configurations and provide the same performance as the larger units. Includes a 5/8" clad plate cooking surface, heating to 350°F in just 4 minutes, a 100-grit hand-ground finish to reduce sticking, and cover with torsion spring-assisted hinges. Model BPM-15 shown.

Model	Description
BPM-15E	Elec., 15 gal., 8"D Pan, 35" Pan Height, 11.5kw, Manual Tilt
BPM-15G	Gas, 15 gal., 8"D Pan, 35" Pan Height, 104K BTU/hr, Manual Tilt
BPM-30G	Gas, 30 gal., 10"D Pan, 38" Pan Height, 104K BTU/hr, Manual Tilt
BPP-30E	Elec., 30 gal., 10"D Pan, 38" Pan Height, 11.5kw, Power Tilt

Additional models available.

Modular Tilting Braising Pans

Standard features include stainless steel, fully-welded one-piece design with coved corners and satin finish. Solid state temperature controls adjust from 50°F to 425°F. 1-year limited parts & labor warranty. Model VG30 shown with optional casters and spray hose.

Model	Description
VE30	30 gal. Electric
VE40	40 gal. Electric
VG30	30 gal. Gas (90K BTU/hr.)
VG40	40 gal. Gas (120K BTU/hr.)

Hoodini Ventless Combi Ovens

The Hoodini ventless hood lets you place your Blodgett Mini 6 or 10 pan combi oven anywhere. The ventless hood combines catalytic and condensing systems to remove smoke, odor, and moisture from the oven cavity. No filters to replace!

Model	Description
BLCT-6E-H	Single 6-Pan Boilerless, Elec., w/ Touchscreen Control
BLCT-10E-H	Single 10-Pan Boilerless, Elec., w/ Touchscreen Control

Vortex100

With it's boilerless design, the Groen Vortex100 uses under 2 gallons of water per hour. ENERGY STAR® certification enables users not only to save on water costs but electricity as well. Digital controls set Vortex100 apart from its contemporaries. Precise timing, repeat cycles for operational process, preset hold temperatures, and diagnostics make the Vortex100 a part of any well run operation.

Model	Description
VRC 3	3-Pan Electric
VRC 6	6-Pan Electric
158953	Condensate Cap Unit

Combi Ovens

Improve product quality and increase yields while reducing labor, energy, and cleaning costs. Boilerless ovens with an internal steam generator are an excellent choice for applications that do not require heavy loads and frequent cooking in steam mode. Boiler equipped models are ideal for applications that require high-volume steam cooking. Model BCT-62E shown.

Model	Description
BLCM-62E	Electric, Full Size Manual, Holds 5 Sheet Pans or 10 Hotel Pans
BLCM-62G	Gas, Full Size Manual, Holds 5 Sheet Pans or 10 Hotel Pans
BLCM-102E	Electric, Full Size Manual, Holds 8 Sheet Pans or 16 Hotel Pans
BLCM-102G	Gas, Full Size Manual, Holds 8 Sheet Pans or 16 Hotel Pans
BCM-102E	Electric, Full Size Manual w/Boiler, Holds 8 Sheet Pans or 16 Hotel Pan
BCM-62-62E	Electric, Full Size Manual w/Boiler, Double Stack BCM-62E w/Stand

Additional models available.

Table Top Kettles

The power and flexibility you need at a size that makes sense. Available in electric, gas, and direct steam. Type 304 stainless steel kettle and supports. Jacket rated at 50-psi with safety valve. Complete with solid state water level, temperature and safety low water power cut-off. LED indicators and marine lock standard. Capacity from 1 to 20 gallons. Model KGT12T shown.

Model	Description
KDT3T	Direct Steam, 3 gal. cap.
KDT6T	Direct Steam, 6 gal. cap.
KDT12T	Direct Steam, 12 gal. cap.
KET3T	Electric, 3 gal. cap.
KET6T	Electric, 6 gal. cap.
KET12T	Electric, 12 gal. cap.

Additional models available.

SteamCraft® Steamers

Available in gas, electric, and direct steam generators. Steam generator with automatic water fill on start up, automatic boiler blowdown, electronic spark ignition, and generator stand-by for instant steam. 60-minute mechanical timer or electronic controls. Manual bypass operation mode. Patented cold water condenser design. Type 304 stainless steel construction. Two-piece door design. Capacity for three, five, six, and ten 2 1/2" deep full size steam table pans.

Model	Description
21CET8	3 Pan Cap. (Electric)
21CET16	5 Pan Cap. (Electric)
21CGA5	5 Pan Cap. (Gas)
24CDP10	10 Pan Cap. 2 Comp. (Direct Steam)
24CEA10	10 Pan Cap., 2 Comp. (Electric)
24CGP10	10 Pan Cap., 2 Comp. (15 psi Boiler)
ES2446	2-Shelf Stand (for CET8 or CET16)
Unistand34	34"H Stand (for CET8 or CET16)

SteamChef™ Boilerless Steamers

Save energy. Save water. Save money. SteamSaver™ technology reduces energy use by over 50%. Reduces water use by 30% and qualifies for ENERGY STAR® rebates. Patented KleanShield™ design eliminates foaming, contamination of water reservoir, and flavor transfer. High speed convection steam for fast cooking. SureCook™ timer automatically compensates for the volume of food being cooked. Model 22CET6.1 shown.

Model	Description
22CET3.1	Electric, (3) Pan Cap., 9 kW
22CET6.1	Electric, (6) Pan Cap., 13 1/2 kW
22CGT3.1	Gas, (3) Pan Cap., 45,000 BTU
22CGT6.1	Gas, (6) Pan Cap., 62,000 BTU

SteamCub Boilerless Steamer

1-compartment steamer has electronic controls with 3 operating modes: constant steaming, steam-hold, and holding only. Audible low water and high temperature safety indicator. Choose 60-minute mechanical timer or solid-state digital controls. Holds five 2 1/2" deep full size steam table pans. 8 gauge stainless steel inner cooking compartment, 14 gauge stainless steel outer compartment with 2-piece compartment door. 9 kW, 208V, 3 phase. ENERGY STAR®. Model 1SCEMCS shown.

Model	Description
1SCE	Steam & Hold, Continuous Steaming, Hold Only w/Digital Controls
1SCEMCS	Steam Only w/Mechanical Controls

Short Series Kettles

Rim height is 35" on this Short Series Kettle floor model. Type 304 stainless steel construction and supports. Fully steam jacketed, 50-psi steam jacket rating. Available in tilting and stationary models. Gas and electric have splash proof solid state temperature controls.

Model	Description
KGL40SH	40 gal. Gas, Stationary
KGL40TSH	40 gal. Gas, Tilting
KGL60SH	60 gal. Gas, Stationary
KDL40TSH	40 gal. Direct Steam, Tilting
KDL60TSH	60 gal. Direct Steam, Tilting
KDL80TSH	80 gal. Direct Steam, Tilting

Additional models available.

Intek Connectionless Steamer.

High performance boilerless and connectionless 6-pan electric or 5-pan gas counter top steamer available with single or double stacking stands. kW rates offered in 8, 10, 12, and 14. There is an Intek connectionless steamer to fit nearly any application. 1-year unit; 5-year cavity warranty. ENERGY STAR® and LEED compliant. Model XS-208-14-3 shown.

Model	Description
XS-M-	Electric, 6 Pan Cap.
XSG-5	Gas, 5 Pan Cap., 65K BTU/hr.

7 GREAT REASONS WHY STEAM IS A POPULAR METHOD OF COOKING

1. Best way to preserve the nutritional value, color, and texture of food.
2. Fast. No risk of over-cooking or drying out food.
3. Energy efficient means of transferring heat to food.
4. Freezer to steamer. Not necessary to defrost before steaming.
5. Easy to operate, clean, and maintain.
6. Flexible for large batch and quick ala carte style cooking.
7. No flavor transfer when cooking seafood and vegetables at the same time.

Tilting Braising Pan/Skillets

All stainless steel construction complete with thermostatic and safety controls; Gallon markings; Stainless steel clad; $\frac{5}{8}$ " "bead blasted" cooking surface prevents food sticking to surface; Power tilt or manual hydraulic hand tilt (please specify); Spring assist cover with adjustable vent. No clearances required. Choose from Electric/Gas, 30 and 40 gal. models. NSF. Model SEL40TR shown.

Model	Description
SEL30TR	30 Gal Electric Skillet, R-Series
SGL30TR	30 Gal Gas Skillet, R-Series
SEL40TR	40 Gal Electric Skillet, R-Series
SGL40TR	40 Gal Gas Skillet, R-Series

K-Series Kettles

Completely redesigned with more customer features including true working capacity, embossed gallon-liter markings, and heavy bar rim. Fast-cooking kettles feature ellipsoidal design kettle bottom for superior heat transfer. Gas, Electric, and Direct Steam models available.

Model K40GLT shown.

Model	Description
K12DTT	Tilting Direct, 12 Gal., Counter, Manual Tilt, .6 BHP
K12ETT	Tilting Electric, 12 Gal., Counter, 50 psi, 12.0 kW
K12ETT-7QS	Tilting Electric, 12 Gal., Counter, 50 psi, 208/240V, 50-60, 1-3, 12 kW (Quick Ship)
K20DL	Stationary Direct, 2 Gal., Steam, 50 psi, 1 BHP, Ellipsoidal Bottom
K20DLT	Tilting Direct, 20 Gal., Manual Tilt, Steam, 50 psi, 1 BHP, Ellipsoidal Bottom
K20EL	Stationary Electric, 20 Gal., 12 kW, Ellipsoidal Bottom

Additional models available.

PowerPan Tilting Skillets

Grill, braise, steam, boil and so much more! Most versatile piece of cooking equipment on the market. Available in 30 and 40 (115 and 150 liter) gallon capacities. Open base design for easy cleaning and maintenance. $\frac{5}{8}$ " thick cooking surface. Splash proof controls. Low 35" rim height for easy operation. Model SGL40T1 shown.

Model	Description
SGL30T1	30 Gal. Gas
SGL40T1	40 Gal. Gas
SEL30T1	30 Gal. Electric
SEL40T1	40 Gal. Electric

Convotherm

Convotherm features the industry's largest selection in models from the Mini (the smallest fully functional combi oven) to the 20.20 "Roll In". The Advanced Closed System +3 takes the guesswork out of cooking. Crisp & Tasty feature removes moisture for crisp, golden results without deep frying. Press & Go buttons offer one-touch cooking. ConvoClean feature cleans and sterilizes the interior automatically. Available in gas or electric. Model 20.20 shown.

Model	Description
C4ED10.10GS (EZD)	Half Gas Boilerless, 5 Pans (2 $\frac{1}{2}$ ")
C4ED6.20ES (EZD)	Full Electric Boilerless, 14 Pans (2 $\frac{1}{2}$ ")
C4ED6.20GS (EZD)	Full Gas Boilerless, 14 Pans (2 $\frac{1}{2}$ ")
C4ED6.20EB (EZD)	Full Electric w/Boiler, 14 Pans (2 $\frac{1}{2}$ ")
C4ED6.20GB(EZD)	Full Gas w/Boiler, 14 Pans (2 $\frac{1}{2}$ ")
C4ED6.10EB (EZD)	Half Electric w/Boiler, 6 Pans (2 $\frac{1}{2}$ ")

Additional models available.

Countertop Skillets

High efficiency heating system for fast heat-up and recovery time. Type 304 stainless steel construction. Splash proof. Bead blasted cooking surface prevents food sticking to surface. Self-locking marine type tilt mechanism prevents accidental tilting. Standard with thermostatic safety and main power controls with lighted indicators. Lift off cover with condensate vent standard. Choose from electric 10 and 15 gal. models for tabletop or stand mounting. 208/240V, 60 Hz, 3 Phase. UL, CSA and NSF.

Model	Description
SET10	10 gal.
SET15	15 gal.

Space-Saving Combination Steamer/Kettle

Pressureless cooking with forced convection steam holds up to six 12"x20" pans. Solid state controls operate water level and safety functions. Each compartment equipped with 60-minute mechanical timer. Durable, 14 gauge stainless steel construction with removable 6-gallon tilting kettle made of 304 stainless steel. The 2/3 jacketed kettle includes trunnion mounted steam control valve 50-psi pressure rating. Lift-off cover. Double pantry faucet with swing spout included. Available in gas or electric.

Model	Description
24CEM24	Steamer, 6 Pan Cap., Electric, 24 kW
42CKEM24	Steamer/Kettle, 6 Pan Cap., Electric, 24 kW
42CKGM200	Steamer/Kettle, 6 Pan Cap., Gas, 200K BTU
42CKGM300	Steamer/Kettle, 6 Pan Cap., Gas, 300K BTU

24CSM	Steamer, 6 Pan Cap., Steam Coil Boiler

SteamPro XVI Gas Large Capacity Steamers

Two compartment steamers. Electric, gas, and direct steam boilers. Pressure/convection modes with no restrictions as to any combination of modes. Solid state controls operate timing, water level, and safety functions. Automatic water fill on start up and automatic blowdown with additional manual drain valve. 60-minute mechanical timer or electronic controls. Manual operation mode and patented cold water condenser. Type 304 stainless steel construction. Model 36PCGM300 shown.

Model	Description
36PCEM48	16 Pan Cap., Electric, 48 kW
36PCGM300	16 Pan Cap., Gas, 300K BTU
36PCSM	16 Pan Cap., Steam Coil

EZ Series Steamers

Steam is generated by the product being cooked, which greatly reduces water usage. Reduced water means reduced mineral deposits, plus utility savings. Standard features include:

- 18" or 24" narrow footprint design
 - Manual fill
 - Electro-mechanical controls
 - Constant steam feature
 - 304 stainless steel construction
 - 316 stainless steel cooking chamber with coved corners
 - 3- and 5-pan models available
- Model EZ18-3 shown.

Model	Description
EZ18-3	18"W, 3 Pan Cap.
EZ18-5	18"W, 5 Pan Cap.
EZ24-3	24"W, 3 Pan Cap.
EZ24-5	24"W, 5 Pan Cap.

R Series Counter Steamers

Remarkably efficient and reliable—cooks 30% faster than conventional methods. Foods are brighter in color, more nutritious, and retain original flavors. Pressureless counter steamers hold 3 to 5 steam table pans and are perfect for low to medium volume cooking. Available in electric or gas, manual fill or auto fill, and manual drain or auto drain. Model R24-3 shown with optional stainless steel stand.

Model	Description
R24-3	Electric, 3-Pan Cap., Auto Fill/Auto Drain, 24"W
R18A-4	Electric, 4-Pan Cap., Auto Fill/Auto Drain, 18"W
R24-5	Electric, 5-Pan Cap., Auto Fill/Auto Drain, 24"W
RG24-5	Gas, 5-Pan Cap., Auto Fill/Auto Drain, 24"W

BENEFITS OF STEAM COOKING

1. Steam is very forgiving. Because steam cooks at 212°F it cannot burn the food. Even if you leave the product you are cooking in the steamer too long, it still remains firm and maintains good structure.
2. Cook multiple products in a steamer all at the same time with no flavor transfer. You can cook seafood, vegetables, meat, and even a cake in the same steamer compartment as long as you make sure the food does not drip down onto the food product beneath it.
3. Steam retains the highest amount of nutrients and vitamins of any other way of cooking. Therefore, it is the healthiest way to cook.
4. Vegetables maintain their brilliant colors during cooking, and enhance the presentation to your customer.
5. Steam cooks fast. You can cook some products in half the time of a convection oven.

Electric Counter Convection Steamers

Part of the PowerSteam™ Series, the electric counter series is a real production workhorse with superior energy and water savings. Its super-heated 235°F steam results in faster cooking times. Model C24EA5-DLX shown.

Model	Description
<i>(Professional Control Pckg)</i>	
C24EA3-DLX	3-Pan Deluxe
C24EA5-DLX	5-Pan Deluxe

PowerSteam™ Floor Convection Steamers

Reduce cook times and retain flavor and nutrients with the PowerSteam™ Steamer. Stainless steel exterior, coved interior cooking compartments, long-life door gasket with exclusive pan guard, split water line connection, external deliming port, and high output stainless steel generator. Deluxe controls include super-heated 235°F steam, 60-minute timer, buzzer, constant steam feature, cook/ready light, and power switch. 1-year limited parts & labor warranty. NSF. UL. Model C24EA6 shown.

Model	Description
C24EA6-DLX	6-Pan Deluxe Electric w/Cabi net Base, 17kW (Professional Control Pckg)
C24GA6-DLX	6-Pan Deluxe Gas w/Cabinet Base, 125,000 BTU (Professional Control Pckg)
C24EA10-DLX	10-Pan Deluxe Electric w/Cabinet Base, 30 kW (Professional Control Pckg)
C24GA10-DLX	10-Pan Deluxe Gas w/Cabinet Base, 125,000 BTU (Professional Control Pckg)

HOW STEAM COOKING WORKS

Steam is an extremely efficient heat transfer medium. It carries a great deal of energy which readily transfers directly to food (in steamers) or indirectly through a heat transfer surface (such as a kettle wall) and then into food. Steam is water (a liquid) that has been converted to its gaseous state by the application of heat energy. Heat energy typically is measured in British Thermal Units (BTU). BTU is defined as the amount of energy required to raise the temperature of one pound of water by one degree Fahrenheit at sea level. It takes 180 BTUs to raise the temperature of one pound of water from 32°F (0°C) to 212°F (100°C), the point at which it starts to boil. However, to evaporate that same pound of boiling water into steam requires 970 BTUs. As a result, steam carries many times the energy of boiling water. Steam readily gives up that energy load when it condenses back into water (condensate) upon contact with the food.

SmartSteam 100 Boilerless Steamers

A boilerless steamer minimizes water use and the heavy maintenance required with a boiler or generator unit. Capable of handling the heaviest workloads with all the conveniences of auto-fill, auto-drain, timed cooking, and continuous steam mode. Come standard with a unit hour timer, free start up, and 2-year warranty. Model (2)SSB-5EF shown.

Model	Description
SSB-3E	Electric, Counter, (3) 12"x20" Pan Cap.
2-SSB-3EF	Electric, Double Stack, Open-Leg Stand, (3) 12"x20" Pan Cap. Per Comp.
SSB-5E	Electric, Counter, (5) 12"x20" Pan Cap.
2-SSB-5EF	Electric, Double Stack, Open-Leg Stand, (5) 12"x20" Pan Cap. Per Comp.
2-SSB-10GF	Gas, Double Stack, Open-Leg Stand, (10) 12"x20" Pan Cap., 100K BTU ea.
SSB-10EF	Electric, Open-Leg Stand, (10) 12"x20" Pan Cap.

Additional models available.

HOW TO SAVE ENERGY

Turn off Equipment Whenever Possible — Leaving equipment to idle uses energy. Identify peak operation times and times that may be slower.

Staff Training — Make sure your staff is trained and utilizing the equipment to its fullest capacity.

Examine your Cooking Methods — By looking at your menu, determine what items could be cooked on more energy efficient equipment and modify the use of those pieces of equipment that create energy waste.

Maintenance and Repair — Having your equipment serviced regularly can eliminate energy waste.

Manufacturer Parts — Utilizing manufacturer parts can help reduce energy waste as they are made specifically to fit your equipment.

Recalibrate — Ensure that your thermostats and control systems are in proper working order. Check them often to ensure correct cooking temperatures to reduce energy loss.

Seals — Check all door seals on a regular basis and replace worn out seals promptly to reduce energy loss.

New Appliances — When considering the purchase of new appliances, take into account energy ratings as well as the potential for multiple uses.

Capacity — Purchase kitchen equipment with capacity in mind. Equipment that is too large for your operation wastes energy as you have to heat or cool capacity you will never use.

Lighting — Dimmers are available for both LEDs and CFLs (ensure that you use dimmable CFLs). Daylight dimmers are special sensors that automatically dim room lights based on the amount of free and natural daylight available. Swap old Open/Closed and EXIT signs with LED lighting for additional energy savings.

STEAMERS – TOP 5 ENERGY SAVINGS TIPS

Close the Door — Keeping the door closed will keep the food hot and steam in, but will also reduce wasted energy.

Compartments — Shut down unnecessary compartments during slow periods.

Timers — Save energy by ensuring that the steamer runs at full heat only when needed.

Clean It — Regular cleanings will help ensure that equipment is always operating at maximum efficiency.

Maintain — Servicing the steamer regularly and replacing any worn or broken parts will increase energy efficiencies.

Southfield, M

Mexican Street
Corn Dip

- 2 tbsp. unsalted butter
- 5 ears corn, shucked and rinsed
- 1 jalapeño, seeded and diced
- 3 tbsp. mayonnaise
- 2 tbsp. crumbled cotija cheese
- 2 tbsp. chopped fresh cilantro leaves
- 1 tsp. chili powder, or more, to taste
- 1 clove garlic, pressed
- Juice of 1 lime

Melt butter in a large skillet over medium high heat.

Add corn kernels and jalapeño, and cook, stirring occasionally, until cooked through and slightly charred, about 8-10 minutes.

Stir in mayonnaise, cotija, cilantro, chili powder, garlic and lime juice.

Serve immediately.

Ovens – TOP 5 ENERGY SAVINGS TIPS

Combi — Make sure to follow the manufacturer recommendations for usage. Learn the programmable features that will allow you to increase energy efficiencies and maximize production.

Shut Doors — A busy kitchen can get crazy. When the oven is empty, make sure the doors are fully closed to reduce the heat that escapes.

Reduce Temperature — During slow times, turn the oven down to reduce energy consumption.

Fully Loaded — When possible, fill the oven to capacity as a full oven will increase the oven's efficiency.

Maintain — Replace seals and tighten – make sure to realign doors to keep heat in. Keep equipment clean an on a regular maintenance schedule.

Ventilation Systems

Caddy ventilation systems and UDS's are completely engineered and constructed from all 304 stainless steel. Models include baffle filters, cartridge filters, water wash, UV, and low air volume. DCV Demand Control ventilation is also available through Caddy's Smart Hood and partnership with Melink. All models can be made architecturally unique in a plethora of finishes and lighting. UDS's include a completely sealed and insulated body with bus bar electric for ease of changing services. Total customization allows just about anything to be added to them such as water filters, control panels, and sinks. *Contact us for additional information.*

CORE Protection

The water-based fire suppression system is capable of automatic detection and actuation via an electric thermal detector located in the hood and duct connection. When the temperature exceeds the rating of the sensors, the CORE Protection is engaged. The superior cooling effects of water are utilized for rapid flame knockdown and quick extinguishing of the fire. Remote manual activation is also available via a remote pull station. ETL listed to UL Standard 300 and ULC/ORD-C1254.6.

Captrate Grease Filters

The Captrate Filter line can extract more than 90% of grease above seven microns in size, resulting in reduced grease build-up in the hood and duct plenum. Single-stage Solo Filter is sized to fit into standard 2"D hood channel(s). Multi-stage Combo Filter offers unparalleled grease extraction efficiency and is available for new kitchen hoods and can also be retrofitted into most existing ventilation systems.

Babalu Tacos and Tapas
Birmingham, AL

Gulf Black Grouper with "Hoppin John"
Risotto and Cholula Beurre Blanc

4 ea. 8 oz. Black Grouper Filets

For "Hoppin John Risotto"

- 1 cup Arborio rice
- 3 cups plus/minus chicken stock
- 1 tbsp. garlic
- 3 tbsp. butter
- 1 cup white wine
- 1/2 cup roasted roma tomatoes
- 4 Links Mountain Song Farms (Mentone, AL) Chorizo
- 1 cup cooked black eyed peas
- 1 sprig Thyme (chopped)
- Salt and pepper to taste

Cholula Beurre Blanc

- 1/4 cup white wine
- 2 tbsp. minced shallots
- 1/3 cup heavy cream
- 1/4 tsp. salt
- 1/8 tsp. black pepper
- 2 sticks (or 1/2 pound) unsalted butter
- 4 tbsp. Cholula hot sauce

In large sauce pan, melt butter and saute garlic until aromatic. Add Arborio Rice and toast for 2-3 minutes on medium heat until fragrant.

Add white wine and let reduce by 1/3.

Add 1 cup of stock to rice and cook until absorbed, continue adding stock until absorbed. When all but 1/2 cup of reserved stock is used, add roma tomatoes, cooked chorizo, cooked black eye peas, chopped thyme. Add remaining stock until reaching appropriate consistency.

