Between Controlled Performance with Gases, LLC and
(Company Name)

THE INTERLOCAL PURCHASING SYSTEM (TIPS),
a Department of Texas Education Service Center Region 8 for
TIPS RFP 200604 Pathogen Removal and Remediation Supplies and Services

General Information

The Vendor Agreement ("Agreement") made and entered into by and between The Interlocal Purchasing System (hereinafter "TIPS") a government cooperative purchasing program authorized by the Region 8 Education Service Center, having its principal place of business at 4845 US Hwy 271 North, Pittsburg, Texas 75686 and the TIPS Vendor. This Agreement consists of the provisions set forth below, including provisions of all attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any attachment, the provisions set forth shall control unless otherwise agreed by the parties in writing and by signature and date on the attachment.

A Purchase Order ("PO"), Agreement or Contract is the TIPS Member's approval providing the authority to proceed with the negotiated delivery order under the Agreement. Special terms and conditions as agreed between the Vendor and TIPS Member should be added as addendums to the Purchase Order, Agreement or Contract. Items such as certificate of insurance, bonding requirements, small or disadvantaged business goals are some, but not all, of the possible addendums.

Terms and Conditions

Freight

All quotes to Members shall provide a line item for cost for freight or shipping regardless if there is a charge or not. If no charge for freight or shipping, indicate by stating "No Charge", "\$0", "included in price" or other similar indication. Otherwise, all shipping, freight or delivery charges shall be passed through to the TIPS Member at cost with no markup and said charges shall be agreed by the TIPS Member unless alternative shipping terms are agreed by TIPS as a result of the proposal award.

Warranty Conditions

All new supplies equipment and services shall include manufacturer's minimum standard warranty unless otherwise agreed to in writing. Vendor shall be legally permitted to sell all products offered for sale to TIPS Members if the offering is included in the Request for Proposal ("RFP") category. All goods proposed and sold shall be new unless clearly stated in writing.

Customer Support

The Vendor shall provide timely and accurate customer support for orders to TIPS Members as agreed by the Parties. Vendors shall respond to such requests within a commercially reasonable time after receipt of the request. If support and/or training is a line item sold or packaged with a sale, support shall be as agreed with the TIPS Member.

Agreements

Agreements for purchase will normally be put into effect by means of a purchase order(s) executed by authorized agents of the TIPS Member participating government entities, but other means of placing an order may be used at the Member's discretion.

Tax exempt status

Most TIPS Members are tax exempt and the related laws and/or regulations of the controlling jurisdiction(s) of the TIPS Member shall apply.

Assignments of Agreements

No assignment of this Agreement may be made without the prior notification of TIPS. Written approval of TIPS shall not be unreasonably withheld. Payment for delivered goods and services can only be made to the awarded Vendor, Vendor designated reseller or vendor assigned company.

Disclosures

- Vendor and TIPS affirm that he/she, or any authorized employees or agents, has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor or service to a public servant in connection with this Agreement.
- Vendor shall attach, in writing, a complete description of any and all relationships that might be considered a conflict of interest in doing business with the TIPS program.
- The Vendor affirms that, to the best of his/her knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this Agreement.

Term of Agreement and Renewals

The Agreement with TIPS is for approximately three (3) years with an option for renewal for an additional one (1) consecutive year if both parties agree. TIPS may or may not exercise the available extension(s) provided in the original solicitation beyond the base three-year term. Whether or not to offer the extension is at the sole discretion of TIPS.

"Start Date" for Term Calculation Purposes Only: Regardless of actual award/effective date of Contract, for Agreement "term" calculation purposes only, the Agreement "start date" is the last day of the month that Award Notifications are anticipated as published in the Solicitation.

Example: *If the anticipated award date published in the Solicitation is May 22, but extended negotiations delay award until June 27, the end date of the resulting initial "three-year" term Agreement, (which is subject to an extension(s)) will still be May 31, 2023.*

"Termination Date": The scheduled Agreement "termination date" shall be the last day of the month of the month of the Solicitation's Anticipated Award Date, published in the Solicitation, plus three years.

