VENDOR CONTRACT

Between Southern Tire Mart and

THE INTERLOCAL PURCHASING SYSTEM (TIPS/TAPS)

For

Automobile and Truck: Tires, Tubes, Parts, Supplies & Service

The following pages will constitute the contract between the successful vendors(s) and TIPS/TAPS. Bidders shall state, in a separate writing, and include with their proposal response, any required exceptions or deviations from these terms, conditions, and specifications. If agreed to by TIPS/TAPS, they will be incorporated into the final contract. NOTE: The award of this contract to vendor is made following all requirements to meet the Competitively Bid Procurement Laws.

The Vendor Contract ("Contract") made and entered into by and between The Interlocal Purchasing System (hereinafter referred to as "TIPS/TAPS" respectfully) a government cooperative purchasing program authorized by the Region VIII Education Service Center, having its principal place of residence at 4845 US Hwy 271 North, Pittsburg, Texas 75686. This contract consists of the provisions set forth below, including provisions of all Attachments referenced herein. In the event of a conflict between the provisions set forth below and those contained in any Attachment, the provisions set forth shall control.

1. General Terms and Conditions

1.1. Freight
All deliveries shall be freight prepaid, F.O.B. destination and shall be included in all pricing offered unless otherwise clearly stated in writing.

1.2. Warranty conditions
All supplies equipment and services shall include manufacturer's minimum standard warranty unless otherwise agreed to in writing. Vendor shall be an authorized dealer, distributor or manufacturer for all products. All equipment proposed shall be new unless clearly stated in writing. (Or for commodity category appropriate for refurbished equipment, products may be "refurbished" but must be clearly represented as refurbished.)

1.3. Customer support
The Vendor shall provide timely and accurate technical advice and sales support to TIPS/TAPS staff and TIPS/TAPS participants. The Vendor shall respond to such requests within one (1) working day after receipt of the request. The Vendor shall provide free training to TIPS/TAPS staff regarding products and services supplied by the Vendor unless otherwise clearly stated in writing. (Unless training is a line item sold or packaged and must be purchased with product.)

1.4. Contracts
All contracts and agreements between Vendors and TIPS/TAPS Members shall strictly adhere to the statutes that are set forth in the Uniform Commercial Code as most recently revised.
Contracts for purchase will normally be put into effect by means of a purchase order(s) executed by authorized agents of the participating government entities.
Davis Bacon Act requirements will be met when Federal Funds are used for construction and/or repair of buildings.
1.5. Tax exempt status
A taxable item sold, leased, or rented to, or stored, used, or consumed by, any of the following governmental entities is exempted from the taxes imposed by this chapter: (1) the United States; (2) an unincorporated instrumentality of the United States; (3) a corporation that is an agency or instrumentality of the United States and is wholly owned by the United States or by another corporation wholly owned by the United States; (4) the State of Texas; (5) a Texas county, city, special district, or other political subdivision; or (6) a state, or a governmental unit of a state that borders Texas, but only to the extent that the other state or governmental unit exempts or does not impose a tax on similar sales of items to this state or a political subdivision of this state. Texas Tax Code § 151.309.

1.6. Assignments of contracts
No assignment of contract may be made without the prior written approval of TIPS/TAPS. Payment can only be made to the awarded Vendor or vendor assigned dealer.

1.7. Disclosures
1.7.1. Vendor affirms that he/she has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor or service to a public servant in connection with this contract.
1.7.2. Vendor shall attach, in writing, a complete description of any and all relationships that might be considered a conflict of interest in doing business with participants in the TIPS/TAPS program.
1.7.3. The vendor affirms that, to the best of his/her knowledge, the offer has been arrived at independently, and is submitted without collusion with anyone to obtain information or gain any favoritism that would in any way limit competition or give an unfair advantage over other vendors in the award of this contract.

1.8. Renewal of Contracts
All contracts are for a period of one (1) year with an option for renewal for 2 consecutive years before this category is subject to public bid. (Except the Commodity Category of Trades, Temporary Labor and Materials will be a 12 month contract with No Option for Renewal. Trades, Temporary Labor and Materials will go to public bid every 12 months.)

1.9. Shipments
The Vendor shall ship ordered products within five (5) working days after the receipt of the order. If a product cannot be shipped within that time, the Vendor shall notify TIPS/TAPS and the requesting entity as to why the product has not shipped and shall provide an estimated shipping date, if applicable. TIPS/TAPS or the requesting entity may cancel the order if estimated shipping time is not acceptable.

1.10. Invoices
The Vendor or vendor assigned dealer shall submit invoices, to the TIPS/TAPS participant. Each invoice shall include the TIPS/TAPS participant's purchase order number. The shipment tracking number or pertinent information for verification of TIPS/TAPS participant receipt shall be made available upon request. The Vendor or vendor assigned dealer shall not invoice for partial shipments unless agreed to in writing in advance by TIPS/TAPS and the TIPS/TAPS participant.

1.11. Payments
The TIPS/TAPS participant will make payments directly to the Vendor or vendor assigned dealer at net 30 days after receiving invoice.

1.12. Pricing
The Vendor contracts to provide pricing to TIPS/TAPS and its participating governmental entities that are the lowest pricing available to like cooperative purchasing customers and the pricing shall remain so throughout the duration of the contract. The Vendor agrees to not sell to TIPS/TAPS members at a price lower than can be obtained thru the TIPS/TAPS contract.

RFP-Automobile and Truck: Tires, Tubes, Parts, Supplies & Service Due October 18, 2012 at 3:00 p.m.
The Interlocal Purchasing System (TIPS/TAPS)
Page 9 of 30
The Vendor agrees to promptly lower the cost of any product purchased through TIPS/TAPS following a reduction in the manufacturer or publisher's direct cost to the Vendor. Price increases will be honored. However, the Vendor shall honor previous prices for thirty (30) days after written notification to TIPS/TAPS of an increase.

All pricing submitted to TIPS/TAPS shall include the Two Percent (2%) participation fee to be remitted to TIPS/TAPS by the Vendor. Vendor will not show adding the 2% to the invoice presented to customer.

1.13. Participation Fees
Vendor or vendor assigned dealer contracts to pay 2% of all sales to TIPS/TAPS on a bi-monthly scheduled report. Vendor may submit sales monthly on their own. TIPS/TAPS will email a Bi-Monthly Submission Report to each vendor on November, January, March, May, July and September. The Vendor or vendor assigned dealer is responsible for keeping record of all sales that go through the TIPS/TAPS contract. Report may be sent to TIPS/TAPS electronically while check for 2% is mailed. Failure to pay 2% participation fee will result in termination of contract.

1.14. Indemnity

**Indemnity for Personality Contracts.** Vendor agrees to indemnify and hold harmless and defend TIPS/TAPS, its member(s), officers and employees, from and against all claims and suits for damages, injuries to persons (including death), property damages, losses, and expenses including court costs and attorney’s fees, arising out of, or resulting from, Vendor’s performance of this contract, including all such causes of action based upon common, constitutional, or statutory law, or based in whole or in part, upon allegations of negligent or intentional acts on the part of the Vendor, its officers, employees, agents, subcontractors, licensees, invitees, whether or not such claims are based in whole or in part upon the negligent acts or omissions of the TIPS/TAPS, member(s), officers, employees, or agents.

**Indemnity for Performance Contracts.** The Vendor agrees to indemnify and hold harmless and defend TIPS/TAPS, its member(s), officers and employees from and against all claims and suits for damages, injuries to persons (including death), property damages, losses, and expenses including court costs and attorney’s fees, arising out of, or resulting from, Vendor’s work under this contract, including all such causes of action based upon common, constitutional, or statutory law, or based in whole or in part, upon allegations of negligent or intentional acts on the part of the Vendor, its officers, employees, agents, subcontractors, licensees, or invitees. Vendor further agrees to indemnify and hold harmless and defend TIPS/TAPS, its member(s), officers and employees, from and against all claims and suits for injuries (including death) to an officer, employee, agent, subcontractor, supplier or equipment lessee of the Vendor, arising out of, or resulting from, Vendor’s work under this contract whether or not such claims are based in whole or in part upon the negligent acts or omissions of the TIPS/TAPS, its member(s), officers, employees, or agents.

**Attorney’s Fees--Texas Local Government Code § 271.159 is expressly referenced.**

Pursuant to §271.159, TEXAS LOC. GOV'T CODE, in the event that any one of the Parties is required to obtain the services of an attorney to enforce this Agreement, the prevailing party, in addition to other remedies available, shall be entitled to recover reasonable attorney’s fees and costs of court.

1.15. Multiple Vendor Awards

TIPS/TAPS reserves the right to award multiple vendor contracts for commodity categories when deemed in the best interest of the membership. Bidders scoring 80% or above will be considered for an award. Commodity categories are established at the discretion of TIPS/TAPS.

1.16. State of Texas Franchise Tax

By signature hereon, the bidder hereby certifies that he/she is not currently delinquent in the payment of any franchise taxes owed the State of Texas under Chapter 171, Tax Code.

1.17. Miscellaneous
The Vendor acknowledges and agrees that continued participation in TIPS/TAPS is subject to TIPS/TAPS sole discretion and that any Vendor may be removed from the participation in the Program at any time with or without cause. Nothing in the contract or in any other communication between TIPS/TAPS and the Vendor may be construed as a guarantee that TIPS/TAPS participants will submit any orders at any time. TIPS/TAPS reserves the right to request additional proposals for items already on contract at any time.

1.18. **Purchase Order Pricing/Product Deviation**

If a deviation of pricing/product on a purchase order occurs, TIPS/TAPS is to be notified within 24 hours of receipt of order.
Special Terms and Conditions

It is the intent of TIPS/TAPS to contract with a reliable, high performance vendor to supply commodities to government and educational agencies. It is the experience of TIPS/TAPS that the following procedures provide TIPS/TAPS, the Vendor, and the participating agency the necessary support to facilitate a mutually beneficial relationship. The specific procedures will be negotiated with the successful vendor.

- **Contracts:** All vendor purchase orders must go to the TIPS/TAPS-Region VIII ESC office at 4845 US Hwy 271 North, Pittsburg, Texas 75686 or fax 866.839.8472. Should an agency send an order direct to vendor, it is the vendor’s responsibility to forward the order to TIPS/TAPS at the address/fax above within 24 business hours and confirm its receipt with TIPS/TAPS.

- **Promotion of Contract:** It is agreed that Vendor will encourage all eligible entities to purchase from the TIPS/TAPS Program. Encouraging entities to purchase directly from the Vendor and not through TIPS/TAPS contract is not acceptable to the terms and conditions of this contract and will result in removal of Vendor from Program. Vendor is expected to use marketing funds for the marketing and promotion of this contract.

- **Daily Order Confirmation:** All contract purchase orders will be faxed twice daily from TIPS/TAPS to vendor. The vendor must confirm receipt of orders to the member (customer) within 24 business hours.

- **Vendor custom website for TIPS/TAPS:** If Vendor is hosting a custom TIPS/TAPS web site, then updated pricing must be posted by 1st of each month.

- **Back Ordered Products:** If product is not expected to ship within 3 business days, customer is to be notified within 24 hours and appropriate action taken based on customer request. See also Section 1.10.

- **Monthly Sales Report:** Vendor or vendor assigned dealer must submit a monthly or bimonthly sales report of all TIPS/TAPS participant purchases in the following format.

  Example:

  XYZ ISD PO#ABC123 $xxx.xx (order total)

Any other Special Terms and Conditions that Bidder/Vendor requests should be listed in detail for consideration by TIPS/TAPS:
1.1. **Minority/Women Business Enterprise** (Required by some participating governmental entities)

Vendor certifies that his firm is a M/WBE

- Yes
- No

1.2. **Certification of Residency** (Required by the State of Texas)

Company submitting bid is a resident bidder.

- Yes
- No

Vendor's principal place of business is in the city of __________ State of __________

1.3. **Felony Conviction Notice** (Required by the State of Texas)

My firm is, as outlined in the Instructions to Bidders:

- ☐ A publicly held corporation; therefore, this reporting requirement is not applicable.
- ☐ Is not owned or operated by anyone who has been convicted of a felony.
- ☐ Is owned or operated by the following individual(s) who has/have been convicted of a felony:

If the 3rd box is checked, a detailed explanation of the names and convictions must be attached.

1.4. **Pricing Information**

1.4.1. In addition to the typical unit pricing furnished herein, the Vendor agrees to furnish all current and future products at prices that are proportionate to Dealer Pricing.

- Yes
- No

If answer is no, attach a statement detailing how pricing for TIPS/TAPS participants would be calculated.