CAPTIVE-AIRE

Pollution Control Unit (PCU)

PCU is designed specifically for the removal of smoke and grease particles from the air stream of commercial kitchen exhaust systems and to eliminate or reduce odor to an acceptable level if equipped with the optional odor control section. Use with a Captive-Aire high efficiency self-cleaning or baffle ventilator but may be used with other high efficiency exhaust hoods. *Contact our Customer Service Department for assistance.*

CASRE Up-Blast Centrifugal Utility Set

The CASRE is ideal for high temperature, heavy grease applications. The curb mounted exhaust blower system is easily installed, delivers exceptional performance, and offers a tilt-out wheel for easy access when servicing or cleaning the unit. The motor base and shaft seals provide a double layer of protection to prevent leakage into the building and grease build-up on the motor. An automatic safety lock with manual release ensures safe access to the wheel for cleaning. *Contact our Customer Service Department for assistance.*

CAPTIVE-AIRE

Systems Control with DCV

Thermostatically controlled option offers automatic operation of exhaust fan(s) whenever cooking operations occur. Digital interface with LCD screen includes real-time status of fans, lights, and electric gas valve. Provides audible alerts of failures or issues. Alarm notifications displayed in English text to improve installation quality. Display of overload status for fan zone. The Demand Ventilation option utilizes VFDs to modulate exhaust and supply airflows based on cooking load. *Contact our Customer Service Department for assistance.*

KITCHEN VENTILATION SYSTEMS

Tips for the Selection and Use

When Selecting:

1. Know what your local codes require for ventilation.
2. Know what your growth plans are. It is easy to buy a little extra now but difficult to add on later.
3. Know how the ventilation system is designed to perform. An improperly designed ventilation system will dramatically affect your monthly utility bills, as well as create an uncomfortable, and possibly dangerous, working environment.
4. Use listed products. UL or ETL listing on hood, duct, and fans may result in substantially lower insurance rates. Ask your underwriter for an assessment.

When Operating:

1. Always service your fans. A loose fan belt or clogged in-take filter on the supply air fan will affect the performance of the system. Results of letting this maintenance lapse can be anything from a lack of capture ability, resulting in smoke and grease escaping into the surrounding area, to the fans shutting down completely, or worse. Set up a regular maintenance schedule at the same time you have your heating/air conditioning units checked. The same company can perform both maintenance functions.
2. Always keep the exhaust duct clean. A regular cleaning schedule should be set up with a cleaning company. Frequency of cleaning is dictated by the type and volume of cooking—in some cases every 30 days; in other cases, every 6 months. You must make the determination.
3. Clean the grease filters as often as necessary. They are made to be cleaned in most commercial dishwashers or the pot sink. If they are not cleaned regularly, the performance of the system suffers.
4. To help in maintaining the surface appearance, coat all stainless surfaces with a LIGHT covering of mineral oil, then wipe dry. This soaks into the pores of the metal and makes clean-up easier. Do not use mineral oil on the stainless grease filters. It is not necessary to coat the stainless every time you clean, only to keep a film of oil on the surfaces.

The key to all of the above is maintenance. The ventilation system is more than just the stainless box that you see in your kitchen. It includes the grease filters, grease duct, exhaust fan, supply fan, supply fan filters, supply fan duct, electrical or gas controls, motors and belts and design. If properly sized and properly maintained, it will save you money on your utilities. However, if the system is neglected, it will cost you each and every day of operation. The first cost of an improperly designed system may be lower, but the long term effect on heating/air conditioning equipment, as well as the energy usage, will soon catch up with your bottom line.

Sonic Steamer **Panasonic**

A cost effective and convenient alternative to a "traditional" steamer. No water line, no drain line or vent hood to worry about. Holds two full-size 4" steam table pans with covers. Connectionless steamer features 4 heating elements, 8 programmable memory pads with 16 memory capability, programmable or dial timer, 5 power levels, 3-stage cooking, and removable center shelf. See-through oven door is drop down counter style.

**The Manship Wood
Fired Kitchen**
Jackson, MS

**Charleston
Red Rice**

- 1/2 cup bacon fat
- 3 cups andouille sausage diced
- 1 qt. chopped onion
- 2 tbsp. thyme
- 1 qt. green bell pepper
- 8 ea. fresh chili
- 1 1/4 tbsp. crushed red pepper flakes
- 1/3 cup fresh garlic
- 3 tbsp. salt
- 1 1/2 tbsp. pepper
- 1/2 cup tomato paste
- 2 1/2 qt. tomatoes (canned San Marzano)
- 4 qt. stock
- 2 qt. rice
- 2 ea. bay leaf

Sauté sausage and onion in bacon fat. Add thyme, green bell peppers, chilli and red pepper. Stir in garlic, salt, pepper, tomato paste and tomatoes. Add stock and bay leaf and bring to a simmer. Add rice, cover and bake at 350°F for 35 minutes.

COMMERCIAL VS.
RESIDENTIAL MICROWAVES

Using a microwave built for residential use in a foodservice environment can be very costly and can also create some very serious safety hazards as it tries to keep up with your demands.

Here are a few facts illustrating the benefits of commercial:

Meets commercial insurance policy and health inspector requirements.

Tests to higher standards for added safety and peace of mind.

Built stronger with higher quality components, cooling fans, transformers, and control panels. Equipped with heavy-duty power cords and commercial quality relays.

Control panel allows easy menu programming for consistent results every time.

More powerful for faster heating and better quality results. Internal stirrer gives you even cooking results without the hassles of a turntable.

Commercial microwaves come with a wiring diagram that allows for faster and more accurate servicing. Residential microwaves often require complete replacement after a component failure.

Athens, GA

Seared Sea Scallops with Sweet Potato Pancakes & Apple-Pear Relish**Seared Sea Scallops**

8 large sea scallops

1 oz. salad oil

Salt & pepper

Heat skillet to medium high and add oil. Season scallops with salt and pepper. Place one of the two flat sides of the scallop down until well browned. Turn over and repeat. Remove scallops from skillet.

Sweet Potato Pancakes

1 sweet potato

1 cup flour

1 1/2 tsp. baking powder

2 tsp. sugar

1/2 tsp. salt

3/4 cup whole milk

1 egg

2 oz. salad oil

Bake sweet potato at 450°F for one hour. Discard skin and puree potato in food processor until smooth. In mixing bowl, combine flour, baking powder, sugar and salt. Add milk, egg and half of the oil (use remainder of oil for seasoning griddle or pan). Fold in pureed potato. Ladle mixture in 2 oz. portions onto griddle. Turn when first side is golden. Remove when second side is done.

Apple-Pear Relish

1 tbsp. butter

1 red apple, peeled, cored, diced

1 pear, peeled, cored, diced

1 vanilla bean

Heat skillet to medium. Add all ingredients and saute for about 90 seconds. Remove vanilla bean, add juice and all other ingredients to food processor. Chop to desired consistency. To assemble, place pancakes on appetizer plates and top with 2 scallops each. Split relish among appetizers. Garnish with sour cream and enjoy. Serves 4.

Seared Wasabi Rubbed Tuna Resting on a Coconut Sticky Rice Cake with Sweet Maple Soy and Avocado Crema

6 Portions

- 1 lb. Yellow fin Tuna (bright red) 6-4 oz. portions (block cut)
- 1 oz. dry Wasabi powder (mixed with water to smooth paste)
- 1 cup white sesame seeds
- 3 tbsp. canola blend oil

Butcher tuna into small 4 oz. blocks, rub with Wasabi, and then coat with sesame seeds.

In hot skillet with a touch of blended oil, place the tuna in a pan and sear on each side for about 15 seconds.

Sweet Maple Soy

- 1 cup maple syrup
- 1 cup soy sauce

Place the maple and soy in a saucepot and reduce by 3/4.

- 6 tsp. Sriracha (Thai chili paste)

Avocado Crema

- 1 ripe avocado
- 1/4 cup water
- 1 tsp. lemon juice
- Tbsp. salt and pepper

Place all ingredients in blender and puree until very smooth, (if needed add a touch more water until the avocados are smooth), season with salt and pepper, and place in a squeeze bottle.

Rice Cakes

- 4 cup Sushi Rice (cooked)
- 1 pint heavy cream
- 4 eggs
- 2 tsp. sesame oil
- 2 tsp. Rice Wine vinegar
- 1/2 bunch Scallions (sliced on bias)
- 1 cup coconut milk

Mix all the ingredients for the rice cakes together excluding the rice. When all ingredients are thoroughly mixed then fold in the rice.

Place in an oven proof-baking dish with 1-inch sides and place in a preheated 300°F oven for 1 hour, or until the 'flan' mixture has set. (The dry toothpick method is a sure test!)

When the rice cakes have cooled, remove from dish and cut into large triangles.

Place 1 tsp. of Sriracha on the plate and drizzle a touch of the avocado crema below that. On the opposite side place a healthy portion of sweet soy sauce on the base of the plate. Place the warm rice cake on top of the soy. Slice the tuna into three slices, season the flesh with salt and fan it around the rice cake. Watercress is used as a garnish.

Energy Conservation Checklist

- ☐ When cooling, each degree the temperature is raised reduces electrical consumption by 5%. When heating, each degree lowered reduces consumption by 3%.
- ☐ Install ENERGY STAR qualified fixtures and light bulbs (CFLs or LEDs) in your dining area and reduce energy consumption and heat output by 75 percent. ENERGY STAR qualified lighting also lasts 10–50 times longer than incandescent lighting.
- ☐ Substitute a 100-watt incandescent bulb for two 60-watt bulbs and save 12% energy with no loss of light.
- ☐ Operate a dehumidifier in the summer. Dry air can be tolerated at higher temperatures than humid air.
- ☐ Operating a humidifier in winter will allow colder air to feel more comfortable.
- ☐ Before closing for the night, close exhaust systems and pre-cool (in summer) or pre-heat (in winter).
- ☐ Install awnings over windows that get direct sunlight.

In the Kitchen

- ☐ Central HVAC systems are 10–15% more efficient than separate heating and cooling systems and allow incorporation of new energy efficient equipment.
- ☐ Remember that water and other water-based liquids boil at 212°F. Turning the flame higher does not cook food faster, it only uses more energy.
- ☐ Cover dishes with lids to retain heated air in pots and decrease cooking time.
- ☐ Monitor pre-heat times with thermostats and timers.
- ☐ When possible, use infrared broilers which can be turned off when not in use and quickly reheated, rather than idling less efficient equipment.
- ☐ Turn off exhaust fan when not required. This saves the energy needed to run the fan and eases the load on the heating/cooling system because you are exhausting less air from the room.
- ☐ Don't load fryer baskets beyond their stated capacity, normally $\frac{1}{2}$ to $\frac{2}{3}$ full. Crowded food takes longer to cook.
- ☐ Higher temperatures do not pre-heat ovens any faster than moderate temperatures.
- ☐ Use high energy-demand equipment sequentially rather than simultaneously, if possible.
- ☐ Hot water boosters should be within five feet of a dishwasher to avoid heat loss in the pipes.
- ☐ In gas-fired units, adjust the flame to blue with a firm center core. A yellow tip indicates gas is escaping.
- ☐ Flush water heaters every six months to prevent accumulation of solids that prevent heat transfer.
- ☐ Cook at lowest possible temperatures. Slow cooking retards meat shrinkage, retains nutrients and color, and cuts energy usage.
- ☐ Maintain steamtables at temperatures that allow food to warm without forming clouds of steam. Clouds indicate unnecessary high temperatures.
- ☐ Every few months have a qualified service representative calibrate oven thermostats with a thermocouple.
- ☐ In convection ovens, clean the fan blades. Accumulated dirt restricts the amount of air delivered.

- ☐ Keep microwave oven interior surfaces free of food particles that inhibit oven performance.
- ☐ Start the day's baking with foods that require the lowest oven temperature.
- ☐ Filter cooking fat. Built-up sediment reduces cooking efficiency.
- ☐ Place frequently used items in the front of refrigerators to reduce the time that the doors are open.
- ☐ In high ceiling rooms, replace the ceiling lighting with hanging lamps to bring light closer.
- ☐ Use direct, cold outside air for kitchen cooling.

ENERGY STAR® qualified equipment can be an answer to mounting energy bills

Purchasing ENERGY STAR® qualified commercial food service (CFS) equipment as a package for new kitchen construction or as a replacement for aging equipment, can save significant amounts of money and energy on foodservice operators' electric, gas, water and sewer bills. Commercial foodservice products in 8 categories may earn the ENERGY STAR®: dishwashers, fryers, griddles, hot food holding cabinets, ice machines, ovens, refrigerators, freezers and steam cookers. Qualified products can save up to as much as 50% over their conventional counterparts.

Save Energy, Save Money

ENERGY STAR® helps restaurant owners and operators improve the performance of their facilities and equipment while reducing energy costs. Restaurants that invest strategically can cut utility costs 10% to 30% without sacrificing service, quality, style or comfort — while making significant contributions to a cleaner environment.

Outfitting an entire kitchen with a suite of ENERGY STAR® qualified CFS equipment could save operators about 350 Mbtu/year annually, or the equivalent of approximately \$3,600.

Besides saving energy, ENERGY STAR® qualified steam cookers and commercial dishwashers save water. Steam cookers that have earned the ENERGY STAR® are 90% more water efficient than non-qualified steam cookers; an ENERGY STAR® qualified commercial dishwasher is 25% more water efficient than standard models.

Help Protect the Environment

Based on projected shipments of ENERGY STAR® qualified CFS equipment, it's expected that approximately 130,000 metric tons of greenhouse gas emissions will be avoided annually, equivalent to emissions from about 25,000 cars.

Visit www.energystar.gov for more information.

HOLDING EQUIPMENT

Holding Cabinets

Warmers

Display Cabinets

Serving Lines

SAFELY HOLDING FOOD FOR SERVICE

In many foodservice operations, food is cooked to order. Food that is stored, prepared, cooked properly and then served immediately is less likely to cause illness. However, even in operations that cook to order, many menu items are cooked and held for service. This is a perfectly acceptable practice as long as safety guidelines are followed.

Hot Foods

1. Never use hot-holding equipment to reheat food if it is not designed to do so.
2. Only use hot-holding equipment that can keep food at an internal temperature of 135°F or higher.
3. Stir food at regular intervals to distribute temperature evenly.
4. Keep food covered.
5. Check internal food temperatures every 2 hours.
6. Discard potentially hazardous food after 4 hours if it has not been held at or above 135°F.
7. Never mix freshly prepared food with food being held for service.
8. Prepare food in small batches so it will be used faster.

Cold Foods

1. Only use cold holding equipment that can keep food at 41°F or lower.
2. Do not store food directly on ice.
3. Check internal food temperatures every 2 hours.
4. Protect food from contaminants with covers or sneeze guards.

Flav-R-Savor® Portable Holding Cabinets

Thermostatically-controlled heat and humidity allows you to hold product longer, reducing waste and saving you money through increased energy efficiencies. Lower profile cabinets allow for under-the-counter flexibility. Feature electronic controls with digital read out temperature range from 80°F to 200°F. -EE Models Energy Star® rated. Model FSHC-7W1-EE shown in Designer Black, with optional bumper kit and right-hand hinged door.

Model	Description
FSHC-7W1-EE	7-Pan Cap., 1 S/S Door (ENERGY STAR®)
FSHC-7W2-EE	7-Pan Cap., 2 S/S Pass-Through Doors (ENERGY STAR®)
FSHC-6W1	6-Pan Cap., Low Profile 1 Glass Door
FSHC-6W2	6-Pan Cap., Low Profile 2 Pass-Through Glass Doors
FSHC-7-1	7-Pan Cap., 1 Glass Door
FSHC-7-2	7-Pan Cap., 2 Pass-Through Glass Doors

Additional models available.

C5™ Series 9 Controlled Humidity Cabinets

High performance insulated cabinets with precise temperature and humidity control. Designed to maintain food quality for extended periods of time by continuously monitoring and controlling internal cabinet temperature and relative humidity levels. Holds 12"x20" steam pans and/or 18"x26" sheet pans. Available in stainless or aluminum, 120V 20 amp or 15 amp models, solid or clear doors, reach in or pass thru.

Model	Description
C599-SDS-U	Stainless steel full height, dutch solid doors, universal slides, 120V, 2000W, NEMA 5-20P, ENERGY STAR
C593L-SFS-U	Stainless steel under counter, solid door, universal slides, 120V, 1440W, NEMA 5-15P
C593L-SFC-U	Stainless steel under counter, clear door, universal slides, 120V, 1440W, NEMA 5-15P

Additional models available.

Humiport Humidified Transport Cart

Humiport cabinets do double duty. They keep food fresh and ready at the proper temperature and humidity level and can be used as transport carts to get food to the serving area. They feature simple dial controls for temperature and humidity, adjustable universal pan slides, and a full wrap around bumper to protect the cart and your food during transport. The 1 3/4 qt. reservoir can be easily cleaned and is inexpensive to replace. Model HTU12 shown.

VaporPro Humidified Holding Cabinets

Get the best environment for holding food properly and unmatched performance. Perfect for high volume holding for extended periods of time. Top-mounted enclosed water reservoir is easy to clean and replace. Even and efficient heating for consistent results. Quick heat and humidity recovery. Digitally controlled heat and humidity with superior performance. Low water light with autofill water line capability. Model HL10-18 shown.

Model	Description
HL10-18	Full height, holds (36) 12"x20" or (18) 18"x26" pans, 5" casters
HL10-14	3/4 height, holds (28) 12"x20" or (14) 18"x26" pans, 5" casters
HL10-8	Half height, holds (16) 12"x20" or (8) 18"x26" pans, universal slides, 5" casters
HL10-5	Undercounter, holds (10) 12"x20" or (5) 18"x26" pans, 3" casters

C5™ 6 & 8 Series Heated Holding Cabinets

High performance insulated cabinets keep food hot and safe with your choice of traditional analog or precise digital controls. Available in stainless steel or aluminum, 120V 20amp or 15 amp models, solid or clear doors, reach in or pass thru. Holds 12"x20" steam pans and/or 18"x26" sheet pans.

Model	Description
C569-SDS-U	Analog controls, stainless steel full height, dutch solid doors, universal slides, 120V, 2000W, NEMA 5-20P. ENERGY STAR
C563L-NFS-U	Analog controls, aluminum under counter, solid door, universal slides, 120V, 1440W, NEMA 5-15P
C563L-SFS-U	Analog controls, stainless steel under counter, solid door, universal slides, 120V, 1440W, NEMA 5-15P
C589-SDS-U	Digital controls, stainless steel full height, dutch solid doors, universal slides, 120V, 2000W, NEMA 5-20P, ENERGY STAR

Additional models available.

C5 4 Series Insulation Armour™ Plus Heated Holding Cabinets

High performance holding and energy efficiency at a lower initial investment. Innovative hybrid polymer, stainless steel design with foamed-in-place polyurethane insulated polymer panels provides superior energy efficiency, built-in vertical handles, and full body bumper protection at the right price! Two slide styles to choose from for maximum holding capacity-Universal for 18"x26" sheet and/or 12"x20" steam pans, or Lip Load for 18"x26" sheet pans.

Model	Description
C549-ASFS-U	Polymer - stainless steel full height, full solid door, universal slides, 120V, 1400W, NEMA 5-15P, ENERGY STAR
C549-ASFS-L	Polymer - stainless steel full height, full solid door, lip load slides, 120V, 1400W, NEMA 5-15, ENERGY STAR

Additional models available.

Holding & Transport Cabinets

Designed to keep foods hot and delicious from cooking to serving. Quality features include energy-efficient cabinet design for quicker preheating and recovery times, structural components constructed of 100% stainless steel, field reversible doors, welded steel frame, and 5" casters. Full perimeter optional bumpers available at extra charge. 120V. 1500W. Model VBP15 shown.

Model	Description
VBP5	Holds (5) 18"x26" or (10) 12"x20" Pans
VBP7	Holds (7) 18"x26" or (14) 12"x20" Pans
VBP13	Holds (13) 18"x26" or (26) 12"x20" Pans
VBP15	Holds (15) 18"x26" or (30) 12"x20" Pans
VBP18	Holds (18) 18"x26" or (36) 12"x20" Pans

C5™ T-Series Cabinets

Heavy-duty heated transport cabinets built for over-the-road transport, not adapted. Foamed-in-place polyurethane insulation provides SUPERIOR heat retention and structural rigidity. While unplugged and in transit, an available mobile power option circulates air inside the cabinet, eliminating hot and cold spots that endanger food safety. The durability, efficiency, and intelligence of the T-Series make it the IDEAL solution for mobile applications. Holds 12"x20" steam pans and/or 18"x26" sheet pans. Adjustable bottom load slides. 120V. 1400W. NEMA 5-15P. ENERGY STAR®.

Model	Description
C5T9-DSB	Digital controls, S/S full height
C5T9-ASB	Analog controls, S/S full height
C5T8-DSB	Digital controls, S/S 5/6 height
C5T8-ASB	Analog controls, S/S 5/6 height
C5T5-ASB	Analog controls, S/S 1/2 height
C5T5-DSB	Digital controls, S/S 1/2 height

Additional models available.

TRUSTED.

G-Series Hot Food Cabinets

Even holding temps means better product quality and reduced shrink—less food cost. ENERGY STAR® means lower utility bills. Microprocessor control for greater accuracy and reliability. All-metal heating element means reduced lifetime service costs. Gasket and door pan design reduces replacement frequency. Self-closing/stay open doors provide operator convenience. 1-year parts & labor, lifetime door handle & hinge, 10-year door warranty.

Model	Description
G14300	1-Section Solid Half Door, HR
G14301	1-Section Solid Half Door, HL
G14310	1-Section Solid Full Door, HR
G14311	1-Section Solid Full Door, HL
G24300	2-Section Solid Half Door, HL/R
G24302	2-Section Solid Half Door, HR/R

Additional models available.

Crisp 'N Hold Food Stations

Hold French fries, crispy chicken tenders, poppers, in-shell peanuts and more! Gentle hot air circulation over and through the product maintains crispness while keeping food hot and ready to serve! Reduce food waste by extending the hold time for up to four times longer than traditional methods, such as heat lamps and enclosed holding cabinets. Adjustable and removable dividers for flexible product holding and easy cleaning. Model CNH18XD shown.

Model	Description
CNH18	3 section
CNH28LP	6 sections, w/lift-off heating system
CNH28	4 section
CNH12LP	3 sections, drop-in w/lift-off heating system
CNH18LP	4 sections, drop-in w/lift-off heating system
CNH18XD	3 section, extra deep

Additional models available.

Glo-Ray Buffet Warmer

Designed to safely keep food at optimum serving temperatures. Combining state-of-the-art design with performance, these buffet warmers place the focus on the product while holding hot food safely at proper serving temperatures. The modern design is perfect for front-of-the-house use, with designer powdercoating that blends into any décor. Model GR2BW-30 shown.

Model	Description
GR2BW-30	36 1/4"W
GR2BW-24	30 1/4"W
GR2BW-36	42 1/4"W
GR2BW-42	48 1/4"W
GR2BW-48	54 1/4"W
GR2BW-54	60 1/4"W

Additional models available.

C5™ 1 Series Heated Holding & Proofing Cabinets

Reliable non-insulated solution for proofing and basic holding needs. Entire control module is removable without tools for easy cleaning and servicing. Three modules to choose from (holding, proofing, or combination holding and proofing). Three slide styles to choose from for maximum holding capacity—universal for 18"x26" sheet and all 12"x20" steam pan depths, fixed wire for 18"x26" sheet and 12"x20"x2 1/2" steam pans, or lip load for 18"x26" sheet pans.

Model	Description
C519-CFC-4	Comb. holding & proofing module, fixed wire slides
C519-HFC-4	Holding module, fixed wire slides
C519-CFC-U	Comb. holding & proofing module, universal slides

Aluminum full height models listed above feature—Clear door, 120V, 2000W, NEMA 5-20P.

Additional models available.

Display Cases, F5 Series

Put products in the spotlight by showcasing items your customers can't resist at eye level. The F5 series offer a service style that works for your operation—Choose a 48" or 72" long, 24" or 30" deep single or double service display section with mirrored back, a single service display section with a see-thru back, or a pass-thru display section with glass doors on both sides.

Model	Description
F5MC48N	24"Dx48"L, self-cont., single serv, mirrored back
F5SC48N	24"Dx48"L, self-cont., single serv, see-thru back
F5PC48N	24"Dx48"L, self-cont., single serv, pass-thru w/glass doors
F5MR48N	24"Dx48"L, remote, single serv, mirrored back
F5MR72N	24"Dx71"L, remote, single serv, mirrored back
F5PR72N	24"Dx72"L, remote, single serv, pass-thru w/glass doors

Additional models available.

Glo-Ray® Designer Heated Display Cases

Curved tempered glass styling and incandescent lighting accentuate food products. Thermostatically-controlled heated base and infrared overhead heating hold hot foods at optimum serving temperatures. Available with or without controlled humidity. Constructed of aluminum and stainless steel with tempered glass and rollerless sliding doors. Available in all designer colors to match your décor.

Model	Description
GRCD-1P	Single Shelf, 20.63"W, 410W
GRCD-1PD	Dual Shelf, 20.63"W, 860W
GRCD-2PD	Dual Shelf, 32.5"W, 1210W
GRCD-3PD	Dual Shelf, 45.5"W, 1710W
GRCDH-1P	Single Shelf w/Humidity, 20.63"W, 660 Watts
GRCDH-2PD	Dual Shelf w/Humidity, 32.5"W, 1460 Watts

Additional models available.

C5™ 3 Series Heated Holding & Proofing Cabinets

Cool-to-touch polymer provides energy efficiency at a lower initial investment, full body bumper protection, and molded in handles. Available in red, blue, or gray, 120V, 20 or 15 amp in solid or clear door. Choose holding, combination holding and proofing, or moisture module which can be removed for easy cleaning. Tray slide options—universal for 18"x26" sheet and 12"x20" steam pans at varying depths, fixed for 18"x26" sheet and 12"x20"x2 1/2" steam pans, or lip load for 18"x26" sheet pans.