Example: *If the original term is approximately three years, and the solicitation provides an anticipated award date of May 22, 2020, the expiration date of the original three-year term shall be May 31, 2023.*

Extensions: Any extensions of the original term shall begin on the next day after the day the original term expires.

Example Following the Previous Example: *If TIPS offers a one-year extension, the expiration of the extended term shall*

be May 31, 2024.

TIPS may offer to extend Vendor Agreements to the fullest extent the original Solicitation permits.

Automatic Renewal Clauses Incorporated in Awarded Vendor Agreements with TIPS Members Resulting from the Solicitation and with the Vendor Named in this Agreement.

No Agreement for goods or services with a TIPS Member by the awarded vendor named in this Agreement that results from the solicitation award named in this Agreement, may incorporate an automatic renewal clause that exceeds month to month terms with which the TIPS Member must comply. All renewal terms incorporated in an Agreement by the vendor with the TIPS Member shall only be valid and enforceable when the vendor receives written confirmation by purchase order, executed Agreement or other written instruction issued by the TIPS Member for any renewal period. The purpose of this clause is to avoid a TIPS Member inadvertently renewing an Agreement during a period in which the governing body of the TIPS Member has not properly appropriated and budgeted the funds to satisfy the Agreement renewal. This term is not negotiable and any Agreement between a TIPS Member and a TIPS awarded vendor with an automatic renewal clause that conflicts with these terms is rendered void and unenforceable.

Shipments

The Vendor shall ship, deliver or provide ordered products or services within a commercially reasonable time after the receipt of the order from the TIPS Member. If a delay in said delivery is anticipated, the Vendor shall notify TIPS Member as to why delivery is delayed and shall provide an estimated time for completion of the order. TIPS or the requesting entity may cancel the order if estimated delivery time is not acceptable or not as agreed by the parties.

Invoices

Each invoice or pay request shall include the TIPS Member's purchase order number or other identifying designation as provided in the order by the TIPS Member. If applicable, the shipment tracking number or pertinent information for verification of TIPS Member receipt shall be made available upon request.

Payments

The TIPS Member will make payments directly to the Vendor, the Vendor Assigned Dealer or as agreed by the Vendor and the TIPS Member after receiving invoice and in compliance with applicable payment statute(s), whichever is the greater time or as otherwise provided by an agreement of the parties.

Pricing

Price increases will be honored according to the terms of the solicitation. All pricing submitted to TIPS shall include the participation fee, as provided in the solicitation, to be remitted to TIPS by the Vendor. Vendor will not show adding the fee to the invoice presented to TIPS Member customer.

Participation Fees and Reporting of Sales to TIPS by Vendor

The Participation Fee that was published as part of the Solicitation and the fee published is the legally effective fee, along with any fee conditions stated in the Solicitation. Collection of the fees by TIPS is required under Texas Government Code §791.011 Et seq. Fees are due on all TIPS purchases reported by either Vendor or Member. Fees are due to TIPS upon payment by the Member to the Vendor, Reseller or Vendor Assigned Dealer. Vendor, Reseller or Vendor Assigned Dealer agrees to pay the participation fee to TIPS for all Agreement sales upon receipt of payment including partial payment, from the Member Entity or as otherwise agreed by TIPS in writing and signed by an authorized signatory of TIPS. Thus, when an awarded Vendor, Reseller or Vendor Assigned Dealer receives any amount of payment, even partial payment, for a TIPS sale, the

legally effective fee for that amount is due to TIPS from the Vendor.