1.4.2. Pricing submitted includes the 2% TIPS/TAPS participation fee.

- Yes
- No

1.4.3. Vendor agrees to remit to TIPS/TAPS the required 2% participation fee.

- Yes
- No

1.4.4. Additional discounts to TIPS/TAPS members for bulk quantities?

- Yes
- No

1.5. **Company billing address where the invoice for the 2% participation fee will be sent by TIPS/TAPS:**

- Contact person: ____________________________
- Company: ____________________________
- Address: ____________________________
- City, State, Zip: ____________________________
- Phone: ____________________________
- Fax: ____________________________
- Email: ____________________________

1.6. **Vendor Service**

1.6.1. Average shipping time after receipt of customer order is _________ working days.

1.6.2. Vendor currently has a government-to-business e-commerce site

- Yes
- No

1.6.3. Which description best describes your company’s position in the distribution channel?

- ☐ Manufacturer direct
- ☐ Authorized distributor
- ☐ Value-added reseller
- ☐ Certified education/government reseller
- ☐ Manufacturer marketing thru reseller
- ☐ Other ____________________________

1.6.4. Company experience in this commodity/category. _________ Years

1.6.5. The Vendor can supply all areas of the following states currently served TIPS/TAPS:

Special Terms and Conditions

It is the intent of TIPS to contract with a reliable, high performance vendor to supply commodities to government and educational agencies. It is the experience of TIPS that the following procedures provide TIPS, the Vendor, and the participating agency the necessary support to facilitate a mutually beneficial relationship. The specific procedures will be negotiated with the successful vendor.

- **Contracts:** All vendor purchase orders must be emailed to tipspo@tips-usa.com. Should an agency send an order direct to vendor, it is the vendor’s responsibility to forward the order to TIPS at the address/email above within 24 business hours and confirm its receipt with TIPS.

- **Promotion of Contract:** It is agreed that Vendor will encourage all eligible entities to purchase from the TIPS Program. Encouraging entities to purchase directly from the Vendor and not through TIPS contract is not acceptable to the terms and conditions of this contract and will result in removal of Vendor from Program. Vendor is expected to use marketing funds for the marketing and promotion of this contract.

- **Daily Order Confirmation:** All contract purchase orders will be faxed twice daily from TIPS to vendor. The vendor must confirm receipt of orders to the member (customer) within 24 business hours.

- **Vendor custom website for TIPS:** If Vendor is hosting a custom TIPS website, updated pricing must be posted by 1st of each month.

- **Back Ordered Products:** If product is not expected to ship within 3 business days, customer is to be notified within 24 hours and appropriate action taken based on customer request.

Check one of the following responses to the General Terms and Special Terms and Conditions:

- We take no exceptions/deviations to the general and special terms and conditions.

  (Note: If none are listed below, it is understood that no exceptions/deviations are taken.)

- We take the following exceptions/deviations to the general and special terms and conditions. All exceptions/deviations must be clearly explained. Reference the corresponding general or special terms and conditions that you are taking exceptions/deviations to. The proposer must clearly state if you are adding additional terms and conditions to the general or special terms and conditions. Provide details on your exceptions/deviations below:

  (Note: Unacceptable exceptions shall remove your proposal from consideration for award. TIPS shall be the sole judge on the acceptance of exceptions/deviations and TIPS's decision shall be final.

  ***In some cases, Southern Tire Mart does not have coverage in an entire state. See the attached service area footprint located under Tab 8, "Supplementary Catalog and Information."

  For example: Memphis, TN: We have one location within the city limits and another in West Memphis. These two locations service the Memphis area, however, Southern Tire Mart is unable to service the entire state of Tennessee. We only service around our Memphis store trade area.

  El Paso, TX: Southern Tire Mart has 25 locations throughout Texas, however, El Paso is not one of those locations. Services are non-existent to that area.

  *** We are members of another Purchasing Cooperative. We agree to promote all Purchasing Cooperatives equally.

  *** Per Form of Contract, Page 12, we are enclosing copies of Southern Tire Mart's Credit Applications and Bridgestone Ultimate Vendor Certificate. See attachments under Tab 8, "Supplementary Catalog and Information." Original certificates will be available at the local stores. Please do not use the enclosed copy.
1.1. Disadvantaged/Minority/Women Business Enterprise (Required by some participating governmental entities)
Vendor certifies that their firm is a HUB and/or D/M/WBE

*Solutions Provider to the Transportation Industry*
Truck Tire Limited Warranty

Eligibility
You are covered under the terms of this Limited Warranty if all of the following apply:

- You are the original owner, or original owner's authorized agent, of any new Firestone brand truck tire bearing a Department of Transportation (DOT) tire identification number indicating manufacture after January 1, 2011 (DOT serial 0111 or later). For tires covered prior to this time, please refer to the limited warranty that would have been in effect at the time of original sale.
- The tire was purchased after January 1, 2012.
- The tire size, load range, and speed rating are equivalent to or greater than, that specified or recommended for use by the vehicle manufacturer or Bridgestone.
- The new tire was approved for sale in the United States, listed in a U.S. price or data book, and purchased from an authorized Firestone brand truck tire retailer.

What Is Warranted & For How Long
Upon examination by Bridgestone, before wearing down to 2/32 inch (1.6 mm) remaining original tread depth (i.e. worn down to the top of the built-in indicators in the original tread grooves) and within six years from the date of tire manufacture, any eligible tire that becomes unusable for any reason (see exclusions in the section entitled "What This Limited Warranty Does Not Cover") within the manufacturer’s control will either be repaired or replaced with an equivalent new Firestone brand truck tire on the basis set forth in this Limited Warranty.

What This Limited Warranty Does Not Cover
This Limited Warranty does not cover the following:

1. Tire damage due to:
   A. Road hazards, including, without limitation: Puncture, cut, impact break, stone drill, bruise, bulge, snag, etc.
   B. Improper use or operation, including, without limitation: Improper inflation pressure, overloading, tire/wheel spinning, curbing, use of an improper rim/wheel, tire chain damage, misuse, misapplication, negligence, tire alteration, or for racing or competition purposes.
   C. Insufficient or improper maintenance, including, without limitation: Wheel misalignment, worn suspension components, improper tire mounting or demounting, tire/wheel assembly imbalance, improper brake adjustment, or other vehicle conditions, defects, or characteristics.
   D. Contamination or degradation by petroleum products or other chemicals, fire or other externally generated heat, or water or other material trapped inside the tire during mounting or inflation.

2. Irregular wear, rapid wear, or wear-out; no mileage warranty is expressed or implied.
3. Weather/ozone cracking after four years from date of tire manufacture.
4. Tires subjected to severe under-inflation or run-flat conditions.
5. Tires that have been improperly repaired.
6. Tires rendered unretreadable due to excessive tread wear or improper buffing.
7. Tires improperly retreaded, including, without limitation: Improper or inadequate inspection, preparation, equipment, material, repair, etc.
8. Ride disturbance or vibration after tread wear use beyond 10% of original usable tread depth.
9. Tires with internally applied additives for balance, sealing, cooling, or any other alleged tire performance enhancement will not void the Limited Warranty unless an inspection of the tire reveals damage related to the use of the additive.
10. Tires inflated with anything other than air or nitrogen.
11. Tires purchased or used outside of the United States.
12. The cost of applicable federal, state, and local taxes.
13. Failure to follow any of the safety and maintenance recommendations or warnings contained in this manual.

This Limited Warranty is in addition to and/or may be limited by any other applicable written warranty you may have received concerning special tires or situations.
No-Charge Replacement – New Tire
Firestone brand truck tires adjusted under this Limited Warranty will be replaced free of charge (Federal Excise Tax included) up to the first 10% of original usable tread depth or within 12 months from date of purchase (without proof of purchase date, then within 12 months from the date of tire manufacture), whichever occurs first. The cost of mounting and balancing and other service charges, disposal fees, or applicable taxes are payable by you.

Pro-Rated Replacement – Worn Original Tread Tire
Firestone brand truck tires adjusted under this Limited Warranty that are worn beyond the first 10% of original usable tread depth, or 12 months from the date of purchase (without proof of purchase date, then 12 months from the date of tire manufacture) has passed, the tire will, at its option, be repaired or replaced with an equivalent new Firestone brand truck tire on a pro rata basis. To determine the replacement price, the percent of used tread wear is multiplied by the current selling price for the replacement tire(s). The cost of mounting, balancing, full Federal Excise Tax, and other service charges, disposal fees, or applicable taxes are payable by you.

Replacement Warranty
If you receive a replacement tire under this Limited Warranty, it will be covered by the manufacturer's warranty, if any, given on that tire at that time.

Where to Go
Tire adjustments under this Limited Warranty will only be made at an authorized Firestone brand truck tire retailer in the United States. Consult a phone directory (often listed in the Yellow Pages under "Tire Dealers"), the Internet at www.trucktires.com, or call 1-800-815-9793 for the location nearest you.

Consumer Rights
This Limited Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Conditions and Exclusions
To the extent permitted by law, Bridgestone Americas Tire Operations, LLC disclaims all other warranties, including but not limited to the implied warranties of merchantability and fitness for a particular purpose and any liability for incidental and consequential damages, loss of time, loss of vehicle use, or inconvenience. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This Limited Warranty applies only to consumers actually purchasing and using the tire in the United States. Obligations under this policy may not be enlarged or altered by anyone.

In accordance with Federal Law, this Limited Warranty has been designated as a "Limited Warranty." Nothing in this Limited Warranty is intended to be a representation that tire failures cannot occur. This Limited Warranty is given in the United States by Bridgestone Americas Tire Operations, LLC, 535 Marriott Dr., Nashville, TN 37214.

Owner's Obligations
It is your obligation to maintain proper tire inflation pressures as specified by the vehicle manufacturer and to operate the vehicle within tire/vehicle load capacity and speed limitations. It is also your obligation to maintain proper wheel alignment and tire/wheel assembly balance.

To request an adjustment, you must present the tire to an authorized Firestone brand truck tire retailer. Your vehicle on which the tire was equipped must also be available for inspection. Complete and sign the customer section of the Bridgestone Americas Tire Operations, LLC Limited Warranty Form or an electronic version of the Firestone Limited Warranty Form and pay appropriate replacement price, taxes, disposal fees, and service charges, if any. Tires accepted for warranty compensation become the property of Bridgestone Americas Tire Operations, LLC.

Arbitration
You and Bridgestone Americas Tire Operations, LLC agree that all claims, disputes, and controversies between you and it, including any of its agents, employees, successors, or assigns, arising out of or in connection with this Limited Warranty, or any other warranties, express or implied, including a failure of warranty and the validity of this arbitration clause, but excluding claims for personal injury or property damage, shall be resolved by binding arbitration between you and it, according to the formal dispute resolution procedures of the National Arbitration Forum, under the Code of Procedure then in effect. This arbitration will be conducted as a document hearing. If you request any procedures beyond a document hearing, you will be responsible for all fees, including filing and administrative fees, above and beyond the fees required for document hearings. The arbitration between you and Bridgestone Americas Tire Operations, LLC shall not include any other customers, be combined or consolidated in any fashion with arbitrations involving other customers, or proceed in any form of class action in which the claims of numerous customers are considered together. Any award of the arbitrator(s) may be entered as a judgment in any court of competent jurisdiction. The arbitrators will have no authority to award punitive or other damages not measured by the prevailing party's actual damages, except as may be required by statute. Information may be obtained and claims may be filed at any office of the National Arbitration Forum or at P.O. Box 50191, Minneapolis, MN 55405.
IMPORTANT SAFETY INFORMATION

Any tire, no matter how well constructed, may fail in use as a result of punctures, impact damage, improper inflation pressure, overloading, or other conditions resulting from use or misuse. Tire failure may create a risk of property damage, serious personal injury or death.

SAFETY WARNING
Serious personal injury or death may result from a tire failure. Many tire failures are preceded by vibration, bumps, bulges or irregular wear. If a vibration occurs while driving your vehicle or you notice a bump, bulge or irregular wear, have your tires and vehicle evaluated by a qualified tire service professional.

To reduce the risk of tire failure, Bridgestone Americas Tire Operations, LLC strongly recommends you read and follow all safety information contained in this manual, tire industry publications such as those published by the Rubber Manufacturer's Association (RMA), and tire mounting procedures published by the Occupational Safety and Health Administration (OSHA) of the U. S. Department of Labor. In addition, we recommend periodic inspection and maintenance, if necessary, by a qualified tire service professional.

Tire Inflation Pressure
Tires need proper inflation pressure to operate effectively and perform as intended. Tires carry the vehicle, passenger, and cargo loads and transmit the braking, acceleration, and turning forces. The vehicle manufacturer recommends the inflation pressures for the tires mounted on your vehicle.