Model	Description
C539-MDC-U	Moisture module, red Insulation Armour, aluminum full height, dutch clear doors, universal slides, 120V, 2000W, NEMA 5-20P
C539-HDS-U	Holding module, red Insulation Armour, aluminum full height, dutch solid doors, universal slides, 120V, 2000W, NEMA 5-20P
C539-HDS-U-GY	Holding module, gray Insulation Armour, aluminum full height, dutch solid doors, universal slides, 120V, 2000W, NEMA 5-20P

Transport Cabinets

Built extra-strong to withstand the rigors of transporting bakery and foodservice products. Welded bottom ensures rigidity as well as permits forklift loading and unloading. Heavy duty plate casters promote easy mobility, and with many sizes to choose from, storage space will never be a problem. Two 12 gauge aluminized steel reinforcing channels support the .090" thick aluminum bottom panel.

Model	Description
918	Holds (18) 18"x26" Sheet Pans
922	Holds (22) 18"x26" Sheet Pans
926	Holds (26) 18"x26" Sheet Pans
933	Holds (33) 18"x26" Sheet Pans
936	Holds (36) 18"x26" Sheet Pans
941	Holds (41) 18"x26" Sheet Pans

Additional models available.

Glo-Ray® Infrared Strip Heaters

Infrared heat safely holds the temperature of your product without drying out or further cooking food. The end result is hot, fresh food that's ready-to-serve. Continuous aluminum housing and heavy-duty mountings ensure the durability and quality. Available in a range of colors and configurations allowing you the freedom to create the foodwarmer that's right for you. Model shown—GRAH-36 toggle controlled with S-hooks, chains, and cord and plug attached.

Model	Description
GRA-36TC	36" Std Watt w/Toggle Controls
GRA-48TC	48" Std Watt w/Toggle Controls
GRA-24TC	24" Std Watt w/Toggle Controls
GRAH-18TC	18" High Watt w/Toggle Controls
GRAH-24TC	24" High Watt w/Toggle Controls
GRAH-30TC	30" High Watt w/Toggle Controls

Additional models available.

Hot & Cold Merchandisers

Merchandisers provide self-service for a wide variety of foods, while displaying them attractively in a way sure to attract customers. Refrigeration and heating systems are engineered to hold the cold foods at temperatures optimized for protection of their safety and appearance, in accordance with the latest food safety standards.

Model	Description
OTH-1	34 1/4" Overall Length, 1140 Watts, 3 heated shelves
OTH-2	53 1/8" Overall Length, 1800 Watts, 3 heated shelves
OTH-3	61" Overall Length, 2300 Watts, 3 heated shelves
OTH-4	74 3/4" Overall Length, 2930 Watts, 3 heated shelves
35008	Equateur Upright Hot, 32.28"x31.50"x78.74"
35015	Equateur Upright Hot, 57.87"x31.50"x78.74"

Additional models available.

Heated Xenon Merchandisers

Sleekly designed to hold hot packaged food to attract your grab-and-go customers. The infrared heat and thermostatically-controlled heated base shelf safely hold food products for hours, while the Xenon lighting creates better illumination in the hold area. Hinged glass side panels are held in place magnetically and swing out for easy cleaning. Single or dual shelf models available with slant or horizontal shelves.

Model	Description
HXMH-24	Horizontal Warmer, Single Shelf, 28"Wx28 5/8"D
HXMH-30	Horizontal Warmer, Single Shelf, 34"Wx28 5/8"D
HXMH-36	Horizontal Warmer, Single Shelf, 40"Wx28 5/8"D
HXMH-42	Horizontal Warmer, Single Shelf, 46"Wx28 5/8"D
HXMH-48	Horizontal Warmer, Single Shelf, 52"Wx28 5/8"D
HXMH-54	Horizontal Warmer, Single Shelf, 58"Wx28 5/8"D

Additional models available.

Hot Food Merchandisers

Perfect for merchandising sandwiches, cookies or any day part menu in 12" or 15" of counter space. Interior thermometer. Bottom control panel houses ON/OFF switch and temperature knob for ease of operation. Aluminum corner posts and glass panel body construction with a 3/16" thick glass door with one-piece full length hinge and handle. CUL, UL, UL sanitation and NSF 4 approved.

Model	Description
12MC	12 7/8"Wx14"Dx18 7/8"H (2 Perforated Shelves)
15MC	15 3/8"Wx16 1/2"Dx24 7/8"H (3 Perforated Shelves)
18MCP	18 7/8"Wx20"Dx24 7/8"H (2 S/S Solid Shelves)

Serv-Rite® Portable Buffet Warmers & Heated Glass Shelf Modular

Buffet Warmer is perfect for self-serve buffet areas and customer serving points. Base is thermostatically-controlled with a digital temperature display. Removable utensil tray included. Model SRBW-1 shown with optional sneeze guard. Heated Shelf features black ceramic glass to create uniform heat across the entire top surface. Modular design allows units to be placed side-by-side. Thermostatic controls with 5 heat settings ranging 130°F to 200°F. Models HGSM-1P shown.

Model	Description
SRBW-1	Warmer w/Utensil Tray & Full Size Food Pan
SRGBW-1	Warmer w/Glass Surface & Utensil Tray
SRB-1	Heated Shelf w/Utensil Tray & Full Size Food Pan
SRG-1	Heated Black Glass Shelf w/Utensil Tray
SRSS-1	Heated Shelf w/Swanstone Surface/Utensil Tray
SRSSBW-1	Warmer w/Swanstone Surface, Utensil Tray, Full Size Food Pan
HGSM-1P	Heated Glass Shelf Modular, Holds (1) 12"x20" Food Pan

Decorative Carving Station

Hatco Decorative Carving Stations combines the Decorative Lamp with the Swanstone® Heated Base to create an attractive carving display. Patented telescoping heated lamp with a 30° shade pivot adjusts easily to accommodate food products. Heated stone base and curved cutting board available in all Swanstone® decorative stone colors to match your décor.

Model	Description
DCS400-1	Freestanding Carving Station
DCSB400-R24-1	Round Carving Station
DCSB400-2420-1	Small Rectangular Carving Station
DCSB400-3624-2	Large Rectangular Carving Station

Glo-Ray® Heated Stone Shelves

These unique foodwarmers will safely hold food hot while blending into your décor. Thermostatically-controlled heated base extend food holding times. Available in portable or built-in models. Built-in models include a remote box with a 3' conduit and a 6' cord and plug. Colors: Gray Granite, Night Sky, and Bermuda Sand.

Model	Description
GRSS-2418	24"x18" Free Standing
GRSS-3018	30"x18" Free Standing
GRSS-3618	36"x18" Free Standing
GRSSB-2418	24"x18" Built-In
GRSSB-3018	30"x18" Built-In
GRSSB-3618	36"x18" Built-In

Additional models available.

Soup Stations & Countertop Heated Wells

Soup Stations are designed to provide an attractive appearance while holding soups at safe-serving temperatures. SW2 units have heat evenly distributed throughout, with each end of unit equipped with an infinite switch and indicator light to control the nearest well. Holds two 7- or 11-qt. round pans. Countertop Heated Wells are both versatile and reliable. The HW series is a hold only operation, while the CHW series acts as a Rethernalizer and holds food products (cook and hold operation).

Model	Description
HW-FUL	Holds (1) full-size or (3) third-size pans
HW-43	Holds (1) full-size and (1) third-size pan, or (4) third-size pans
CHW-FUL	Holds (1) full-size or (3) third-size pans
CHW-43	Holds (1) full-size and (1) third-size pan, or (4) third-size pans

Portable Foodwarmers

Keep food hot at kitchen work areas, waitress pickup stations or customer serving points. Specially designed stand keeps food pans off work area, while the effective insulation prolongs holding time for safe-serving food products. Includes stand to keep food holding pans off the work area and allows easy access from three sides. Comes with standard toggle switch or optional infinite switch.

Model	Description
GR-B	Heated Base, Metal Sheathed Element
GRFF	Portable Foodwarmer, Metal Sheathed Element
GRFFL	GRFF w/Lights, Metal Sheathed Element
GRFFB	GRFF w/Heated Base, Metal Sheathed Element
GRFFBL	GRFFB w/Lights, Metal Sheathed Element
UGFF	UGFF, Ceramic Heating Element

Additional models available.

Rice Drawer Warmers

Designed to keep rice hot and at desired consistency until served. Unit holds rice in the same pot it's prepared in, reducing pan-to-pan transfer time and labor. With a digital electronic temperature control, heat is evenly distributed throughout the holding cavity, while all-around insulation provides excellent energy efficiency. Model HRDW-2U-1 shown.

Model	Description
HRDW-2	Includes raised beveled edge
HRDW-2U	Includes raised beveled edge, s/s utensil well & utensil pan
HRDW-2U-1	Includes s/s utensil well, utensil pan, & adjustable t-stat with knob

Glo-Ray® Designer Merchandising Warmers

Designed specifically for displaying wrapped or boxed product, these warmers hold hot food safely at proper serving temperatures. Available in single- or two-tier models with horizontal or slanted shelves for easy access. Features incandescent lighting with controlled top and bottom heat. Model GR2SDS-30D shown with standard designer black inset panels.

Model	Description
GR2SDS-30D	Single shelf w/12 rods
GR2SDS-24D	Single shelf w/10 rods
GR2SDS-36D	Single shelf w/14 rods
GR2SDS-42D	Single shelf w/16 rods
GR2SDS-48D	Single shelf w/18 rods
GR2SDS-54D	Single shelf w/20 rods
GR2SDS-60D	Single shelf w/24 rods

LiquiTec Cold Pans

Using patented eutectic fluid technology, LiquiTec cold pans far surpass traditional methods of cold pan operation. LiquiTec creates up to 100% more refrigerated surface coverage generating a super-cooling effect allowing pans and food to be flush with the countertop while maintaining NSF 7 safe food temperatures. Additionally, the super-cooling effects result in energy savings.

Model	Description
8118-EF	Holds (1) 12"x20" Pan
8132-EF	Holds (2) 12"x20" Pans
8145-EF	Holds (3) 12"x20" Pans
8159-EF	Holds (4) 12"x20" Pans
8172-EF	Holds (5) 12"x20" Pans
8186-EF	Holds (6) 12"x20" Pans

Electric Food Cooker/Warmer

With a unique insulation design, the FW-S600 cooker/warmer does double duty by heating frozen food in just 20 minutes and keeps it warm during busy service hours. The workhorse of kitchens everywhere, the FW-S500 warmer takes only 10 minutes to heat up, keeping food at safe serving temperature all day. Both models are ETL listed for electrical safety and sanitation. Can hold standard, full-size pans up to 6" deep.

Model	Description
FW-S500	Electric Warmer, 1200W
FW-S600	Electric Cooker/Warmer, 1500W

Food Warmers

Heavy duty stainless steel construction both inside and out for excellent durability. Available in both a square and round design and are fitted to accommodate most standard size pans. Maintains food temperature in excess of 140°F (the requirement for safe foodservice). Square models available in 1200 and 1500 Watts and round model in 1200 Watts. NSF. UL.

Model	Description
FW-1200W	Rectangle, 1200 Watts
FW-1200WR	Round, 1200 Watts
FW-1500W	4/3 Size, 1500 Watts

Dual Heat Lamp

Dual heat lamp is constructed of heavy duty aluminum and easily adjusts from 15" to 21". Shades designed with flared shape for strength and even heat distribution. On/off switch located on arm away from heat zone. Ceramic insulated sockets with nickel plated contacts to prevent fusing. Includes two 250 Watt clear bulbs. 120V. UL. 1-year warranty. Model HL-2 shown.

Hot Modular Drop-Ins

Energy-efficient design available in multiple wattages. Deep drawn 6³/₈" stainless wells allow for full size and fractional pans. Drip-free flange contains moisture and spills to prevent food contamination. Full perimeter gasket. Pre-assembled cord and plug configuration eliminate the need for electrician. Standard individual well drain or optional manifold drain offers flexibility in cleaning and operation. Auto fill option available. NSF4. 1-year parts & labor warranty.

Model	Description
3640011	2 Well 208-240V Therm
3639911	2 Well 100-120V Therm
3640411	3 Well 100-120V Therm
3640511	3 Well 208-240V Therm
3640711	4 Well 208-240V Therm
3640811	5 Well 208-240V Therm

Additional models available.

Soup Kettle

Premium kettle holds up to 11.4 quarts of liquid with a heavy duty stainless steel insert and lid complete with a piano hinge for ease of use. The outside shell is constructed with a scratch and dent resistant shell. Economy models hold up to 11 quarts and are available in black powder and stainless steel shells. Premium model is ETL listed and economy kettles are UL listed and UL sanitation.

Model	Description
SK-500W	11.4 qt., 500W (Black Powder Shell)
SK-600	11 qt., 400W (Black Powder Shell)
SK-800	11 qt., 400W (All Stainless Steel)

Drawer Warmers

Each positive-closing drawer has nylon rollers, a recessed thermostatic control, and temperature monitor. Stainless steel slides and removable drawer bodies make cleaning easy. Available in 1-, 2-, 3-, and 4-drawer freestanding units; 1-, 2-, 3-drawer built-in units; and as a Split Drawer Warmer, which expands holding capabilities by accommodating more pans in the same space as a standard single drawer model. Models HDW-1 and HDW-2 shown.

Model	Description
HDW-1	Freestanding, 450W, 1 Drawer
HDW-2	Freestanding, 900W, 2 Drawer
HDW-3	Freestanding, 1350W, 3 Drawer
HDW-4	Freestanding, 1800W, 4 Drawer
HDW-1N	Freestanding Narrow, 450W, 1 Drawer
HDW-2N	Freestanding Narrow, 900W, 2 Drawer

Additional models available.

Built-In Modular Food Warmers

Top-mount, drop-in modular food warmers are designed to hold heated foods at safe and fresh serving temperatures. Accommodates 12"x20" food pans or equivalent fractional inset pans. One-piece stainless steel top flange and heavy gauge, deep-drawn stainless steel warming pans are standard features on all models. Wellsloks for quick and easy installation. Sides, front, back, and bottom are fully insulated for energy savings, efficiency, quicker pre-heat, and faster recovery.

Model	Description
MOD 100TD-120	Single Pan Thermostat Control with Drain 120V
MOD 100TD	Single Pan Thermostat Control with Drain 208/240V
MOD 200TD	Two Pan Thermostat Control with Drain 208/240V
MOD 200 TDM	Two Pan Thermostat Control with Drain and Manifold 208/240V
MOD 300TD	Three Pan Thermostat Control with Drain 208/240V
MOD 300 TDM	Three Pan Thermostat Control with Drain and Manifold 208/240V

Additional models available.

EHEI Series, E-Chef™ Hot Food Tables

Designed with the quality you would expect from Delfield with the features you need to keep your operation running efficiently and profitably. All at a price that's easy on your bottom line. The EHEI series can function as stand alone pieces or as a component of Delfield's E-Chef Production Systems. Realize the economy of an attractive purchase price without sacrificing usability or durability.

Model	Description
EHEI36C	Electric, 36" w/Casters
EHEI36L	Electric, 36" w/Legs
EHEI48C	Electric, 48" w/Casters
EHEI48L	Electric, 48" w/Legs
EHEI60C	Electric, 60" w/Casters
EHEI60L	Electric, 60" w/Legs
EHEI74C	Electric, 74" w/Casters
EHEI74L	Electric, 74" w/Legs

Drop-Ins, Hot/Cold Convertible

Duke's versatile drop-in selection encompasses many hot, cold, combo, and patented items designed to improve merchandising efficiency and serving appeal. Basic hot drop-ins include exposed, sealed wells and slide in gas units, while basic cold options include ice bath and NSF7 refrigerated models.

Model	Description
ADI-3E-SW	3 Sealed Wells (Hot)
ADI-4E-SW	4 Sealed Wells (Hot)
ADI-3MD-N7	3 Wells, (Refrigerated, Holds 6" D Pan, NSF7)
ADI-4MD-N7	4 Wells, (Refrigerated, Holds 6" D Pan, NSF7)
ADI-5E-SW	5 Sealed Wells (Hot)
ADI-5MD-N7	5 Wells, (Refrigerated, Holds 6" D Pan, NSF7)

Additional models available.

Cayenne® Warmers

Features Vollrath's Direct Contact Heating System in which the heating element is in direct contact with the water for the most efficient heat transfer possible. Non-stick aluminum dome heating element uses 25% less energy and reduces scale build-up for easy cleaning and longer operating life. Dripless lip catches and drains moisture back into the well. Stainless steel exterior meets UL surface temperature standards for operator and customer safety. Meets NSF-4 standards. Model 71001 shown.

Model	Description
71001	Full size, 13 ³ / ₄ " Wx 21 ³ / ₄ " Lx 9" H
72017	7 qt. unit only
72021	11 qt. unit only
72050	⁴ / ₃ Warmer w/o drain
72051	⁴ / ₃ Warmer w/drain

Drop-Ins

Refrigerated cold pan models hold pre-chilled foods at cold, fresh, and safe serving temperatures. Available in NSF-7 standards for non-packaged foods and economical NSF-2 standards for pre-packaged foods. With a flip of a switch, the dual temperature models quickly convert from hot to cold operation. Wells delivers units that can fully support your menu—from single to 6-well models in standard, extra deep 4 each third-size pan sizes, slim lines for narrow counter, and slope-tops.

Model	Description
RCP100	Refrigerated, 1-pan (NSF 2)
RCP200	Refrigerated, 2-pan (NSF 2)
RCP300	Refrigerated, 3-pan (NSF 2)
RCP400	Refrigerated, 4-pan (NSF 2)
RCP500	Refrigerated, 5-pan (NSF 2)
RCP600	Refrigerated, 6-pan (NSF 2)

Additional models available.

Hot & Cold Drop-In Units

Drop-ins available in self-contained/mechanical coldwall units, ice cooled, and frost top units for the cold side and individual well and water bath models on the hot side. For those who are torn between the two, choose the combination hot/cold unit that allows you to do both in the same space.

Model	Description
9918SCA	Self Contained Refrigerated Coldpan, (1) 12"x20" Pan Cap.
9928SCA	Self Contained Refrigerated Coldpan, (2) 12"x20" Pan Cap.
9943SCA	Self Contained Refrigerated Coldpan, (3) 12"x20" Pan Cap.
9957SCA	Self Contained Refrigerated Coldpan, (4) 12"x20" Pan Cap.
9972SCA	Self Contained Refrigerated Coldpan, (5) 12"x20" Pan Cap.
9986SCA	Self Contained Refrigerated Coldpan, (6) 12"x20" Pan Cap.

Additional models available.

Versa Foodservice System

Fully portable system keeps food cold for hours with either ColdFest® pans or Buffet Camchillers®. Use the straight or corner connector to connect Food Bars, Work Tables, and Cashier Stations to create a professional, uniform look. Connect Versa Food Bars to merchandise snacks and beverages. Join a cashier station with a food bar for faster check-out and improved traffic flow. Ultra Series available with two secure storage cabinets that can hold up to 50 lbs. of non-perishable items. NSF.

Model	Description
VBR5	5' Food Bar w/Sneeze Guard w/Std Caster
VBRHD5	5' Food Bar w/Sneeze Guard w/Hvy Duty Caster
VBRL5	5' Food Bar, Low, w/Sneeze Guard w/Std Caster
VBRLHD5	5' Food Bar, Low, w/Sneeze Guard w/Hvy Duty Caster
VBRT5	5' Table Std Height w/Std Caster
VBRTHD5	5' Table Std Height w/Hvy Duty Caster

Additional models available.

Aerohot Steam Tables

Each hot food well is individually controlled (wet bath models excluded). Stain and corrosion resistant top is type 300 series stainless with high nickel content. Stainless steel body. Carving board is high-grade poly with rounded corners. Mounted on stainless steel support base and die stamped brackets—easily removed for cleaning. 120V, 208V or 240V as well as natural or propane gas. Electric unit available in exposed and sealed well design. UL NSF. AGA.

Hot Food Tables

Advance Tabco now offers both hot and cold food tables and drop-ins. LP and natural gas available, as well as 120 and 240 volt electric in both wetbath and sealed well configurations. Cold tables are also available mechanically assisted, or for use with ice only. Multiple sizes and configurations available. Model HF-3E-120 shown.

Model	Description
HF-3E-120-X	Electric, 3 wells, 120 V. 47" overall
HF-4E-240-X	Electric, 4 wells, 208/240 V. 63" overall
SW-3E-120-X	Electric, 3 sealed wells, 120 V. 47" overall
SW-4E-240-X	Electric, 4 sealed wells, 208/240 V. 63" overall
HF-3G-NAT-X	Gas, 3 well (for dry operation)
HF-3G-LP-X	LP Gas, 4 well (for dry operation)

Heated & Refrigerated Built-In Wells

Reliably hold your hot or cold food at safe temperatures, while retaining optimum freshness and taste in one efficient and easy operation. Heated Wells come in modular/ganged units (1 to 6 pan configurations); top- and bottom-mount full rectangular units with or without insulation. Refrigerated Wells come in 1 to 6 pan configurations with an electronic control featuring auto-defrost, adjustable condensing units, and green-friendly insulation.

Model	Description
HWBL-FUL	Heated Full Size 12"x20" (750W)
HWB-FUL	Heated Full Size 12"x20" (1200W)
HWBH-FUL	Heated Full Size 12"x20" (1650W)
HWBL-FULD	Heated Full Size 12"x20" w/Drain (750W)
HWB-FULD	Heated Full Size 12"x20" w/Drain (1200W)
HWBH-FULD	Heated Full Size 12"x20" w/Drain (1650W)

Additional models available.

Model	Description
E303	Electric, (3) wells
E304	Electric, (4) wells
E305	Electric, (5) wells
E302	Electric, (2) wells
E303SW	Electric, (3) sealed wells, stationary on legs
E304SW	Electric, (4) sealed wells, stationary on legs

Additional models available.

Open Well Steam Tables

Available in 2, 3, and 4 bay, these units are constructed of stainless steel with galvanized steel wells and adjustable legs. Feature 750W heating element with infinite control switch per compartment. The 8"D well fits full-size spillage pans (not included). Include adjustable undershelf and removable 8"x1/2" cutting board. 1-year limited warranty. CE.

Model	Description
ST-120/2	2 Bay, 33"W, 1500W, 120V
ST-120/3	3 Bay, 48 1/2"W, 2250W, 120V
ST-240/4	4 Bay, 63 3/4"W, 3000W, 208/240V

Electric Hot Food Tables

Heavy duty, fully assembled, stainless steel hot food tables are designed for the most demanding applications. Available in electric, wet/dry, individual well, and electric wet water bath models. Options include counter protectors, enclosed back (for island configurations), tray slides, casters, and overselves. Die stamped individual 12"x20" raised sanitary rim openings. Each well has its own thermostatic control for accurate food temperature.

Model	Description
3512-120	33"L, 2 Wells Dry (w/Spillage Pan)
3513-120	48"L, 3 Wells Dry (w/Spillage Pan)
3514-120	63"L, 4 Wells Dry (w/Spillage Pan)
3515-120	78"L, 5 Wells Dry (w/Spillage Pan)
3612-120	33"L, 2 Wells Wet (w/Drains & Manifold)
3613-120	48"L, 3 Wells Wet (w/Drains & Manifold)

Additional models available.

Shelleysteel™ Mobile Cafeteria Equipment

Shelleysteel combines the long-lasting durability of stainless steel with the design of mobile, modular cafeteria systems. Hot units, cold units or combination units give you the ability to provide a full-service menu in a limited amount of space. Optional laminate finish and graphics can be added. Tray slides, counter protectors, cutting boards, overselves, signage, decor panels, heat lamps, and lighting are optional. *Contact our customer service department for assistance.*

Your Solutions Partner

Easy Cart

This economical mobile solution for packaged menu items is designed with simplicity at its heart. All merchandising units are configured for 120V and can be plugged into any common outlet. All units can be totally waterless. This flexibility enables an additional revenue stream for your operation in any environment. The simple 4-step process to building your Easy Cart solution includes choice of length, merchandising, shelving, and décor. *Contact our customer service department for assistance.*

ServeWell® Food Tables

Innovative design in value-priced mobile serving equipment. Exclusive thermostat material cannot pit or rust. Dome heating elements mounted inside well. Each well equipped with individual drain. A non-refrigerated cold food table of the same solid construction available. Stainless steel ice well is designed to accommodate standard 12"x20"x6" steam table pans. Made in the USA. NSF. Model 38003 shown with optional Service Side Poly Cutting Board w/Mounting Kit.

Model	Description
38102	2-Well Hot, 700 watts/well, 120V, 11.7A
38103	3-Well Hot, 700 watts/well, 120V, 17.5A
38104	4-Well Hot, 700 watts/well, 120V, 23.3A
38105	5-Well Hot, 700 watts/well, 120V, 29.2A
38104	4-Well Hot, 480 watts/well, 120V, 16A
38105	5-Well Hot, 480 watts/well, 120V, 20A

Additional models available.