Reporting of Sales to TIPS by Vendor

Vendor is required to report all sales under the TIPS contract to TIPS. When a public entity initiates a purchase with a TIPS Awarded Vendor, if the Member inquires verbally or in writing whether the Vendor holds a TIPS Contract, it is the duty of the Vendor to verify whether or not the Member is seeking a TIPS purchase. Once verified, the Vendor must include the TIPS Contract number on any communications and related sales documents exchanged with the TIPS Member entity. To report sales, the Vendor must login to the TIPS Vendor Portal online at https://www.tips-usa.com/vendors_form.cfm and click on the PO's and Payments tab. Pages 3-7 of the [Vendor Portal User Guide](#) will walk you through the process of reporting sales to TIPS. Please refer to the TIPS [Accounting FAQ's](#) for more information about reporting sales and if you have further questions, contact the Accounting Team at accounting@tips-usa.com. The Vendor or vendor assigned dealers are responsible for keeping record of all sales that go through the TIPS Agreement and submitting same to TIPS. Failure to render the participation fee to TIPS shall constitute a breach of this agreement with our parent governmental entity, Texas Education Service Center Region 8, as established by the Texas legislature and shall be grounds for termination of this agreement and any other agreement held with TIPS and possible legal action. Any overpayment of participation fees to TIPS by a Vendor will be refunded to the Vendor within ninety (90) days of receipt of notification if TIPS receives written notification of the overpayment not later than the expiration of six (6) months from the date of overpayment and TIPS determines that the amount was not legally due to TIPS pursuant to this agreement and applicable law. It is the Vendor's responsibility to identify which sales are TIPS Agreement sales and pay the correct participation fee due for TIPS Agreement sales. Any notification of overpayment received by TIPS after the expiration of six (6) months from the date of overpayment will be non-refundable. Region 8 ESC and TIPS reserve the right to extend the six (6) month deadline to notify if approved by the Region 8 ESC Board of Directors. TIPS reserves all rights under the law to collect the fees due. Please contact TIPS at tips@tips-usa.com or call (866) 839-8477 if you have questions about paying fees.

Indemnity

The Vendor agrees to indemnify and hold harmless and defend TIPS, TIPS Member(s), officers and employees from and against all claims and suits by third parties for damages, injuries to persons (including death), property damages, losses, and expenses including court costs and reasonable attorney's fees, arising out of, or resulting from, Vendor's performance under this Agreement, including all such causes of action based upon common, constitutional, or statutory law, or based in whole or in part, upon allegations of negligent or intentional acts on the part of the Vendor, its officers, employees, agents, subcontractors, licensees, or invitees. Parties found liable shall pay their proportionate share of damages as agreed by the parties or as ordered by a court of competent jurisdiction over the case. **NO LIMITATION OF LIABILITY FOR DAMAGES FOR PERSONAL INJURY OR PROPERTY DAMAGE ARE PERMITTED OR AGREED BY TIPS/ESC REGION 8.** Per Texas Education Code §44.032(f), and pursuant to its requirements only, reasonable Attorney's fees are recoverable by the prevailing party in any dispute resulting in litigation.

State of Texas Franchise Tax

By signature hereon, the Vendor hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes owed the State of Texas under Chapter 171, Tax Code.

Miscellaneous

The Vendor acknowledges and agrees that continued participation in TIPS is subject to TIPS sole discretion and that any Vendor may be removed from the participation in the Program at any time with or without cause. Nothing in the Agreement or in any other communication between TIPS and the Vendor may be

construed as a guarantee that TIPS or TIPS Members will submit any orders at any time. TIPS reserves the right to request additional proposals for items or services already on Agreement at any time.

Purchase Order Pricing/Product Deviation

If a deviation of pricing/product on a Purchase Order or contract modification occurs between the Vendor and the TIPS Member, TIPS must be notified within five (5) business days of receipt of change order.

Termination for Convenience of TIPS Agreement Only

TIPS reserves the right to terminate this agreement for cause or no cause for convenience with a thirty (30) days prior written notice. Termination for convenience is conditionally required under Federal Regulations 2 CFR part 200 if the customer is using federal funds for the procurement. All purchase orders presented to the Vendor, but not fulfilled by the Vendor, by a TIPS Member prior to the actual termination of this agreement shall be honored at the option of the TIPS Member. The awarded Vendor may terminate the agreement with ninety (90) days prior written notice to TIPS 4845 US Hwy North, Pittsburg, Texas 75686. The vendor will be paid for goods and services delivered prior to the termination provided that the goods and services were delivered in accordance with the terms and conditions of the terminated agreement. This termination clause does not affect the sales agreements executed by the Vendor and the TIPS Member customer pursuant to this agreement. TIPS Members may negotiate a termination for convenience clause that meets the needs of the transaction based on applicable factors, such as funding sources or other needs.