SAFETY WARNING
Driving on tires with improper inflation pressure is dangerous.

• Under-inflation causes excessive tire heat build-up and internal structural damage.
• Over-inflation makes it more likely for tires to be cut, punctured, or broken by sudden impact.

These situations can cause a tire failure, even at a later date, which could lead to serious personal injury or death. Consult the vehicle tire information placard and/or owner’s manual for the recommended inflation pressures.

In addition to tire damage, improper inflation pressure may also:

• Adversely affect vehicle ride and handling.
• Reduce tire tread wear.
• Affect fuel economy.

Therefore, follow these important recommendations for tire and vehicle safety, mileage, and economy:

• Always keep the vehicle manufacturer’s recommended inflation pressure in all your tires, including inside duals.
• Check their pressure at preventative maintenance intervals and during pre-trip vehicle inspections.

Your vehicle's tire information placard and/or owner’s manual will tell you the recommended cold inflation pressure for all your tires. For tractor/trailers, a placard is applied to each. For questions about locating or understanding the tire information placard(s), consult your vehicle owner’s manual or ask a qualified tire service professional.

Maximum Pressure Indicated on the Tire Sidewall:
This is the maximum permissible inflation pressure for the tire only. The vehicle manufacturer’s recommended tire pressures may be lower than, or the same as, the maximum pressure indicated on the tire sidewall. The vehicle manufacturer’s specification of tire pressure is limited to your particular vehicle and takes into account your vehicle’s load, ride, and handling characteristics, among other criteria. Since there may be several possible vehicle applications for a given tire size, a vehicle manufacturer may choose a different inflation pressure specification for that same size tire on a different vehicle. Therefore, always refer to the inflation pressure specifications on the vehicle tire information placard and/or in your vehicle owner’s manual.

Pressure Loss: Truck tires can lose 2 psi (14 kPa) per month under normal conditions and can lose 2 psi (14 kPa) for every 10°F (5.6°C) temperature drop. A puncture, leaking valve, or other damage could also cause inflation pressure loss. If a truck tire loses more than 4 psi (28 kPa) per month, have it checked by a qualified tire service professional.
**Tips for Safe Tire Inflation**

**SAFETY WARNING**

Inflating an unsecured tire is dangerous. If it bursts, it could be hurled into the air with explosive force resulting in serious personal injury or death. Never adjust the inflation pressure of a truck tire unless it is placed in a safety cage or is secured to the vehicle or a tire mounting machine. Never stand or lean over the tire or in front of the valve when inflating.

**SAFETY WARNING**

Never re-inflate a truck tire that has been run at very low inflation pressure (i.e. 80% or less of normal operating pressure) without a complete inspection of the entire tire. Immediately have the tire demounted and inspected by a qualified tire service professional.

- The U.S. Department of Transportation requires a pre-trip vehicle inspection. Pre-trip vehicle inspections and preventative maintenance should include cold-tire inflation pressure checks. Don’t forget to check the inflation pressure of inside duals.
- The only correct method for checking inflation pressure is to use an accurate tire inflation pressure gauge. Kicking or thumping a tire will only tell you when a tire is totally flat.
- Check inflation pressure when the tires are “cold.” Tires are considered “cold” when the vehicle has been parked for three hours or more, or if the vehicle has been driven less than a mile at moderate speed.
- Never release pressure from a hot tire in order to reach the recommended cold tire inflation pressure. Normal driving causes tires to run hotter and inflation pressure to increase. If you reduce inflation pressure when your tires are hot, you may dangerously under inflate your tires.
- If it is necessary to adjust inflation pressure when your tires are “hot,” set their inflation pressure to 10 psi (69 kPa) above the recommended cold inflation pressure. Recheck the inflation pressure when the tires are cold.
- If your tires lose more than 4 psi (28 kPa) per month, the tire, tube (if applicable), valve, or rim/wheel may be damaged. Consult a qualified tire service professional for an inspection.
- A difference of 5 psi (35 kPa) or more between duals is not recommended.
- Use valve caps to keep the valves clear of debris and to help guard against inflation pressure loss.

**Tips for Safe Loading**

**SAFETY WARNING**

Driving your vehicle in an overloaded condition is dangerous. Overloading causes excessive tire heat build-up and internal structural damage. This can cause a tire failure, even at a later date, which could lead to serious personal injury or death. Consult the vehicle tire information placard, certification label, and owner’s manual for the recommended vehicle load limits and loading recommendations.

- Always keep the vehicle manufacturer’s recommended inflation pressure in all your tires, including inside duals. Check their pressure at preventative maintenance intervals and during pre-trip vehicle inspections.
- Never exceed the maximum load rating stamped on the sidewall of your tire.
- Never exceed the gross vehicle weight rating (GVWR) or gross axle weight ratings (GAWR) of your vehicle.
- Never exceed the maximum load or inflation pressure capacity of the rim/wheel.
- Consult your vehicle owner’s manual for load recommendations and special instructions (such as for carrying unusually heavy loads).

**Tire Damage & Inspection**

Evaluation and maintenance of your tires is important to their performance and the service they provide to you. Over time and/or through use, the condition of a tire can change from exposure to everyday road conditions, the environment, damaging events such as punctures, and other external factors.

**SAFETY WARNING**

Driving on damaged tires is dangerous. A damaged tire can suddenly fail causing serious personal injury or death. Have your tires regularly inspected by a qualified tire service professional.

You should visually inspect your tires during pre-trip vehicle inspections and inflation pressure checks. In addition, have your tires periodically evaluated by a qualified tire service professional when your vehicle is serviced such as routine maintenance intervals, oil changes, and tire rotations. In particular, note the following tips for spotting tire damage:

- After striking anything unusual in the roadway, have a qualified tire service professional demount the tire and inspect it for damage. A tire may not have visible signs of damage on the tire surface. Yet, the tire may suddenly fail without warning, a day, a week, or even months later.
Inspect your tires for cuts, cracks, splits or bruises in the tread and sidewall areas. Bumps or bulges may indicate a separation within the tire body. Have your tire inspected by a qualified tire service professional. It may be necessary to have it removed from the rim/wheel for a complete inspection. Do not delay performing any necessary repair(s).

Inspect your tires for adequate tread depth. When the tire is worn to the built-in indicators at 2/32 inch (1.6 mm) or less tread groove depth, or the tire cord or fabric is exposed, the tire is dangerously worn and must be replaced immediately.

Federal regulations require steer axle tires to have 4/32 inch (3.2 mm) or greater tread depth on vehicles over 10,000 lbs (4536 kg) GVWR.

Inspect your tires for uneven wear. Wear on one side of the tread or flat spots in the tread may indicate a problem with the tire or vehicle. Consult a qualified tire service professional.

Inspect your rims/wheels also. If you have a bent, chipped, or cracked rim/wheel, it must be replaced.

**Tire Manufacture Date**

The tire manufacture date is determined by examining the DOT tire identification number, also known as the DOT serial number or code, which can be found on at least one sidewall near the rim/wheel. It may be necessary to look on both sides of the tire to find the entire serial code.

**Tires Produced Since 2000:** The last four (4) digits of the serial code identify the week and year of production. For example, a tire with a serial code ending in "2406" would have been produced in the 24th week of 2006.

**Tires Produced Prior to 2000:** The last three (3) digits of the serial code identify the week and year of production. For example, a tire with a code ending in "329" would likely have been produced in the 32nd week of 1999, but possibly produced in 1989. If in doubt, consult a qualified tire service professional.

**SAFETY WARNING**

Driving on an improperly repaired tire is dangerous. An improper repair can be unreliable or permit further damage to the tire. The tire may suddenly fail, causing serious personal injury or death. A complete inspection and repair of your tire in accordance with Rubber Manufacturers Association (RMA) procedures should be conducted by a qualified tire service professional.

The comprehensive procedures and recommendations for truck tire repair are beyond the scope of this manual; however, note the following:

- **The tire must be demounted from the rim/wheel for a complete inspection, inside and out.** Some damage to the tire may only be evident on the interior of the tire. Any tire repair done without removing the tire from the rim/wheel is improper.

- **A patch must be applied to the interior of the tire and the puncture hole filled with suitable plug/stem filler.** This helps ensure that the interior of the tire is adequately sealed to prevent inflation pressure loss and prevents contamination of the steel belts and other plies from the elements (such as water) in the outside world. Using only a plug/stem, or using only a patch, is not a safe or proper repair.

- **The truck/bus tire puncture repair injury limit to the tread area is 3/8 inch (10 mm).** Larger injuries, or damage in areas outside the tread, should be evaluated and repaired, if possible, by qualified tire service professionals at a full-service repair facility using RMA-approved procedures.

- **Never substitute a tube for a proper repair or to remedy an improper repair.**

- **Not all punctured or damaged tires can be properly repaired; consequently, they must be replaced.**

- **Repair and retread, if possible, tires having a tread depth of 2/32 inch (1.6 mm) or less remaining in any tread groove.**

- **Tubes, like tires, should only be repaired by a qualified tire service professional.**

- **Any Improper repair voids the tire Limited Warranty.** See "Limited Warranty" in this manual.
Removing Tire/Wheel Assembly from Vehicle

SAFETY WARNING
Always follow the manufacturer's recommend procedure for securing and raising your vehicle prior to attempting to remove a tire.

SAFETY WARNING
If the tire has internal damage, it may burst with explosive force, causing serious personal injury or death. Always deflate a tire and wheel assembly completely before loosening any lug nut when removing a tire from a vehicle for service or demounting. On dual wheel assemblies, both tires should be deflated and removed before any work is started.

Tire Mounting & Other Servicing

SAFETY WARNING
Removing and replacing tires on wheels can be dangerous. Attempting to mount tires with improper tools or procedures may result in a tire explosion causing serious personal injury or death. This is only a job for a qualified tire service professional. Never perform tire service procedures without proper training, tools, and equipment.

This manual is not intended to provide proper training or service procedures for tire mounting, demounting, balancing, rotation, or repair. Please leave these tasks to qualified tire service professionals.

Only specially trained persons should mount tires. For proper mounting procedures, consult the requirements of the Occupational Safety and Health Administration (OSHA) of the U.S. Department of Labor and procedures published by the Rubber Manufacturers Association, 1400 K Street, NW, Washington, DC 20005 (www.rma.org).

SAFETY WARNING
Inflating an unsecured tire is dangerous. If it bursts, it could be hurled into the air with explosive force resulting in serious personal injury or death.

- Always stand well clear of any tire mounting operation. This is especially important when the service operator inflates the tire.
- When inflating a tire after mounting on a rim/wheel, always use a safety cage and an extension hose with pressure gauge and clip-on chuck.
- Never adjust the inflation pressure of a truck tire unless it is placed in a safety cage or is secured to the vehicle or a tire mounting machine.
- Never adjust the inflation pressure of a truck tire unless it is placed in a safety cage or is secured to the vehicle or a tire mounting machine.

- Never stand or lean over the tire or in front of the valve when inflating.

SAFETY WARNING
Never pour or spray any flammable substance into or onto a tire or rim/wheel for any purpose whatsoever. The residue left by the substance could result in a fire or explosion which may cause severe injury or death.

SAFETY WARNING
Never put flammable substances such as gasoline or ethyl ether into a tire and light with a match/flame so that the resulting explosion seats the beads of a tubeless tire. This practice is extremely dangerous and may result in a severe explosion or undetected damage to the tire or rim/wheel which may cause a failure resulting in severe injury or death.

- Tires must match the width and diameter requirements of the wheels. For example, 22.5 inch diameter tires must only be mounted to 22.5 inch diameter rims/wheels. Radial tires must only be mounted to wheels approved for radial tires.
- Inspect the tire and rim/wheel. Rims/wheels must be free of cracks, dents, chips, and rust. Tires must be free of bead damage, cuts, punctures, foreign material, and moisture.
- For a tubeless truck tire, always install a new valve, or new valve core and cap, each time a new or retreaded tire is installed.
- For a tube-type truck tire, always use a new, proper size tube and flap each time a new or re-treaded tire is installed.
- Use only vegetable oil-based lubricants in mounting or demounting.
- Always ensure rim components fit properly before inflating.
  - Never tap component parts with a tool/hammer/mallet while tire is inflated.
  - Never attempt to disassemble multi-piece rims while inflated.
- Never inflate a tire beyond 40 psi (275 kPa) to seat the beads. Be absolutely certain beads are fully seated before adjusting inflation pressure to the level recommended for vehicle operation.
- Use valve caps to keep the valves clear of debris and to help guard against inflation pressure loss.
- Always stand well away from the work area when tires are being spin-balanced either on or off the vehicle.
Tire Mixing

SAFETY WARNING
Driving your vehicle with an improper mix of tires is dangerous. Your vehicle's handling characteristics can be seriously affected. You could have an accident resulting in serious personal injury or death. Consult your vehicle owner's manual and a qualified tire service professional for proper tire replacement.

