5 Company and/or Product Description:

This information will appear on the TIPS website in the company profile section, if awarded a TIPS contract. (Limit 750 characters.)

uckus Networks (originally Ruckus Wireless) was originally founded in 2002 to develop equipment that would use Wi-Fi to run entertainment-quality video simultaneously to all the TVs and computers in a home. The technology the founders developed did exactly what they set out to do, but due to market trends and opportunities at the time, the company chose to shift away from home video towards service providers and enterprises.

Building on ahead-of-its time technology, Ruckus became a pioneer in the Wi-Fi infrastructure market, enabling carriers and enterprises to stay ahead of the exploding demand for high-bandwidth applications and services. Today, Ruckus delivers a simply better wireless experience that makes everyday life and business better across the globe. Ruckus Smart Wi-Fi technology redefines what's possible in wireless network performance with flexibility, reliability and affordability.

Since its founding, Ruckus has never relied on off-the-shelf, reference design radio technology—it doesn't deliver the capacity, range or interference mitigation necessary to make real the dream of wireless that works everywhere, all the time. Ruckus delivered the industry's first adaptive antenna technology to overcome RF interference on Wi-Fi networks – followed by industry-first 802.11n and 802.11ac (wave 1 & 2) products, certificate-based security and location-based software. The company went public in February 2012, and was acquired by Brocade in May 2016, and by ARRIS in December 2017.

Now the company, officially dubbed the Ruckus Networks, stands on the following pillars:

Performance – Ruckus' deep history of technical innovation means superior, dependable wireless performance for its customers.

Simplicity – Ease of install and management for IT? Ease of use for end users? These are just a given. Ruckus also offers ease of doing business for its partners and customers.

Options – Ruckus provides the utmost flexibility for all the wireless

networking scenarios a business might have.  
 Segments – Large enterprises, SMBs, carriers, service providers, educational institutions (K-12 and higher education), hospitality, MDU, retail, manufacturing, smart cities, public venues and events.  
 Moving Beyond Wi-Fi

Ruckus' technology expertise now extends well beyond Wi-Fi. With its OpenG technology, Ruckus is again a pioneer, working to build an ecosystem that will enable organizations to self-deploy LTE coverage in the same way they deploy Wi-Fi today. And Ruckus Wi-Fi itself is now much more than super-fast connections, it's a platform for a host of capabilities—like location analytics and engagement technology—that can reduce cost, increase efficiency, improve customer loyalty and increase revenue.

80 Texas Education Code Chapter 22 Contractor Certification for Contractor Employees

Introduction: Texas Education Code Chapter 22 requires entities that contract with school districts to provide services to obtain criminal history record information regarding covered employees. Contractors must certify to the district that they have complied. Covered employees with disqualifying criminal histories are prohibited from serving at a school district.

Definitions: Covered employees: Employees of a contractor or subcontractor who have or will have continuing duties related to the service to be performed at the District and have or will have direct contact with students. The District will be the final arbiter of what constitutes direct contact with students. Disqualifying criminal history: Any conviction or other criminal history information designated by the District, or one of the following offenses, if at the time of the offense, the victim was under 18 or enrolled in a public school:

(a) a felony offense under Title 5, Texas Penal Code; (b) an offense for which a defendant is required to register as a sex offender under Chapter 62, Texas Code of Criminal Procedure; or (c) an equivalent offense under federal law or the laws of another state.

I certify that:

NONE (Section A) of the employees of Contractor and any subcontractors are covered employees, as defined above. If this box is checked, I further certify that Contractor has taken precautions or imposed conditions to ensure that the employees of Contractor and any subcontractor will not become covered employees. Contractor will maintain these precautions or conditions throughout the time the contracted services are provided.

OR

SOME (Section B) or all of the employees of Contractor and any subcontractor are covered employees. If this box is checked, I further certify that:

(1) Contractor has obtained all required criminal history record information regarding its covered employees. None of the covered employees has a disqualifying criminal history.