Usually, purchase orders or their equal are issued by participating TIPS Member to the awarded vendor and should indicate on the order that the purchase is per the applicable TIPS Agreement Number. Orders are typically emailed to TIPS at tipspo@tips-usa.com.

Awarded Vendor shall remain reasonably fully informed of and in compliance with all ordinances and regulations pertaining to the lawful provision of goods or services under the Agreement. TIPS and TIPS Members reserves the right to stop work and/or cancel an order or terminate this or any other sales Agreement of any awarded Vendor whose license(s) required for performance under this Agreement have expired, lapsed, are suspended or terminated subject to a 30-day cure period unless prohibited by applicable statute or regulation.

Novation

If awarded Vendor sells or transfers all assets, rights or the entire portion of the assets or rights required to perform this Agreement, a successor in interest must guarantee to perform all obligations under this Agreement. Notwithstanding the foregoing, in the event that TIPS is made aware of any pricing being offered to eligible entities that is materially inconsistent with the pricing under this agreement, TIPS shall have the ability to conduct the audit internally or may engage a third- party auditing firm to investigate any possible non- compliant conduct or may terminate the Agreement according to the terms of this Agreement. In the event of an audit, the requested materials shall be reasonably provided in the time, format and at the location acceptable to Region 8 ESC or TIPS. Indemnification

The ESC Region 8 and TIPS is a Texas Political Subdivision and a local governmental entity; therefore, is prohibited from indemnifying third parties pursuant to the Texas Constitution (Article 3, Section 52) except as specifically provided by law or as ordered by a court of competent jurisdiction. A provision in a contract to indemnify or hold a party harmless is a promise to pay for any expenses the indemnified party incurs, if a specified event occurs, such as breaching the terms of the contract or negligently performing duties under the contract. Article III, Section 49 of the Texas Constitution states that "no debt shall be created by or on behalf of the State ... " The Attorney General has counseled that a contractually imposed obligation of indemnity creates a "debt" in the constitutional sense. Tex. Att'y Gen. Op. No. MW-475 (1982). Contract clauses which require the System or institutions to indemnify must be deleted or qualified with "to the extent permitted by the Constitution and Laws of the State of Texas." Liquidated damages, attorney's fees, waiver of vendor's liability, and waiver of statutes of limitations clauses should also be deleted or qualified with "to the extent permitted by the Constitution and laws of State of Texas."

Insurance and Fingerprint Requirements Information

Insurance

If applicable and your staff will be on TIPS member premises for delivery, training or installation etc. and/or with an automobile, you must carry automobile insurance as required by law. You may be asked to provide proof of insurance.

Fingerprint

It is possible that a vendor may be subject to Chapter 22 of the Texas Education Code. The Texas Education Code, Chapter 22, Section 22.0834. Statutory language may be found at: <http://www.statutes.legis.state.tx.us/>

If the vendor has staff that meet both of these criterion:

- (1) will have continuing duties related to the contracted services; and
- (2) has or will have direct contact with students

Then you have "covered" employees for purposes of completing the attached form.

TIPS recommends all vendors consult their legal counsel for guidance in compliance with this law. If you have questions on how to comply, see below. If you have questions on compliance with this code section, contact the Texas Department of Public Safety Non-Criminal Justice Unit, Access and Dissemination Bureau, FAST-FACT at NCJU@txdps.state.tx.us and you should send an email identifying you as a contractor to a Texas Independent School District or ESC Region 8 and TIPS. Texas DPS phone number is (512) 424-2474.

Texas Education Code Chapter 22 Contractor Certification for Contractor Employees

Texas Education Code Chapter 22 Contractor Certification for Contractor Employees

Introduction: Texas Education Code Chapter 22 requires entities that contract with school districts to provide services to obtain criminal history record information regarding covered employees. Contractors must certify to the district that they have complied. Covered employees with disqualifying criminal histories are prohibited from serving at a school district.