Shellyglas® Mobile Equipment

Rearrange your equipment whenever you want. Steel reinforced fiberglass base is lighter than stainless steel. Match your décor—25 standard colors or custom colors available. Easy to use stainless steel interlock system allows units to be connected. Low maintenance refrigeration systems. Tray slides, counter protectors, cutting boards, open understorage, and overselves are optional. Heated wells, cold pans or combination counters are available.

MobileServ Temperature Ready Serving Carts

Prepare foods and keep them HOT and/or COLD and READY TO SERVE with patented Mobile Hot/Cold Serving Carts. This line brings an attractive display of various menu items right to your customers. Available in various sizes, with or without sneezeguards, Wilsonart laminate or stainless front and side panels. Beverage carts also available. Model CBC-HHH-SG-L5 shown.

Model	Description
CBC-HC-L1	Hot/Cold Cart (2 Hot/1 Cold Dbl Servers), Flame Soapstone Red Laminate Panels, 2 1/2" H steam pans, 2 roll-top lids
CBC-HC-L3	Hot/Cold Cart (2 Hot/1 Cold Dbl Servers), Mission Smoke Grey Laminate Panels, 2 1/2" high steam pans, 2 rolltop lids
CBC-HC-L4	Hot/Cold Cart (2 Hot/1 Cold Dbl Servers), Girona Falls Blue Marbled Laminate Panels, 2 1/2" high steam pans, 2 rolltop lids

Additional models available.

Signature Server® Mobile Equipment

Ideal uses for upscale K-12, business and industry, and healthcare settings. Signature Server® features striking curved and rectangular base shapes. Functional and stylish breath guard options in standard and 2011 NSF2 versions. Choose hot, cold, frost top, or soup modular drop-ins. 1-year parts & labor warranty. Configure your next Signature Server® line-up by using the Concept™ Equipment Configurator on Vollrath.com. Contact our customer service department for assistance.

CamKiosk® Carts & System

Lightweight polyethylene carts won't dent, crack, bubble, chip or break. Holding cabinets have thick foam insulation and externally mounted thermometers. Sneezeguard meets food preparation requirements. Molded-in handles and 6" swivel casters make transport easy. Optional Hand Sink Cart w/ towel and soap dispenser makes hand washing convenient or Work Station w/towel dispenser provides additional space for preparing food or completing sales transactions.

Model	Description
KVC854	Kiosk 4 Pan
KVC854C	Kiosk 4 Pan w/Canopy
KVC854U	Kiosk 4 Pan w/Umbrella
KVC856	Kiosk 6 Pan
KVC856C	Kiosk 6 Pan w/Canopy
KVC856U	Kiosk 6 Pan w/Umbrella
KSC402	Hand Sink w/Towel and Soap Dispenser

Serving Systems

Increased participation and profits are assured by bringing the atmosphere of a mall food court to a foodservice operation. Complete with counters, distinctive signage, adaptable front decor panels, transition merchandising shelving, decorative soffits, pylon, and graphics systems. Engineered to give the designer flexibility in developing a form and function unique to the location. Standard base features are stainless steel interiors and Formica exteriors. NSF 7 cold pans are standard. Contact our customer service department for assistance.

Thurmaduke Serving Systems

An upscale "traditional" serving system perfect for elementary schools, middle schools and high schools. Thurmaduke means quality at an affordable price. Now with internal locking devices, it's even easier to put a line-up together and break it apart when needed for menu changes or multiple functions. From start to finish, Thurmaduke is your institutional systems leader. Contact our customer service department for assistance.

STAINLESS INNOVATIONS

Brilliant Design. Exceptional Value

Custom Fabrication

Stainless Innovations offers complete design, engineering, and fabrication services for the most complicated operational requirements. Whatever you have in mind... it can be done. Steel, millwork, refrigeration, and stone are produced in house. Custom work or the entire project including hoods, walkins, refrigeration, and equipment available. NSF2, NSF7, UL, ELT Ansi/NSF7 listed.

Smart Fabrication™

Your design, your specs! Advance Tabco standardizes Custom Fabrication by pairing catalog items with hundreds of stock modifications and accessories that meet your specifications. Consistent quality all within your time and budget constraints is the reason Smart Fabrication™ is the only fabrication you will ever need. *Contact our customer service department for assistance.*

Mobile Serving Lines

Mobile, yet retaining the superior Randell design and technology—reliable refrigeration, hinged louver with easy access to drain, and temperature controls. Electrical distribution system allows the banking of several units together providing a common connection point. Features heated/cold well units, shelving units, display case units, cashiers, and tray stands. Stainless steel, laminates, solid surfaces, and powder coated materials available. *Contact our customer service department for assistance.*

Completely Custom Fabrication

Full custom fabrication built with set design standards or built to consultant specifications. From the front of the house to the back of the house, Maverick produces a wide range of quality equipment that exceeds expectations of foodservice professionals and consultants. *Contact our customer service department for assistance.*

Elite-500 Serving System

Elite-500 units are designed for modular installation. Durable, easy to care for stainless steel units (or optional formica) come in beautiful pizzazz powder coating colors—one is sure to meet your décor demands. Models 6-HF, 4-CB, 3-ST, 5-ST, 2-CD shown.

Model	Description
2-HF-HIB	2-Well Heated Base, 32" Lx28"Wx36"H, 2000W
3-HF-HIB	3-Well Heated Base, 46" Lx28"Wx36"H, 3000W
4-HF-HIB	4-Well Heated Base, 60" Lx28"Wx36"H, 4000W
5-HF-HIB	5-Well Heated Base, 74" Lx28"Wx36"H, 5000W
6-HF-HIB	6-Well Heated Base, 88" Lx28"Wx36"H, 6000W
2-HF	2-Well Unheated Base, 32" Lx28"Wx36"H, 2000W

Additional models available.

Sleek Shields™

Introducing Sleek Shields™ with Chamber Lock™ technology, making rotating Food Shields easier than ever. Say goodbye to the days of loosening and tightening bolts on both sides. Simply release the chamber and turn, from only one side. Front glass easily rotates to any position. Chamber Lock™ lets you position front glass at 15° intervals. This low profile design means less metal and more visible glass, making this the sleekest Food Shield yet. NSF. Choose self-service or cafeteria models available with glass or stainless steel top. *Contact our customer service department for assistance.*

RanChef Custom Products & Chef Tables

Designed to fit your application and budget. From heavy duty to the budget constrained, Randell works with you to provide just the right blend of premium performance standard products and custom fabricated shelving units, overselves, and accessories. Modular, pre-designed units allow you to start with the basic modules and then create your very own Center-Island Chef's Counter, Server Stations or Cafeteria Counters. NSF 7 and UL. *Contact our customer service department for assistance.*

Component Crafted Custom Equipment

Configurations include refrigerated prep tables, counter display cases, utility cabinets, equipment stands, upright refrigerators and freezers, hot food tables, and more. Whatever you need can be built to your size and layout requirements. Each drawer features exclusive Full Extension Plus Drawer System which is incredibly smooth and has no metal-to-metal contact—no corrosion. 10-year warranty on drawer tracks. *Contact our customer service department for assistance.*

SLICER CARE

- Running butter through the meat grinder before grinding onions, meats, cheese, nuts or raisins will make cleaning easier.
- After using the electric meat grinder, put several slices of bread through the grinder. This will aid in cleaning fat and grease out of the grinder.
- It is important to clean your slicer thoroughly before and after sharpening your knife.
- Employing high school students? Federal law prohibits slicer operation by persons under 18.

Premium Heavy-Duty Automatic / Manual Slicers

When it comes to cheeses, frozen meats, and picky customers, it does matter how you slice it! Smooth and effortless slicing from tissue-thin to 1 1/4" with EZ-Glide Slicing System. Stainless steel slicers feature high torque, gear driven design, and 13" hardened steel alloy knife blade. 2-year parts, 1-year labor, and 15-year warranty on knife drive gears. ETL NSF. Models 3600N shown.

Model	Description
3600N	Manual
3850N	2-Speed, Chute Speed-40 to 60 spm
3975N	9-Speed, Chute Speed-20 to 60 spm
1326	Food Fence (12"x3")
1047	Food Fence (12"x1 3/8")
699-BAS	Vegetable Hopper (P Series)

Additional models available.

Manual Gravity Feed Slicers, 800 Series

Manual, gravity-feed slicers feature a hollow ground, chromium-plated carbon-steel knife and built-in, dual-action sharpener with convenient handle located on the sharpener cover. Protect the blade as well as your fingers with the permanent ring guard and removable center plate. Disassemble quickly without tools for easy cleaning. ETL NSF. 1-year parts & labor warranty.

Model	Description
823E-PLUS	9" Knife, Slice Adj. to 9/16" Thickness, 1/4 HP
825A-PLUS	10" Knife, Angled (45°), Slice Adj. to 9/16" Thickness, 1/3 HP
825E-PLUS	10" Knife, Slice Adj. to 9/16" Thickness, 1/4 HP
827A-PLUS	12" Knife, Angled (45°), Slice Adj. to 9/16" Thickness, 1/2 HP

robot coupe®

Food Processor

Prepare 1200 plus servings in 3 hours or less. Continuous feed unit designed for slicing, dicing, shredding, grating, julienne, and French fry cuts. Generous selection of 52 discs available for a variety of cuts and product processing. Control panel with "on/off" switch and magnetic safety switch for user safety. Feed unit removes for optimum sanitation. Round and kidney shaped feed openings. Includes 2 cutting discs. 1-year parts & labor warranty. Model CL50E.

robot coupe®

R101 Series Commercial Food Processors

Prepares up to 400 servings in 3 hours. Ideal for preparing special diets, limited quantity menu items, and salad bar complements. Comes with 2½ qt. mixing bowl, stainless steel cutting blade, vegetable slicer lid with internal ejection, and 2 discs (R101 Plus 3 discs). Accommodates 21 different discs for large variety of cuts. 1-year parts & labor warranty.

Model	Description
R101	Gray Bowl
R101BCLR	Clear Bowl w/Lid, 'S' Blade
R101PLUS	Clear Bowl, Pulse Switch, Add'l Julienne Disc

robot coupe®

R2N Commercial Food Processor

Prepare 850 servings in 3 hours or less! This unit is two machines in one. Bowl attachment is designed for vertical cutting and mixing—chops, grinds, kneads, and mixes. Vegetable prep attachment is designed for continuous feed slicing, shredding, grating, and julienne. Accommodates 23 processing discs. Complete with 3 qt. cutter bowl, "S" blade, and 2 processing discs. 1-year parts & labor; 3-year motor warranty. Model R2N Ultra shown.

Model	Description
R2N Ultra	Single Phase, S/S Bowl Unit
R2NS CLR	Single Phase, Clear Bowl Unit
R2NS	Single Phase, Gray Bowl Unit

R301 Ultra Food Processor

Mix, chop, grind, and emulsify in the bowl unit and ... Slice, grate, julienne, and ripple cut with the vegetable prep attachment. Comes with a 3½ qt. gray polycarbonate bowl (R301) or stainless steel bowl (R301 Ultra). Includes stainless steel smooth "S" blade, vegetable prep attachment with large and small hopper, one medium grating and one medium slicing disc. Accommodates 23 discs to satisfy all your food prep requirements. 1-year parts & labor warranty.

Model	Description
R301	3½ qt. Polycarbonate Gray Cutter Bowl Assembly
R301 Ultra	3½ qt. S/S Cutter Bowl Assembly

robot coupe®

R2 Dice Commercial Food Processor

Prepare a variety of favorites in less time! Continuous vegetable prep attachment for dicing, slicing, grating, or julienne cuts or use the 3 qt. gray polycarbonate cutter bowl for chopping, mixing, and to prepare purees. Includes cutter bowl attachment, stainless steel "S" blade, vegetable prep attachment with external ejection, grating and slicing disc, and dicing kit. Model R2 DICE.

Planetary Mixers

Globe 5-80 qt. mixers feature gear-driven motors, cast iron body (rigid cast aluminum 5 & 8 qt.), front-mounted touch pad controls, and 60-minute digital timer 10 thru 80 qt. models (SP8 15-min. timer). Flat beater, wire whip, spiral dough hook, and bowl included (SP60 and SP80PL includes bowl truck), SP62P includes bowl, hook, and bowl truck. 2-year parts, 1 year labor warranty. NSF, ETL. Model SP20 shown.

Model	Description
SP20	20 qt. Counter, ½ HP w/Removable Bowl Guard
SP30	30 qt. Floor, 1 HP w/Removable Bowl Guard

Additional models available.

Globe

HOW MUCH MONEY WILL A FOOD PROCESSOR SAVE YOU?

Use the following formula based on actual figures for your operation.

1. Total length of time to process all items (items that are now processed by hand and the number of people and hours that are required for completion of those functions by hand).
2. The length of time these same functions will take one person using a food processor.
3. Subtract the lessor time (#2) from the greater time (#1).
4. Multiply the number of hours saved by the hourly wage paid to get the daily savings.
5. Multiply the daily savings by the number of operating days per year. This will give you gross first-year savings.
6. Subtract the cost of the food processor from the gross first-year savings. This gives you a net first-year savings. Each year thereafter the savings is the full amount.

Power Mixers®

Patented removable stainless steel bell and knife assembly for unmatched sanitation. Ideal for liquefying soups, sauces, pureeing fruits/vegetables, and preparing the smoothest of pates in just minutes. Variable speed function enables you to adjust the speed to suit each preparation. Includes patented removable "Easy Plug" system, redesigned handle, and cord storage. 1-year "No Hassle" warranty.

Model	Description
CMP 250 COMBI	Compact Variable Speed 10"L w/8" Whisk, 280W (16 Qt.)

NSF Certified Manual Can Openers

Designed for durability, easy use, and quick cutting, these NSF commercial can openers are made out of high-grade, heavy-duty materials to puncture the tops of cans without cutting off any metal shavings, ensuring quick access to food without any dangerous contaminants. Made in the USA.

Model	Description
G-2	Quick Change S/S Knife & Gear (Lt. Duty)
S-11	Quick Change S/S Knife & Gear (5-Yr. War.)
S-11C	Quick Change S/S Knife & Gear Clamp Base
U-12	Quick Change, Std Length Bar Plated Base
U-12C	Cast S/S Clamp Base
U-12L	Long Bar & Plated Steel Base

Shelleymatic® Salad Ace

Get fresh, crisp, and appealing salad products with no damage to the foods. Removes moisture from lettuce and other vegetables through efficient spin-action. Motor is completely enclosed and water-tight. Adjustable on/off timer. Polyethylene inner liner and locking casters. 20 gallon capacity. Stainless steel outer shell provides durability and long-life. Model SALD-1

Electric Can Opener

Now with a 3-year warranty. Opens up to 200 cans per day. Equipped with a 2-speed motor and featuring knife and gear assemblies that can be removed without tools for easy cleaning. The slower second speed helps prevent spillage while opening smaller cans. NSF. Made in the USA. Model 270 shown.

Model	Description
270	Heavy Duty, 2-Speed, 115V
270C	Heavy Duty, 2-Speed, w/gas shock slide bar mount

Commercial Manual Can Openers

Premium heavy-duty nickel-plated can opener is fitted with a removable clamp, making it ideal for on-the-go operations that require flexibility. The go-to industry standard steel body can opener, made for heavy usage kitchen environments that require processing of up to 50 cans a day. Opens various can sizes up to #10. Includes base, blade, gear, and installation kit for mounting on wooden or stainless steel work table.

Model	Description
CO-1	Manual Can Opener for Commercial Use (with Base and 1 Blade)
CO-3	European-Made Heavy-Duty Can Opener (Nickel-Plated)

Poseidon™ Submersible Scale

Rugged waterproof design can be dunked in a pot sink to clean. Stainless steel body has "dual housing technology" providing twice the moisture resistance against corrosion. Its "scale-within-a-scale" design protects internal components against damage due to accidental shock. Six capacity display options. Programmable, so users can select length of time for battery-save feature, change gravity settings, and turn off specific weighing modes to reduce confusion. NSF and CE certified.

Model	Description
WSC-10	6"x6 ³ / ₄ " S/S Platform
WSC-10 OP	7"x8 ³ / ₄ " S/S Platform

Portion Control Scales

Portioning ingredients is made easy with Globe's compact scales with large LCD displays. Featuring push button tare, auto shut-off, easy-to-read LCD digital display, and removable stainless steel platter (model GPS5 includes plastic ingredient bowl). Weighs in pounds, ounces, kilograms, and grams. Not legal for trade. NSF. Model GPS5 shown.

Model	Description
GPS10	11 lb. cap.
GPS5	5 lb. cap.

PORTION CONTROL FACTS

Portion control is profit control. Weigh all ingredients in a recipe to ensure accurate measurements. A 1/2 oz. overweight on 100 portions a day can lead to thousands of dollars in lost profits each year. If a 1/2 oz. overweight occurs with each serving and 400 students are served, this extra 1/2 oz. that day results in 12 1/2 pounds of additional food being used. In this example, if the product cost \$1 per pound, the loss over the year would be \$3,000.

Notable Chefs

Reva Constantine

**Great Lakes
Culinary Center**
Southfield, M

**Homemade
Cinnamon Rolls**

Dough

- 1 (1/4 ounce) package active dry yeast
- 1 cup warm milk
- 1/2 cup granulated sugar
- 1/3 cup softened butter
- 1 tsp. salt
- 2 eggs
- 4 cups flour

Filling

- 1 cup packed brown sugar
- 3 tbsp cinnamon
- 1/3 cup butter, softened

Cream cheese icing

- 6 tbsp. margarine (or butter)
- 1 1/2 cups powdered sugar
- 1/4 cup cream cheese
- 1/2 tsp. vanilla
- 1/8 tsp. salt

For the rolls, dissolve the yeast in the warm milk in a large bowl. Add sugar, butter, salt, eggs, and flour to the bowl of a mixer and mix well.

Pour the milk/yeast mixture in the bowl and using the dough hook, mix well until well incorporated.

Place dough into an oiled bowl, cover and let rise in a warm place about 1 hour or until the dough has doubled in size.

Roll the dough out on a lightly floured surface, until it is approx 16" long by 12" wide. It should be approx 1/4 inch thick.

Preheat oven to 350°F degrees. Grease a 9"x13" baking pan.

To make filling, combine the butter, brown sugar and cinnamon in a bowl.

Spread the mixture evenly over the surface of the dough. Alternatively, you can spread the butter first on the dough and then the brown sugar and cinnamon mixture.

Working carefully, from the long edge, roll the dough down to the bottom edge. The roll should be about 18 inches in length. Cut the roll into 1 1/2 inch slices. You might find it easier if you use a piece of floss vs. a knife.

Place the cut rolls in the prepared pan. Cover them with a damp towel. Let them rise again for another 30 minutes until they double in size.

Bake for 20 minutes or until light golden brown. Cooking time can vary greatly!

While the rolls are baking make the icing by mixing all ingredients and beat well with an electric mixer until fluffy.

When the rolls are done, spread generously with icing.

Digital Scales

Save money on high cost foods with digital portioning. The first digital scale with a dishwasher-safe outer shell (premium models only). With full size premium scales available in stainless steel or anti-microbial resin—your kitchen will be more efficient, more productive, and safer in your food prep practices. High performance and compact digital portion control scales also available. NSF.

TE11FT	11 lb. x 0.1 oz., 7.5"x4.6" S/S Platform

KITCHEN PREP

Be a safe food handler by requiring strict personal hygiene. All employees should wear clean uniforms and hair restraints. Jewelry and artificial nails must not be permitted. Restrict or send home crew members that are ill—they must not handle foods.

Train and enforce a "no bare hand contact with ready-to-eat foods" policy. Wash hands and use alternatives such as disposable gloves, clean utensils or paper wraps to handle all ready-to-eat foods.

Keep foods out of the DANGER ZONE (41°F to 140°F). Check food temperature in 2 places—the thickest portion and the center. Sanitize the thermometer stem before and after use with an alcohol swab.

The equipment in your kitchen should meet industry and regulatory standards. The following are some standard NSF requirements for food prep and storage equipment. Food contact and food-splash surfaces must be easy to reach, easy to clean, non-toxic, non-absorbent, corrosion resistant, non reactive to food or cleaning and should not leave a color, odor or taste to food. Should be rounded with tightly sealed edges and corners. Should be designed with solid and liquid waste traps that are easy to remove.

Food cost refers to the menu price of a certain dish in comparison to the cost of the food used to prepare that same dish. Generally, food cost should be around 30-35%.

PORTION CONTROL

Restaurants that have a firm handle on portion control are able to control food costs, minimize waste and increase profit.

In order to practice portion control in your own kitchen, everything should be measured out. Chicken, beef and fish should all be weighed, while shredded cheese can be stored in portion control cups and a measuring cup can dish out mashed potatoes. Tools to have on hand include scales, measuring cups, pre-portioned ladles and scoops. Having adequate supplies in your prep area can save you a lot of profit.

PLANNING FOOD PORTIONS FOR EVENTS

Appetizers

Evening function with no dinner served:

10-15 pieces/person. These should be hearty appetizers.

Before Dinner:

3-5 pieces/person.

Before Lunch:

1-3 pieces/person. These can be lighter (veggies or cheese).

Beverages

3-4 beverages/person.

(For lunch and dinner, serve soda, beer, wine, mixed drinks, tea or lemon water).

Coffee—1 cup of coffee every 1 1/2 hours per person.

Lunch

Each person should get a main entree (5 oz.), 2-3 sides (4 oz. each), bread or a starch and dessert.

Dinner

Serve water with a lemon slice along with any other beverage.

5-7 oz. entree dish, 2-3 sides (4 oz. each), bread and soup or salad.

Dessert

1 piece per person

Beverage Guide

Coffee/1 pound..... (50) 1-cup servings

Punch/1 gallon (32) 4-ounce servings

Soda/2 liter (11) 6-ounce glasses

(10) 8-ounce glasses

TT Series Economy Work Tables

For commercial kitchens that require plenty of work space, this table is a great value. Its type 430, 18 gauge stainless steel top is ideal for tough commercial environments and has been sound deadened. Die formed hat channels on the bottom side of the table top provides additional stability as well as a level work surface. Galvanized undershelf with adjustable leg collars provides additional storage space. All stainless steel models also available.

Model	Description
TT-240-X	24"x30"
TT-242-X	24"x24"
TT-243-X	24"x36"
TT-244-X	24"x48"
TT-245-X	24"x60"
TT-246-X	24"x72"
TT-248-X	24"x96"

WORK TABLE HEIGHT

Correct working height of work tables reduces fatigue and permits an even flow of work

There should be 4" to 6" between the work surface and the bend of the elbow of the worker.

The immediate work area may be adjusted to the proper height by: using a 2" wooden chop board across a 12"x20" pan (the depth of the pan will depend upon the height the work area needs to be raised).

Deluxe Work Tables

16 gauge, 300 stainless steel top with adjustable undershelf or cross-bracing. Choose stainless steel undershelf, cross-bracing and feet, or galvanized undershelf or cross-bracing and legs with plastic feet. 36" working height. Tables larger than 72" have 6 legs. NSF.

Model	Description
WT30S48-BSX	30"x48" Top with 4" Backsplash S/S. Adj. Undershelf, Legs & Feet
WT30S60-STSX	30"x60" Flat Top S/S. Adj. Undershelf, Legs & Feet

LT6R5-3072SSW	30"x72" w/5" Riser (525 lb. cap.)

HAVING A HACCP PLAN IS CRUCIAL

A Hazard Analysis Critical Control Point program is a system of science-based process controls designed to identify and prevent physical, chemical and microbial hazards that cause foodborne illnesses. By charting the flow of food through your operation, points can be identified where contamination or growth of micro-organisms occur. Control features can then be implemented based on the identified hazard.

HACCP Guidelines:

1. Analyze potential hazards and describe preventive measures.
2. Identify critical-control points and establish a flow chart.
3. Establish preventive measures with critical limits for each control point.
4. Establish procedures to monitor the control points.
5. Establish corrective actions to correct the hazard immediately.
6. Set-up an effective record-keeping procedure that documents the HACCP system.
7. Establish procedures for verification that the HACCP system is working correctly.

Conservor® Dishmachines

Quickly, easily, and efficiently clean wares with Conservor® door-type dishmachines. Complete with built-in chemical pumps and priming switches, low product indicator light, and door switch. The self-draining stainless steel pump eliminates soil and detergent carryover between the wash and rinse cycles. NSF and c-ETL-us listed. ENERGY STAR®.

Model	Description
Conservor XLE	Chemical-Sanitizing Sgl Rck 39 rks/hr.
Conservor XL2	Chemical-Sanitizing Dbl Rck 74 rks/hr.
Conservor XL2C	Chemical-Sanitizing(Corner) Dbl Rck 74 rks/hr.

Flight-Type Dishmachines, LoH20

The LoH20 design cleans 11,094 dishes using only 58 gallons of water per hour. Insulated double-wall construction provides whisper-quiet operation with low heat radiation to the dishroom. High-efficiency wash arm system powers off the toughest soils. V-tank construction minimizes soil build-up and provides easy access for cleaning and maintenance. NSF and c-ETL-us listed. *Contact our customer service department for assistance.*

WHAT SIZE DISHWASHER DO YOU NEED?