Dual Matching
Tires paired in a dual assembly should be matched in tire construction and dimension. Improperly matched tires may result in irregular wear, rapid wear, and premature tire failure. Failure to match tires in a dual assembly may result in sudden tire destruction.

For radial tires, properly paired dimension tolerances are as follows:
- Diameter: within 1/4 inch (6.4 mm) of each other
- Circumference: within 3/4 inch (19 mm) of each other

High Speed Driving

SAFETY WARNING
Driving at high speed is dangerous and can cause a vehicle accident, including serious personal injury or death.

- Regardless of the speed and handling capabilities of your vehicle and its tires, a loss of vehicle control can result from exceeding the maximum speed allowed by law or warranted by traffic, weather, vehicle, or road conditions.
- High-speed driving should be left to trained professionals operating under controlled conditions.
- No tire, regardless of its design or speed rating, has unlimited capacity for speed, and a sudden tire failure can occur if its limits are exceeded. See "Tire Speed Restrictions," the next section in this manual.

Refer to your vehicle owner's manual for any tire pressure recommendations for high speed driving.

Tire Speed Restrictions

Firestone brand truck tires have maximum recommended speeds. When replacing your tires, check your vehicle owner's manual and tire information placard and consult with a Firestone brand truck tire retailer for recommendations and information about tire speed capability.

The speed capabilities of truck tires are based on standardized laboratory tests under specific, controlled conditions. While these tests may relate to performance on the road, real-world driving is rarely identical to any test conditions. Your tire's actual speed capability may be less since it is affected by factors such as inflation pressure, load, tire condition (including damage), wear, vehicle condition (including alignment), driving conditions, and duration at which the speed is sustained.

Tire Spinning

SAFETY WARNING
Spinning a tire to remove a vehicle stuck in mud, ice, snow, or wet grass can be dangerous. A tire spinning at a speedometer reading above 35 mph (55 km/h) can in a matter of seconds reach a speed capable of disintegrating a tire with explosive force. Under some conditions, a tire may be spinning at a speed twice that shown on the speedometer. This could cause serious personal injury or death to a bystander or passenger. Never spin a tire above a speedometer reading of 35 mph (55 km/h).

Tire Storage

Tires should be stored indoors in a cool, dry place where water cannot collect inside them. Tires should be placed away from electric generators/motors and sources of heat such as hot pipes. Storage surfaces should be clean and free of grease, gasoline, diesel fuel, or other substances which can deteriorate the rubber.

SAFETY WARNING
Improper storage can damage your tires in ways that may not be visible and can lead to a failure resulting in serious personal injury or death.

The spare tire in your vehicle is intended to be used as a spare when needed. The spare tire carrier is not intended to be used for long term storage.
Tire Service
Customer Satisfaction

Normal tire maintenance and Limited Warranty services are available at locations across the U.S.A. Visit us at www.trucktires.com, or call 1-800-815-9793 to find an authorized Firestone brand truck tire retailer nearest you.

Additional information on the care and service of truck tires is available from the following organizations:

Rubber Manufacturers Association
1400 K Street, N.W.
Washington, DC 20005-2403
www.rma.org

Rubber Association of Canada
2000 Argentia Road, Plaza 4, Suite 250
Mississauga, Ontario L5N 1W1
www.rubberassociation.ca

Tire Registration

Registration of your tires is an important safety precaution since it enables the manufacturer to notify you in the event of a recall. When you purchase replacement tires, the retailer will provide a registration card on which the tire identification numbers have been recorded; fill in your name and address on the card and mail it promptly. Some retailers may submit the registration for you. You do not need to register original equipment tires on new vehicles as the vehicle manufacturer handles that for you.

For Assistance or Information:

1. First contact the nearest Firestone truck tire Dealer by call 1-800-815-9793 or use our Dealer locator at www.notifyben.com

2. If additional assistance is required, call or write the nearest Bridgestone Technical Service Center listed below.

Limited Warranty – Bridgestone® Truck Tires

Eligibility
You are covered under the terms of this Limited Warranty if all of the following apply:

- You are the original owner, or original owner’s authorized agent, of any new Bridgestone brand truck tire bearing a Department of Transportation (DOT) tire identification number indicating manufacture after January 1, 2011 (DOT serial 0111 or later). For tires covered prior to this time, please refer to the limited warranty that would have been in effect at the time of original sale.
- The tire was purchased after January 1, 2012.
- The tire size, load range, and speed rating are equivalent to or greater than, that specified or recommended for use by the vehicle manufacturer or Bridgestone.
- The new tire was approved for sale in the United States, listed in a U.S. price or data book, and purchased from an authorized Bridgestone brand truck tire retailer.
- For coverage under the Enhanced Casing Limited Warranty, the eligible tire must have been used only in long haul, regional, P&D highway service for the entire life of the casing and subsequent retread(s) must be inspected and retreaded by an authorized Bandag dealer only.
- For coverage under the “Premium Casing Enhanced Limited Warranty” that was in effect for certain patterns and certain sizes purchased between 11/1/2007 and 1/1/2012, refer to the Bridgestone Truck Tire Limited Warranty that would have been in effect at the time of the original sale.

What Is Warranted & For How Long
Upon examination by Bridgestone, before wearing down to 2/32 inch (1.6 mm) remaining original tread depth (i.e. worn down to the top of the built-in indicators in the original tread grooves) and within six years (seven years for certain tires, see the section entitled “Enhanced Casing Limited Warranty”) from the date of tire manufacture, any eligible tire that becomes unusable for any reason (see exclusions in the section entitled “What This Limited Warranty Does Not Cover”) within the manufacturer’s control will either be repaired or replaced with an equivalent new Bridgestone brand truck tire on the basis set forth in this Limited Warranty.

What This Limited Warranty Does Not Cover
This Limited Warranty does not cover the following:

1. Tire damage due to:
   A. Road hazards, including, without limitation: Puncture, cut, impact break, stone drill, bruise, bulge, snag, etc.

B. Improper use or operation, including, without limitation: Improper inflation pressure, overloading, tire/wheel spinning, curbing, use of an improper rim/wheel, tire chain damage, misuse, misapplication, negligence, tire alteration, or for racing or competition purposes.

C. Insufficient or improper maintenance, including, without limitation: Wheel misalignment, worn suspension components, improper tire mounting or demounting, tire/wheel assembly imbalance, improper brake adjustment, or other vehicle conditions, defects, or characteristics.

D. Contamination or degradation by petroleum products or other chemicals, fire or other externally generated heat, or water or other material trapped inside the tire during mounting or inflation.

2. Irregular wear, rapid wear, or wear-out; no mileage warranty is expressed or implied.

3. Weather/ozone cracking after four years from date of tire manufacture.

4. Tires subjected to severe under-inflation or run-flat conditions.

5. Tires that have been improperly repaired.

6. Tires rendered unretreadable due to excessive tread wear or improper buffing.

7. Tires improperly retreaded, including, without limitation: Improper or inadequate inspection, preparation, equipment, material, repair, etc.

8. Ride disturbance or vibration after tread wear use beyond 10% of original usable tread depth.

9. Tires with internally applied additives for balance, sealing, cooling, or any other alleged tire performance enhancement will not void the Limited Warranty unless an inspection of the tire reveals damage related to the use of the additive.

10. Tires inflated with anything other than air or nitrogen.

11. Tires purchased or used outside of the United States.

12. The cost of applicable federal, state, and local taxes.

13. Failure to follow any of the safety and maintenance recommendations or warnings contained in this manual.

This Limited Warranty is in addition to and/or may be limited by any other applicable written warranty you may have received concerning special tires or situations.
No-Charge Replacement – New Tire
Bridgestone brand truck tires adjusted under this Limited Warranty will be replaced free of charge (Federal Excise Tax included) up to the first 10% of original usable tread depth or within 12 months from date of purchase (without proof of purchase date, then within 12 months from the date of tire manufacture), whichever occurs first. The cost of mounting and balancing and other service charges, disposal fees, or applicable taxes are payable by you.

Pro-Rated Replacement – Worn Original Tread Tire
Bridgestone brand truck tires adjusted under this Limited Warranty that are worn beyond the first 10% of original usable tread depth, or 12 months from the date of purchase (without proof of purchase date, then 12 months from the date of tire manufacture) has passed, the tire will, at Bridgestone’s option, be repaired or replaced with an equivalent new Bridgestone brand truck tire on a pro rata basis. To determine the replacement price, the percent of used tread wear is multiplied by the current selling price for the replacement tire(s). The cost of mounting, balancing, full Federal Excise Tax, and other service charges, disposal fees, or applicable taxes are payable by you.

Enhanced Casing Limited Warranty
The Enhanced Casing Limited Warranty will apply if all the “ELIGIBILITY” requirements listed above are met and an eligible pattern, size and load range tire becomes unusable for any reason (see exclusions in the section entitled “What This Limited Warranty Does Not Cover”) within the manufacturer’s control within seven years from the date of tire manufacture and an unlimited number of retreads, the casing credit will be as follows:

Eligible Patterns: R287A, R283 Ecopia, R280, R260, R250, M726EL, M720, M710 Ecopia, M770, R195, R197, R197 Ecopia

Replacement Warranty
If you receive a replacement tire under this Limited Warranty, it will be covered by the manufacturer’s warranty, if any, given on that tire at that time.

Where to Go
Tire adjustments under this Limited Warranty will only be made at an authorized Bridgestone brand truck tire retailer in the United States. Consult a phone directory (often listed in the Yellow Pages under “Tire Dealers”), the Internet at www.trucktires.com, or call 1-800-815-9793 for the location nearest you.

Consumer Rights
This Limited Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Conditions and Exclusions
To the extent permitted by law, Bridgestone Americas Tire Operations, LLC disclaims all other warranties, including but not limited to the implied warranties of merchantability and fitness for a particular purpose and any liability for incidental and consequential damages, loss of time, loss of vehicle use, or inconvenience. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This Limited Warranty applies only to consumers actually purchasing and using the tire in the United States.

Obligations under this policy may not be enlarged or altered by anyone.

In accordance with Federal Law, this Limited Warranty has been designated as a “Limited Warranty.” Nothing in this Limited Warranty is intended to be a representation that tire failures cannot occur. This Limited Warranty is given in the United States by Bridgestone Americas Tire Operations, LLC, 535 Marriott Dr., Nashville, TN 37214.
Owner's Obligations

It is your obligation to maintain proper tire inflation pressures as specified by the vehicle manufacturer and to operate the vehicle within tire/vehicle load capacity and speed limitations. It is also your obligation to maintain proper wheel alignment and tire/wheel assembly balance.

To request an adjustment, you must present the tire to an authorized Bridgestone brand truck tire retailer. Your vehicle on which the tire was equipped must also be available for inspection. Complete and sign the customer section of the Bridgestone Americas Tire Operations, LLC Limited Warranty Form or an electronic version of the Bridgestone Limited Warranty Form and pay appropriate replacement price, taxes, disposal fees, and service charges, if any. Tires accepted for warranty compensation become the property of Bridgestone Americas Tire Operations, LLC.

Arbitration

You and Bridgestone Americas Tire Operations, LLC agree that all claims, disputes, and controversies between you and it, including any of its agents, employees, successors, or assigns, arising out of or in connection with this Limited Warranty, or any other warranties, express or implied, including a failure of warranty and the validity of this arbitration clause, but excluding claims for personal injury or property damage, shall be resolved by binding arbitration between you and it, according to the formal dispute resolution procedures of the National Arbitration Forum, under the Code of Procedure then in effect. This arbitration will be conducted as a document hearing. If you request any procedures beyond a document hearing, you will be responsible for all fees, including filing and administrative fees, above and beyond the fees required for document hearings. The arbitration between you and Bridgestone Americas Tire Operations, LLC shall not include any other customers, be combined or consolidated in any fashion with arbitrations involving other customers, or proceed in any form of class action in which the claims of numerous customers are considered together. Any award of the arbitrator(s) may be entered as a judgment in any court of competent jurisdiction. The arbitrators will have no authority to award punitive or other damages not measured by the prevailing party's actual damages, except as may be required by statute. Information may be obtained and claims may be filed at any office of the National Arbitration Forum or at P.O. Box 50191, Minneapolis, MN 55405.

SAFETY INFORMATION

SAFETY WARNING

Serious personal injury or death may result from a tire failure. Many tire failures are preceded by vibration, bumps, bulges or irregular wear. If a vibration occurs while driving your vehicle or you notice a bump, bulge or irregular wear, have your tires and vehicle evaluated by a qualified tire service professional.