Definitions: Covered employees: Employees of a contractor or subcontractor who have or will have continuing duties related to the service to be performed at the District and have or will have direct contact with students. The District will be the final arbiter of what constitutes direct contact with students. Disqualifying criminal history: Any conviction or other criminal history information designated by the District, or one of the following offenses, if at the time of the offense, the victim was under 18 or enrolled in a public school:

(a) a felony offense under Title 5, Texas Penal Code; (b) an offense for which a defendant is required to register as a sex offender under Chapter 62, Texas Code of Criminal Procedure; or (c) an equivalent offense under federal law or the laws of another state.

I certify that:

NONE (Section A) of the employees of Contractor and any subcontractors are covered employees, as defined above. If this box is checked, I further certify that Contractor has taken precautions or imposed conditions to ensure that the employees of Contractor and any subcontractor will not become covered employees. Contractor will maintain these precautions or conditions throughout the time the contracted services are provided.

OR

SOME (Section B) or all of the employees of Contractor and any subcontractor are covered employees. If this box is checked, I further certify that:

(1) Contractor has obtained all required criminal history record information regarding its covered employees. None of the covered employees has a disqualifying criminal history.

(2) If Contractor receives information that a covered employee subsequently has a reported criminal history, Contractor will immediately remove the covered employee from contract duties and notify the District in writing within 3 business days.

(3) Upon request, Contractor will provide the District with the name and any other requested information of covered employees so that the District may obtain criminal history record information on the covered employees.

(4) If the District objects to the assignment of a covered employee on the basis of the covered employee's criminal history record information, Contractor agrees to discontinue using that covered employee to provide services at the District.

Noncompliance or misrepresentation regarding this certification may be grounds for contract termination.

5**Texas Business and Commerce Code § 272 Requirements as of 9-1-2017**

SB 807 prohibits construction contracts to have provisions requiring the contract to be subject to the laws of another state, to be required to litigate the contract in another state, or to require arbitration in another state. A contract with such provisions is voidable. Under this new statute, a "construction contract" includes contracts, subcontracts, or agreements with (among others) architects, engineers, contractors, construction managers, equipment lessors, or materials suppliers. "Construction contracts" are for the design, construction, alteration, renovation, remodeling, or repair of any building or improvement to real property, or for furnishing materials or equipment for the project. The term also includes moving, demolition, or excavation. BY RESPONDING TO THIS SOLICITATION, AND WHEN APPLICABLE, THE PROPOSER AGREES TO COMPLY WITH THE TEXAS BUSINESS AND COMMERCE CODE § 272 WHEN EXECUTING CONTRACTS WITH TIPS MEMBERS THAT ARE TEXAS GOVERNMENT ENTITIES.

GOING IN SMALL FOR THE KILL

CPG takes decontamination to the nano-microbial front – the microscopic battlefields where the war on viruses is fought

CPG introduces *Klean Bio-Zone* technology, a powerful new commercial decontamination process that deploys chlorine dioxide to totally eradicate viruses, bacteria and mold.

Fighting viruses, bacteria and mold means going small -- getting a true sterilant down to the nitty gritty to get next to, and kill, dangerous microbes.

Keeping interior spaces tidy and clean is important. Bleach and other household chemicals are certainly valuable cleaning tools. But the war against the most virulent viruses is fought beyond the reach of everyday cleaners and disinfectants. **Dangerous viral microbes are so infinitesimally small they can't be seen with the human eye.** Or even conventional microscopes. But they can be reached – and killed -- with chlorine dioxide gas.

Chlorine dioxide is a proven powerful decontaminant that has long been used to purify municipal water supplies. When the United States government developed the chemical as a gas, decontamination science took off. Chlorine dioxide is now the most powerful – and safest – decontaminant in the fight against microbial threats.

In 2001, chlorine dioxide gas was used successfully in response to anthrax bio-terrorism attacks in Washington, D.C. In 2005, it was deployed on a massive scale to destroy mold in homes and

businesses flooded by Hurricane Katrina. In recent years, epidemiologists have counted on chlorine dioxide to counter the spread of the Ebola virus, and the decontaminant is now being rushed into action to combat the COVID-19 pandemic.

CPG *Klean Bio-Zone* chlorine dioxide application kills the COVID-19 coronavirus.

CPG -- Controlled Performance with Gases -- has adapted this powerful science for commercial applications, with an eye as much to prevention of problems as reaction to disaster.

