CITY COST INDEX, Defined pricing indices published by R.S. Means (see R.S. Means) as local modifiers to the national cost data.

CLIENT MEMBER is any ISD/USD, ESC, University, Municipality, County, Federal or State Agency or non-taxed entity empowered to enter into an agreement with TIPS via their governing boards or trustees. In the State of Texas an interlocal agreement must be signed by the client.

In other states, the client is responsible for meeting their state requirements.

COEFFICIENT is the contractors' coefficient multiplier that is applied to the local city cost index and the total sum of line item estimates for each individual Job Order. It will include all overhead items such as office, safety equipment, vehicles and fuel, computers, communication devices, printers, programs, insurance maintenance, two percent TIPS management fee, final site cleanup and all contingencies.

DELIVERY ORDER (DO) is the scope of services approved from the Job Order Proposal and reviewed and approved by the Client for the PO.

JOB ORDER is a line item estimate taken from a job order proposal using the coefficient and R.S. Means which, upon agreement to by the client member, becomes a lump sum fixed price contract and a notice to proceed for the stated scope attached to the purchase order.

JOB ORDER CONTRACTING (JOC) is a variable term indefinite delivery, indefinite quantity contract for construction services on an on call basis through negotiated line item delivery orders (job orders) to include minor construction, repair, renovation, alterations, maintenance projects and limited design for architectural and engineering services. It is based upon the contracts priced coefficient applied to the city cost index and the line items in the unit price book (RS Means). When the line items are agreed to it becomes a lump sum firm fixed price contract for that negotiated scope of services.

JOB ORDER PROPOSAL is the response from the contractor to the client member from the clients request for a specific project. It will contain the line item estimate for the project as defined in the UPB and include a written scope of work for services to be performed.

JOB ORDER PROPOSAL REQUEST is originated from the client and provides a general scope of project services or architectural drawings, a requested schedule and any special addendum requirements. From this information the contractor will develop the scope of work for his job order proposal.

NON PRE-PRICED ITEMS are those items that cannot be found or reasonably compared to listed line items in the UPB. Vendor must complete the Non-Pre-Priced markup percentage at the bottom of the Pricing Exhibit Form.

PREMIUM HOURS are defined as those hours not included in regular hours or recognized holidays. Premium hours are to be approved by the member entity for each delivery order and noted in the delivery order proposal as a line item during negotiations.

REGULAR HOURS are defined as those hours between the hours of 7 AM and 6 PM Monday thru Friday.

UNIT PRICE BOOK (UPB) will be the current addition of RS Means Facilities Construction Cost Data or if published RS Means Job Order Contracting Cost Data – the published quarterly updates will be allowed.

PURCHASE ORDER is the TIPS member’s approval providing the authority to proceed with the negotiated delivery order under the contract. Special terms and conditions as agreed to between the vendor and TIPS member will be added as addendums to the PO. Items such as certificate of insurance, bonding requirements, small or disadvantaged business goals are some of the addendums possible.

SCOPE OF WORK (SOW) is the specific work that has been agreed to be undertaken and accomplished under the TIPS contract via the delivery order process.

SERVICES

It is the intention of TIPS to establish an annual contract with highly qualified vendor(s) for **Trades, Labor and Materials**. Vendor(s) shall, at the request of TIPS member, provide these products and/or covered services under the terms of this CONTRACT and the CONTRACT TERMS AND CONDITIONS. Vendor shall assist the end user TIPS member with making a determination of its individual needs, as stated below.

TIPS is seeking electronically sealed proposals for Trades, Labor and Materials contracts for this procurement in accordance with Texas Government Code Chapter 2269, Subchapter (I) Job Order Contracting. The purpose of this procurement is to award Trades, Labor and Materials contract(s) for the minor construction, repair, rehabilitation, or alternation of a facility for work of a recurring nature in which the delivery times are indefinite and indefinite quantities and orders are awarded substantially on the basis of pre-described and pre-priced tasks.

The contractor shall furnish all necessary labor, materials, tools, supplies, equipment, transportation, supervision, management and shall perform all operations necessary and required for construction work. All work shall be performed in accordance with the requirements set forth in the resulting contract and each mutually agreed upon work request or purchase order issued by TIPS client partner.

A contract will be established with standard specifications and pricing based upon a coefficient that is applied to a Unit Price Book (UPB). When a specific project or job order is issued, TIPS member and the contractor will agree on the scope of work and the cost is determined by applying the coefficient to the appropriate units in the UPB.

Information to Bidders

TIPS intends to enter into multiple Trades, Labor and Materials Contracts to provide indefinite delivery, indefinite quantity (IDIQ) contracts for minor construction, renovation, repairs and alteration services. These contracts will be available for use by all public entities such as ESC's, ISD's, universities, city and county governments, community colleges, state and federal agencies in these United States and other jurisdictions. It may also be used by certain private non-taxed entities.

The contractor agrees to use, as required, Davis Bacon (See the UPB) or local wage rate that apply with some of the TIPS client members. The client member must supply any Davis Bacon or local wage rates requested.