To reduce the risk of tire failure, Bridgestone Americas Tire Operations, LLC strongly recommends you read and follow all safety information contained in this manual, tire industry publications such as those published by the Rubber Manufacturer's Association (RMA), and tire mounting procedures published by the Occupational Safety and Health Administration (OSHA) of the U.S. Department of Labor. In addition, we recommend periodic inspection and maintenance, if necessary, by a qualified tire service professional.

Tire Inflation Pressure

Tires need proper inflation pressure to operate effectively and perform as intended. Tires carry the vehicle, passenger, and cargo loads and transmit the braking, acceleration, and turning forces. The vehicle manufacturer recommends the inflation pressures for the tires mounted on your vehicle.

SAFETY WARNING

Driving on tires with improper inflation pressure is dangerous.
- Under-inflation causes excessive tire heat build-up and internal structural damage.
- Over-inflation makes it more likely for tires to be cut, punctured, or broken by sudden impact.

These situations can cause a tire failure, even at a later date, which could lead to serious personal injury or death. Consult the vehicle tire information placard and/or owner's manual for the recommended inflation pressures.

In addition to tire damage, improper inflation pressure may also:
- Adversely affect vehicle ride and handling.
- Reduce tire tread wear.
- Affect fuel economy.

Therefore, follow these important recommendations for tire and vehicle safety, mileage, and economy:
- Always keep the vehicle manufacturer's recommended inflation pressure in all your tires, including inside duals.
- Check their pressure at preventative maintenance intervals and during pre-trip vehicle inspections.

Your vehicle's tire information placard and/or owner's manual will tell you the recommended cold inflation pressure for all your tires. For tractor/trailers, a placard is applied to each. For questions about locating or understanding the tire information placard(s), consult your vehicle owner's manual or ask a qualified tire service professional.

SAFETY INFORMATION

Any tire, no matter how well constructed, may fail in use as a result of punctures, impact damage, improper inflation pressure, overloading, or other conditions resulting from use or misuse. Tire failure may create a risk of property damage, serious personal injury or death.

SAFETY INFORMATION

Bridgestone | Medium & Light Truck Tire Data Book | GENERAL TECHNICAL INFORMATION 71
Maximum Pressure Indicated on the Tire Sidewall:
This is the maximum permissible inflation pressure for the tire only. The vehicle manufacturer’s recommended tire pressures may be lower than, or the same as, the maximum pressure indicated on the tire sidewall. The vehicle manufacturer’s specification of tire pressure is limited to your particular vehicle and takes into account your vehicle’s load, ride, and handling characteristics, among other criteria. Since there may be several possible vehicle applications for a given tire size, a vehicle manufacturer may choose a different inflation pressure specification for that same size tire on a different vehicle. Therefore, always refer to the inflation pressure specifications on the vehicle tire information placard and/or in your vehicle owner’s manual.

Pressure Loss: Truck tires can lose 2 psi (14 kPa) per month under normal conditions and can lose 2 psi (14 kPa) for every 10°F (5.6°C) temperature drop. A puncture, leaking valve, or other damage could also cause inflation pressure loss. If a truck tire loses more than 4 psi (28 kPa) per month, have it checked by a qualified tire service professional.

Tips for Safe Tire Inflation

SAFETY WARNING
Inflating an unsecured tire is dangerous. If it bursts, it could be hurled into the air with explosive force resulting in serious personal injury or death. Never adjust the inflation pressure of a truck tire unless it is placed in a safety cage or is secured to the vehicle or a tire mounting machine. Never stand or lean over the tire or in front of the valve when inflating.

SAFETY WARNING
Never re-inflate a truck tire that has been run at very low inflation pressure (i.e. 80% or less of normal operating pressure) without a complete inspection of the entire tire. Immediately have the tire demounted and inspected by a qualified tire service professional.

• The U.S. Department of Transportation requires a pre-trip vehicle inspection. Pre-trip vehicle inspections and preventative maintenance should include cold-tire inflation pressure checks. Don’t forget to check the inflation pressure of inside duals.

• The only correct method for checking inflation pressure is to use an accurate tire inflation pressure gauge. Kicking or thumping a tire will only tell you when a tire is totally flat.

• Check inflation pressure when the tires are “cold.” Tires are considered “cold” when the vehicle has been parked for three hours or more, or if the vehicle has been driven less than a mile at moderate speed.

• Never release pressure from a hot tire in order to reach the recommended cold tire inflation pressure. Normal driving causes tires to run hotter and inflation pressure to increase. If you reduce inflation pressure when your tires are hot, you may dangerously under inflate your tires.

• If it is necessary to adjust inflation pressure when your tires are “hot,” set their inflation pressure to 10 psi (69 kPa) above the recommended cold inflation pressure. Recheck the inflation pressure when the tires are cold.

• If your tires lose more than 4 psi (28 kPa) per month, the tire, tube (if applicable), valve, or rim/wheel may be damaged. Consult a qualified tire service professional for an inspection.

• A difference of 5 psi (35 kPa) or more between duals is not recommended.

• Use valve caps to keep the valves clear of debris and to help guard against inflation pressure loss.

Tips for Safe Loading

SAFETY WARNING
Driving your vehicle in an overloaded condition is dangerous. Overloading causes excessive tire heat build-up and internal structural damage. This can cause a tire failure, even at a later date, which could lead to serious personal injury or death. Consult the vehicle tire information placard, certification label, and owner’s manual for the recommended vehicle load limits and loading recommendations.

• Always keep the vehicle manufacturer’s recommended inflation pressure in all your tires, including inside duals. Check their pressure at preventative maintenance intervals and during pre-trip vehicle inspections.

• Never exceed the maximum load rating stamped on the sidewall of your tire.

• Never exceed the gross vehicle weight rating (GVWR) or gross axle weight ratings (GAWR) of your vehicle.

• Never exceed the maximum load or inflation pressure capacity of the rim/wheel.

• Consult your vehicle owner’s manual for load recommendations and special instructions (such as for carrying unusually heavy loads).

Tire Damage & Inspection
Evaluation and maintenance of your tires is important to their performance and the service they provide to you. Over time and/or through use, the condition of a tire can change from exposure to everyday road conditions, the environment, damaging events such as punctures, and other external factors.

SAFETY WARNING
Driving on damaged tires is dangerous. A damaged tire can suddenly fail causing serious personal injury or death. Have your tires regularly inspected by a qualified tire service professional.
You should visually inspect your tires during pre-trip vehicle inspections and inflation pressure checks. In addition, have your tires periodically evaluated by a qualified tire service professional when your vehicle is serviced such as routine maintenance intervals, oil changes, and tire rotations. In particular, note the following tips for spotting tire damage:

- After striking anything unusual in the roadway, have a qualified tire service professional demount the tire and inspect it for damage. A tire may not have visible signs of damage on the tire surface. Yet, the tire may suddenly fail without warning, a day, a week, or even months later.
- Inspect your tires for cuts, cracks, splits or bruises in the tread and sidewall areas. Bumps or bulges may indicate a separation within the tire body. Have your tire inspected by a qualified tire service professional. It may be necessary to have it removed from the rim/wheel for a complete inspection. Do not delay performing any necessary repair(s).
- Inspect your tires for adequate tread depth. When the tire is worn to the built-in indicators at 2/32 inch (1.6 mm) or less tread groove depth, or the tire cord or fabric is exposed, the tire is dangerously worn and must be replaced immediately.
- Federal regulations require steer axle tires to have 4/32 inch (3.2 mm) or greater tread depth on vehicles over 10,000 lbs (4536 kg) GVWR.
- Inspect your tires for uneven wear. Wear on one side of the tread or flat spots in the tread may indicate a problem with the tire or vehicle. Consult a qualified tire service professional.
- Inspect your rims/wheels also. If you have a bent, chipped, or cracked rim/wheel, it must be replaced.

**Tire Manufacture Date**

The tire manufacture date is determined by examining the DOT tire identification number, also known as the DOT serial number or code, which can be found on at least one sidewall near the rim/wheel. It may be necessary to look on both sides of the tire to find the entire serial code.

**Tires Produced Since 2000:** The last four (4) digits of the serial code identify the week and year of production. For example, a tire with a serial code ending in “2406” would have been produced in the 24th week of 2006.

**Tires Produced Prior to 2000:** The last three (3) digits of the serial code identify the week and year of production. For example, a tire with a code ending in “329” would likely have been produced in the 32nd week of 1999, but possibly produced in 1989. If in doubt, consult a qualified tire service professional.

**SAFETY WARNING**

Driving on an improperly repaired tire is dangerous. An improper repair can be unreliable or permit further damage to the tire. The tire may suddenly fail, causing serious personal injury or death. A complete inspection and repair of your tire in accordance with Rubber Manufacturers Association (RMA) procedures should be conducted by a qualified tire service professional.

The comprehensive procedures and recommendations for truck tire repair are beyond the scope of this manual; however, note the following:

- The tire must be demounted from the rim/wheel for a complete inspection, inside and out. Some damage to the tire may only be evident on the interior of the tire. Any tire repair done without removing the tire from the rim/wheel is improper.
- A patch must be applied to the interior of the tire and the puncture hole filled with suitable plug/stem filler. This helps ensure that the interior of the tire is adequately sealed to prevent inflation pressure loss and prevents contamination of the steel belts and other plies from the elements (such as water) in the outside world. Using only a plug/stem, or using only a patch, is not a safe or proper repair.
- The truck/bus tire puncture repair injury limit to the tread area is 3/8 inch (10 mm). Larger injuries, or damage in areas outside the tread, should be evaluated and repaired, if possible, by qualified tire service professionals at a full-service repair facility using RMA-approved procedures.
- Never substitute a tube for a proper repair or to remedy an improper repair.
- Not all punctured or damaged tires can be properly repaired; consequently, they must be replaced.
- Repair and retread, if possible, tires having a tread depth of 2/32 inch (1.6 mm) or less remaining in any tread groove.
- Tubes, like tires, should only be repaired by a qualified tire service professional.
Removing Tire/Wheel Assembly from Vehicle

SAFETY WARNING
Always follow the manufacturer’s recommend procedure for securing and raising your vehicle prior to attempting to remove a tire.

SAFETY WARNING
If the tire has internal damage, it may burst with explosive force, causing serious personal injury or death. Always deflate a tire and wheel assembly completely before loosening any lug nut when removing a tire from a vehicle for service or demounting. On dual wheel assemblies, both tires should be deflated and removed before any work is started.

Tire Mounting & Other Servicing

SAFETY WARNING
Removing and replacing tires on wheels can be dangerous. Attempting to mount tires with improper tools or procedures may result in a tire explosion causing serious personal injury or death. This is only a job for a qualified tire service professional. Never perform tire service procedures without proper training, tools, and equipment.

This manual is not intended to provide proper training or service procedures for tire mounting, demounting, balancing, rotation, or repair. Please leave these tasks to qualified tire service professionals.

Only specially trained persons should mount tires. For proper mounting procedures, consult the requirements of the Occupational Safety and Health Administration (OSHA) of the U.S. Department of Labor and procedures published by the Rubber Manufacturers Association, 1400 K Street, NW Washington, DC 20005 (www.rma.org).

SAFETY WARNING
Inflating an unsecured tire is dangerous. It could be hurled into the air with explosive force resulting in serious personal injury or death.

- Always stand well clear of any tire mounting operation. This is especially important when the service operator inflates the tire.
- When inflating a tire after mounting on a rim/wheel, always use a safety cage and an extension hose with pressure gauge and clip-on chuck.
- Never adjust the inflation pressure of a truck tire unless it is placed in a safety cage or is secured to the vehicle or a tire mounting machine.
- Never stand or lean over the tire or in front of the valve when inflating.

SAFETY WARNING
Never pour or spray any flammable substance into or onto a tire or rim/wheel for any purpose whatsoever. The residue left by the substance could result in a fire or explosion which may cause severe injury or death.

SAFETY WARNING
Never put flammable substances such as gasoline or ethyl ether into a tire and light with a match/flame so that the resulting explosion seats the beads of a tubeless tire. This practice is extremely dangerous and may result in a severe explosion or undetected damage to the tire or rim/wheel which may cause a failure resulting in severe injury or death.

