Texas Education Code Chapter 22 Contractor Certification for Contractor Employees

79 Texas Education Code Chapter 22 Contractor Certification for Contractor Employees

Introduction: Texas Education Code Chapter 22 requires entities that contract with school districts to provide services to obtain criminal history record information regarding covered employees. Contractors must certify to the district that they have complied. Covered employees with disqualifying criminal histories are prohibited from serving at a school district.

Definitions: Covered employees: Employees of a contractor or subcontractor who have or will have continuing duties related to the service to be performed at the District and have or will have direct contact with students. The District will be the final arbiter of what constitutes direct contact with students. Disqualifying criminal history: Any conviction or other criminal history information designated by the District, or one of the following offenses, if at the time of the offense, the victim was under 18 or enrolled in a public school:  
(a) a felony offense under Title 5, Texas Penal Code; (b) an offense for which a defendant is required to register as a sex offender under Chapter 62, Texas Code of Criminal Procedure; or (c) an equivalent offense under federal law or the laws of another state.

I certify that:  
NONE (Section A) of the employees of Contractor and any subcontractors are covered employees, as defined above. If this box is checked, I further certify that Contractor has taken precautions or imposed conditions to ensure that the employees of Contractor and any subcontractor will not become covered employees. Contractor will maintain these precautions or conditions throughout the time the contracted services are provided.

OR  
SOME (Section B) or all of the employees of Contractor and any subcontractor are covered employees. If this box is checked, I further certify that:  
(1) Contractor has obtained all required criminal history record information regarding its covered employees. None of the covered employees has a disqualifying criminal history.  
(2) If Contractor receives information that a covered employee subsequently has a reported criminal history, Contractor will immediately remove the covered employee from contract duties and notify the District in writing within 3 business days.  
(3) Upon request, Contractor will provide the District with the name and any other requested information of covered employees so that the District may obtain criminal history record information on the covered employees.  
(4) If the District objects to the assignment of a covered employee on the basis of the covered employee's criminal history record information, Contractor agrees to discontinue using that covered employee to provide services at the District.

Noncompliance or misrepresentation regarding this certification may be grounds for contract termination.

<p>80 Texas Business and Commerce Code § 272 Requirements as of 9-1-2017</p>	<p>SB 807 prohibits construction contracts to have provisions requiring the contract to be subject to the laws of another state, to be required to litigate the contract in another state, or to require arbitration in another state. RE: Dale Crampton Company  
Bonding Letter

To Whom It May Concern:

We are pleased to offer a bonding reference for our valued client, Dale Crampton Company. Our agency, BHC Insurance, has been handling bonding for them since 2001.

As surety, SureTec Insurance Company has been the surety company for Dale Crampton Company, P. O. Box 1502, Fort Smith, AR 72902, for 5 years and as such has provided a single bond limit in excess of low seven figures and in the aggregate has a program over mid seven figures. Current available aggregate capacity is approximately mid seven figures.

We would favorably consider requests from Dale Crampton Company to provide bid, performance and payment bonds on projects they are currently contemplating. Such prequalification and approval would be conditioned upon applicable underwriting considerations such as acceptable contract terms & conditions, bonds forms and confirmation of satisfactory financing as well as a favorable review of current underwriting information at the time bonds are requested.

Dale Crampton Company is a valued customer of BHC Insurance and we recommend them highly. You understand, of course, that any arrangement to provide bid bonds and/or final bonds on a project is a matter between Dale Crampton Company and SureTec Insurance Company and we assume no liability to third parties if we do not execute said bond(s).

I trust that you will find this to be a satisfactory reference, but if you need additional information please do not hesitate to call. I can be reached at (479) 452-4000.

Sincerely,

A handwritten signature in black ink, appearing to read 'Scott R. Clark', written in a cursive style.

Owner: \_\_\_\_\_

Address: \_\_\_\_\_

Name of Project: \_\_\_\_\_

Project Address: \_\_\_\_\_

Area of Work: \_\_\_\_ Date Accepted: \_\_\_\_ Warranty Period: \_\_\_\_ Date of Expiration \_\_\_\_\_

AND WHEREAS Roofing Contractor has contracted (either directly with Owner, or, indirectly as a subcontractor) to warrant said work against leaks and faulty or defective materials and workmanship for designated Warranty Period.

NOW THEREFORE, Roofing Contractor hereby warrants, subject to terms and conditions herein set forth, that during Warranty Period, he will, at his own cost and expense, make or cause to be made, such repairs to, or, replacements of said work as are necessary to correct faulty and defective work, and as are necessary to maintain said work in watertight condition.