The current annual edition of RS Means and quarterly adjustments will be the UPB used.

TIPS will receive **2% of the total revenue** from each PO executed under this contract. This fee will be included in the contractors priced coefficient and will not be issued as a separate line item in any job order proposals issued to client members. This contract management fee will be required to be paid within thirty (30) days of the completion of any job order. If the job order has progress payments on large DOs the contractor will be required to pay in proportion to these payments within thirty (30) days of the invoice date.

RS Means will be the unit price for this contract using the RS Means right hand column ("Total Inc. O&P") and the most recent edition including any quarterly RS Means 12-digit line number. Contractors, at their expense, will make copies of the UPB available to the client member upon request via electronic or printed media.

While division one of the UPB will not be generally allowed, special requirements out of division one may be allowed with the approval of the client member and listed as a separate line item with an attachment giving an explanation as to the special need. One example would be a dedicated onsite safety officer and/or delivery order manager and/or superintendent at all times during construction. Unless this is very large DO, it would not be covered in the Trades, Labor and Materials coefficient. The mere signing of the Purchase Order without the noted exception and approval is not sufficient.

As defined, the contractor's bid coefficient shall include all overhead items such as office, safety equipment, vehicles and fuel, communication equipment, computers, printers, programs, insurance maintenance, two percent TIPS management fee, final site cleanup and all contingences. The contractor, at his expense and included as part of overhead, will provide adequate insurance coverage meeting at a minimum the statutory requirements. All project management, administration, and sufficient jobsite supervision are to be included in contractor's bid coefficient as well as any other main office or project overhead and profit items.

Items that are not found in the UPB will be listed as "non-pre-priced". This does not include previously discussed design and engineering costs. The contractor will provide three prices to establish the average bare cost for each item and add in the Overhead and Profit (OH/P) based upon the contractors coefficient. This line item will then be negotiated with the client member and as approved the item will then be added to the price book for future projects and no longer is non-pre-priced. The need for this special treatment needs to be addressed in the line item estimate and agreed to by the client member and TIPS.

Performance bonds will be required on all Job Orders over \$100,000 and payment bonds on all Job Orders over \$25,000 or meeting the client member's local and state requirements. A letter from a surety company that is licensed to do business in the state of Texas, or client member state, attesting to its willingness to bond your company for \$1 million dollars must be submitted. Contractors may need to provide additional capacity as job orders increase. Bonds

will not require that a fee be paid to TIPS. The actual cost of the bond will be a pass through to the client member and added to the purchase order.

SCOPE OF SERVICES

The specific scope of work for each job order shall be determined in advance and in writing between TIPS Client Member and Contractor.

It is okay if the client member provides a general scope, but the contractor should provide a written scope of work to the client member as part of the proposal. Once the scope of the job order is agreed to, the client member will issue a PO with the line item estimate referenced as an attachment along with bond and any other special provisions agreed to for the client member. If special terms and conditions other than those covered within this solicitation and awarded contracts are required, they will be attached to the PO and shall take precedence over those in the base contract.

CONTRACT AND DOCUMENTS

The contract shall include the contract, the terms and conditions, special terms and conditions, any agreed upon amendments, as well as all of the sections of the solicitation and the contractor's proposal. Once signed, if the contractor's proposal varies or is unclear in any way from the TIPS contract, TIPS, at its sole discretion, will decide which provision will prevail.

The Unit Price Book (UPB) will be the current edition of RS Means Facilities Construction Cost Data or if published RS Means Job Order Contracting cost data. The current edition AIA Master Text specifications and all applicable national, state, and local laws, codes, standards and regulations shall be followed.

Other documents to be included are the contractor's proposals, task orders, purchase orders and any adjustments which have been issued.

PROJECT DELIVERY ORDER PROCEDURES

The client member, having approved and signed interlocal agreement or online agreement, may make a request of the contractor under this contract when the member has services that need to be undertaken. Notification may occur via phone, the web, email, fax, or in person.

Upon notification of a pending request, the contractor shall make contact with the client as soon as possible, but must make contact with the client member within two working days. Contractor shall visit the member's site and conduct a walk-through/project scoping with the

member's representative to define the scope. Contractor's representative shall perform due diligence to request and gather all available project relevant existing conditions and record documents from client member to include, but not limited to, hazardous materials survey and other relevant documents.

The contractor and the member will agree on the time when the job order proposal will need to be reviewed for approval by the client member. The contractor will then prepare a job order proposal including a written scope of work using an automated software system that will provide a line item estimate of the individual tasks, the quantities, the city cost index, his bid coefficient, and any applicable cost additions including any possible division one line items and design work that may be required and in need of approval. Information on those division one items that may be included can be found in information for offerors.

Contractors will be required to submit Job Order proposals and shall provide a line estimate based upon their coefficient and the UPB for that SOW which must be reviewed and agreed to by the client member prior to their issuance of a PO and DO.

When design work is necessary, the A/E selection shall confirm and be based upon qualifications of the design personnel according to applicable state law for selection. The client member may select an architectural consultant or use their own design capabilities providing the plans to the contractor.