To help determine what size dishwashing machine you will need, you must first determine how many racks of dishes per hour you will generate. Here's an equation that may help:

$$\frac{\# \text{ of pieces per person} \times \# \text{ of persons per hour}}{20 \text{ pieces per rack}} = \text{racks per hour required.}$$

TEMPERATURE REQUIREMENTS

Nationwide, health inspectors require that dishmachine rinse temperatures be verified to reach between 170°F-212°F, the range sure to kill bacteria.

Things to Consider When Buying Dishwasher Racks

- What size are your glasses?
 - Do you plan on using the racks for storage also?
- It is very important to consider these points. Purchasing improper dishwashing racks can result in more breakage. Ask us for help in selecting the proper racks.

Ventless Dishmachine

Using only 0.8 gallons of water, this 3-door, single rack dishmachine washes 40 racks per hour. Safe-T-Temp feature assures 180°F sanitizing rinse cycle. Minimum 90-second cycles run 60-second wash/rinse and 30-second steam evacuation. Heat recovery system captures water vapor from the wash/rinse cycle and condenses it, in order to heat the incoming cold water and evacuate the steam from the wash chamber. Stainless steel construction. Maximum clearance for dishes is 17 1/2". ENERGY STAR®. Model CMA-180-VL shown.

**Chemical Sanitizing
Single Rack Dishwasher**

Using only 1.09 gallons of water per cycle, this stainless steel dishwasher cleans 40 racks/160 covers per hour. Top mounted controls include built-in chemical pumps and deliming system that assures proper chemical usage. Power Drain saves space, eliminates noisy solenoid and external sump. Integrated scrap tray prevents food soil from entering drain system. Auto start/stop. Sanitizing system provides instant sanitation and eliminates chlorine damage to the machine. ENERGY STAR®.

Rack Conveyor Dishwashers

Redesigned E-series combine energy saving and ease-of-use features to make the cleaning experience as simple as possible. Rack conveyors provide an insulated swing-out door design for instant access to everything. DualRinse™ technology, found on the DR models, fully rinses wares through a second rinse zone, while consuming as little as 112 gallons of water per hour. Come standard with self-diagnostic controls and a full port ball valve drain for ease of cleaning. ENERGY STAR®. Model 44DR shown.

Model	Description
44DR	44" Single Tank, 208 racks/hr., DualRinse™
54DR	54" Single Tank, 266 racks/hr., DualRinse™
66DRPW	44" Single Tank, 208 racks/hr., 22" Prewash & DualRinse™
64	64" Two Tank, 277 racks/hr.
84	84" Two Tank, 356 racks/hr.
86PW	64" Two Tank, 277 racks/hr., 22" Prewash

Additional models available.

High Temperature Undercounter Dishmachine

Using only 0.8 gallons of water, this unit's 2-minute wash cycle cleans 30 racks per hour. Triple filtering protection system captures excess soil and debris. Safe-T-Temp feature assures 180°F sanitizing rinse cycle. Stainless steel construction and double-wall design provides consistent heating and quiet operation. Removable stainless steel wash and rinse arms allows for easy cleaning. ENERGY STAR®. Model UC65E shown.

Model	Description
1667.1	Model UC-50E w/Disp, 6 kW Booster, 13¾" Door Opening
1667.4	Model UC 65E w/Disp, 4 kW Booster, 14½" Door Opening

Genesis Door-Type Dishmachines

Energy usage savings up to \$5,000 per year with the DH5000DV or VHR. No hood required! Sloped hood design keeps steam away from the operator. Exclusive tri-rinse system ensures clean wares every cycle. Multi-volt and multi-phase offers maximum installation flexibility. Variable cycle times convert machine from dishwasher to pot/pan washer. NSF. ENERGY STAR. Available in standard height or tall to accommodate larger items like sheet pans or stock pots. Model DH-5000T shown.

Model	Description
DH5000	Hood type w/40/70 degree rise, electric
DH5000DV	Hood type, direct vent option, w/40/70 degree rise, electric
DH5000VHR	Hood type, ventless heat recovery, w/70 degree rise, electric
DH5000T	Extended hood w/40/70 degree rise, electric
DH5000TDV	Extended hood, direct vent option, w/40/70 degree rise, electric
DH5000TVHR	Extended hood, ventless heat recovery, w/70 degree rise, electric

Versa Clean Door Machine

A high-temp, ENERGY STAR® machine with a high efficiency 1 HP pump, .90 gal. per rack, 55 racks per hour. Its in-field adjustable, all-in-one design, allows it to be installed either 208 or 240 volt, single or three phase, straight or corner configurations, and operate with a 40°/70°F rise booster. No kits or parts needed, all options are built into this single unit. Standard features include Rinse Sentry to ensure 180°F final rinse, auto start and automatic drain. Model DH-2000.

Undercounter Dishwashers w/Built-In Booster Heater

Significantly reduce water and energy consumption with new exclusive features. Multi-phase allows for infield conversion from single to three phase with ease. Multi-volt allows infield conversion 208-240 volt. Rinse sentry extends the cycle time to ensure 180°F final rinse. Soft start protects dishes and glasses from chipping and breaking. The compact efficiency makes it ideal for under the counter or freestanding installations. ENERGY STAR®. NSF, ETL rated. Model UH330B shown.

Model	Description
UH-230B(70)	Energy Star-23.4 gal/hr./ .78 gal/rack, 40 racks/hr. w/70° Rise
UH-130B(70)	38 gal/hr./1.8 gal/rack, 25 racks/hr. w/70° Rise
UH-330B(70)	Energy Star-15.2 gal/hr./ .76 gal/rack, 24 racks/hr. w/70° Rise, Heat Recovery
UL-130	32 gal/hr./1.5 gal/rack, 25 racks/hr., low-temp

Champion®
The Dishwashing Machine Specialists

TempStar® Door-Type Dishmachines

Whether you're washing a delicate wine glass, fine china or a greasy pot, the TempStar cleans them all! Its built-in booster with Sani-Sure™ ensures proper sanitation every cycle. LK943LC	Low Flow, 8" OC splash/wall mount, flexible gooseneck with 2.2 gpm spray valve
LK843C	8" OC deck mount, flexible gooseneck with 3.2 gpm spray valve
LK843LC	Low Flow, 8" OC deck mount, 44" flexible gooseneck with 3.2 gpm spray valve

Waste Xpress® Food Waste Reduction System

Waste Xpress® helps reduce labor and waste handling costs while increasing kitchen efficiency. The disposer grinds kitchen waste, which is then sent to the dewatering section where water is squeezed out. Solid waste is reduced by 85% of its original volume. Up to 700 lbs. per hour can be processed. Designed for continuous operation in locations such as restaurants, nursing homes or assisted living facilities.

Aqua Saver® Systems

Install an AquaSaver® control with an InSinkErator® Disposer and use up to 70% less water instantly! AquaSaver automatically senses the waste load through the disposer and regulates water flow. When less is needed, less is used! Easy to install, made with stainless steel and backed by a 3-year warranty when purchased as part of a complete disposer package. Model AS101

Grease Interceptors

Epoxy-coated, steel-constructed grease interceptors help prevent greasy substances from entering plumbing systems, septic fields, and wastewater treatment facilities. Plumbing and Drainage Institute (PDI) certified. Full line of sizes available for:

- Cooking/Prep Sinks
- Pot, Pan and Scullery Sinks
- Dishwasher applications

EC-3100-HG	Deck Mount Gooseneck w/Hydro-Generator
EC-3101-HG	Wall Mount Gooseneck w/Hydro-Generator
EC-3102-HG	Deck Mount Single Hole w/Hydro-Generator
EC-3103-HG	Deck Mount w/Hydro-Generator, 4" Center

Faucets

The perfect choice for use in the busiest kitchens—get reliability and quality construction with T&S faucets. Components can be sold separately. Available in a variety of styles for all kitchen needs. Model B-0220 shown.

Model	Description
B-0201	Single Hole Mount Faucet, 12" Spout
B-0202	Single Hole Mount Faucet, 6" Spout
B-0220	Deck Mount Faucet w/8" Centers, 18" Spout
B-0221	Deck Mount Faucet w/8" Centers, 12" Spout
B-0222	Deck Mount Faucet w/8" Centers, 6" Spout
B-0230	Wall Mount Faucet w/8" Centers, 18" Spout

Additional models available.

Low Flow Spray Valves

Cut your water use in half by replacing your current spray valves and aerators with high performance spray valves from T&S.

Models B-0107-C and B-0108-C shown.

Model	Description
B-0133-B	Wall Mount Pre-Rinse Unit w/8" Centers (incl B-0109-01 6" Wall Brckt)
B-0107	Spray Valve, 1.42 gpm
B-0108	JeTSpray Valve, 1.48 gpm
B-0131-B	Wall Mount Pre-Rinse Unit w/8" Centers (incl B-0109-01 6" Wall Brckt)
B-0107-C	Spray Valve, .65 gpm (EPAAct 2005 Compliant)
B-0107-J	Spray Valve, 1.07 gpm

Additional models available.

Kitchen Single Lever Faucets

Single lever faucet with side spray equipped with 9" spout, deck-plate, two 16" stainless steel flexible supply hoses, 2.2 GPM aerator, and ceramic cartridge with lifetime warranty. Features temperature limit stop, forged brass body, and solid brass stem. ADA compliant. Also available without side spray. Model B-2730 shown.

Model	Description
B-2730	Single Lever Faucet w/Side Spray
B-2731	Single Lever Faucet

Mini Pre-Rinse Units

Water conserving Mini Pre-Rinse Units meets EPAAct standards and are in full compliance of the mandated legislation guidelines. Single deck mount base mixing faucet features add-on faucet, 6" swing nozzle, compact spring and flexible hose, 6" wall bracket and lever handles, and B-0107 spray valve for power and efficiency with a 1.42 gpm flow rate. Wall mount also available.

Model	Description
MPZ-2DLN-06	Deck Mount
MPZ-8WLN-06	Wall Mount

Retractable Hose Reel & Spray

The Reel-Kleen retractable hose reel and spray are cleaning up. Heavy duty stainless steel construction with ratcheting system holds the length of the hose until a slight tug retracts automatically. Available with 30 ft., 35 ft., or 50 ft. hose.

Model	Description
B-7122-C01	30 ft. 3/8" ID blue hose, enclosed reel
B-7132-01	35 ft. 3/8" ID blue hose, open reel
B-7142-C01	50 ft. 3/8" ID blue hose, enclosed reel

Royal Series Pre-Rinse Units

Built for high volume usage and durability. Heavy duty 1/4 turn ceramic cartridge valves with built-in internal check valves in supply inlets. Parts interchangeable with most brands. Wall mount pre-rinse shown with recommended add-on faucet with 12" spout. Full replacement parts available. Models are low lead compliant. Models 17-109WL, 17-202WL and 14-812L shown.

Model	Description
17-108WL	Wall Mount Pre-Rinse
14-812L	Wall Faucet w/12" Spout
17-202WL	Deck Mount Pre-Rinse
17-109WL	Wall Mount Pre-Rinse w/Add-on Faucet
14-808L	Wall Faucet w/8" Spout

Slim Jim® Containers & Lids

Efficient size and shape fits tight spaces. Integrated, venting channels reduce force required to lift full can liner by 60%. Four can liner cinches improve productivity while molded-in handles and base grips make lifting and emptying easier. Swing lid offers 60% more unobstructed disposal area; hinge swings 270° to fit flat against container. Stainless steel dolly adds mobility with 3" casters.

Model	Description
FG354000BLA	23 Gal. Container (Black)
FG354000BRW	23 Gal. Container (Brown)
FG354000GRAY	23 Gal. Container (Gray)
FG354000YEL	23 Gal. Container (Yellow)
FG354060BLA	23 Gal. w/Vent Channels (Black)
FG354060GRAY	23 Gal. w/Vent Channels (Gray)

Brute® Round Containers, Lids & Dolly

Plastic, professional grade construction will not rust, chip, or peel and resists dents. Snap-on lids provide secure, stable stacking. Colors are USDA and NSF approved. Available in 10, 20, 32, 44, and 55 gallon capacities. The integrated, venting channels on 20, 32, and 44 gallon cans reduce force required to lift full can liner by over 50%. Variety of lids (snap-on, funnel or dome) and accessories also available.

Model	Description
FG260900	Flat Lid (for 10 gal.) Gray, White
FG261000	10 Gal. Gray, White
FG261960	Flat Lid (for 20 gal.) Gray, White, Yellow
FG262000	Vented 20 Gal. Gray, White, Yellow, Dk. Blue
FG263100	Flat Lid (for 32 gal.) Gray, White, Yellow, Red
FG263200	Vented 32 Gal. Gray, White, Yellow, Red, Dk. Blue

Additional models available.

Hot Water Hoses

Restaurant grade heavy-duty hot water hose can withstand temperatures up to 200°F. All rubber jacket resists abrasion and is durable under any condition. Available in 25' and 50' lengths and 5/8" or 3/4" inside diameter.

Model	Description
724-311	50 ft., 5/8"
724-546	25 ft., 5/8"
724-547	50 ft., 3/4"

Tilt Trucks

Durable construction for transporting and dumping heavy loads with ease. Smooth surface is easy to clean and resists pitting and corroding. Easy to handle and maneuver. Constant force design allows for controlled dumping by one person. Inset wheels protect walls and fixtures. Constructed with USDA and FDA compliant materials. Optional hinged lid sold separately.

Model	Description
FG130500BLA	1/2 cu. yd. Tilt Truck, 850 lb. capacity, Black, Yellow, Red, Blue
FG130573BLUE	1/2 cu. yd. Tilt Truck, 850 lb. capacity, Blue with Recycle Symbol
FG130700BLA	Tilt Truck Lid (fits 1305 and 1305-06), Black

Additional models available.

Huskee SuperKan™ Receptacles

Molded of engineered resins with seamless construction, the Huskee™ is a strong, long lasting receptacle used by virtually every industry. 32, 44, and 55 gallon sizes have a bag cinch that eliminates the need to tie knots in the polyliner, keeping it secure around the receptacle rim. Stackable with lid on, nestable with lid off. Sizes 10-44 gallon are NSF approved.

Model	Description
2000	20 Gal. (Grey or White)
3200	32 Gal. (Grey, Red, White, Yellow)
4444	44 Gal. (Grey, Red, White, Yellow)
5500GY	55 Gal. (Grey)
2001	Lid for 20 Gal.
3201	Lid for 32 Gal.
4445	Lid for 44 Gal.
5501	Lid for 55 Gal.

Wall Hugger™ Receptacles & Dolly

Continental's sleek Wall Hugger design holds 23 gallons of waste, but protrudes less than one foot from the wall. The line includes a version with built-in handles to provide ease of transport and a secure grip when lifting and dumping. Match with color-coded Recycling Lids for easy identification, encouraging users to sort their recyclables. Use with a Dolly for a complete mobile system. Compatible with (7325) Drop Shot Lid, (7318) Push Door Lid or (8320) Wall Hugger Dolly.

Model	Description
8322	23 Gal. (Beige, Black, Brown, Grey)
H8322	23 Gal. w/Hdls (Beige, Black, Brown, Grey)
7325	Drop Shot Lid (Black, Brown, Beige, Grey)
7316	Recycle Lid w/Hole for Cans & Bottles (Blue, Green, Yellow)
8320	Dolly for 8322 & H8322
8320-4	Quad-Collection Dolly for 8322 & H8322
7315	Flat Lid w/Hdl (Grey)
H8316	16 Gal. w/Hdls (Beige, Black, Brown, Grey~ Special Order)

Additional models available.

Step-On Receptacles

Commercial grade step-on waste receptacles are designed for convenient and hygienic disposal of various waste types under heavy use. Lid is activated by foot pedal. Smooth plastic will not rust, chip or peel like metal cans. Unique notch holds standard size polyliners. Optional rigid liners also available. Available in 18 and 23 gallon sizes; the 23 gallon has wheels for mobility and a stainless steel wire frame for extra durability. FM and CSFM approved.

Model	Description
23	23 Gal. (Beige, Red, White)
18	18 Gal. (Beige, Red, White)
19	Rigid Plastic Liner (fits #23)
15	Rigid Plastic Liner (fits #18)
8322	23 Gal. (Beige, Black, Brown, Grey)

Bronco™ Waste Containers

Ergonomic Comfort Curve™ handles for easy handling. Reinforced lids have tab locks—snaps down tight. Available in 5 colors for HACCP support. Support recycling programs or your own green initiatives with 2-sided "Recycle" imprinted containers (except the 345050REC). The Roll-Away Container (Grey only) has heavy duty axle and oversize traction wheels for hauling heavy loads. Sturdy hinged lid flips open 270° for easy access.

Model	Description
341032	Waste Container, 32 Gal.
341033	Waste Container Lid, 32 Gal.
341044	Waste Container, 44 Gal.
341045	Waste Container Lid, 44 Gal.
341132	Waste Container, 32 Gal. w/Dolly
341144	Waste Container, 44 Gal. w/Dolly

Additional models available.

Trimline™ Waste Containers

Heavy duty plastic construction for easy cleaning. Corner tabs keep bags secure and helper handle on bottom makes lifting and dumping easier. Available in brown, gray, and black. Recycle container displays the recycle symbol on both sides—available in blue and green. Compost green container addresses city requirements for compost food waste. To make waste management discrete, both swing top and handled lids can be purchased in any color. Wire frame dolly makes waste collection more efficient and safer for employees.

Model	Description
342023	23 Gal. Container
342024	23 Gal. Container Swing Top Lid
342025	23 Gal. Container Handled Lid
36920-1	Dolly for 23 Gal.
342023REC	23 Gal. "Recycle" Blue or Green
342023CMP09	23 Gal. "Compost" Green

Additional models available.

Safety Cone & Barricade System

Cones available in 36" and 25" heights. OSHA and ANSI compliant colors and graphics. Imprinted with hazard messages in multiple languages. Barricade system features a 72" self-retracting yellow and black stripe tape. Wet floor signs are lightweight, versatile signs for effective safety communication and fold for easy storage.

Model	Description
FG611200YEL	25" Floor Sign, Caution Imprint, 2 sided
FG627600YEL	Safety Cone 36" w/ Multi-Lingual "Caution" Imprint
FG627700YEL	Safety Cone 25" w/ Multi-Lingual "Caution, Wet Floor" Imprint
FG611477YEL	37" Floor Sign, 4 sided, Caution Wet Floor Imprint
FG628700YEL	Portable Barricade System
FG628400BLA	Weight ring for 36" safety cones

TCell Dispensers and Fragrances

The world's first continuous odor control that delivers a precise dose of pure designer fragrance and odor neutralizer for 60 days without the use of batteries. One dispenser covers approximately 3 to 4 toilets or urinals and a wide array of fragrances are available.

Model	Description
FG402110	TCell Wakening Spring K3 TC
FG402111	TCell Polar Mist K3 TC
FG402112	TCell Blue Splash K3 TC
FG402113	TCell Citrus K3 TC
FG402187	TCell Crystal Breeze K3 TC
FG402369	TCell Mango Blossom K3 TC

Additional models available.

Kleen-Pails

Meets board of health and HACCP mandates for dedicated containers. Handle design prevents handle loss. Imprint feature designed to meet healthcode. Made of durable, impact-resistant plastic and clearly marked for specific use. Complete family of four sizes 3, 6, 8, and 10 quart available in red for sanitizing and green for detergent. Kleen-Pail Caddy provides efficient cleaning and sanitizing with one easy to use tool.

Model	Description
KP196	6 qt. (Red or Green)
KP256	8 qt. (Red or Green)
KP97	3 qt. (Red or Green)
KP500	Kleen Pail Caddy, including spray bottle
KP320	10 qt. (Red or Green)
KP550	Kleen Pail Caddy, without spray bottle

WaveBrake™ Mopping System

Reduce splashing by 40%. Tubular steel and structural web molded plastic. Optional dirty water bucket (#9C74) shown for sortation of clean and dirty water. Colors: Yellow, Brown, Green, Red, Blue.

Model	Description
FG758088YEL	Side Press Combo, 35 qt., Yellow or Brown
FG757788YEL	Down Press Combo, 35 qt., Yellow or Brown
FG9C7400RED	Dirty Water Bckt for 35 qt. Combos, 18 qt., Red or Yellow
FG757088YEL	Bucket w/Caster Kit, 35 qt., Yellow
FG757588YEL	Down Press Wringer for Bucket, 12-32 oz. mops, Yellow

Additional models available.

Unibody Mopping System.

ColorGuard® Cleaning Program enhances your HACCP initiatives and significantly reduces the risk of cross contamination. Four color options allow you to identify and color-code for use in designated areas of your facility. Its one-piece design results in a positive transfer of force, removing more water per stroke. Ergonomic handle reduces fatigue and back injury. Includes self-draining spigot and sediment screen drain grate. 35 Qt. (Yellow, Blue, Green, Red) Model 351.

SANITATION

Use separate and dedicated cleaning and sanitizing pails to clean stations, tables, and counters. Tables should be wiped down with sanitizing solution between turns. Separate towels should be used for tabletop and chair.

Use durable and efficient brooms, mops, buckets, to keep the receiving area clean. Make sure it is well lit to discourage pests.

Use separate and dedicated cleaning and sanitizing pails to clean prep stations.

Avoid slip and fall accidents by warning patrons and workers of potentially hazardous floors with proper safety cones and barricades. Clean spills and debris as soon as possible.

Professional Cleaning Products

Guaranteed to make your operation sparkle. Everything you need from grill cleaning supplies to hotel size soap pads can be found from ACS Industries, your source for professional cleaning supplies.

Model	Description
10-100	Scrubber, S/S, 50 gm.
86-606	Green Nylon Pad 6"x9" HD
96-601	Green Nylon Pad 6"x9" MD
24-002TSH	Steel Wool Soap Pads, Hotel Size Boxed
ISP01PB	Steel Wool Soap Pads, Hotel Size Poly Bag
24-005B	Nylon Soap Pads, Tough Scour, 3 1/2"x3 1/2"
GB12-TSH	Grill Bricks, 1/12 ct.

Brooms & Mops

Improve cleanliness in critical high-traffic areas and reduce the risk of foodborne illnesses and cross-contamination behind the scenes with the large selection of brooms and mops from ACS Industries.

Model	Description
M8702	Cotton Blend Natural, Med.
M8703	Cotton Blend Natural, Large
M8706	Blue Blend Wide Band, Med.
M8707	Blue Blend Wide Band, Large
M8824	Rayon Wide Band, Large
B406	28# Warehouse Corn Broom (Blend)
B410A	Plastic Large 12" Angle Broom
B441L	Plastic Small 7 1/2" Angle Broom
M8910	Wood Handle

Flat Top Grill Cleaning Supplies

Flat top grill cleaning is fast and easy with core essential products from ACS. Grill bricks clean hot residue, encrusted grills with little effort. Grill screens and pads are the perfect combination for cleaning and polishing of the surface. Heat resistant holder completes this system.

Model	Description
GB12-TSH	Grill Bricks
20-682TSH	Open-Mesh Screen
GP100	Polishing Grill Pad, 4"x6"
676	Grill Pad Holder

Liquid Griddle Cleaner

Pre-mix of griddle cleaning liquid is fast and safe for use on food contact surfaces. Loosens and lifts grease and oil for easy removal. Available in 3 oz. portion packs or quart bottles.

Model	Description
GC-36	Liquid Griddle Cleaning Packs
GC-QT	Liquid Griddle Cleaning Quart

BROOMS, BRUSHES & MOPS

Guide to Floor Brush Selection:

Fine: Hard finished floors, wood, marble, terrazzo and ceramic tile.

Medium: Resilient smooth floors, asphalt, vinyl, rubber, tile, linoleum and smooth concrete.

Coarse: Rough unfinished surfaces, wood, rough concrete, paved and blacktop. Germs collect quickly. Throw old and particularly dirty, used brooms and brushes away. Hang brooms and brushes when not in use to keep bristles off floor.

Tek-Tough Jr.™ Anti-Fatigue Mat

Lighter weight makes handling a snap and cleanup easier. Molded-in beveled edge improves safety and makes cart traffic easy. 1/2" thick. Four sizes and two rubber formulations available. Available in 3'x5', 3'x10', 3'x15' and 3'x20'.

Model	Description
436-931	3'x5' Black Grease-Resistant
436-932	3'x5' Red Grease-Proof
436-971	3'x5' Grey Grease-Proof
437-434	3'x10' Black Grease-Resistant
440-446	3'x10' Grey Grease-Proof
440-447	3'x10' Red Grease-Proof

Additional models available.

Superflow® Mats

Lightweight anti-fatigue reversible mat is available in general purpose (black) and heavy-duty (red) rubber compounds for varying degrees of grease and oil protection. A drainage system facilitates the removal of liquids and debris and the molded-in beveled edges reduce trip hazards and allow for easy access onto and off of the mat. The aggressive textured top surface provides additional traction in wet or greasy areas.

Model	Description
065-547	3'x2'
065-548	3'x3'
065-549	3'x4'
065-550	3'x5'
065-551	3'x6'
065-552	3'x8'

Additional models available.