“CPG wants to be proactive, rather than reactive,” says the company's chief science officer, James Knoer. “This is the powerful disinfectant that's been used in horrible disasters, and even in the anthrax bio-terrorism attacks – and that's a wonderful thing for the country. But why not use this breakthrough science when there's *not* a disaster? To prevent the growth of viruses and bacteria before they gain a foothold in everyday life.”

The company has adapted its patented and patent-pending *Klean Bio-Zone* process for a variety of applications -- including critical health care, scientific labs, equine environments, maritime applications, transportation industries, and – critically today – office and business spaces.

“The major problem of maintaining indoor air quality and the sanitation of surfaces is the number of people tightly confined in work and transportation spaces,” says CPG design chief Larry Bender. **“Public areas are the primary transfer points of infectious diseases.”**

It is those public areas – places where people live and work – that are prime targets for CPG's *Klean Bio-Zone* decontamination applications. Ground Zero in the fight against the spread of viruses, bacteria and mold.

BENEFITS OF CPG CHLORINE DIOXIDE APPLICATION

THE POWER OF CHLORINE DIOXIDE

A sub-micron, aerosol gas developed by the United States government that reaches every interior surface -- including tiny, out-of-sight recesses where dangerous microbes incubate and grow.

EXCLUSIVE KLEAN BIO-ZONE

CPG's exclusive, four-step *Klean Bio-Zone* system far outperforms conventional liquid spray-on disinfectants.

CONVENIENCE

Schedule our service to fit the unique operations of your business. The treatment is generally accomplished in just a few hours, with rooms ready for reoccupation the next day. There is no need to remove computer equipment and furnishings -- an extra convenience not possible with corrosive liquid sprays.

SAFETY

Chlorine dioxide is FDA approved, and is only toxic if inhaled during application. Trained CPG professionals apply treatments in empty spaces, working within strict OSHA standards. After application, chlorine dioxide gas quickly dissipates.

ENVIRONMENTALLY SAFE

Chlorine dioxide gas is approved by the EPA. Because it is a gas, there's no run-off or leaching into surrounding environments.

REASSURANCE

Before and after testing provides a special level of reassurance of safety.

FRESHNESS

ClO₂ is a natural deodorizer that kills noxious odor microbes. Brings a freshness to interior air quality.

HEALTH

A safe and healthy work space dramatically reduces illnesses and absenteeism.

KILLING CORONAVIRUS WITH CHLORINE DIOXIDE

CPG delivers the broad spectrum decontaminant that's 100 percent effective in killing the Covid-19 coronavirus.

Chlorine dioxide gas is a sub-micron, aerosol gas developed by the United States government that reaches every interior surface – including tiny out-of-sight recesses where dangerous and deadly Covid-19 coronavirus microbes lurk.

The EPA and CDC recognize chlorine dioxide as a highly-effective decontaminant. The FDA has rated chlorine dioxide safe to use in human environments.

Controlled Performance with Gases (CPG) employs chlorine dioxide as the primary sterilant in its exclusive *Klean Bio-Zone* technology. CPG also adds a special second decontaminant that extends protection in high-touch areas for up to four weeks.

THE POWER OF CHLORINE DIOXIDE GAS

Researchers are racing to learn which decontaminant is most ideal to fight deadly viruses – especially SARS Covid-19 coronavirus -- and chlorine dioxide has marched to the top of that list:

“With its fast kinetics against microbes, chlorine dioxide is remarkable for its stability and low interaction,” reports a scientific team headed by Barry Wintner. “Numerous investigators report D-values (decontamination values) of a few minutes across a wide range of microorganisms, even against virus and spore formers.”

A team of European scientists headed by Kristof Kaly-Kullai Ph.D. of the Budapest University of Technology and Economics, has studied SARS-Covid viral outbreaks for two decades. The team hypothesizes that chlorine dioxide gas could be the world's go-to decontaminant.

“To our present knowledge, an aqueous solution of ClO₂ is able to inactivate all types of viruses,” say the researchers.

And they envision a bigger potential for chlorine dioxide gas, with an aqueous aspect.