(2) If Contractor receives information that a covered employee subsequently has a reported criminal history, Contractor will immediately remove the covered employee from contract duties and notify the District in writing within 3 business days.

(3) Upon request, Contractor will provide the District with the name and any other requested information of covered employees so that the District may obtain criminal history record information on the covered employees.

(4) If the District objects to the assignment of a covered employee on the basis of the covered employee's criminal history record information, Contractor agrees to discontinue using that covered employee to provide services at the District.

Noncompliance or misrepresentation regarding this certification may be grounds for contract termination.

A contract with such provisions is voidable. Under this new statute, a "construction contract" includes contracts, subcontracts, or agreements with (among others) architects, engineers, contractors, construction managers, equipment lessors, or materials suppliers. "Construction contracts" are for the design, construction, alteration, renovation, remodeling, or repair of any building or improvement to real property, or for furnishing materials or equipment for the project. RUCKUS IS WILLING TO LICENSE THE SOFTWARE AS EMBEDDED IN THE ASSOCIATED HARDWARE (COLLECTIVELY, THE "PRODUCT") TO YOU ONLY ON THE CONDITION THAT YOU ACCEPT ALL OF THE TERMS AND CONDITIONS IN THIS AGREEMENT.

PLEASE READ THE TERMS AND CONDITIONS BELOW CAREFULLY. BY INSTALLING AND/OR USING THE PRODUCT, YOU ACKNOWLEDGE THAT YOU HAVE READ THIS AGREEMENT AND AGREE TO BE BOUND BY ITS TERMS AND CONDITIONS.

If you do not agree to these terms and conditions, Ruckus is unwilling to license the Software to you, and you should not use or install the Product. If this is the case, you should immediately contact Ruckus Wireless, Inc. at [www.ruckuswireless.com](http://www.ruckuswireless.com).

1. **GRANT OF LICENSE.** Subject to the terms and conditions of this Agreement, Ruckus grants you a personal, non-exclusive, restricted right to use the object code version of the Software solely in conjunction with the Product and in accordance with the user manuals.
2. From time to time, Ruckus may offer an upgrade, revision or other modification ("Revision") to the Software. Such Revision is subject to the terms of this Agreement and is specifically limited to use with a single installation of Ruckus Software, unless otherwise stated. Use with a subsequent installation of Ruckus Software violates the terms of this Agreement.
3. **OWNERSHIP.** Ruckus and its suppliers shall retain ownership of all patents, copyrights, trademarks, trade names, trade secrets and other intellectual property rights in the Software. The Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. Except as provided in Section 1, you shall have no right, title or interest in or to the Software. The Software is licensed, not sold, to you for use only under the terms of this Agreement.

5. **WARRANTY DISCLAIMER.** Except as expressly stated in the Warranty Statement provided with the Product, the Software is licensed to you "as is," without warranty of any kind. Ruckus and its suppliers disclaim all warranties, express or implied, either in fact or by operation of law, statutory or otherwise, including without limitation, the warranties of merchantability, fitness for a particular purpose, title and non-infringement of third-party rights.
6. **LIMITATION OF LIABILITY.** Ruckus and its suppliers shall not be liable for any indirect, exemplary, special, punitive, consequential or incidental damages of any kind, or for loss of revenue or profits, loss of business, or any damages that are not direct, even if Ruckus or such supplier has been advised of the possibility of such damages. In no event will Ruckus' aggregate liability in connection with this agreement, regardless of the form of the action giving rise to such liability (whether in contract, tort or otherwise), exceed one hundred U.S. dollars (\$100.00 U.S.). These disclaimers of liability will not be affected if any remedy provided herein fails of its essential purpose. Some jurisdictions do not allow the limitation or exclusion of liability for consequential or incidental damages so the above limitation or exclusion may not apply to you. This limited liability provision is a fundamental part of the basis of Ruckus' bargain hereunder, and Ruckus would not be willing to license the Software to you absent such limitations.

