Texas Education Code Chapter 22 Contractor Certification for Contractor Employees

79 Texas Education Code Chapter 22 Contractor Certification for Contractor Employees

Introduction: Texas Education Code Chapter 22 requires entities that contract with school districts to provide services to obtain criminal history record information regarding covered employees. Contractors must certify to the district that they have complied. Covered employees with disqualifying criminal histories are prohibited from serving at a school district.

Definitions: Covered employees: Employees of a contractor or subcontractor who have or will have continuing duties related to the service to be performed at the District and have or will have direct contact with students. The District will be the final arbiter of what constitutes direct contact with students. Disqualifying criminal history: Any conviction or other criminal history information designated by the District, or one of the following offenses, if at the time of the offense, the victim was under 18 or enrolled in a public school:  
(a) a felony offense under Title 5, Texas Penal Code; (b) an offense for which a defendant is required to register as a sex offender under Chapter 62, Texas Code of Criminal Procedure; or (c) an equivalent offense under federal law or the laws of another state.

I certify that:  
NONE (Section A) of the employees of Contractor and any subcontractors are covered employees, as defined above. If this box is checked, I further certify that Contractor has taken precautions or imposed conditions to ensure that the employees of Contractor and any subcontractor will not become covered employees. Contractor will maintain these precautions or conditions throughout the time the contracted services are provided.

OR  
SOME (Section B) or all of the employees of Contractor and any subcontractor are covered employees. If this box is checked, I further certify that:  
(1) Contractor has obtained all required criminal history record information regarding its covered employees. None of the covered employees has a disqualifying criminal history.  
(2) If Contractor receives information that a covered employee subsequently has a reported criminal history, Contractor will immediately remove the covered employee from contract duties and notify the District in writing within 3 business days.  
(3) Upon request, Contractor will provide the District with the name and any other requested information of covered employees so that the District may obtain criminal history record information on the covered employees.  
(4) If the District objects to the assignment of a covered employee on the basis of the covered employee's criminal history record information, Contractor agrees to discontinue using that covered employee to provide services at the District.

Noncompliance or misrepresentation regarding this certification may be grounds for contract termination.

<p>80 Texas Business and Commerce Code § 272 Requirements as of 9-1-2017</p>	<p>SB 807 prohibits construction contracts to have provisions requiring the contract to be subject to the laws of another state, to be required to litigate the contract in another state, or to require arbitration in another state. We have teamed up with the industry leaders in silicone roofing materials to bring you roofing options that we believe are game-changers in the roofing industry. Silicone coatings represent the next evolution in the roofing industry because of the incredible flexibility of the product coupled with second-to-none installation. Imagine: instead of the expensive option of tearing off old roofing systems and replacing with new roofing systems with limited warranties; or having the option of a complete refurbishment of the existing roof with a warranty that rivals new roofing systems – AT A FRACTION OF THE COST!

#### **Benefits of this type of system:**

- Comes with a Manufacturer warranty of 50 years on material.
- D & G gives a 3 year renewable labor warranty with this type of roof system.
- Withstands permanent ponding water.
- This qualifies your roof as a COOL roof system. (many cities have rebates)
- **White silicone roof system is a highly reflective material that can contribute up to 7 LEED points to building efficiency.**
- **Will reduce air conditioning energy use, in turn A/C will run less thereby extending their life.**
- Quiet application means it can be applied during school hours
- Low fumes make it safe to apply while the building is occupied
- Short application times compared to replacement of the existing roof
- Very little debris or trash goes to landfills
- After initial installation, can be easily repaired and maintained
- Dries relatively quickly – can be applied up to 2 hours before rain
- **Product is completely inert after drying and will not deteriorate or break down under direct sunlight or UV rays**
- Resists grease and oils
- Silicone creates a monolithic (seamless) roofing system across entire field of roof
- Environmentally green solution

Depending on the existing roof surface, the application procedure is pretty straightforward:

For gravel roofs, vacuum loose gravel off, then scrape/spud where necessary to create flat surface

Power wash all roof areas with an environmentally friendly cleanser.

Prime entire roof area with Bleed Block (gray) to prepare for silicone coats. (Only needed on existing asphaltic based roofing systems)

Add silicone filler coat (red) – only needed on gravel roofs as a filler

Dress and coat all seams, penetrations, curbs and coping cap seams areas with “butter” grade silicone component, adding membrane tape where necessary

Add up to 22 mil of silicone coating to manufacturer's spec to roof field, curbs, parapets and metal coping caps

**Leave worksite clean and trade debris free and under warranty**

*Notes: Pricing is based upon contractor's access to water supply provided by the University for power washing of the roofs. Also, the University to provide space to dump rooftop gravel after it is removed from the roofs. This gravel can be re-tasked to fill in pot holes, create parking spaces and fill in voids in landscaping.*

As you can see, this option puts more flexibility in your hands in maintaining or repairing your properties in a cost effective, value-added way.

We at D&G Quality Roofing stand ready to provide you with the best service that has made us leaders in our industry. Silicone manufacturers like General Electric, Durolast, and Progressive Materials are the premier roofing systems manufacturers that provide superior customer support, expert technical knowledge, and a strong commitment to product performance.