“The advantage of using a moisturized ClO₂ gas is that its water content is also able to wet viruses in dry environments,” the report says. “Most viruses are found on hard surfaces indoors, but a small fraction of viruses are ‘airborn’, attached to dust particles which can also carry a single microbe or an aggregate of microbes.”

In developing its patent and patent-pending *Klean Bio-Zone* technology CPG found ideal chlorine dioxide solution ratios and application techniques for different spaces and objects to be decontaminated. A certain percentage targets hard surfaces, while another calculated gas percentage wafts into the air to reach every part of an enclosed room.

That aligns with the findings of Dr. Kaly-Kullai's report:

“If enough aqueous ClO₂ solution is sprayed into the room, the droplets will saturate the atmosphere with water vapor everywhere,” the paper says. “Moreover, the atmosphere will also contain gaseous ClO₂. The great advantage of this method is that the H₂O and ClO₂ molecules of the gas phase can reach the microbes in every small corner of the room.”

“This method using high ClO₂ concentration allows fast disinfection of rooms when people are not present, e.g., intensive care units, buildings used as quarantine, or public transport vehicles.”

Wintner's group compared decontamination results of chlorine dioxide with other CDC-recognized sterilants, including hydrogen peroxide and sodium hypochlorite -- bleach, noting that chlorine dioxide boasts five electrons per molecule, while the others have just two electrons.

"A high oxidation capacity (five electrons rather than two) suggests that chlorine dioxide is a most efficient reagent when oxidation proceeds to completion."

That staying power is good, says the CDC.

"The advantage of these compounds (chlorine dioxide, sodium dichloroisocyanurate and chloramine-T) over the hypochlorites (such as bleach) is they retain chlorine longer, and so exert a more bactericidal effect."

The CDC also notes findings of effectiveness.

"Chlorine dioxide-based disinfectants are prepared fresh as required by mixing the two components (base solution and activator)," reports the CDC guide. "In vitro suspension tests showed that solutions containing about 140 ppm chlorine dioxide achieved a reduction factor exceeding 10⁶ of S. aureus in 1 minute, and of Bacillus spores in 2.5 minutes in the presence of 3 g/L bovine albumin."

GOING IN SMALL FOR THE KILL

Envisioning the familiar coronavirus illustration, the round core contains the disease protein, with the surface covered with crowny "spikes" that the virus uses to attach itself to healthy human cells.

In laboratory experiments, the Kaly-Kullai team found that activated ClO₂ destroyed protein chemicals at the end of those spikes rendering the virus unable to attach to a human cell – neutralizing the virus immediately. So fast, in fact, the scientists could not measure how quickly the ClO₂ had obliterated the spikes. A matter of milliseconds.

The chlorine dioxide gas molecule also attacks the core, penetrating the cell wall of the target microbe, disrupting its internal machinery. Calling upon its oxidizing power, "free radicals" begin grabbing electrons from the cell wall of the virus. This is a chemical reaction that removes atoms piece by piece until the cell wall fails. The microbe's sinister RNA spills out and the harmful cell is totally destroyed. That all happens in about 3.6 seconds.

That's the science at the center of CPG's *Klean Bio-Zone* technology.

In its paper the Kaly-Kallai team summarized the unique properties of chlorine dioxide that make it an ideal and nonspecific antimicrobial agent, and reviewed previous research on preventing viral infections with gaseous ClO₂.

"Based on this background, we suggested some novel hypothetical methods using chlorine dioxide to disinfect rooms, prevent human infection, and slow down viral spread. These are nonspecific methods, which could be used against any new-found virus as a first line of protection until effective specific countermeasures are developed."

The Kidz Club finds dramatic benefits with CPG Chlorine Dioxide decontamination

Going Beyond the Clean that Can Be Seen

A Case Study

At The Kidz Club, staff and executives take pride in keeping everything spic and span.

And *beyond* spic and span.

The company, which provides day care services for medically fragile children, goes further than the clean that can be seen to address the hidden dangers of viruses and bacteria that threaten the health of children in its care.

“Our clients are parents with children who can’t be left at a normal day care center,” says Kidz Club president Lee Zimmerman. “These children need special attention, and they require an environment that is virus- and bacteria-free, because most don’t have strong immune systems.”