Electronic Touchless Towel Dispensers

Prevent the spread of germs and go "hands free". Electronic touchless paper towel dispensers are 25% smaller than other electronic dispensers and are simple to use. Tear-N-Dry Essence dispenses 10" of paper with no wait making it ideal for high traffic areas. Smart Essence features a smart self adjusting sensing field; allowing customers to toggle between the Sensor mode or Towel Out mode. Dispenses 80 to 90 rolls of 800' towel on 4D cell batteries in sensing mode.

Model	Description
T1300TBK	Tear 'N Dry, Classic, Blk Pearl
T1300TBL	Tear 'N Dry, Classic, Arctic Blue
T1390TBK	Tear 'N Dry, Oceans, Blk Pearl
T1390TBL	Tear 'N Dry, Oceans, Arctic Blue
T1400TBK	Smart Sys w/IQ Sensor™, Classic, Blk Pearl
T1400TBKHW	Smart Sys w/IQ Sensor™, Classic, Hndwsh Stn, Blk Pearl

Additional models available.

Ridge Scraper Mat

Perfect for entrances and C-stores. Its 3/8" durable molded rubber construction provides an excellent slip resistant surface. Raised-edge contains spills. Available in 2 1/2'x3', 3'x5', 3'x10', 4'x6', and 6'x8'.

Model	Description
0065-587	3'x5'
4468-247	3'x10'
4468-246	4'x6'

Element™ Roll Towel Dispenser

Economical, easy to load, and simple to use. It's 33% smaller than a standard lever roll towel cabinet but still accommodates a standard 800' 8" roll towel. Compact, high-capacity dispenser accepts any quality of roll towel paper with any size core.

Model	Description
T950TBK	Black Pearl
T950TBL	Artic Blue

Simplicity Mechanical Hands-Free Dispenser

Hands-free dispensing for most types of roll towel. Does not require batteries. Automatic mechanical cutting dispenses 11" portions of roll towel. Items T7000 and T7090 feature a stub roll automatic transfer system and dispense up to an 8" diameter roll towel. Items T7500 and T7590 are compact for tight applications and dispense up to a 6" diameter roll towel.

Model	Description
T7000TBK	Classic, Blk Pearl
T7000TBL	Classic, Arctic Blue
T7090TBK	Oceans, Blk Pearl
T7090TBL	Oceans, Arctic Blue
T7500TBL	Compact, Classic, Arctic Blue
T7500TBK	Compact, Classic, Black

Additional models available.

Superfoam® Mats

Dishwasher safe anti-fatigue mats are designed especially for ease of handling and ergonomic comfort. Closed cell PVC Nitrile foam blend does not absorb liquids and is resistant to greases, oils, animal, and vegetable fats. Can be used in areas where occasional overspray and dripping occur such as dishwashing stations and bar areas. Its light weight makes it perfect for areas where mats are regularly moved for cleaning.

Model	Description
065-547	3'x2'
065-548	3'x3'
065-549	3'x4'
065-550	3'x5'
065-551	3'x6'

Cactus Mat Mfg. Co.

VIP Red Cloud Floor Mat, Anti-Fatigue

Grease proof rubber mat made of a unique closed-cell nitrile compound offers the ultimate in comfort and performance. Standing on it makes you feel like you're "standing on a cloud". At only 8 lbs. for a 2'x3' section and 14 lbs. for a 3'x5', it's extremely easy to handle and clean. Textured surface and tapered edges promote anti-slip and anti-tripping safety. 5-year guarantee against breakdown from grease. Black or red. Not recommended for use in areas with excessive water.

Model	Description
5000-R35	3'x5' Red
2200-B35	3'x5' Black
2200-B23	2'x3' Black

Cactus Mat Mfg. Co.

Topdek Floor Mats

For non-heavy use in non-grease and light-grease areas, TOPDEK has become the most popular rubber floor mat, combining good quality and excellent value. Choose from our heavier "senior" version or lighter weight "junior" weighing about 20 lbs. for a 3'x5' mat. The "molded-on" bevel ramp prevents trips while the aggressive anti-slip surface creates a safer working environment. Easy to handle and clean floor mats are available in general purpose black or grease resistant red.

Model	Description
2530-C5	Junior, 3'x5' Black (20 lb.)
2530-R5	Junior, 3'x5' Red (20 lb.)

Additional models available.

Cactus Mat Mfg. Co.

Mat Carts

Labor saving mobile mat carts keep mats off of the floor for easy, efficient cleaning. Hooks secure perforated mats for storage and cleaning. Two models to choose from—All welded or knocked down. Open design allows use of waste container (KD model only). Lifetime warranty against rust and corrosion. Equipped with four 5" plate casters. Model 51087 shown.

Model	Description
51087	Knocked down (Ships UPS), 24"x45¼"x36"
99360	All welded, 41½"x40"x27½"

Infinity® Smoking Management

Infinity® Smoking Management Solutions offer a stylish, all-metal construction for efficient smoking litter management. High capacity receptacles reduce frequency of emptying. Stainless steel snuff plates and 360° disposal area. Domed tops for weather resistance. Integrated padlock tabs for security against tampering and theft. FM approved. Colors: Black, Bronze, Pewter.

Model	Description
FG9W3300AGBRNZ	Traditional Receptacle, 5000 cigarette cap., Black, Bronze, Pewter
FG9W3100SSBLA	Base Mount, 1500 cigarette cap., Stainless Steel
FG9W3400AGBRNZ	Ultra-High Cap., 8000 cigarette cap., Black, Bronze, Pewter
FG9W3200SSBLA	Wall Mount, 700 cigarette cap., Stainless Steel

Scraper Mats

Choose from 2 scraper mats. The "Finger Top"—its tiny raised fingers create not only a scraper mat but also an anti-fatigue mat. Durable 3/8" thick molded rubber is beveled on all 4 sides for safety. The "Ridge Scraper" reduces slips and falls with its tapered edge, raised rubber pattern and cleated backing. Durable 3/8" rubber mat also adds resilience for worker comfort. Both are easy to clean just shake or hose off.

Model	Description
35-2432	Finger Top, 24"x32"
35-3239	Finger Top, 32"x39"
35-3672	Finger Top, 36"x72"
1625-35	Ridge Scraper, 3'x5'
1625-310	Ridge Scraper, 3'x10'

Before An Inspector Visits

Without a health inspection, your restaurant could fall victim to a foodborne-illness outbreak that could ruin your establishment's reputation and even force you to close your doors.

The proper strategy for a successful health inspection is to be ready for an examination at any time. This means that you and your managers should become inspectors and conduct weekly, in-house examinations before health inspectors arrive.

- When conducting a self-assessment, you should use the same form or a similar form that your health department uses and put yourself in the health inspector's place.
- Your self-inspection should include walking into your establishment from the outside to get an outsider's impression.
- After you inspect your operation, hold a 10-minute briefing with kitchen staff to review any problems. This step will help convey the importance of food safety to staff members.
- If your staff includes employees for whom English is a second language, ask a bilingual employee to translate the findings to them so they also understand how important cleanliness is to the success of your restaurant.
- Your self-inspection priorities for kitchen employees should include: food temperature, awareness of food types and hand washing.
- Temperature guidelines include checking the temperature of products when they arrive, when they are stored and when they are served. Doing this will reduce foodborne-illness outbreaks by 70 percent.
- Food-type guidelines are divided into three categories: beef and beef blood, chicken and all other types of food. These 3 categories can never touch each other during preparation.
- The importance of hand washing should be re-enforced by posting signs at all kitchen sinks and in employee restrooms.
- Train your managers to ensure that they are up-to-date on the latest food-safety techniques. Restaurant employees can use the National Restaurant Association Educational Foundation's ServSafe food-safety training program.
- Review your local health code for any special, local requirements.
- Another way to influence the outcome of your health inspection is to get involved politically. Join your state's health-code-revision committee to give a restaurateur's perspective. Involve senior staff on such committees as well.

During An Inspection

Don't panic when an inspector arrives. Think of this as a learning opportunity that will benefit your operation by making it as safe as possible. To make an inspection as pain-free as possible, you should:

- Ask to see the inspector's credentials first. In some cases, people have tried to pass themselves off as health officials. If you're unsure of the person's credentials, call the local health department or the inspector's supervisor for verification.
- Do not refuse an inspection. The examiner will likely get an inspection warrant that you can't refuse and the examination will be even more thorough.
- Tag along with the inspector and take notes of any violations he or she finds. This gives you the chance to correct simple problems on the spot and the examiner will note your willingness to fix problems.
- Refrain from offering any food or any other item that can be misconstrued as an attempt to influence the inspector's findings.
- After the exam, be sure to sign the inspector's report. Signing it doesn't mean that you agree to the findings; it only means that you received a copy of the report.
- Ask the inspector to explain his findings to your staff and offer suggestions on areas that need improvement. Even the cleanest restaurants sometimes contain health-code violations.

After An Inspection

Here's what you can do to limit the damage of an adverse health inspection:

- Fix small problems during the inspection to let the examiner know you are willing to work with him or her.
- If you don't understand the violation, ask the health official to explain. Don't be confrontational.
- If you disagree with the inspector's findings, keep quiet for the time being and appeal the decision later. Your health inspector should be your ally. He or she can improve the quality of your cuisine and save you from the devastation of a foodborne-illness incident.

STORAGE & TRANSPORT

Shelving

Racks

Carts

Food Storage

SHELVING CARE

A clean, well kept food storage area is very important. However, cleaning and maintenance of shelving can be a very time consuming process. Choosing the right shelving for your food storage area can eliminate a lot of headaches and grief. Shelving that can be cleaned quickly and easily will more likely be done more often and will not take too much time away from other job responsibilities.

CLEANING OPEN WIRE SHELVING

Equipment Needed: Brushes, Sponges, Towels, Buckets, Hoses, Mild Detergent

Est. Time: 30 min. once a month
=6 hours per year

Labor cost x 6 hours = cleaning cost per year

Cleaning Steps:

1. Remove all products.
2. Move shelving unit to outside area or area away from food products. (Note: do not contaminate food product with cleaning chemicals).
3. Hose shelving unit to loosen grease and dirt.
4. Use water, mild detergent and sponges to clean shelves.
5. Use brushes to clean between wires and remove stubborn residue.
6. Hose off unit again to remove cleaning chemicals and loose dirt.
7. Towel dry unit and move back.
8. Place product back on shelf.

CLEANING REMOVABLE POLYMER SHELVING

Equipment Needed: Dishmachine or pot sink

Est. Time: 10 min. once a month
=2 hours per year

Labor cost x 2 hours = cleaning cost per year

Cleaning Steps:

1. Shift products on one end of shelf.
2. Remove polymer mats.
3. Place in dishmachine or sink to clean.
4. Replace mats and repeat for other side of unit.

Super Erecta™ and Super Erecta Pro™ Shelving

Super Erecta and Super Erecta Pro, wire storage, and handling systems—versatile, durable, and reliable. Shelves adjust and are available in a wide range of sizes. NSF Super Erecta Pro provides removable mats and a metal frame. Built-in antimicrobial product protection. Additional models and finishes available.

Green Epoxy Coated Shelves & Posts

Ideal for dry or wet storage areas. Shelves and posts constructed from heavy-duty steel with a zinc plated undercoating. Optimal thickness of green epoxy applied to insure long lasting performance, even in the toughest wet environments. For fast and easy set up, posts are grooved in 1" increments, double grooved every 8", and numbered every 2" for faster reference. Shelving carries a 12-year warranty against naturally occurring rust. NSF.

Protecto® Rack Covers

Protecto® rack covers enclose bakery-style racks, keeping food fresh and clean and preventing odor transfer. Tear-proof covers are available in a variety of grades and colors, including economy, heavy-duty, breathable mesh, and insulated. Protecto® covers, sized at 23"Wx28"Dx62"H, fit standard racks, but custom covers are available in your choice of material, size, shape, and color.

THINGS TO CONSIDER WHEN CHOOSING A RACK OR CABINET

- **What is to be stored?**
- **What size can you use?** Height, width and depth of kitchen space are important. You should also consider maneuvering area (ie. corners, elevators, etc.).
- **What capacity is needed?** The most popular 63"H model holds (20) 18"x26" sheet pans per rack. But, a variety of configurations and sizes are available.
- **What kind of spacing is needed?** To maintain the integrity of your product, spacing between ledges is critical. For example, a meringue pie wouldn't require the same amount of space as a donut.
- **Do you need to load from the front or side?**
- **What type of construction do you want?** Aluminum or stainless? Ask us for help! We are happy to help you determine what rack or cabinet will fulfill your needs.

CAMBRO
TRUSTED FOR GENERATIONS™

S-Series Dunnage Racks.

Safely keep frozen, cold or dry inventory 12" off the floor. Heavy-duty polyethylene won't rust, corrode or bend and is easy to clean. One piece construction combined with sturdy legs makes these racks especially durable, strong, and stable. Solid or slotted tops ensure maximum air circulation around perishable products stored in coolers and freezers. Optional Camlink connectors securely lock multiple racks together. Available in dark brown or speckled gray.

**STORAGE TIPS**

Properly store all perishable products within 15 minutes of being unloaded and inspected to ensure safe food temperatures.

Keep raw and cooked products separated to prevent cross contamination. Ready-to-eat foods should be stored above raw foods and both should be properly covered.

Speed up storage of newly delivered food by using first in, first out (FIFO) food rotation at all times.

CAMBRO
TRUSTED FOR GENERATIONS™

STANDARD NSF REQUIREMENTS FOR FOOD PREP & STORAGE EQUIPMENT.

Food contact and food-splash surfaces must be easy-to-reach, easy-to-clean, non-toxic, non-absorbent, corrosion-resistant, non-reactive to food or cleaning and should not leave a color, odor or taste to food.

Should be rounded with tightly sealed edges and corners.

Should be designed with solid and liquid waste traps that are easy to remove.

Consider replacing items if:

They're worn out. They no longer meet local health codes. They are no longer time or cost effective. They make it more difficult to adhere to your operation's HACCP plan.

Ingredient Bins

Store and transport bulk dry ingredients in the slant top ingredient bins. Fits perfectly under standard height prep tables and/or countertops. Two pieced, Camwear clear polycarbonate lid is virtually unbreakable and slides up and back for easy access to contents. S-hook on the front provides convenient location for hanging a scoop—helping operators comply with regional health codes that do not permit scoops to be stored inside bin. NSF. Made of FDA materials.

ProSave™ Ingredient Management System

ProSave® Ingredient Management System provides you with all the right tools to maximize your efficiency for ingredient storage. Bins have integrated sliding lid for one-handed access and a measuring scoop with dedicated internal scoop storage meeting safety compliance. Shelf Bins ensure proper rotation with FIFO barrier while Dual Action Food Lid slides back or flips up improving ease of access and reducing risk of cross-contamination. NSF.

Mobile Ingredient Bins

The two-piece clear co-polyester lid and unique sloped front let you see what's inside without having to move the bin from under the counter. The versatile lid will tilt up or slide back for convenient access. The bin is constructed of durable Derma-Tek® smooth surface plastic. Seamless walls and round corner design make cleaning simple and thorough. NSF.

Model	Description
9321	21 Gal. Bin
9326	26 Gal. Bin

Ingredient Bins

Mobile ingredient bins are ideal storage in the kitchen. The 3" caster wheels with breaks makes this bin a breeze to move around the kitchen. Both models have an easy open lid, clear plastic front to simplify ingredient identification, and scoop has dedicated handle to remain out of ingredients. Shelf ingredient bins are stackable for storage efficiency. NSF listed.

567	5-Shelf, 28"x62", All Edges Down
585	5-Shelf, 28"x46", 3 Edges Up, 1 Down

Additional models available.

MBQ Heated Banquet Cabinets

Metro banquet cabinets are engineered for heavy-duty use and put you in control of time, temperature, and taste with one-of-a-kind features that help improve your operation. White board information panel, ergonomic handles, and hands-free kick latch provide improved efficiency and maneuverability. Available in sizes ranging from 72 to 200 plate capacities, single or double door configurations, and standard electric heat or Quad-heat system that combines electric and canned fuel heat.

Model	Description
MBQ-120	Single door, standard electric heat, holds up to 120 covered plates
MBQ-150D	Double door, standard electric heat, holds up to 150 covered plates
MBQ-200D	Double door, standard electric heat, holds up to 200 covered plates
MBQ-120-QH	Single door, Quad-heat dual heat, holds up to 120 covered plates
MBQ-200D-QH	Double door, Quad-heat dual heat, holds up to 200 covered plates

STORING YOUR FRESH PRODUCE

Location of fruits and vegetables is important because fruits, in general, produce ethylene gas which fosters natural ripening but can also cause most vegetables and a few non-ethylene producing fruits to deteriorate more quickly and develop undesirable characteristics. Ethylene-producing fruits should be stored as far from ethylene-sensitive fruits and vegetables as possible. See guide below.

Ethylene producers that can be stored together and should be stored toward the front of the walk-in:

lemons
limes
mangoes
pineapples
tomatoes
watermelon
avocados
honeydew
grapefruit

Ethylene producers that can be stored together and should be stored toward the middle of the walk-in:

oranges
tangerines
cantaloupe
mandarin oranges

Ethylene producers that can be stored together and should be stored toward the back of the walk-in:

pears
plums
berries
apples
nectarines
peaches

Ethylene sensitive products that can be stored together and should be stored toward the front of the walk-in:

peppers
summer squash
cucumbers
green beans
okra

Ethylene sensitive products that can be stored together and should be stored toward the middle of the walk-in:

asparagus
brussel sprouts
broccoli
cabbage
cauliflower
mushrooms
radishes

Ethylene sensitive products that can be stored together and should be stored toward the back of the walk-in:

fresh cut produce
carrots
lettuce
corn
greens
spinach
herbs

H-Series Ultra Pan Carrier and Camcart

Enables HACCP compliance by maintaining safe, hot food temperatures for up to 4 hours when unplugged. Serving portion capacities range from 160 in the UPC400 to 720 in the UPCH1600. Gentle, 150° to 165°F heat will not cook food and maintains food moisture. 60-minute preheat time from room temperature. UPCH400 models stack for storage or transporting on a Camdolly® with securing strap. Heated door kits also sold separately to retrofit UPC400, UPC800, and UPC1600. ENERGY STAR®.

Model	Description
UPCH400	Pan Carrier, 1-Comp., 160-180 Svgs (18 ¹ / ₈ "x26 ³ / ₈ "x24 ⁷ / ₈ "")
UPCH800	Camcart, 2-Comp., 320-260 Svgs (20 ¹ / ₂ "x27 ¹ / ₈ "x54")
UPCH1600	Camcart, 2-Comp., 640-720 Svgs (28 ³ / ₄ "x33 ³ / ₈ "x54 ¹ / ₈ "")

Ultra Camcarts® and Pan Carriers®

Tough, one-piece seamless, double-wall, polyethylene construction is easy to maintain and won't dent, crack, rust, chip or break. Thick polyurethane foam insulation and air tight gaskets provide top temperature holding performance. Door opens a full 270° for easy loading and unloading. May be used with Cambro H-Pans—food pans that can go from prep to cooler to oven to steam table, handling extreme temperatures of -40°F to 375°F.

Model	Description
400DIV	ThermoBarrier (use w/UPC400/800 /UPCS400)
CD400	Camdolly for UPC400
UPC1600	Camcart, 28 ¹ / ₈ "x32 ¹ / ₄ "x53-1/4", Holds 16-4"D

**Bussing Cart w/Silverware and Refuse Bin**

High-density Derma-Tek® plastic and engineered aluminum construction won't rust, dent, crack or chip. Equipped with four 4" non-marking swivel casters and three reinforced shelves rated 200 lbs. capacity. Top shelf has raised lip on three sides and one open side. Polyethylene silverware and refuse bins (sold separately) fit popular style utility carts and can be used for a multitude of applications.

Model	Description
5810	3-Shelf Utility Cart (Black or Beige)
5811	Silverware Bin Black (use with cart #5810)
5812	Refuse Bin Black (use with cart #5810)

**KD Service Cart & Utility Cart**

The KD Service Cart and the large Utility Cart are economical and durable. Ship "knocked down" to minimize shipping costs. Assembles out of the box in minutes! Polypropylene shelves with marine rails are strong, stain resistant, and lightly textured to keep contents in place. Aluminum uprights ensure strength and stability. Powder coated stainless steel casters. Set up cart with one or both ergonomic handles. Service Cart holds up to 300 lbs. and Utility Cart holds up to 400 lbs.

Model	Description
BC331KD	Service Cart, Holds 300 lbs.
BC340KD	Large Utility Cart, Holds 400 lbs.

**Tray & Silverware Cart**

All stainless steel construction with sturdy, tubular U-frame construction. Cleans and sanitizes easily. Lower shelf is 21"x33" and will hold two tray stacks. Silverware rack holds ten silverware cylinders (not included) and features napkin shelf. All swivel 5" casters with non-marking tires. Model 213

**myCart™**

Make every step count! Designed for your transport needs. Additional legroom puts more distance between the shelf and you. 7/16" deep ship's edge lip around shelf perimeter. Depending on model, weight capacity 300-500 pounds. Available in 2- and 3-shelf configurations. Available in Gray, Black, Blue, and new Allergen Purple. Blue carts have built-in Microban product protection. Model MY1627-34BL shown.

Model	Description

Additional models available.

THINGS TO CONSIDER WHEN BUYING CARTS

- What will you be using the cart for?
- What size are the objects that will be placed on the cart? How much of the cart area will the objects cover?
- How much weight will be put on the cart?
- How many shelves are required?
- What type of casters do you need (locking, braking, oversized)?
- Should you buy metal or plastic?

Enclosed Bussing Carts

Attractive design with a variety of vinyl or laminate finishes. All-welded stainless steel construction is easy to clean and sanitize. Ideal as a set-up station. Leg and handle bumpers protect walls and furnishings. Optional hinged doors available.

Andy's Favorite Lemon Bars

Base & Topping

- 1 1/2 cups crushed graham crackers (about 21 crackers)
- 3/4 cup all-purpose flour
- 1/3 cup packed brown sugar
- 1/2 tsp. baking powder
- 1/4 tsp. salt
- 1/2 cup butter, melted

Filling

- 1 14-ounce can sweetened condensed milk
- 1/2 cup freshly squeezed lemon juice (2-3 lemons)
- Finely grated peel of one lemon
- Preheat oven 350°F. Grease a 9-inch square glass baking dish; set aside.

In a medium bowl, combine crushed graham crackers, flour, brown sugar, baking powder, and salt. Stir in the melted butter and mix until crumbly. Press 2/3 of the crumb mixture into the prepared baking dish.

In a small glass bowl, whisk together sweetened condensed milk, lemon juice, and lemon peel. Spread over the pressed crumb crust and top with remaining graham cracker mixture.

Bake for 25 minutes or until lightly browned. Cool on a wire rack. Cut into 12 bars. Store bars in the refrigerator.

CHINA CARE

If you notice many rim chips on your china:

- Do not stack cups on one another
- Check for improper washing racks
- Line your soak sink
- Watch for overlapped plates in rack or on belt in dish machine
- Be careful about mixing heavyweight and lightweight bodied china in dish room
- Look for improper bus tub loading

If you notice a lot of surface wear:

- Minimize use of metal sponges. White plastic sponges are made for ceramic and glass dinnerware.

If you notice too much breakage:

- Avoid placing in soaking tubs roughly
- Always hold item using handle
- Check for improper rack height
- Use compartment racks
- Use trays to carry plates to the table (not by hand or on arm)
- Watch over stacking self-levelers
- Avoid thermal shock conditions
- Do not heat dinnerware over an open flame

TRADITIONAL SIZES & PLATE NAMES

DINNERWARE CARE

Unload dinnerware one piece at a time from the dish machine. This prevents chipping and rims clicking together. A quiet dish room is evidence of longer dinnerware and glassware life. Keep an adequate supply of dinnerware in stock. Proper rotation and careful handling will extend the service life of your dinnerware and keep replacement costs down.

ONEIDA®

Bright White Dinnerware

Bright White Ware includes a collection of bright white porcelain dinnerware fit for a plethora of casual dining concepts. Shaped with beautiful clean lines, this durable selection includes both narrow rim (800) and rolled edge (801) styles. With accolades that suit all needs, these pieces will deliver grand servings for years of service.

Notable Chefs

Brian Alberg

The Red Lion Inn
Stockbridge, MA

Mushroom Conserva

- 1/4 cup olive oil
- 3 cloves garlic, sliced
- 2 shallots, sliced
- 2 lbs. mushrooms, sliced
(recommended mushrooms include Shiitake, Oyster and Maitake, also known as Hen-of-the-Woods. If using Portobello, remove the gills by de-stemming and scooping out.)
- 1 sprig of rosemary
- 3 sprigs of thyme
- 4 tbsp. sherry vinegar
- 3 ears sweet corn on the cob, blanched and de-kernelled
- Kosher salt, to taste
- 1¹/₂ cups olive oil for topping off the jars

Place a large skillet on medium heat. Add 1/4 cup of olive oil to the pan and heat until simmering. Add garlic and shallots and cook for about 3 min. until translucent. Add mushrooms, rosemary and thyme and simmer for 20 minutes. Deglaze the pan with sherry vinegar and simmer another 10 minutes. Add in blanched sweet corn, season with salt to taste and remove from heat. Lay out cooked mushroom mixture on a sheet pan to cool. After about 30 min. (once the mixture has reached room temperature), place in sealed quart containers. Top each container with the remaining olive oil so the mixture is completely covered and refrigerate. (For catered events at the inn, we use pint-sized mason jars to store the Conserva. When serving, we bring the Conserva up to room temperature and serve directly out of the jar at the table.)