This Warranty is made subject to the following terms and conditions:

1. Specifically excluded from this Warranty are damages to work and other parts of the building, and to building contents, caused by: a) lightning, windstorm, hailstorm, and other unusual phenomena of the elements; b) fire; c) failure of roofing system substrate including cracking, settlement, excessive deflection, and decomposition; d) faulty construction of parapet walls, copings, chimneys, skylights, vents, equipment supports, and other edge conditions and penetrations of the work; e) repeated vapor condensation on bottom of roofing and f) activity on roofing by others including construction contractors, maintenance personnel, other persons, and animals whether authorized or unauthorized by Owner. 2. The Roofing Contractor is responsible for damage to work covered by the Warranty, but is not liable for consequential damages to building or building contents, resulting from leaks or faults or defects of work.
3. During Warranty Period, if Owner allows alterations of work by anyone other than Roofing Contractor, including cutting, patching, and maintenance in connection with penetrations, attachment of other work, and positioning of anything to roof, this Warranty shall become null and void upon date of said alterations, but only to extent said alterations affect work covered by this Warranty. If Owner engages Roofing Contractor to perform said alterations, Warranty shall not become null and void, unless Roofing Contractor, prior to proceeding with said work, shall have notified Owner in writing, showing reasonable cause for claim that said alterations would likely damage or deteriorate work, thereby reasonably justifying a limitation or termination of this Warranty.
4. During Warranty Period, if original use of roof is changed and it becomes used for, but was not originally specified for, a promenade, work deck, spray cooled surface, flooded basin, or other use or service more severe than originally specified, this Warranty becomes null and void upon date of said change, but only to extent said change affects work covered by this Warranty.
5. The Owner shall promptly notify Roofing Contractor of observed, known, or suspected leaks, defect or deterioration, and shall afford reasonable opportunity for Roofing Contractor to inspect work, and to examine evidence of such leaks, defects or deterioration.
6. This Warranty is recognized to be the only warranty of Roofing Contractor on said work, and shall not operate to restrict or cut off Owner from other remedies and resources lawfully available to him/her in cases of roofing failure.

IN WITNESS THEREOF, this instrument has been duly executed this \_\_\_\_ day of \_\_\_\_\_, 20 \_\_\_\_.

Roof modification approval typically requires owner sponsored enhancement of the roof system to meet additional performance requirements to ensure service life following the proposed modification. Firestone is the sole judge of whether or not enhancements to the roof system are required. Failure to obtain Firestone approval for a roof modification will result in invalidation of this warranty.

## FIRESTONE ROOFING CARE AND MAINTENANCE

(For Modified Bitumen Product Limited Warranty)

**Congratulations** on your purchase of a Firestone Roofing Membrane! Your roof is a valuable asset and as such should be properly maintained. **All roofs and roofing systems require periodic maintenance to perform as designed and to keep your Limited Warranty in full force and effect.**

1. The roof should be inspected at least twice yearly (in the Spring and Fall), and after any severe storms. Record maintenance procedures as they occur. Log all access times and parties working on the roof.
2. Proper maintenance and good roofing practice requires that ponded water (defined as standing water on the roof forty-eight (48) hours after it stops raining) not be allowed on the roof. Roofs should have slope to drain and all drain areas must remain clean. Bag and remove all debris from the roof since such debris can be quickly swept into drains by rain. This will allow for proper water run-off and avoid overloading the roof with ponded water.
3. The Firestone Roofing Membrane should not be exposed to acids, solvents, greases, oil, fats, chemicals and the like. If the Firestone Roofing Membrane is subject to contact with any such materials, contact Firestone immediately.
4. The Firestone Roofing Membrane is designed to be a waterproofing membrane. If there is to be roof traffic for any reason, contact your Firestone Licensed Applicator before proceeding for the installation of approved protective walkways.
5. Some Firestone roofing membranes require maintenance of the surface of the membrane in order to perform as designed:
  - a) The application of an approved liquid coating, such as Aluminum Roof Coating or Firestone Acrylic Coating System for Asphalt to smooth surfaced APP membranes provides additional protection from the environment. If this coating is not applied as part of the initial roofing installation, it should be applied within the first five years after the roof is installed to help protect the membrane from surface cracking inherent in such asphalt products. In addition, this coating should be maintained as needed to recover any areas of the coating that have blistered, peeled or worn through.
  - b) Granule surfaced APP and SBS membranes do not normally require surface maintenance other than periodic inspection for contaminants ( See Item 3. ), cuts or punctures. If areas of granular loss are discovered during inspection, new granules should be broadcast into hot asphalt or emulsion to protect the surface of the membrane.
6. All counterflashing, metal work, drains, skylights, equipment curb and supports, and any other rooftop accessories functioning in conjunction with the Firestone Roofing Membrane must be properly maintained at all times.
7. If any additional equipment is to be installed on your roof (e.g. HVAC units, TV antennas, etc.), contact Firestone, in writing, for approval before proceeding.
8. Should there be an addition to the building, requiring tie-in to the existing Firestone Roofing Membrane, contact Firestone before proceeding to ensure the tie-in is in accordance with Firestone specifications.
9. Should you have a problem:
  - a) Check for the obvious: clogged roof drains, loose counterflashings, broken skylights, open grills or vents, broken water pipes.
  - b) Note conditions resulting in leakage. Heavy or light rain, wind direction, temperature and time of day that the leak occurs are all important clues to tracing roof leaks. Note whether the leak stops shortly after each rain or continues to drip until the roof is dry. If you are prepared with the facts, the diagnosis and repair of the leak can proceed more rapidly.
  - c) Contact Firestone Warranty Claims at 1-800-830-5612 immediately...but please don't call until you are reasonably sure that the Firestone Roofing Membrane is the cause of the leak.

Firestone feels that the preceding recommendations will assist you, the building owner, in maintaining your building for many years. Remember, your building is an investment. To maximize your return on this investment, appropriate care is essential.