To meet its own higher expectations, The Kidz Club called upon a new Louisville company called Controlled Performance with Gases (CPG) to scientifically decontaminate the interiors of its buildings and buses -- looking to create the safest possible environment for the kids, and the Kidz Club staff.

Using its exclusive *Klean Bio-Zone* process, CPG applied chlorine dioxide gas treatments on a regular schedule to all interior surfaces and HVAC systems of Kidz Club centers in Kentucky and Florida.

“Being proactive about anything is a good thing,” says Dr. John Buchino, the pathologist and science advisor for the Kidz Clubs. “You want to make sure things are as safe as they can be. You begin with the techniques and products that are available, but when something better comes along you need to evaluate it to determine whether you should switch.”

The Kidz Club noted positive results with regular scheduled CPG chlorine dioxide applications, charting dramatic decreases in illness and absences.

The Power of Chlorine Dioxide

CPG’s *Klean Bio-Zone* technology begins with sophisticated testing to detect the presence of toxic microbes, and to form a plan of attack. In the application process the chlorine dioxide gas is given an electrostatic charge, so that it attaches itself to all surfaces – including hidden recesses where harmful viruses, bacteria and mold hide and incubate. Using patent-pending delivery devices, chlorine dioxide gas is also dispensed through HVAC ductwork to decontaminate previously unreachable surfaces.

After application of CPG chlorine dioxide, a second round of testing confirms that desired decontamination levels have been reached. Finally, a “quaternary” decontaminant is applied to extend coverage for several weeks – especially in high-touch areas.

An additional advantage of chlorine dioxide is that furnishings and sensitive instruments do not have to be removed. In fact, exposure to ClO₂ gas is a cleaning plus for technical equipment, linens, upholstery and children’s toys.

A Case Study

Chlorine dioxide is a proven powerful decontaminant that has long been used to purify municipal water supplies. When the United States government developed the chemical as a gas, decontamination science took off. In 2001, chlorine dioxide gas was used successfully in response to anthrax bio-terrorism attacks in Washington, D.C. Then in 2005, it was deployed on a massive scale to destroy mold in homes and businesses flooded by Hurricane Katrina.

Now, Controlled Performance with Gases has adapted this powerful science for commercial applications -- with an eye more to prevention of problems than reaction to disaster.

Kidz Club facilities manager Ken Ford says his company already had a top-notch custodial staff in place. But adding CPG treatments lifted decontamination to a higher level.

"At first we were kind of hit and miss with it, working out a plan," says Ford, who oversees seven Kidz Club centers in Kentucky and Florida. "We wanted to do it here, try it there -- to see how well the chlorine dioxide worked. Now we've settled on a plan in which each facility is treated quarterly, and our buses are decontaminated monthly."

One of the plus factors of chlorine dioxide is its safety. The chemical is certified food-safe by the FDA. It is only toxic when inhaled, and all treatments are scheduled for Sundays, when Kidz Club centers are closed. The application is accomplished by technicians following strict OSHA guidelines. ClO₂ gas quickly dissipates, leaving the Kidz Club centers ready to reopen the next morning.

"I contact our staff every Monday, and at first I was really excited to hear how everyone thought the chlorine dioxide was working," recalls Ford. "Surprisingly, the reaction was very small. But I take that as a positive. Most say the building smells fresh, but they can't see any physical effects. That's awesome, because it means they are getting the benefit of the decontaminant and don't even notice it. It doesn't affect our operations in any way."

But proof of the effectiveness of chlorine dioxide quickly became apparent with the reductions in illnesses and absenteeism.

"That's an especially big benefit for children, and what we do here," says Zimmerman. "Kids prosper when they are well enough to work with therapists."

"We're a health care company," Zimmerman adds, "and we are very interested in such a scientifically advanced and effective decontamination service. We believe it is a behind-the-scenes element of our success."

Infection Prevention Control Plans

Current U.S. Government regulations (including 42 CFR 483.80) require residential and health care companies to develop Infection Prevention Control plans. CPG *Klean Bio-Zone* applications are designed to meet -- and exceed -- current standards of decontamination and can become high-profile facets of the required plans.