- Tires must match the width and diameter requirements of the wheels. For example, 22.5 inch diameter tires must only be mounted to 22.5 inch diameter rims/wheels. Radial tires must only be mounted to wheels approved for radial tires.
- Inspect the tire and rim/wheel. Rims/wheels must be free of cracks, dents, chips, and rust. Tires must be free of bead damage, cuts, punctures, foreign material, and moisture.
- For a tubeless truck tire, always install a new valve, or new valve core and cap, each time a new or retreaded tire is installed.
- For a tube-type truck tire, always use a new, proper size tube and flap each time a new or re-treaded tire is installed.
- Use only vegetable oil-based lubricants in mounting or demounting.
- Always ensure rim components fit properly before inflating.
  - Never tap component parts with a tool/hammer/mallet while tire is inflated.
  - Never attempt to disassemble multi-piece rims while inflated.
- Never inflate a tire beyond 40 psi (275 kPa) to seat the beads. Be absolutely certain beads are fully seated before adjusting inflation pressure to the level recommended for vehicle operation.
- Use valve caps to keep the valves clear of debris and to help guard against inflation pressure loss.
- Always stand well away from the work area when tires are being spin-balanced either on or off the vehicle.
**Tire Mixing**

**SAFETY WARNING**
Driving your vehicle with an improper mix of tires is dangerous. Your vehicle’s handling characteristics can be seriously affected. You could have an accident resulting in serious personal injury or death. Consult your vehicle owner’s manual and a qualified tire service professional for proper tire replacement.

**Dual Matching**
Tires paired in a dual assembly should be matched in tire construction and dimension. Improperly matched tires may result in irregular wear, rapid wear, and premature tire failure. Failure to match tires in a dual assembly may result in sudden tire destruction.

For radial tires, properly paired dimension tolerances are as follows:
- Diameter: within 1/4 inch (6.4 mm) of each other
- Circumference: within 3/4 inch (19 mm) of each other

**High Speed Driving**

**SAFETY WARNING**
Driving at high speed is dangerous and can cause a vehicle accident, including serious personal injury or death.
- Regardless of the speed and handling capabilities of your vehicle and its tires, a loss of vehicle control can result from exceeding the maximum speed allowed by law or warranted by traffic, weather, vehicle, or road conditions.
- High-speed driving should be left to trained professionals operating under controlled conditions.
- No tire, regardless of its design or speed rating, has unlimited capacity for speed, and a sudden tire failure can occur if its limits are exceeded. See “Tire Speed Restrictions,” the next section in this manual.

Refer to your vehicle owner’s manual for any tire pressure recommendations for high speed driving.

**Tire Speed Restrictions**

Bridgestone brand truck tires have maximum recommended speeds. When replacing your tires, check your vehicle owner’s manual and tire information placard and consult with a Bridgestone brand truck tire retailer for recommendations and information about tire speed capability.

The speed capabilities of truck tires are based on standardized laboratory tests under specific, controlled conditions. While these tests may relate to performance on the road, real-world driving is rarely identical to any test conditions. Your tire’s actual speed capability may be less since it is affected by factors such as inflation pressure, load, tire condition (including damage), wear, vehicle condition (including alignment), driving conditions, and duration at which the speed is sustained.

**Tire Spinning**

**SAFETY WARNING**
Spinning a tire to remove a vehicle stuck in mud, ice, snow, or wet grass can be dangerous. A tire spinning at a speedometer reading above 35 mph (55 km/h) can in a matter of seconds reach a speed capable of disintegrating a tire with explosive force. Under some conditions, a tire may be spinning at a speed twice that shown on the speedometer. This could cause serious personal injury or death to a bystander or passenger. Never spin a tire above a speedometer reading of 35 mph (55 km/h).

**Tire Storage**

Tires should be stored indoors in a cool, dry place where water cannot collect inside them. Tires should be placed away from electric generators/motors and sources of heat such as hot pipes. Storage surfaces should be clean and free of grease, gasoline, diesel fuel, or other substances which can deteriorate the rubber.

**SAFETY WARNING**
Improper storage can damage your tires in ways that may not be visible and can lead to a failure resulting in serious personal injury or death.

The spare tire in your vehicle is intended to be used as a spare when needed. The spare tire carrier is not intended to be used for long term storage.
Tire Service
Customer Satisfaction

Normal tire maintenance and Limited Warranty services are available at locations across the U.S.A. Visit us at www.trucktires.com, or call 1-800-815-9793 to find an authorized Bridgestone brand truck tire retailer nearest you.

Additional information on the care and service of truck tires is available from the following organizations:

**Rubber Manufacturers Association**
1400 K Street, N.W.
Washington, DC 20005-2403
www.rma.org

**Rubber Association of Canada**
2000 Argentia Road, Plaza 4, Suite 250
Mississauga, Ontario L5N 1W1
www.rubberassociation.ca

Tire Registration

Registration of your tires is an important safety precaution since it enables the manufacturer to notify you in the event of a recall. When you purchase replacement tires, the retailer will provide a registration card on which the tire identification numbers have been recorded; fill in your name and address on the card and mail it promptly. Some retailers may submit the registration for you. You do not need to register original equipment tires on new vehicles as the vehicle manufacturer handles that for you.

**For Assistance or Information:**
1. First contact the nearest Bridgestone truck tire Dealer by call 1-800-815-9793 or use our Dealer locator at www.notifyben.com
2. If additional assistance is required, call or write the nearest Bridgestone Technical Service Center listed below.

**Bridgestone Toll-Free Number**

LIMITED WARRANTY
The following warranty contains certain rights and obligations that pertain to Bridgestone and Firestone branded off-the-road (OTR) tires. Please review these rights and obligations carefully.

DEFINITION
This Limited Warranty covers all Bridgestone and Firestone branded OTR tires as designated in Bridgestone and Firestone OTR product listings (price books and catalogs). It does not include, among others, agricultural tires, aircraft, light construction tires, or tires marked “NA” (not adjustable).

ELIGIBILITY
Every OTR tire bearing the name Bridgestone or Firestone and with a complete serial number molded in the sidewall is warranted to be free from manufacturing defects within the manufacturer’s control. If an examination by an authorized Bridgestone or Firestone OTR representative shows that any such tire failed as a result of manufacturing defects, it will, at the option of Bridgestone Americas Tire Operations (BATO), either be repaired at no charge, or a credit will be issued toward the purchase price of a replacement tire, being a comparable Bridgestone or Firestone branded OTR tire. Please review these catalogs. It does not include, among others, agricultural tires, aircraft, light construction tires, or tires marked “NA” (not adjustable).

LIMITED WARRANTY
This limited warranty gives you specific rights and you may also have other rights which may vary from jurisdiction to jurisdiction. To the extent that the provisions of any applicable legislation expressly replace, eliminate, amend or prohibit any term or terms contained herein, such term or terms shall be accordingly replaced, eliminated, amended or extended, as the case may be, in accordance with such legislation.

LIMITED WARRANTY EXCLUSIONS - ALL OTR TIRES AND TUBES
All OTR tire and tube warranties are subject to the following exclusions:
1. Tires purchased more than 60 months from the date of manufacture.
2. Tires for which alternative warranties or guarantees have been negotiated.
3. Tires used under chains. BATO does recognize that in many applications tire chains provide enhanced tire protection and may extended tire life. In these cases, BATO may extend special negotiated warranties. Please consult your BATO Off Road Tire Division representative for details.
4. Damage resulting from misuse, improper mounting, misapplication, use of non-approved rims, improper inflation, overloading, running flat, misalignment or imbalance of wheels/rims, defective brakes or shock absorbers, abuse, willful damage, oil, chemical action, fire or other externally-generated heat, use of studs, water or other material entrapped inside the tire, vehicle damage or road hazards (such as rock cuts, punctures, cut separations, impacts, flex breaks).
5. Claims for irregular wear or rapid tread wearout are not covered by this limited warranty.
6. Any tire which is operated above its ton-mile-per-hour (TMPH) or Tonne-kilometer-per-hour (TKPH) rating.
7. Tires mounted with non-approved tubes or o-rings.
8. Used, Repaired, or Retread tires.
9. Any modifications to the tire (added butress shoulders, grooving, reluging, etc.) void all warranties.
10. Any material added to the tire (tire fill, sealers, balancers, etc.) is not covered by this limited warranty and will not be compensated for in case of credit being issued for the tire.
11. Use of a solid type fill (such as urethane) voids all warranties.
12. Any costs associated with the repair of tires are not covered unless previously approved by BATO.
13. Costs of mounting and balancing following pro-rated replacement or repair of tires or tubes, and applicable federal, state, provincial, and local taxes, are not covered under this warranty.
14. Cost of disposal of warranted tires. Disposal of tires is the sole responsibility of the customer.
15. ALL OTHER WARRANTIES, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE EXPRESSLY DISCLAIMED TO THE EXTENT PERMITTED BY LAW. SOME JURISDICTIONS DO NOT ALLOW LIMITATIONS IN HOW LONG AN IMPLIED WARRANTY LASTS, OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU.
17. ALL OBLIGATIONS OR LIABILITIES FOR INDIRECT, INCIDENTAL, PUNITIVE OR CONSEQUENTIAL DAMAGE ARE HEREBY EXCLUDED TO THE EXTENT PERMITTED BY LAW, INCLUDING ECONOMIC LOSS, LOSS OF PROFIT, LOSS OF USE OF VEHICLE, LOSS OF TIME, PERSONAL INJURY OR DEATH.

TO OBTAIN WARRANTY SERVICE:
1. Contact an authorized Bridgestone or Firestone OTR dealer or representative. Please be prepared to provide proof of purchase of the product and purchase date.
2. The authorized dealer or representative will contact Bridgestone Americas to arrange the inspection of the tire in question and processing of your claim. The dealer has no authority or responsibility to make the determination as to eligibility for coverage under this warranty.

The replacement percentage will be multiplied by the original purchase price of the tire (excluding federal excise tax) to determine the amount of credit to be applied. Such credit must be applied toward the purchase price of the replacement tire in effect at the time of adjustment.

All adjusted tires will be disabled and the serial numbers will be removed. Customer is responsible for the disposal of all adjusted tires.

This warranty coverage is for OTR tires used within published design specifications for Bridgestone and Firestone tires. Any use outside such specifications automatically voids this warranty. Please consult Bridgestone or Firestone data books, maintenance manuals, etc. for design specifications. This warranty does not apply to used or "NA" (not adjustable) tires.

TIME PERIOD
This warranty applies to Bridgestone and Firestone brand OTR tires for a maximum period of five years (60 months) from date of manufacture. All warranty terms are determined by the manufacturer's control. The date of manufacture can be determined by the second and third digits in the serial number code. For non-serial controlled tires, the date of manufacture can be determined from the production lot code.

LIMITATIONS:
This Limited Warranty is applicable to the original purchaser and is not assignable to subsequent purchasers.

No Bridgestone or Firestone dealer, agent, or representative has the authority to make or imply any representation, promise or agreement which in any way varies or extends the terms of this warranty.

Any tire, no matter how well manufactured, may fail in service or become unserviceable due to conditions beyond the control of the manufacturer. This Limited Warranty is under no circumstances a representation that a tire failure cannot occur.
LIMITED WARRANTY

Bridgestone

Firestone

REPLACEMENT MARKET
PASSENGER and LIGHT TRUCK TIRES

Including

Tires with Run-Flat Technology

ELIGIBILITY

Congratulations! You have just purchased quality tires from a BRIDGESTONE, FIRESTONE, or ASSOCIATED BRANDS dealer (referred to in this section of the manual as DEALER). This Limited Warranty covers new BRIDGESTONE, FIRESTONE, FU/JON, and PRIMEWELL brand passenger and light truck tires.

This Limited Warranty only applies to the original purchaser, and is valid if all of the following apply:

- The tire was purchased after December 1, 2011.
- The tire is a size and speed rating equivalent to or greater than that specified by the vehicle manufacturer.
- The tire has been used only on the vehicle on which it was originally installed.
- The tire has not been used in commercial service (exception: certain coverage applies to Bridgestone Duravis and Firestone Transforce tires if used in commercial service).

WHAT IS WARRANTED and FOR HOW LONG

An eligible tire that becomes unusable for any reason within the manufacturer’s control will be replaced with an equivalent new tire on the basis set forth in this Limited Warranty. Each tire brand has specific warranty coverage and certain conditions that apply; for details, see “Each Brand’s Warranty Coverage.”
WHAT THIS LIMITED WARRANTY DOES NOT COVER

This Limited Warranty does not cover the following:

1. Tire damage or irregular wear due to:
   A. **Road hazards**, including, without limitation: Puncture, cut, impact break, stone drill, bruise, bulge, snag, etc.
   B. **Improper use or operation**, including, without limitation: Improper inflation pressure, overloading, tire/wheel spinning, use of an improper wheel, tire chain damage, misuse, misapplication, negligence, tire alteration, or for racing or competition purposes.
   C. **Insufficient or improper maintenance**, including, without limitation: failure to rotate tires as recommended in this manual, wheel misalignment, worn suspension components, improper tire mounting or demounting, tire/wheel assembly imbalance, or other vehicle conditions, defects, or characteristics.
   D. **Contamination or degradation** by petroleum products or other chemicals, fire or other externally generated heat, or water or other material trapped inside the tire during mounting or inflation.
   E. **Improper repair**. Improper repair voids this Limited Warranty.
   F. **For RFT tires only, improper run-flat or low tire pressure operation**, including, without limitation: exceeding speed, distance, or other run-flat/low-pressure operation limitations.

