Our History

Hi-Line was founded in 1959 by J.P. Sheaffer when he recognized a genuine need in the market place—businesses were hurting for inventory management and timely, direct delivery of quality electrical and mechanical maintenance products. His solution? Take the store and the service to the customer.

J.P.'s dream took shape as he started operations out of his Dallas home. In the beginning, J.P. enlisted the help of his sons each night as they stocked and loaded his old Pontiac station wagon with product. The following morning, he would personally service his customers in the Dallas/Ft. Worth area, managing their inventories of aftermarket products.

"We learned early that it was our knowledge and expertise that customers valued most and which set us apart. Not only did we find the right part for the job, we managed their inventory for them, keeping it organized and stocked so they could focus on production."
—J.P. Sheaffer, Founder and Chairman

Hi-Line Today

Hi-Line has grown from those humble beginnings into a nationwide distributor of industrial MRO supplies. Today, Hi-Line's Territory

Managers drive fully stocked mobile stores with direct access to over 30,000 parts. Our Territory Managers are highly trained and equipped to serve the needs of the transportation, aviation, facilities maintenance, aerospace, medical, military, marine, power generation, manufacturing and heavy equipment industries.

Hi-Line's growth and service reputation are founded on three core values:

1. Quality Products
2. Quality Service
3. Competitive Pricing

"Every successful company is made up of core beliefs. These beliefs are the foundation that helps the company grow and prosper. Here at Hi-Line, our beliefs revolve around hiring great people, providing quality products, giving outstanding service and offering competitive pricing."
—Mike Sheaffer, President

80 Texas Education Code Chapter 22 Contractor Certification for Contractor Employees

Introduction: Texas Education Code Chapter 22 requires entities that contract with school districts to provide services to obtain criminal history record information regarding covered employees. Contractors must certify to the district that they have complied. Covered employees with disqualifying criminal histories are prohibited from serving at a school district.

Definitions: Covered employees: Employees of a contractor or subcontractor who have or will have continuing duties related to the service to be performed at the District and have or will have direct contact with students. The District will be the final arbiter of what constitutes direct contact with students. Disqualifying criminal history: Any conviction or other criminal history information designated by the District, or one of the following offenses, if at the time of the offense, the victim was under 18 or enrolled in a public school:

(a) a felony offense under Title 5, Texas Penal Code; (b) an offense for which a defendant is required to register as a sex offender under Chapter 62, Texas Code of Criminal Procedure; or (c) an equivalent offense under federal law or the laws of another state.

I certify that:

NONE (Section A) of the employees of Contractor and any subcontractors are covered employees, as defined above. If this box is checked, I further certify that Contractor has taken precautions or imposed conditions to ensure that the employees of Contractor and any subcontractor will not become covered employees. Contractor will maintain these precautions or conditions throughout the time the contracted services are provided.

OR

SOME (Section B) or all of the employees of Contractor and any subcontractor are covered employees. If this box is checked, I further certify that:

(1) Contractor has obtained all required criminal history record information regarding its covered employees. None of the covered employees has a disqualifying criminal history.

(2) If Contractor receives information that a covered employee subsequently has a reported criminal history, Contractor will immediately remove the covered employee from contract duties and notify the District in writing within 3 business days.

(3) Upon request, Contractor will provide the District with the name and any other requested information of covered employees so that the District may obtain criminal history record information on the covered employees.

(4) If the District objects to the assignment of a covered employee on the basis of the covered employee's criminal history record information, Contractor agrees to discontinue using that covered employee to provide services at the District.

Noncompliance or misrepresentation regarding this certification may be grounds for contract termination.

HEAVY-DUTY ORANGE NITRILE GLOVES

- Diamond plate texture for enhanced grip in greasy/wet applications
- Raised diamond texture creates 60% more surface area than standard nitrile gloves
- The diamonds channel away liquids, so even when the glove is wet you can still hold on tight—no worries about losing control of tools. Reverse texture on the inside helps air circulate to keep your hands drier.
- Orange color enhances visibility of where your hands are & where the grease is - The high-visibility color really demands to be seen.
- Their 8- to 9-mil thickness means greater resistance to rips, tears, and punctures and provides for extended-duration use. They offer extra protection from grease, gasoline, pesticides, cleaning solutions...three times the puncture and chemical resistance of a latex or vinyl gloves.
- Powder free and latex free
- Made from component materials that comply with FDA regulations for food contact, which makes them perfect for food processing applications.