The Conserva will last about two weeks in the refrigerator because the mixture is slightly pickled and preserved in olive oil. Recipe makes about six 1/2 cup portions.

DINNERWARE DURABILITY

Typically, the higher the weight of the dinnerware, the more durable it will be. But, consideration should also be given to your waitstaff.

How much can be carried on one tray? How far will the trays be carried?

Find a weight that provides the look you want and is comfortable for your employees.

Artisan Baskets & Breadstick Holder

29190	5" Laurel Acrylic PM/SS Set
29910	4" Futura Stainless PM/SM Set

GROUND PEPPER

For better flavor, always use freshly ground pepper. The flavor comes from the oils of the sliced peppercorns. There are three basic types of pepper: black, white and green. Black is the strongest (slightly hot with a hint of sweetness) flavor of the three. White peppercorns are smaller, have a smoother skin and a light-tan color with a milder flavor. The green peppercorn is the soft, underripe berry that is usually preserved in brine. It has a fresh flavor that is less pungent than the berry in its other forms.

Store whole in a cool, dark place for about a year. Ground pepper will keep its flavor for about four months. Green peppercorns packed in brine should be refrigerated once opened and will keep for one month; packed in water will keep for a week.

Shakers & Pourers

Shake things up with shakers and pourers from TableCraft. Whether your style is traditional or avant-garde and contemporary, the unique angles and curves of TableCraft's pieces are sure to meet all of your tabletop needs. Choose glass or polycarbonate in 6, 8, or 12 oz. capacities.

Notable Chefs

Chad G. Garner

**Oakridge
Country Club**
Farmington, UT

Seafood Ceviche

Step 1

32 oz. Clamato, or tomato juice
4 oz. ketchup
2 oz. worcestershire sauce
4 ea. cucumber, seeded, peeled, diced small
2 ea. jalapeno, diced small
1 ea. bunch fresh cilantro, chopped
1 ea. small red onion, minced
4 ea. tomatoes, seeded, diced small
Juice of 4 limes
Juice of 3 oranges
Juice of 2 lemons
1 tbsp. lemon pepper
Salt to taste

Step 2

2 lbs. raw P&D Shrimp, diced small
1 lb. raw scallops, muscle removed, diced small
1 lb. raw Ahi Tuna, diced small
1 lb. raw oysters, cleaned, diced small

Combine all ingredients from Step 1 in large non metal container. Allow flavors to mingle while processing seafood. Once seafood from Step 2 is diced, add to marinade and mix until just combined. Allow entire mixture to marinade for at least 2 hours, up to overnight. The longer the mixture sits, the more "cooked" the seafood will be. Serve with fresh tortilla chips, tostadas, or alone as a cold appetizer. Always use the freshest seafood possible.

Use within 24 hours.

CHOOSING GLASSWARE

The sizes, shapes and styles of glass you choose will affect your entire presentation of beverages. Consider what type of drink you will be serving most and find a type of glass to complement. Ask yourself, will a lot of ice be used? Will the drink be garnished? Will liquor be served that needs to be portion controlled?

Determine the amount of ounces your drink will be per portion based on price and profit.

Glassware Care

To keep your glassware in great shape, avoid glass-on-glass contact. Do not stack your glassware, or carry them in bouquets. When bussing tables, use a glass rack so that each glass has its own compartment. This will give your glassware a longer life.

Glassware Durability

Thicker glass with a beaded or rolled rim is less likely to break. Heated treated glass is also more durable. Straight edged glasses are less likely to break than curvy or flared glasses.

Glass Backup

Have an adequate backup supply of glasses for rush periods. To avoid thermal shock, never place recently washed glasses into service. Let glasses stand long enough to reach room temperature.

FLATWARE & YOUR DISHWASHER

CAUTION! If you are using a low temp or chlorine bath type dishwashing system, take great care in following the manufacturer's instructions. An over-concentration of sodium hypochlorite (bleach), the active sanitizing agent of these systems, will attack most metal tableware. Improper use or faulty equipment functioning will cause staining or corrosion of even the finest stainless steel. It is very important that you use only a plastic or stainless steel pan for pre-soaking. NEVER USE AN ALUMINUM PAN for pre-soaking. Aluminum frees the chlorine present in most pre-soak compounds and causes the discoloration of stainless steel.

2712	Bouillon Spoon
2715	Cocktail Fork
2745	1-Pc. Knife

FLATWARE CONTENT

Stainless means a product will stain less, not that it is stain proof. 18/8 stainless means the product contains 18% chrome, 8% nickel, and 74% steel. 18/10 stainless means the product contains 18% chrome, 10% nickel, and 72% steel. All stainless contains some degree of chrome, which makes it resistant to corrosion and rust. The nickel gives stainless a luster and glow on the tabletop in low light settings. The nickel content is also your insurance policy against staining, so it is truly care-free stainless.

Illustra Collection

A unique collection that glows with the beauty of silver but is made in maintenance free 18% chrome, 10% nickel. Its traditional fiddleback design is recommended for a broad range of dining experiences.

Model	Description
9101	Teaspoon
9103	Serving Spoon
9104	Iced Teaspoon
9105	Dinner Fork
91051	Euro Fork
9106	Salad Fork
9107	Dessert Spoon
9110	Butter Spreader, FH

Additional models available.

Maximillian Steel™ Chafers

Mirror finished stainless steel are durable and easy to clean. Patented contemporary styling. Rectangular chafers feature cover holder and Vollrath Super Pan V® food pan.

Model	Description
49520	9 qt. Rectangular
49521	4.2 qt. Round
49522	6 qt. Round
49524	7.4 qt. Soup Marmite
49525	11.6 qt. Coffee Urn
49529	4.1 qt. Half-Size Rectangular Chafers
49523	4.2 qt. Soup Marmite

HOW TO USE CHAFERS AND URNS

Use only canned fuel in the burner. Fill the water pan, urn or kettle before lighting the burner. Low flame is sufficient to maintain proper heat. Keep away from open flame or hot stove. Food pans can be used for cooking and/or placed in the oven to retain heat. Fill chafing dish with hot water. Check pan during use to maintain sufficient water level. DO NOT USE WITHOUT WATER!

Buffet Tips

Always wash your hands before and after handling food. Also, keep dishes and utensils clean.

Arrange and serve food on several small platters rather than on one large platter. Keep the rest of the food hot in the oven or cold in the refrigerator until serving time. This way foods will be held at safe temperatures for a longer time.

Always replace empty platters rather than adding fresh food to a dish that has already had food on it. Remember—many peoples' hands may have taken food from the dish, which was also sitting at room temperature for a while.

Keep hot food hot (135°F) and cold food cold (41°F or lower).

Champion™ Chafer Collection

The champion Series chafers are the latest clam-shell style at more affordable prices. High end 18/10 stainless. The covers are tensioned in order to hold the position they are moved to.

Model	Description
CH6QTRD	Round 6 qt. Glass Top w/Porcelain Food Pan
CH8QTRE	Rectangular 8 qt. w/Food Pan

Idol™ Chafer Collection

Walco Idol™ collection features the latest modern clamshell-style chafers with self closing, vented glass-top lids allowing covers to be closed but food visible keeping it from drying out. Magnetic, steel clad bottoms ensure excellent heating. Chafers and soup station are induction ready! Electric heating units also available for purchase, which eliminates the use of open flame. Model WI9LGL shown.

Model	Description
WI11LSSGL	11.5 qt. Round Soup Station (w/Soup Bkt, Spoon Holder, Burner Stand & Fuel Cup)
WI35LGL	4 qt. Rectangular (w/Food Pan, Spoon Holder, Burner Stand & Fuel Cup)
WI55LGL	6 qt. Rectangular (w/Food Pan, Spoon Holder, Burner Stand & Fuel Cup)
WI6LGL	7 qt. Round (w/Food Pan, Spoon Holder, Burner Stand & Fuel Cup)
WI9LGL	8 qt. Rectangular (w/Food Pan, Spoon Holder, Burner Stand & 2 Fuel Cups)
WI12LU	3.2 gal. Urn (w/Base & Fuel Holder)
WI19LU	5 gal. Urn (w/Base & Fuel Holder)
WICUKIT	Electric Heating Plate (for Idol™ Urns)

Additional models available.

Taco Holders

Manufactured in a brushed stainless steel, these taco holders make great presentations. Invert each one to add another serving slot option. They're versatile!

Madison Chafer Collection

Add a touch of elegance to your presentation with highly polished 18/10 stainless steel chafers from Winco. Perfect for keeping foods warm on buffet tables at catered events, restaurant buffets, and hotel buffets. It has a roll top cover, with an 180° opening and 90° intermediate opening so customers and guests can serve themselves with ease. Three sizes to choose from. Model 601 shown.

Model	Description
601	Full Size 8 Qt.
602	Round 6 Qt.
603	Oval 7 Qt.

Chafing Fuels

Hollowick's liquid chafing fuels are produced using non-flammable, biodegradable DEG (Diethylene Glycol), which is in the same non-flammable category as vegetable oil. Produced in a sealed container, spillage concerns are virtually eliminated. There are no worries about shipping restrictions, storage limitations or insurance. Non-hazardous by D.O.T. regulations. Made in the U.S.A.

Model	Description
EZ 6-3-8	Easy Heat® 6, 3 or 8 Hours of Heat, 9.5 oz.
EZ 638-6PK	Easy Heat® 6, 3 or 8 Hours of Heat, 9.5 oz.

HOT5-24	Hot 5™ 5 Hours of Heat
XTRM4-24	Xtreme Heat™ 4 Hours of Heat

Charcoal Lighter

Sterno Charcoal Lighter brings the heat! More and more barbecue-centric foodservice operations are looking for a better, greener way to light the charcoal in their large format grilling and barbecue pits. GRA-endorsd Sterno Charcoal Lighter provides superior coverage, adherence, and ignitability! Model 10258

WindGuard™ Catering Equipment

Outdoors or in ... we've got you covered! The new Cleardome™ Chafer Lid allows your food to be visible to your guests while keeping it hot and accessible throughout the event! Use with WindGuard™ Chafing Dish Frames, which are sturdy, stylish, and stackable! Full panel design keeps food hotter, uses 10% less chafing fuel, and keeps the flame from blowing out in the windiest of conditions. What's more, the "fold-away" model stores flat to save space!

Sterno® Chafing Dish Fuels

With a complete selection of Heat products to choose from, you're sure to find a chafing fuel perfect for your needs. Wick fuels incorporate a wick to deliver an optimum flame height that remains steady and strong throughout the burn cycle. SternoCandleLamp also carries traditional gel fuels which are powered by either ethanol (pink) or methanol (blue), both offering strong heating performance in chafing dishes.

Model	Description
20108	2 Hr. Green Ethanol Gel
10110	6 Hr. Handy Wick®
10116	6 Hr. Safe Heat® w/Power Pad®
10108	5 Hr. Handy Wick®
10114	4 Hr. Safe Heat® w/Power Pad®
10112	2 Hr. Safe Heat® w/Power Pad®

Additional models available.

CHOOSING THE CORRECT KNIFE

Cutting is quicker and easier when you use the correct knife for the job. Here are suggestions to help you choose the proper type of knife for each cutting job.

- 1. **The Chef's Knife** (Also known as Cook's Knife or French Knife). Is used for all kinds of heavy-duty cutting, as well as chopping, dicing and shredding. The ultimate in cutlery for the gourmet cook.
- 2. **The Slicer** is ideal for ham and large cuts of meat. Slices roasted meats, chicken and turkey.
- 3. **The Bread Knife** slices breads, delicate fruits and vegetables. Cuts through hard crust for uniform slicing.
- 4. **The Fork** is the perfect complement to any carving or slicing knife. Provides a more secure hold, especially on the tail end of a joint of meat.
- 5. **The Steel** realigns the knife edge. Should be used frequently to maintain sharpness.
- 6. **The Utility Knife** is excellent for food preparation or almost any kitchen chore from cutting vegetables and meats to halving sandwiches.
- 7. **The Steak Knife** is for individual table use. Cuts meat without tearing.
- 8. **The Parer** is the knife used most frequently. Cuts, peels and dices fruits, vegetables, cheeses and meats.

PARTS OF A FORGED COOK'S KNIFE

Connoisseur® Cutlery

The finest professional cutlery for the discriminating chef, combining modern European styling and the cutting performance of American craftsmanship. Crafted from the highest quality stain-free, high-carbon steel, heat-treated to precise hardness and edges hand-ground to ultimate sharpness. Handles are fashioned with the warmth of traditional rosewood and secured with large brass compression rivets and are impervious to stain, hot water, and food acids.

Model	Description
FWMKIT1	EZ-Wall™ Food Prep & Drying Station Kit
FWMPPR36SS	36"x14" S/S Pot Rack w/4 hooks
FUR1824CHSS	Utensil Rack w/20 S/S Hooks

Additional models available.

Notable Chefs

Chef Hoss Koshani

Pueblo, CO

Stuffed Green Peppers, Eggplant, and Tomatoes

2 large tomatoes
2 green, red bell peppers
2 eggplants
1/4 cup rice
1/4 cup yellow split peas
1/2 cup oil
1 onion, finely choppe
1 lb. ground beef
1 cup tomato sauce
1 tbsp. chopped mint
1 tbsp. chopped Tarragon
1 tbsp. chopped scallions
1 tsp. salt
1/4 tsp. black pepper
1/3 cup lemon juice
1/3 cup sugar
1/4 cup chopped parsley
1 tbsp. green chili

Wash tomatoes, peppers and eggplants.

Remove stems from eggplants, slice off the tops, remove caps and set aside. Slice off the bottoms so the eggplants can stand on their own. Hollow out them.

Cut off the tops of the peppers, 1/2" from the stem and set caps aside.

Cook rice and split peas together for 20 minutes in 2 cups water and 1/4 tsp. salt, after that drain it. Brown onion and meat in 2 tbsp. oil. Stir in 1/2 tbsp. tomato sauce and green chili.

In a large bowl, combine meat, rice and split peas and chopped herbs. Season with salt pepper. Mix thoroughly.

Fill peppers and eggplants with mixture. Replace caps.

Dice tomatoes and combine with 2 tbsp. oil, lemon juice and sugar. Mix thoroughly.

Place the stuffed eggplants, bell peppers in ovenproof dish. Mix 1/2 cup tomato sauce and diced tomatoes mixture in 1 cup chicken broth and pour around the stuffing. Cover and bake in preheated oven 350°F for 75 minutes.

Arrange bell peppers and eggplants in platter with sauce around them. Serve with garlic bread.

VOLLRATH®

Super Pan V™ Steamtable Pans

With Vollrath's line of steam table pans, you can transport and store your food safely and easily. 22 gauge, 300 series stainless steel pans are up to 300% stronger—resisting dents, dings, and keeping your food safe and secure during the transportation and holding process. 15203	1/4" Straight
15204	3/8" Straight

Redco® InstaCut™ 5.0

Slice, dice, wedge and core with simple pop-in, pop-out blade accessories that make switching from dicing onions to coring apples a fast and efficient process in your kitchen. Its tall base fits containers up to 6"H. Thermoset blade frames never need adjustment and will not corrode. Full 5" square cutting area fits large fruits and vegetables. Clean, quick cuts reduce bruising and raise the quality level of food presentation. 2-year warranty. Model 5500 shown.

Model	Description
55060	3/8" Dice Packs w/T-Handles
55061	1/2" Dice Packs w/T-Handles
55088	1/4" Slice Packs w/T-Handles
55089	3/8" Slice Packs w/T-Handles
55090	1/2" Slice Packs w/T-Handles

Slicers, Dicers, and Wedgers

Equipped with heavy-duty cast aluminum construction and non-slip rubber feet. Citrus Wedgers feature steel blades for precise one-stroke cutting. Available in 6- or 8-section wedge models. Vegetable Slicers offer 1/4" or 3/8" stainless steel blade assemblies for clean sharp dicing. Tomato Slicers are commercial-grade aluminum alloy with 1/4" or 3/16" stainless steel blade sets for razor sharp slicing without bruising.

Model	Description
CTR-WED6	6-Section, Citrus Wedger
CTR-WED8	8-Section, Citrus Wedger
CTR-WED8	8-Section, Citrus Wedger
CTR-TS14	Tomato Slicer, 1/4" Blade Set
CTR-TS316	Tomato Slicer, 3/16" Blade Set
CTR-VD1	Vegetable Slicer, 1/4" Blade Assembly
CTR-VD2	Vegetable Slicer, 3/4" Blade Assembly

Edlund

Tomato Laser™ Slicer

Edlund's Laser™ is the easiest, fastest, and most advanced manual tomato slicer ever seen. The patent pending slicer is NSF certified, all stainless steel, and fits in a standard dish rack for thorough dishwasher safe cleaning. The exclusive staggered blade cartridge ensures a perfectly sliced tomato every time. Heavy duty suction cup feet keep the slicer in place.

Model	Description
ETL-316	3/16" Blades
ETL-140	1/4" Blades
ETL-380	3/8" Blades

FoodHandler®

Gloves

In combination with proper hand washing, the proper use of high quality disposable gloves from FoodHandler provide complete barrier protection between hands and food. Full line of disposable gloves available for every back and front of house application, using the materials best suited to each application.

Model	Description
100-FH12	Fh Smooth Pf Latex Glv Sm 10/100 Cs. Pk
100-FH12-CP	Fh Smooth Pf Latex Glv Sm 4/100 Cs. Pk

100-FH18	Fh Smooth Pf Latex Glv XI 10/100 Cs. Pk

Additional styles, sizes and convenience packs available.

FoodHandler®

QuickFit™ Poly Gloves

Put on gloves 10 seconds faster with our unique QuickFit System. Puncture-resistant poly gloves offer long cuffs that cover the entire hand and part of the arm, providing much better sanitation than waxed paper sheets. Blue in color, the gloves are easy to identify for task-specific use and help prevent cross-contamination. NSF.

Model	Description
104-FHQFX-13	Extended Length Blue-S/M, 200/sleeve, 10 sleeves/Cs
104-FHQFX-17	Extended Length Blue-L/XL, 200/sleeve, 10 sleeves/Cs
11-050	Hinged Brckt w/Mounting Screws & Double Stick Tape

FoodHandler®

Nitrile Gloves

When working with animal fats or citrus, you need a long lasting glove that can stand up to the task. Nitrile gloves from FoodHandler are comfortable and extremely durable.

Model	Description
103-FF12-CP	FormFlex Nitrile Powder Free, Blue, Small
103-FF14-CP	FormFlex Nitrile Powder Free, Blue, Medium
103-FF16-CP	FormFlex Nitrile Powder Free, Blue, Large

Sani-Tuff® Cutting Boards

High density rubber compound won't crack, splinter, swell, or absorb liquids or odors. Lasts far longer than cutting boards made from wood or plastic. The rubber compound has a high degree of resiliency preserving knife edges longer. Manufactured with MicroStop™—an anti-microbial rubber compound that inhibits the growth of bacteria and fungi. Available in a variety of sizes and thicknesses, Sani-Tuff® cutting boards can be resurfaced by sanding the board as needed. NSF.

Model	Description
148-155	6"x8"x1/2"
149-880	8"x8"x1/2"
157-628	12"x18"x1/2"
159-905	15"x20"x1/2"
161-331	18"x24"x1/2"
T45-S2048-BF	48"x72"x1/2"

Additional models available.

Saf-T-Grip® Cutting Boards

Minimize cross-contamination during food prep by using color-coded cutting boards for tasks based on HACCP guidelines. Integrated anti-slip grips provide a secure cutting surface. Durable co-polymer material resists cut grooving and is gentle on knives. Food safety hook provides a safe and sanitary method for transport and storage. Embossed ruler makes portioning easy, saving costs. Dishwasher safe. NSF.

Chef's Tips

Baking Powder- Out of baking powder for your recipe? Make it yourself! 1 tsp. baking soda (bicarbonate), 2 tsp. cream of tartar. Mix together and "use immediately". Yields 1 tbsp. of baking powder.

Store Baking Powder- Add a level tsp. of corn starch to every 1 oz. of baking powder to absorb moisture from the air. This will prevent the baking powder from reacting before you need to use it. Must store baking powder in an air tight container.

Baking Powder Testing for Quality- Put 1 tsp. baking powder in a bowl of hot water. If it bubbles, it's good and potent. If there are no bubbles, it's bad and throw it away.

Egg Quality Test- Submerge raw eggs in cold water. If they stay on the bottom, they are still good. If the eggs float to the top, they have air pockets inside the shell and are old.

Stop Crying While Slicing or Peeling Onions- Place whole onions with the skins on in the freezer for about 15 minutes (do not freeze). Or, peel onions under cold running water, which can be tricky, but works.

Buttermilk- Need Buttermilk? But don't have it? Make it yourself! ¼ cup whole milk and ¾ cup plain yogurt. Yields 1 cup.

oneSAFE™ Glove Dispensing System

One glove at a time. The oneSAFE™ design makes it easy to grab only one glove at a time and put it on without contaminating other gloves in the box. A first-of-its kind innovation in the food industry, our new glove dispensing system enables you to provide a higher level of safety to your foodservice operation. Available in PF vinyl and nitrile. *Contact us for additional information*

Digital Pocket Test Thermometers

These quick-reading digital thermometers simplify everyone's job...from cooks to technicians. With their reduced tips and faster response times, these compact units have easy-to-read displays and protective anti-microbial sheaths. They are easy to use and have built-in shirt clips to keep them in place while you work.

Model	Description
DPP800W	-40°/450°F Waterproof w/Jumbo LCD, 4" Stem
DFP450W-0-8	-40° to 450°F, Waterproof, Lifetime Warranty
DPS300-01-8	-40° to 302°F, Swivel Head w/Reduced Tip Design
DPP400W-0-8	-40° to 392°F Pen Style w/Reduced Tip Design, Waterproof, NSF
DT300=0=8	-40° to 302°F Oval, On/Off Switch

HACCP Manager Kit

Designed to simplify the recording of product temperatures and monitoring of corrective actions in foodservice environments. Includes a database system designed for reporting, analyzing, and storing temperatures. Allows data to be transferred between the thermocouple and PC.

- Stores up to 300 menu items.
- Sets temperature limit alerts.
- Records up to 3000 temperatures.
- Allows customized corrective actions.
- Creates custom checklists.

Complete Kit (Includes 37100 Handheld, 50209-K Probe, Accessories & software Model 93710)

Refrigerator/Freezer Thermometers

Ensuring proper food temperature is the most important component in a food safety system. To help monitor the temperatures of your equipment or food, Cooper-Atkins offers a variety of monitoring thermometers to fit your specific needs. Designed to be durable and accurate for all kitchen environments.

Model	Description
330-0-1	Economy Refrigerator/Freezer Thermometer -40°/120°F
335-01-1	Horizontal Refrigerator/Freezer Thermometer -40°/80°F
25HP-01-1	Refrigerator/Freezer/Dry Storage Thermometer -20°/80°F
212-159-8	Cooler Thermometer 810°/80°F
2560	Refrigerator/Freezer Thermometer with Min/Max -22°/120°F
535-0-8	Cooler Thermometer w/Magnet -20/120°F

Food Safety is Business Safety

In today's industry we are faced with our fiercest competition, Food Safety.

Oh, it is not about the burger joint that is selling burgers cheaper, or the mini mart with the 99¢ hot dogs. Who cares what chain restaurant is moving in, or what the new frozen foods are at Costco. These were the pressures of the past, ones that we could see and touch, but there is a much different case when it comes to food safety.

Consumers today are becoming much more aware and skeptical of food establishments and their practices in food safety. The real deal about food safety is not just in what the guests can see, it is about taking care of business in food safety every step of the way, from receiving to serving.

Here are a few recommendations that can save your business, and secure your future.

ServSafe Course: Encourage people on your team to take, and pass, the ServSafe course.

Hand Washing: Implement mandatory practices for your team. This is the number one cause of cross contamination.

Thermometers: Buy and use good digital thermometers. This may be the single most important tool in your kitchen.

Sanitizing Solution: Set up stations in your kitchen, bar and service area.

Rubber Gloves: Use when preparing "ready to eat" foods, but remember this does not take the place of proper hand washing.

Thawing Food: Room temperature thawing is not ok. Submerge under running water, or the best practice is to thaw under refrigeration.

Internal Cooking Temperatures: Post temperature expectations of cooked meats for your team to follow. Most do not know.

Dishwasher: Have your machine checked and calibrated regularly; too much chemical can be dangerous and costly.

Cutting Boards: Make sure they are small enough to be washed in the dishwasher.

Lead By Example: Owners and managers are setting the tone for the rest of the team to follow.

Our industry needs everyone to support food safety. Otherwise, the reputation of our industry will suffer.

Probes and Wipes

Temperature measurement is critical in many areas, from maintaining optimum quality during a manufacturing process to ensuring safety of the food we eat. For the most accurate temperature reading possible, it is important to use a probe suitable for the intended application. Probe wipes help meet HACCP guidelines and are an ideal way of cleaning and sanitizing probe shafts between temperature checks.