2. Rapid tread wear or wear-out is not covered under the Bridgestone Platinum Pact, Firestone Gold Pledge, or Basic Limited Warranty. See the Supplemental Mileage Limited Warranty section of this manual.

3. Weather/ozone cracking after 4 years from date of tire manufacture.

4. Ride disturbance or vibration after 1/32 inch (0.8 mm) of tread wear use.

5. Tires with sealant, balance, or other filler material that was not originally applied or inserted by the tire manufacturer.

6. Tires used in commercial service, except Bridgestone Duravis and Firestone Transforce tires.

7. Tires purchased as used.

8. Tires inflated with anything other than air or nitrogen.

9. Tires purchased and normally used outside the United States.

10. The cost of applicable federal, state, and local taxes.

11. Original equipment tires on new vehicles. (See separate warranty, if applicable, in your vehicle’s glove box.)

12. Failure to follow any of the safety and maintenance recommendations or warnings contained in this manual.

This Limited Warranty is in addition to and/or may be limited by any other applicable written warranty you may have received concerning special tires or situations.
EACH BRAND'S WARRANTY

BRIDGESTONE

Platinum Pact Limited Warranty
The Platinum Pact Limited Warranty covers all Bridgestone brand passenger and light truck tires—except winter, and "temporary use" spare tires. A tire covered by the Platinum Pact Limited Warranty will be replaced with an equivalent new tire either free of charge or for a pro-rated amount if the tire becomes unusable for any reason within the manufacturer’s control under the following conditions:

- **The free tire replacement period** extends up to (a) 3 years from the date of purchase—proof of purchase date required, or (b) 4 years from the date of tire manufacture without proof of purchase date. During this period, the tire will be replaced free of charge (including mounting and balancing). You may be charged applicable taxes, the cost of valve stems, and disposal fees.
- **After the free tire replacement period**, coverage extends up to (a) 5 years from the date of purchase—proof of purchase date required, or (b) 6 years from the date of tire manufacture without proof of purchase date. During this period, the tire will be replaced but there will be a pro-rated charge. To determine the replacement price, the percent of tread wear is multiplied by DEALER'S then current selling price for the replacement tire(s). The appropriate taxes, mounting, balancing, disposal fees, and other service charges may be added to the replacement price.
- **The tire must not be worn to 2/32 inch (1.6 mm) or less** remaining original tread depth (i.e. worn down to the top of the built-in indicators in the tread grooves).
- **Exclusions apply**—as identified in the section "What This Limited Warranty Does Not Cover."

Winter and "Temporary Use" Space Tires
A Bridgestone brand, winter, or "temporary use" spare tire will be replaced with an equivalent new tire for a pro-rated purchase price if the tire becomes unusable for any reason within the manufacturer’s control under the following conditions:

- **There is no free replacement period.**
- **Coverage** extends up to 5 years from the date of purchase—proof of purchase date required. Without proof of purchase date, then 6 years from the date of tire manufacture. During this period, the tire will be replaced for a pro-rated amount. To determine the replacement price, the percent of used treadwear is multiplied by DEALER'S then current selling price for the replacement tire(s). The appropriate taxes, mounting, balancing, disposal fees, and other service charges may be added to the replacement price.
• The tire must not be worn to 2/32 inch (1.6 mm) or less remaining original tread depth (i.e. worn down to the top of the built-in indicators in the tread grooves).

• Exclusions apply—as identified in the section “What This Limited Warranty Does Not Cover.”

**Buy & Try 30 Day Guarantee**
All Bridgestone brand passenger and light truck tires—except RFT/Run-Flat, Potenza RE-11, winter, and “temporary use” spare tires—sold in sets of 4 or more tires through an authorized retailer are covered by the Buy & Try 30 Day Guarantee. The Potenza RE960AS RFT and the Turanza EL400 RFT patterns are covered by the Buy & Try 30 Day Guarantee. If a retail customer is not completely satisfied with their eligible Bridgestone-brand tires, the tires can be returned to the location where they were originally purchased within 30 days of purchase for a full refund or exchange. Original proof of purchase is required. The Buy & Try 30 Day Guarantee applies only to full sets of tires (4 or more tires purchased together); return of less than a full set of tires will not be accepted. Bridgestone brand tires applied as original equipment on new vehicles are not covered by the Buy & Try 30 Day Guarantee. Additional exclusions apply, as identified in the section “What This Limited Warranty Does Not Cover.”

**FIRESTONE**

**Gold Pledge Limited Warranty**
The Gold Pledge Limited Warranty covers all Firestone brand passenger and light truck tires—except winter, and “temporary use” spare tires. A tire covered by the Gold Pledge Limited Warranty will be replaced with an equivalent new tire either free of charge or for a pro-rated amount if the tire becomes unusable for any reason within the manufacturer’s control under the following conditions:

• The free tire replacement period extends up to (a) 3 years from the date of purchase—proof of purchase date required, or (b) 4 years from the date of tire manufacture without proof of purchase date. During this period, the tire will be replaced free of charge (including mounting and balancing). You may be charged applicable taxes, the cost of valve stems, and disposal fees.

• After the free tire replacement period, coverage extends up to (a) 5 years from the date of purchase—proof of purchase date required, or (b) 6 years from the date of tire manufacture without proof of purchase date. During this period, the tire will be replaced but there will be a pro-rated charge. To determine the replacement price, the percent of tread wear is multiplied by DEALER’S then current selling price for the replacement tire(s). The appropriate taxes, mounting, balancing, disposal fees, and other service charges may be added to the replacement price.
• The tire must not be worn to 2/32 inch (1.6 mm) or less remaining original tread depth (i.e. worn down to the top of the built-in indicators in the tread grooves).

• Exclusions apply—as identified in the section “What This Limited Warranty Does Not Cover.”

Winter and “Temporary Use” Spare Tires
A Firestone brand, winter, or “temporary use” spare tire will be replaced with an equivalent new tire for a pro-rated purchase price if the tire becomes unusable for any reason within the manufacturer’s control under the following conditions:

• There is no free replacement period.
• Coverage extends up to 5 years from the date of purchase—proof of purchase date required. Without proof of purchase date, then 6 years from the date of tire manufacture. During this period, the tire will be replaced for a pro-rated amount. To determine the replacement price, the percent of used treadwear is multiplied by DEALER’S then current selling price for the replacement tire(s). The appropriate taxes, mounting, balancing, disposal fees, and other service charges may be added to the replacement price.

• The tire must not be worn to 2/32 inch (1.6 mm) or less remaining original tread depth (i.e. worn down to the top of the built-in indicators in the tread grooves).

• Exclusions apply—as identified in the section “What This Limited Warranty Does Not Cover.”

Buy & Try 30 Day Guarantee
All Firestone brand passenger and light truck tires—except RFT/Run-Flat, winter and “temporary use” spare tires—sold in sets of 4 or more tires through an authorized retailer are covered by the Buy & Try 30 Day Guarantee. If a retail customer is not completely satisfied with their eligible Firestone brand tires, the tires can be returned to the location where they were originally purchased within 30 days of purchase for a full refund or exchange. Original proof of purchase is required. The Buy & Try 30 Day Guarantee applies only to full sets of tires (4 or more tires purchased together); return of less than a full set of tires will not be accepted. Firestone brand tires applied as original equipment on new vehicles are not covered by the Buy & Try 30 Day Guarantee. Additional exclusions apply, as identified in the section “What This Limited Warranty Does Not Cover.”

BASIC LIMITED WARRANTY
The Basic Limited Warranty covers all tires in the following brands:

• Fuzion
• Primewell

A tire covered by the Basic Limited Warranty will be replaced with an equivalent new tire for a pro-rated purchase
price if it becomes unusable for any reason within the manufacturer's control under the following conditions:

- **There is no free replacement period.**
- **Coverage** extends up to 5 years (3 years for Primewell brand) from the date of purchase—proof of purchase date required. Without proof of purchase date, then 6 years (4 years for Primewell brand) from the date of tire manufacture. During this period, the tire will be replaced charging a pro-rated amount. To determine the replacement price, the percent of used treadwear is multiplied by DEALER’S then current selling price for the replacement tire(s). The appropriate taxes, mounting, balancing, disposal fees, and other service charges may be added to the replacement price.
- **The tire must not be worn to** 2/32 inch (1.6 mm) or less remaining original tread depth (i.e. worn down to the top of the built-in indicators in the tread grooves).
- **Exclusions apply**—as identified in the section “What This Limited Warranty Does Not Cover.”

### SUPPLEMENTAL MILEAGE LIMITED WARRANTY

If a tire covered by the Supplemental Mileage Limited Warranty wears evenly across the tread down to the treadwear indicators—2/32 inch (1.6 mm)—during its stated warranted mileage (as evidenced by the vehicle’s odometer), the tire will be replaced with an equivalent new tire under the following conditions for a pro-rated purchase price:

- **There is no free replacement period.**
- Only the passenger and light truck tires listed in this section are covered by the Supplemental Mileage Limited Warranty for the mileage shown.
- Coverage applies only to the original purchaser, and only as long as the tires remain mounted on the vehicle described in the Customer Identification Section of this manual.
- Coverage extends up to 5 years from the date of purchase—proof of purchase date required. During this period, the tire will be replaced for a pro-rated amount.
- To determine the replacement price, the percent of warranted mileage obtained is multiplied by DEALER’S then current selling price for the replacement tire(s). The appropriate taxes, mounting, balancing, disposal fees, and other service charges may be added to the replacement price.
- Tires used in commercial service and original equipment tires on new vehicles have no mileage warranty.
- **Exclusions apply**—as identified in the section “What This Limited Warranty Does Not Cover.”

**REPLACEMENT WARRANTY FOR ALL BRANDS**

If you receive a replacement tire under this Limited Warranty, it will be covered by the manufacturer’s warranty or warranties, if any, given on that tire at that time.

**WHERE TO GO**

Tire adjustments under this Limited Warranty will only be made at an authorized retailer. Bridgestone and Firestone RFT tire adjustments will only be made at a Certified Bridgestone or Firestone Run-Flat Retailer. Consult a phone directory (often listed in the Yellow Pages under “Tire Dealers”) or the internet at www.bridgestonetire.com for the location nearest you. Certified Bridgestone and Firestone Run-Flat Retailers can also be located by calling toll-free: 1-877-BFS-4RFT.

**CONSUMER RIGHTS**

This Limited Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
CONDITIONS and EXCLUSIONS

To the extent permitted by law, Bridgestone Americas Tire Operations, LLC disclaims all other warranties, including but not limited to the implied warranties of merchantability and fitness for a particular purpose and any liability for incidental and consequential damages, loss of time, loss of vehicle use, or inconvenience. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This Limited Warranty applies only to consumers using the tire in the United States. For warranty conditions outside the United States, see your local Bridgestone or Firestone distributor.

Obligations under this policy may not be enlarged or altered by anyone.

In accordance with Federal Law, this Limited Warranty has been designated as a "Limited Warranty." Nothing in this Limited Warranty is intended to be a representation that tire failures cannot occur. This Limited Warranty is given by Bridgestone Americas Tire Operations, LLC, 535 Marriott Dr., Nashville, TN 37214.

OWNER'S OBLIGATIONS

In order to keep this Limited Warranty valid, we require you to have your tires regularly inspected and rotated per the recommendations outlined in the sections of this manual entitled "Tire Damage, Inspection and Service Life" and "Radial Tire Rotation" and to furnish proof of same in order to receive an adjustment. Such proof should show the date, mileage, and servicing location. A sales receipt containing this information will suffice. In addition, a "Maintenance Record" is included in this manual.

Tires must be operated at the proper tire inflation pressures as specified by the vehicle manufacturer and within tire/vehicle load capacity and speed limitations. It is also your obligation to maintain proper wheel alignment and tire/wheel assembly balance.