9. **EXPORT CONTROL.** The Software is subject to the export control laws of the United States. You may not export or re-export the Software without the appropriate United States and foreign government licenses. You shall otherwise comply with all applicable export control laws and shall defend, indemnify and hold Ruckus and all Licensor suppliers harmless from any claims arising out of your violation of such export control laws.
10. **ASSIGNMENT.** You may assign your rights in this Agreement only if you assign all of your rights in the Product and such assignee agrees to be bound by all terms and conditions of this Agreement. Your license will automatically terminate upon any assignment.
11. **GENERAL.** This Agreement shall for all purposes be governed by and interpreted in accordance with the laws of the State of California, USA, without regards to the conflicts of laws, principles or any other principles that would result in the application of a different body of law. The United Nations Convention on Contracts for the International Sale of Goods is specifically disclaimed. If any provision of this Agreement is held by a court of competent jurisdiction to be unenforceable for any reason, the remaining provisions hereof shall be unaffected and remain in full force and effect. This Agreement is the final, complete and exclusive agreement between the parties relating to the subject matter hereof, and supersedes all prior or contemporaneous understandings and agreements relating to such subject matter, whether oral or written.

## Ruckus Networks Overview

---

Please find our list of products and services here: [Ruckus Wireless Portfolio](#)

Ruckus Networks (originally Ruckus Wireless) was originally founded in 2002 to develop equipment that would use Wi-Fi to run entertainment-quality video simultaneously to all the TVs and computers in a home. The technology the founders developed did exactly what they set out to do, but due to market trends and opportunities at the time, the company chose to shift away from home video towards service providers and enterprises.

Building on ahead-of-its time technology, Ruckus became a pioneer in the Wi-Fi infrastructure market, enabling carriers and enterprises to stay ahead of the exploding demand for high-bandwidth applications and services. Today, Ruckus delivers a simply better wireless experience that makes everyday life and business better across the globe. Ruckus Smart Wi-Fi technology redefines what's possible in wireless network performance with flexibility, reliability and affordability.

Since its founding, Ruckus has never relied on off-the-shelf, reference design radio technology—it doesn't deliver the capacity, range or interference mitigation necessary to make real the dream of wireless that works everywhere, all the time. Ruckus delivered the industry's first adaptive antenna technology to overcome RF interference on Wi-Fi networks – followed by industry-first 802.11n and 802.11ac (wave 1 & 2) products, certificate-based security and location-based software. The company went public in February 2012, and was acquired by Brocade in May 2016, and by ARRIS in December 2017.

Now the company, officially dubbed the Ruckus Networks, stands on the following pillars:

**Performance** – Ruckus' deep history of technical innovation means superior, dependable wireless performance for its customers.

**Simplicity** – Ease of install and management for IT? Ease of use for end users? These are just a given. Ruckus also offers ease of doing business for its partners and customers.

**Options** – Ruckus provides the utmost flexibility for all the wireless networking scenarios a business might have.

**Segments** – Large enterprises, SMBs, carriers, service providers, educational institutions (K-12 and higher education), hospitality, MDU, retail, manufacturing, smart cities, public venues and events.

**Moving Beyond Wi-Fi**

Ruckus' technology expertise now extends well beyond Wi-Fi. With its OpenG technology, Ruckus is again a pioneer, working to build an ecosystem that will enable organizations to self-deploy LTE coverage in the same way they deploy Wi-Fi today. And Ruckus Wi-Fi itself is now much more than super-fast connections, it's a platform for a host of capabilities—like location analytics and engagement technology—that can reduce cost, increase efficiency, improve customer loyalty and increase revenue.

The Ruckus team is working daily to bring to life a new set of capabilities, technologies and products that we expect will transform the networking experience. Ruckus Networks creates a pure-play networking company, enabling the most critical networking requirements from the data center core to the wireless network edge.