Model	Description
9150-0-8	Antibacterial Probe Wipes (10/bxs of 200 single-use wipes)
50306-K	Air Probe
50336-K	DuraNeedle Probe
50143-K	Heavy Duty Probe
50012-K	Surface Probe
50014-K	Weighted Griddle Surface Probe
50208-K	Fryer Vat Probe

Bi-Metal Pocket/Stem Thermometers

Protecting food during the preparation process is extremely important. Bi-metal pocket/stem thermometers from Cooper-Atkins take the guesswork out of cooking and assures that a safe temperature has been reached to destroy harmful bacteria. Every professional chef uses a food thermometer, many times a day! It is an important tool for proper temperature and food safety. NSF.

Model	Description
1246-01-1	1" Dial 5" Stem w/Adj. Sheath Bi-metal Pocket Test -40/180°F
1246-03-1	1" Dial 5" Stem w/Adj. Sheath Bi-metal Pocket Test 50/550°F
2238-06-3	2" Dial 8" Stem Therm. w/ Clip Glass Lens 50/550°F/°C
2237-04-8	1 3/4" Dial 7" Stem Espresso Therm. w/Clip 0/220°F/°C

Additional models available.

NotifEye™ 24/7 Wireless Temperature Monitoring

Now there's a low cost way to monitor your critical temperatures! The NotifEye™ 24/7 remote temperature monitoring and notification system increases your operating efficiencies and avoids potential spoilage. Self-installable system is ready to use out of the box and requires minimal set-up. Offers real-time reporting and alert notifications to multiple recipients through email and text message when set limits have been exceeded. Initial 2-year hosting included with each kit purchase.

Non-Contact Infrared Thermometers

Non-contact infrared thermometers provide an immediate surface temperature. Simply point the infrared (some available with a visible laser) directly at an area to obtain its temperature. Perfect for measuring items in display cases, salad bars, and buffets without touching the food or causing cross-contamination. Infrared thermometers have D:S (Distance to Spot) ratios that range from 12:1 to 1:1.

Model	Description
462-0-8	Slim-Line w/Laser -40° to 536°F
470-0-8	Mini w/Lanyard, -27° to 428°F
412-0-8	Infrared w/Laser Sighting & Thermocouple Jack, -83° to 1999°F
481-0-8	Dual, -40°-536°F Infrared; -40°-392°F Probe
31901-K	Economy Needle Probe (use with #412)
480-0-8	IR Dual Temp w/Probe: IR -27/428°F, Probe -67/626°F

Thermocouples

Thermocouple instruments are used in harsh environments every day. Built from the finest electronic components and enclosed in a durable ABS housing, you can be confident that your Atkins thermocouple can stand up under the toughest conditions. Each thermocouple instrument can be used in a variety of environments for multiple applications by using several different probe options.

Model	Description
35100	Aqua Tuff -100° to 999°F
35200	Aqua Tuff -100° to 999°F w/Hold Button & Backlight
32311-K	EconoTemp 323 Type K Thermocouple NSF -40/500°F/°C
93230-K	Combo Pack, w/32311-K 50336-K Probe & 9368 Bracket
93233-K	EconoTemp Kit (Hard Case, 50336, 50306, 50012 probes)
94020-K	Combo Pack w/32311-K 50337-K Probe & 9368 Bracket

Model	Description
15901	Ethernet Kit: Gateway (15501) and 4 temp sensors (15100) (PC/MAC compatible)
15902	Ethernet Kit: Gateway (15501) and 2 temp sensors (15100) (PC/MAC compatible)
15100	Temperature Sensor w/ probe, 900 MHz
15120	Humidity Sensor 900 MHz
15130	Contact Sensor
10185	Solid Simulator Retrofit for Air Probes

Additional models available.

HACCP

Food safety compromises can be eliminated with a HACCP PLAN.

1. Identify potentially hazardous foods in recipes and describe preventive measures.
2. Specify all the critical control points in the process and establish a flow chart.
3. Establish standards that must be met at each critical control point.
4. Monitor critical control points and determine whether criteria is being met.
5. Establish corrective actions to eliminate the hazard immediately.
6. Set up an effective record-keeping process that documents the HACCP system.
7. Establish procedures for verification that the HACCP system is working correctly.

Temperature and time in a food safety system are the two most important components in preventing foodborne illness.

Protecting food through the process.

All potentially hazardous foods should be prepared so that they spend less than 4 hours in the bacterial temperature danger zone of 41°F to 135°F (5°C to 57°C). Final cooking temperatures should never be guessed by visual assessment or touching; always test with a thermometer.

For accurate temperature readings, test temperature in geometric center (which is usually the thickest part) of the food product.

Holding: Hot foods should be held at 135°F (57°C) or above.

Cold foods should be held at 41°F (5°C) or below. Always use thermometers to check the food temperature. Relying on the thermostat of warming or holding equipment is not enough.

Temperatures should be checked at 2-hour intervals with a thermocouple or stem test thermometer.

Cooling: Internal food temperatures must be brought below 41°F (5°C) within 4 hours.

Acceptable Temperatures:

Refrigerator: 38°F (3°C) or lower

Freezer: 0°F (-17.7°C) or lower

Dry Storage: 70°F (21°C) or lower with low humidity/adequate ventilation

Dish Washing Rinse Temperature: 180°F (82.2°C)

Check your local regulations on all required temperatures as they may vary.

Alarming Facts

There are 48,000,000 reported cases of foodborne illness each year.

There are 128,000 reported hospitalizations from foodborne illness each year.

There are 3,000 reported deaths from foodborne illness each year.

On top of the cost of reputation, business, health and life, the average cost of a foodborne illness is \$100,000 per case.

Food Safety Controlled

Receiving/Storing

Freezer storage is solely for receiving and keeping frozen foods. Freezers must have an air temperature of 0°F (-18°C) or lower in order to keep your food safe for consuming. The slightest variation above 0°F (-18°C) can damage food quality, especially meat and fish. Using two thermometers, placing one in the warmest and the second in the coldest area of the refrigerator or freezer unit, is the best way to calculate the correct temperature. Areas closer to the door will be slightly warmer than areas in the back of the unit.

Dry goods and canned products are kept in a well-ventilated, well-lit and clean environment. This area must be protected from pests and excessive moisture or heat. A temperature of 50°F to 70°F (10°C to 21°C) is ideal for this dry storage area because it increases shelf life of virtually all dry products. A relative humidity of 50% - 60% is satisfactory for the storage of most dry or canned goods.

Preparing/Cooking

Protecting food through the preparation process is extremely important. When preparing potentially hazardous foods, you need to make sure that it spends less than 4 hours in the bacterial danger zone, which is between 41°F and 135°F (5°C - 57°C). Food exposed to this temperature for too long is not safe to eat.

Thawing is the first step in the preparation of frozen foods. Acceptable methods include: Cooking foods above 140°F (60°C), Refrigerating at 41°F (5°C), Holding under potable running water at 70°F (21°C) or below for no more than 2 hours, or using microwave if it will be cooked immediately.

Cooking to the minimum temperature required destroys the toxins in the food that are produced by bacteria. Toxins are poisons that can cause foodborne illness. The final cooking temperature should always be tested with a thermometer, never by looking or touching the food.

Serving/Holding

Hot foods should be held at 135°F (57°C) or above. Always use thermometers to check food temperature. Relying on the thermostat of warming or holding equipment is not enough. Temperatures should be checked at 2 hour intervals with a thermocouple or thermometer.

Cold holding food temperatures should be at 41°F (5°C) or below. This food should be covered and the temperature of the actual food needs to be taken. Temperature should be taken every 2 hours for accuracy. The ideal air temperature for storage should be between 35°F and 38°F (1.7°C 3.3°C).

Cooling/Reheating

When cooling food, the internal food temperature must be brought down to 70°F (21°C) within 2 hours, then down to 41°F (5°C) or below within 4 hours (6 hours total). Do not cool at room temperature. It is better to divide food into small units or use a shallow pan to help cool foods quickly.

Foods must be reheated to an internal temperature of 165°F (74°C) before being transferred to holding equipment. The food must reach this temperature within 2 hours and should never fall below 135°F (57°C). Do not add or mix new products with old foods and do not reheat foods twice. Never reheat food that has been cooled and refrigerated for more than 2 days or reheat food in hot-holding equipment.

Safe Minimum Cooking Temperatures

Always have a thermometer ready to check your temperatures.

Remember, you can't tell whether meat is safely cooked by looking at it. Any cooked, uncured red meat, including pork, can be pink, even when the meat has reached a safe minimum internal temperature.

Why is the rest time important?

After you remove meat from a grill, oven, or other heat source, allow it to rest for the specified amount of time. During the rest time, its temperature remains constant or continues to rise, which destroys harmful bacteria.

Category	Food	Temp	Rest Time
Pork & Ham	Precooked Ham (to reheat)	140°F	None
	Fresh Pork	145°F	3 min.
	Fresh Ham (raw)	145°F	3 min.
Fresh Beef Veal, Lamb	Steaks, Roasts, Chops	145°F	3 min.
Ground Meat	Beef, Pork Veal, Lamb	155°F	None
Poultry	Chicken & Turkey, Whole Poultry Breasts, Roasts, Poultry Thighs, Legs, Wings Duck & Goose Stuffing (cooked alone or in bird)	165°F	None
Eggs Dishes	Egg Dishes	155°F	None
	Leftovers	165°F	None
	Casseroles	165°F	None

Make food safety a priority in your operation by investing in training.

Your investment could end up saving your dream.

TAYLOR

Kitchen Food Safety Necessities

Reduce the risk of cross-contamination with bi-metal stem thermometers (6092) available in purple, yellow, red, brown, and blue featuring a 1" dial and 5" stem. Keep track of separate cooking cycles with a 4 event kitchen timer (5839). The horizontal thermometer featuring clearly marked color-coded temperature zones lets you see instantly whether foods are being stored at safe temperatures (5925N). Digital pocket thermometers (9848EFDA) are dishwasher safe and help minimize cross-contamination.

Model	Description
5839	4-Event Digital Timer
5925N	Horizontal Ref/Freezer Thermometer
9848EFDA	Waterproof Digital Thermometer w/1½ mm probe

CAMBRO

TRUSTED FOR GENERATIONS™

Camwear Food Storage Containers

Containers withstand temperatures from -40°F to 210°F. Easy to read imprinted graduations on the outside for inventory at a glance. Dual inner and outer seal provide excellent spill resistance. New Seal Covers (sold separately) available for polycarbonate squares have molded-in holes in the handles for quick and sanitary drying. Translucent lids make contents easy to identify and withstand temperatures from -40°F to 160°F.

Model	Description
12SFSCW	Square 12 qt. CW (Midnight Blue)
12SFSP	Square 12 qt. PLY (Midnight Blue)
18SFSCW	Square 18 qt. CW (Midnight Blue)
18SFSP	Square 18 qt. PLY (Midnight Blue)
22SFSCW	Square 22 qt. CW (Midnight Blue)
22SFSP	Square 22 qt. PLY (Midnight Blue)

Food Storage and Rotation Bags

Food storage, rotation, and cooking bags simplify the process of food prep and storage while minimizing the risk of serving out of date foods. High density polyethylene saddle pack bags are ideal for pre-portioning. Leakproof and greaseproof bags are microwave safe up to 200°F. Flat pack food transport and storage bags keep foods fresh during transport and in the refrigerator or freezer. Choose printed and unprinted to accommodate every need.

Model	Description
20-01	Sandwich Bag, 6 ³ / ₄ "x6 ³ / ₄ ", 1 ¹ / ₂ " Fb
20-012M	Sandwich Bag, 6 ¹ / ₂ "x6", 1 ¹ / ₂ " Lip, 1 ¹ / ₂ " Fb
20-21	Silverware Bag, 3 ¹ / ₂ "x10, 2" Fb, 2" Lip
20-212M	Silverware Bag, 3 ¹ / ₂ "x10, 2" Fb, 2" Lip
21-044	Snack/Pickle/Jalapeno Clr Bag, 5 ¹ / ₄ "x8"
21-11HD	Hot Dog Bag Printed Red, 5-1/4 x 8
21-13HDCL	Hot Dog Bag Clear, 5 ¹ / ₄ "x10"

Additional models available.

Coldmaster® Collection

Keeps food cold without ice or electricity. Coldmaster system eliminates the inconvenience and mess of ice, as well as reduces the potential for bacteria. With one overnight charge in your freezer, Coldmaster maintains ServSafe guidelines of 40°F for up to 8 hours! New CoolCheck™ "color-changing" technology eliminates the guessing game behind food safety and reduces waste by "telling" workers when food temperature is safe. Dishwasher safe. NSF.

Model	Description
CM101202	Ice Cream Disp. & Lid White
CM101203	Ice Cream Disp. & Lid Black
CM101307	Lid Ice Cream Clear
CM101503	Lid 2 qt. Milk Disp. Black
CM101703	Milk Disp. & Lid Black
CM103002	Cold Crock 2 qt. White
CM103003	Cold Crock 2 qt. Black

Additional models available.

StorPlus™ Food Storage Containers

Reinforced stacking lugs on all corners add strength, rigidity, and help prevent container "lock-up" or jamming when stacked together. Wide recessed handles, with drain holes for quicker drying, provide maximum grip without sacrificing shelf space. Capacity indicators listed in gallons and liters. Color-coded to match lids for quick identification. NSF. Dishwasher safe.

Model	Description
10720	2 qt. Container Clear (Polycarbonate)
10721	4 qt. Container Clear (Polycarbonate)
10722	6 qt. Container Clear (Polycarbonate)
10723	8 qt. Container Clear (Polycarbonate)
10724	12 qt. Container Clear (Polycarbonate)
10725	18 qt. Container Clear (Polycarbonate)
10726	22 qt. Container Clear (Polycarbonate)

Additional models available.

StorPlus™ Food Storage Boxes

Reinforced top and bottom corners on both box and lid help prevent chipping and cracking. Easy-grip handles have structured rib reinforcement. Polycarbonate withstands temperatures from -40°F to 212°F and provides easy visibility and superior resistance to food acids and oils. Polyethylene withstands temperatures from -40°F to 180°F and offers an economical storage and transport solution. Dishwasher safe. NSF. Color-coded boxes also available.

Model	Description
10610	12"x18"x3 ¹ / ₂ ", 2 gal. (Polycarbonate)
10611	12"x18"x6", 3 ¹ / ₂ gal. (Polycarbonate)
10612	12"x18"x9", 5 gal. (Polycarbonate)
10617	12"x18" Lid (Polycarbonate)
10620	18"x26"x3 ¹ / ₂ ", 5 gal. (Polycarbonate)
10621	18"x26"x6", 8 ¹ / ₂ gal. (Polycarbonate)
10622	18"x26"x9", 12 ¹ / ₂ gal. (Polycarbonate)

Additional models available.

Datelt™ Food Rotation Labels, Dispensers & Portion Bags

Datelt™ food rotation labels, dispensers, and portion bags available in an internationally recognized color-coding system for food safety and inventory rotation. Labels come in a variety of adhesives, including permanent, removable, dissolvable and DuraPeel™. Available by the roll or by the case. Choose from removable/dissolvable/permanent labels.

Date Code Genie

Date Code Genie is an intuitive automated labeling system that ensures consistent food prep in a fraction of the time of handwritten labels. Your employees will spend more time prepping items and less time handwriting labels. *Contact us for additional information.*

Knife & Steel Chef Color Jackets

Knife and Steel is the true work-horse in chef apparel, now available in exciting, fresh colors–Eggplant, Espresso, and Olive! Elegant looking, yet built to last, with comfortable and durable poly cotton material available in 3/4-sleeve.

- Hidden snap buttons
- Thermometer/pen pocket
- Drop shoulder and back yoke construction for added movement and comfort
- Sizes XS to 5X

Model	Description
J113EPT-XS	¾ Sleeve, PC Blend, Eggplant
J113EPT-S	¾ Sleeve, PC Blend, Eggplant
J113EPT-M	¾ Sleeve, PC Blend, Eggplant
J113EPT-L	¾ Sleeve, PC Blend, Eggplant
J113EPT-XL	¾ Sleeve, PC Blend, Eggplant
J113EPT-2X	¾ Sleeve, PC Blend, Eggplant
J113EPT-3X	¾ Sleeve, PC Blend, Eggplant
J113EPT-4X	¾ Sleeve, PC Blend, Eggplant
J113EPT-5X	¾ Sleeve, PC Blend, Eggplant

Additional models and colors available.

Oven Mitts

Mitts wipe clean with a damp cloth—one size fits all! Fire retardant protection up to 450°F. WebGuard™ gusset for added protection between your thumb and forefinger. Economically priced silver non-stick silicone coated mitts work well with hot or cold surfaces. Protects up to 400°F. Kevlar stitching on all mitts for maximum durability.

Model	Description
800FG13-BK	BestGuard™ 13", Black
800FG15-BK	BestGuard™ 15", Black
800FG17-BK	BestGuard™ 17", Black
800FG24-BK	BestGuard™ 24", Black
801SG13	Silicone 13"
801SG15	Silicone 15"
801SG17	Silicone 17"

BestGrip™ Oven Mitts

BestGrip™ fire retardant oven mitts provide heat protection up to 500°F for 1 minute. Non-slip textured material offers secure gripping. WebGuard™ provides extra protection between thumb and forefinger. Wipes clean with a damp cloth. Integrated magnet for quick, convenient storage.

Model	Description
810CM17	Conventional, 17"
810PM15	Puppet, 15"
810CM15	Conventional, 15"
810PM17	Puppet, 17"

UltiGrips® Oven Mitts & Hot Pads

Repels stains and provides superior grip ability in hot or cold applications. Go from freezer to oven, protecting hands from temperatures -109°F to 500°F for 15 seconds. Made of a non-slip, textured neoprene material with Kevlar® stitching for extra durability. WebGuard™ provides extra heat protection between thumb and forefinger. Dishwasher safe. Hot pads available in 5½", 7" or 10" and oven mitts available in conventional and puppet-style.

Model	Description
UPM17BK	Puppet Mitt 17"
UPM15BK	Puppet Mitt 15"
UCMX15BK	Conventional Mitt 15"
UCMX17BK	Conventional Mitt 17"
UHP1010BK	Hot Pad, 10"x10"
HO1000	Magnetic Hand Safety Organizer, 18"x2"

Additional models available.

Signage

Changing Stations

Form-A-Line System

Ensure the safety, health, and welfare of your employees and patrons by diverting traffic where you need it with the Form-A-Line System from Aarco. Retractable Belt-Style Systems available in single or dual belt with belt colors red, green, blue, black, and purple. Rope Style Systems available in 5', 6', and 8' lengths with rope colors black, red, and green. Removable Sign Frames easily attach to posts.

Model	Description
HC-7	Retractable Belt 7', Chrome
HB-7	Retractable Belt 7', Brass
HS-7	Retractable Belt 7', Satin
HBK-27	Dual Retractable 7', Black
HC-27	Dual Retractable 7', Chrome
HB-27	Dual Retractable 7', Brass

Additional models available.

A-Frame Sidewalk Boards

A-Frame Sidewalk Boards feature steel reinforced corners, weather-resistant hardware, unique plastic camel floor leveling system, and full width aluminum hinges. Choose traditional solid oak wood frame with clear lacquer or cherry finish or modern aluminum frame with clear anodized or black powder coated finish. Four writing surfaces to choose from—white or black markerboard, black acrylic or black chalkboard. Two sizes available—42"Hx24"W or 42"Hx18"W.

Model	Description
A-1	Black Chalkboard, Oak, 42"Hx24"W
MA-1	Black Chalkboard, Cherry, 42"Hx24"W
A-11	Black Markerboard, Oak, 42"Hx24"W
MA-11	Black Markerboard, Cherry, 42"Hx24"W
BA-11	Black Markerboard, Black Aluminum, 42"Hx24"W
MA-3	Black Chalkboard, Cherry, 42"Hx18"W

Additional models available.

Spacing Consideration for Furnishings

- 14 sq. ft. per person for spacious dining.
- 12 sq. ft. per person for cafeteria or restaurant.
- 10 sq. ft. per person for banquet, institutional or close seating.
- Allow 18" for person seating from edge of table to back of chair.
- Diagonal seating saves floor space. Deuce tables and wall spacing save the most space.
- Allow 42" between squared tables for chairs back to back—leaves 6" to push out.
- Allow 60" between squared tables for chairs back to back—leaves 26" service aisle.
- Allow 24" between corners of diagonal table for customer access—no aisle.
- Allow 30" between corners of diagonal tables for customer access—narrow aisle.

Note: Where space is limited, booths require only 8 sq. ft. per person, including aisle allowance.

Estimating Seating Capacity per Square Foot

For Banquet Seating: When using oblong tables, divide the room area (sq. ft.) by 8. When using round tables, divide the room area (sq. ft.) by 10. These figures are for maximum seating. If space is available for more comfortable seating, allow an additional 2 sq. ft. per person.

For Seminar Seating: Divide "attendee" seating area (sq. ft.) by 8. This formula allows for chair and passage aisle, but not for wide traffic aisles, doors, exits, posts or other obstructions. It is useful for a quick approximation.

When planning seating, several factors must be considered: Cost per square foot per person. Approximate tables for best usage of space. Ease of providing service to tables.

Gold-Top Stanchions & Red Ropes

Classic ball-top stanchions add elegance to any décor. Mirror-polish gold finish is ideal for night clubs, casinos and restaurants. Weighted base with gold cover holds stanchion in place and will not tip or slide. Traditional Twisted Red Rope design. Mirror polish gold hardware. The perfect match to our ROS-41GD ball-top stanchions.

Model	Description
ROS-41GD	41" Classic Ball-Top Stanchion, Mirror gold finish
ROS-RPE/RD	62" Tradition Twisted Red Nylon Rope, Mirror gold hardware

Sturdy Chair™ Youth Seat

Meets latest ASTM and TUV safety standards. One piece T-bar and 3-point active harness with one-handed release protects child and reduces pinching. Microban® provides all-over protection from bacteria growth that can cause odors and staining. Contemporary design makes it easier to clean than wood.

Model	Description
FG781588BLA	Tray (Blue, Green, Platinum, Red, Black)
FG780508BLA	Chair w/Wheels (Platinum, Green, Black)
FG780608BLA	Chair, no wheels (Platinum, Green, Black)
FG781408BLA	Chair, no wheels, Ready to Assemble

Anti-Microbial Baby Changing Station

Safe and ergonomic design meets all global ASTM safety regulations. Anti-microbial protection inhibits bacteria growth and odors. Easy access hooks on both sides allow parent easy access to diaper bag without bending over. Accessory shelf is ideal for placing bottle, baby powder, and other items safely out of baby's reach. Liquid Barrier Liners with an easy to service dispenser holds up to 40 liners.

Model	Description
FG781788WHT	Protective Table Liners (320/carton)
FG781888LPLAT	Changing Table, Horizontal
FG781988LPLAT	Changing Table, Vertical

Diaper Changing Stations

Available in horizontal and vertical styles to meet size and space requirements. Bag hooks on either end allow for the child's diaper bag to be securely hung for easy access, while the second hook is available for a purse or shopping bags. Concave design provides a deep area for the child to lay, while the safety strap provides an additional level of security. Molded in dual liner dispensers accommodate 50 bed liners that create a barrier between the child and the changer. ADA compliant.

Model	Description
8252-H	Horizontal
8252-V	Vertical
8254	Child Safety Seat
8255	Bed Liners, Plastic Lined

Laminate Open Shelf Serving Cart

Complete your dining area with great design. Contemporary styling with spacious oval shaped shelves. Available in ten standard laminate finishes (shown in Gray Sand). 4" all swivel casters. Fully assembled. Top shelf is 23"x44", lower shelves are 19"x42", 35" overall height. Model 36300

Stainless Steel Beverage Carts

Eliminate the need for serving tables by transporting and serving from these attractive carts. Spacious top for coffee urns, cups, snack trays, and more. Large drop leaves with rigid swing-out positive locking supports provide extra serving area. Waterproof and stain resistant laminate top has built-in rails. Stainless shelves and interior provide extra storage. Choose walnut (standard), black, light maple, or red maple.

Model	Description
672	21"Wx38 ³ / ₈ "Hx33"L (leaves down) and 48"L (leaves up)
675	24"Wx38 ³ / ₈ "Hx44 ¹ / ₈ "L (leaves down) and 72"L (leaves up) w/ doors, Victorian Cherry
676	24"Wx38 ³ / ₈ "Hx61 ³ / ₄ "L (leaves down) and 96"L (leaves up)

Cashier Stand

Ideal for automated POS payment systems. Attractively and practically designed to enhance any cafeteria operation. Stainless steel with laminate finish. Tray slides fold down out of the way when not in use. Perforated panel provides proper ventilation for POS equipment. Shown with optional cash drawer.

Model	Description
641	49 ¹ / ₂ "Wx25 ⁷ / ₈ "Dx38 ¹ / ₈ "H, S/S w/laminate finish
Cash Drawer	Built-In Locking Cash Drawer (for #641)