To request an adjustment, you must present the tire to an authorized retailer. Complete and sign the customer section of the Bridgestone Americas Tire Operations, LLC Limited Warranty adjustment form and pay appropriate replacement price, taxes, disposal fee, and service charges, if any.
You and Bridgestone Americas Tire Operations, LLC agree that all claims, disputes, and controversies between you and it, including any of its agents, employees, successors, or assigns, arising out of or in connection with this Limited Warranty, or any other warranties, express or implied, including a failure of warranty and the validity of this arbitration clause, but excluding claims for personal injury or property damage, shall be resolved by binding arbitration between you and it, according to the formal dispute resolution procedures of the National Arbitration Forum, under the Code of Procedure then in effect. This arbitration will be conducted as a document hearing. If you request any procedures beyond a document hearing, you will be responsible for all fees, including filing and administrative fees, above and beyond the fees required for document hearings. The arbitration between you and Bridgestone Americas Tire Operations, LLC shall not include any other customers, be combined or consolidated in any fashion with arbitrations involving other customers, or proceed in any form of class action in which the claims of numerous customers are considered together. Any award of the arbitrator(s) may be entered as a judgment in any court of competent jurisdiction. The arbitrators will have no authority to award punitive or other damages not measured by the prevailing party’s actual damages, except as may be required by statute. Information may be obtained and claims may be filed at any office of the National Arbitration Forum or at P.O. Box 50191, Minneapolis, MN 55405.
This Limited Warranty covers original-tread Firestone brand bias ply agricultural tires purchased or manufactured after January 1, 2009 (except tires made for or used in pulling contests) if they are used in normal agricultural service. It does not cover tires marked "NO ADJ" or "NA" (non-adjustable), or tires not containing the Firestone serial number. Tires branded DT (damaged tire) are not adjustable for appearance. Tires are adjustable for ride-related conditions only during the first six months of service and up to 1/32nd of an inch of treadwear.

If, before wearing down to 2/32nds of an inch of tread or bar depth remaining, any tire covered by this Limited Warranty becomes unusable for any reason within the manufacturer’s control, such tire will be replaced with an equivalent new Firestone tire on the basis set forth in the section titled “Limited Warranty Period and Pro Rata Percentages” below. Some examples of causes or conditions normally beyond the manufacturer’s control are:

1. Field or road hazards or stubble damage (e.g. cut, snag, puncture, stubble damage, impact break, tear or chunk in tread, bar or shoulder);
2. Apparent overload or improper inflation pressure or abuse;
3. Wheel misalignment, rim slip, tire/wheel assembly imbalance, mismatching of adjacent tires, or other vehicle conditions, defects or characteristics;
4. Conditions caused by land-leveling or earthmoving operations;
5. Improper repair or improper insertion of sealant, balancing, or filler materials;
6. Intentional alteration of either the appearance or the physical characteristics of the tire;
7. Mounting damage or conditions caused by aging or improper storage; and
8. Failure to observe any of the "Owner-User's Obligations" items listed elsewhere in this publication.

This Limited Warranty is in addition to, and/or may be limited by, any other applicable written warranty you may have received concerning special tires or situations.

During the first year of service (proof-of-purchase must be attached to claim form), if the tire is worn less than 10%, the tire will be replaced without charge including normal mounting and service charges.
After the free replacement period, the replacement price will be prorated based on years of service from the original purchase date (proof-of-purchase must be attached to claim form, or if proof-of-purchase is not available or if tire was not purchased new, then based on years from date of manufacture, which is molded into the sidewall of the tire) as follows:

**YEARS OF SERVICE OR AGE IF WORN LESS THAN PRO RATA COLLECTION DURING**

<table>
<thead>
<tr>
<th>Years</th>
<th>Pro Rata Collection During</th>
</tr>
</thead>
<tbody>
<tr>
<td>2nd Year</td>
<td>20%</td>
</tr>
<tr>
<td>3rd Year</td>
<td>40%</td>
</tr>
<tr>
<td>4th Year</td>
<td>50%</td>
</tr>
<tr>
<td>5th Year</td>
<td>60%</td>
</tr>
<tr>
<td>6th Year</td>
<td>70%</td>
</tr>
<tr>
<td>7th Year</td>
<td>80%</td>
</tr>
<tr>
<td>8th Year</td>
<td>90%</td>
</tr>
</tbody>
</table>

After the end of the 8th Year, coverage expires. 100%

To determine the replacement price, the appropriate pro rata percentage is multiplied by the Firestone owner-user’s regular buying price. Appropriate taxes, mounting, or other service charges will be added to the replacement price.

To the extent permitted by law, Bridgestone Americas Tire Operations, LLC disclaims all warranties express or implied other than the warranties stated in this Limited Warranty, including but not limited to the implied warranties of merchantability and fitness for a particular purpose.

**TO THE EXTENT PERMITTED BY LAW, BRIDGESTONE AMERICAS TIRE OPERATIONS, LLC DISCLAIMS LIABILITY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL AND PUNITIVE DAMAGES, LOSS OF TIME OR PROFITS, LOSS OF VEHICLE USE, OR INCONVENIENCE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGES.**

Some states do not allow the exclusion or limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you.

Only the actual owner-user of the covered tires may make an adjustment claim under this Limited Warranty and Commercial Adjustment Policy and only for tires used in the 50 United States and the District of Columbia.

Nothing in this Limited Warranty is intended to be a representation that failures cannot occur.

Proper tire care is necessary to obtain maximum hours of usage and wear.

The owner-user’s obligations are to operate tires within tire load and speed limits (at cold air pressures specified by Bridgestone Americas Tire Operations, LLC for load and speed according to individual tire size, type, and load capacity) and to maintain proper alignment of wheels.
In case of an adjustment claim, the owner-user must present the tire to an authorized Firestone dealer or store, complete and sign the customer section of the adjustment claim form, attach to the claim form a copy of the proof-of-purchase showing the date the tire was purchased new or proof-of-purchase of the new agricultural equipment that the tire came on, and pay the appropriate replacement price, taxes and service charges for a new, current equivalent Firestone brand tire.

The obligation of Bridgestone Americas Tire Operations, LLC under this Limited Warranty and Commercial Adjustment Policy may not be enlarged or altered by anyone.

TIRES COVERED

The Firestone Stubble Damage Policy covers new Firestone brand R-1, R-1W, R-2, R-3 and “Stubble Stomper” tires purchased new or manufactured after January 1, 2009, and used in normal agricultural service. This Stubble Damage Policy does not cover tires marked "NO ADJ" or "NA" (non-adjustable), tires made for or used in pulling contests, or tires not bearing the Firestone serial number.

POLICY CONDITIONS

Only the original purchaser of the covered tire or of the agricultural equipment the tire came on may make an adjustment claim under this Stubble Damage Policy. If, in normal agricultural service, a Firestone tire covered by this Stubble Damage Policy becomes unusable or not repairable due to stubble damage, such tire will be replaced with an equivalent new Firestone tire on a pro rata basis as set forth below. You must pay as a replacement price the appropriate pro rata percentage of the owner-user’s regular buying price. You must also pay mounting, service charges, and applicable taxes.

This Stubble Damage Policy is a statement of adjustment policy coverage only. Nothing in this Stubble Damage Policy is intended to be a warranty against stubble damage or representation that failures cannot occur. Bridgestone Americas Tire Operations, LLC disclaims all warranties, express or implied, in respect of stubble damage, including but not limited to the implied warranties of merchantability and fitness for a particular purpose.

STUBBLE DAMAGE POLICY AND PRO RATA PERCENTAGES

The replacement price will be prorated based on years of service based on proof-of-purchase date as follows:

<table>
<thead>
<tr>
<th>DURING</th>
<th>1st Year</th>
<th>25%</th>
<th>25%</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2nd Year</td>
<td>50%</td>
<td>50%</td>
</tr>
<tr>
<td></td>
<td>3rd Year</td>
<td>75%</td>
<td>75%</td>
</tr>
</tbody>
</table>

After the end of the 3rd Year, coverage expires. 100%

To determine the replacement price, the appropriate pro rata percentage is multiplied by the owner-user’s regular buying price. Appropriate taxes, mounting, or other service charges will be added to the replacement price.
POLICY EXCLUSIONS

TO THE EXTENT PERMITTED BY LAW, BRIDGESTONE AMERICAS TIRE OPERATIONS, LLC DISCLAIMS LIABILITY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL AND PUNITIVE DAMAGES, LOSS OF TIME OR PROFITS, LOSS OF VEHICLE USE, OR INCONVENIENCE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGES.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you.

This Stubble Damage Policy does not cover broken beads, damage due to run flat, abuse, land leveling, vehicle projection, accident, collision, fire or vandalism. Only the original owner-user of the covered tires may make an adjustment claim under this Stubble Damage Policy and only for tires used in the 50 United States and the District of Columbia.

OWNER-USER’S OBLIGATIONS

The owner-user’s obligations are to operate tires within tire load and speed limits (at cold air pressures specified by Bridgestone Americas Tire Operations, LLC for load and speed according to individual tire size, type, and load capacity) and to maintain proper alignment of wheels. To reduce stubble damage, the owner-user must:

1. Set the tire spacing to run between rows – not on stubble.
2. Use mechanical devices readily available through equipment manufacturers to knock down stubble.
3. Make first tillage pass parallel to the rows.

In case of an adjustment claim, the owner-user must present the tire to an authorized Firestone dealer or store, complete and sign the customer section of the adjustment claim form, attach to the claim form a copy of the proof-of-purchase showing the date the tire was purchased new, or proof-of-purchase of the new agricultural equipment that the tire came on, and pay the appropriate replacement price, taxes, mounting and service charges for a new, current equivalent Firestone brand tire.

The obligation of Bridgestone Americas Tire Operations, LLC under this Stubble Damage Policy may not be enlarged or altered by anyone.

TIRES COVERED

The Firestone Field Hazard Policy covers new Firestone brand R-1, R-1W, R-2, R-3 and “Stubble Stomper” tires purchased new or manufactured after January 1, 2009, and used in normal agricultural service. This Field Hazard Policy does not cover tires marked "NO ADJ" or "NA" (non-adjustable), tires made for or used in pulling contests, or tires not bearing the Firestone serial number.

POLICY CONDITIONS

Only the original purchaser of the covered tire or of the agricultural equipment the tire came on may make an adjustment claim under this Field Hazard Policy. If, in normal agricultural service, a Firestone tire covered by this Field Hazard Policy becomes unusable or not repairable due to field hazard, such tire will be replaced with an equivalent new Firestone tire on a pro rata basis as set forth below. You must pay as a replacement price the appropriate pro rata percentage of the owner-user’s regular buying price. You must also pay mounting, service charges, and applicable taxes.

This Field Hazard Policy is a statement of adjustment policy coverage only. Nothing in this Field Hazard Policy is intended to be a warranty against field hazards or a representation that failures cannot occur. Bridgestone Americas Tire Operations, LLC disclaims all warranties, express or implied, in respect of field hazards, including but not limited to the implied warranties of merchantability and fitness for a particular purpose.

FIELD HAZARD POLICY AND PRO RATA PERCENTAGES

The replacement price will be prorated based on years of service based on proof-of-purchase date as follows:

<table>
<thead>
<tr>
<th>DURING</th>
<th>1st Year</th>
<th>2nd Year</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>25%</td>
<td>50%</td>
</tr>
<tr>
<td></td>
<td>50%</td>
<td>75%</td>
</tr>
</tbody>
</table>

After the end of the 2nd Year, coverage expires. 100%

To determine the replacement price, the appropriate pro rata percentage is multiplied by the owner-user’s regular buying price. Appropriate taxes, mounting, or other service charges will be added to the replacement price.

POLICY EXCLUSIONS

TO THE EXTENT PERMITTED BY LAW, BRIDGESTONE AMERICAS TIRE OPERATIONS, LLC DISCLAIMS LIABILITY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL AND PUNITIVE DAMAGES, LOSS OF TIME OR PROFITS, LOSS OF VEHICLE USE, OR INCONVENIENCE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGES.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you.

This Field Hazard Policy does not cover broken beads, damage due to run flat, abuse, land leveling, vehicle projection, accident, collision, fire or vandalism. Only the original owner-user of the covered tires may make an adjustment claim under this Field Hazard Policy and only for tires used in the 50 United States and the District of Columbia.

OWNER-USER’S OBLIGATIONS
The owner-user’s obligations are to operate tires within tire load and speed limits (at cold air
pressures specified by Bridgestone Americas Tire Operations, LLC for load and speed according to
individual tire size, type, and load capacity) and to maintain proper alignment of wheels.

In case of an adjustment claim, the owner-user must present the tire to an authorized Firestone dealer
or store, complete and sign the customer section of the adjustment claim form, attach to the claim
form a copy of the proof-of-purchase showing the date the tire was purchased new or proof-of-
purchase of the new agricultural equipment that the tire came on, and pay the appropriate replacement
price, taxes, mounting and service charges for a new, current equivalent Firestone brand tire.

The obligation of Bridgestone Americas Tire Operations, LLC under this Field Hazard Policy may
not be enlarged or altered by anyone.