The line items taken from the UPB and the estimated quantities totaled will be modified with the application of the city cost index and the contractor's coefficient. Any adjustment factors from division one will be added to establish the final price agreed to for the project. Cost adjustment factors, as allowed, must clearly identify those individual tasks (line items) to which they are applicable and include corresponding percentage.

The client member will then review the proposal and if the member's representative is in agreement with the proposed pricing and schedule, then other terms and requirements of the job order will be issued that will contain the approved job order proposal (scope of work) and the Purchase Order ("PO"). The PO will include the lump sum price, start date, schedule and notice to proceed and will be signed by both parties as a lump sum fixed price contract. After the agreement is signed, a copy of the purchase order shall be sent to TIPS representative completing the contracting and interlocal requirements. Each job order proposal shall be good for a period of 30 days unless an extension is agreed to by both the contractor and client member.

SCHEDULING OF PROJECTS

Scheduling of projects will be accomplished when the client member issues a purchase order that will serve as "the notice to proceed" and will contain the job order as an attachment based

upon the negotiated line estimate and approved Job Order proposal. For large projects a Construction Project Management (CPM) schedule should be included in the proposal. The construction performance period for the delivery order will include the mobilization, materials purchase, installation and delivery, design, weather, and site cleanup and inspection. No additional claims may be made for delays as a result of these items. When the tasks have been completed the contractor shall notify the client and have the client member inspect the work for acceptance under the scope and terms in the PO. The client will issue in writing any corrective actions that are required. Upon completion of these items the client will issue a completion notice and final payment will be issued.

SUPPORT REQUIREMENTS

If there is a dispute between the contractor and client, TIPS or its representatives will assist in conflict resolution or third party (mandatory mediation), if requested by either party.

TIPS, or its representatives, reserves the right to inspect any project and audit the contractors TIPS project files, documentation and correspondence.

The contractor will be required to furnish and maintain a field office in an awarded region. All of the expenses of maintaining these offices including furnishings, supplies, fax, and mobile and local phone services are the contractor's overhead responsibilities.

Utilities at the job sites will be furnished free of charge to the contractor by the client member. Water will be furnished free, with all of the taps, connections and associated equipment supplied free of charge to the contractor or supplied by the contractor and charged to the client. Upon project completion, the connections will be removed at the direction of the client.

Estimating Requirements: Awarded contractor must use Cost Works, JOC Works, RS Means Online, 4 Clicks, or Other approved estimating software. "Other software" than one of the four software programs listed above **must be approved by TIPS.**

- 9. What differentiates your company from competitors?
There are several choices for engineered HVAC and Plumbing Equipment in North Texas. McMillan James stands ahead of our competition, first and foremost, due to the quality of our employees. All of our sales force are degreed engineers. We have hired engineers with a variety of backgrounds to have an extremely well rounded and technically competent sales force. Each and every person on our sales force is top notch, there are no weak links. We have had an extremely low turnover in our almost 30 year history. Once you're here, you're family.
McMillan James is much more focused than our competition. We represent and service high quality engineered equipment. We do not market sheet metal products, aftermarket filters, along with long list of items that could be sold and serviced by a less sophisticated organization.
Finally, our service after the sale sets the standard in our industry. If there is a problem in the field with any of the equipment we have sold we send our techs out to fix the problem first and figure out who is to blame later. This positive and rapid response makes it that much easier on our sales force when asking for the next order. We offer service contracts to end users on the more complex systems as well.

Marketing/Sales

- 1. Detail how your organization plans to market this contract within the first 90 days of the award date. This should include, but not be limited to:

McMillan James has been a resource to school districts, college/universities, municipalities and government agencies in the North Texas area since the 1980s. Many of the TIPS members already rely on McMillan James for equipment and service.

If we are awarded a continued contract through the TIPS program, we will continue our current marketing campaign in addition to an increased focus on TIPS specific work. Currently we are seeking out any TIPS member we do not have a current relationship with. Each of these members will be visited personally by one of our sales guys. Our sales representative will discuss needs with each individual member and will hand out product catalogs and required contact information to meet that specific member's needs. Additionally, McMillan James hosts educational lunch & learn presentations twice a month that relate to maintenance and energy upgrades to mechanical systems. These presentations are located at our training center described above.

In addition to this existing campaign to drive TIPS sales, we are going to expand our mailing campaign. We currently mail "free cooling tower inspection" post cards to all of our customers with water cooled systems. This is in an effort get in front of these customers as often as possible. We will put a TIPS specific mailer detailing the services that we provide through TIPS and have these sent to both the facilities director's office and the purchasing office of each respective member. We will include a TIPS focused area on our newsletters, which are emailed and linked over social media. We will start all of this with a co-branded press release to announce to any members that don't already know, we are a TIPS vendor and make a more focused effort to further develop our relationship with the GSA, and other governmental agencies.

We advertise in a number of regional publications, and our award of this contract will be added to future ads. We have a very solid presence in regional trade shows. We have salesmen that serve on the board for the Ft. Worth and the Dallas chapters of ASHRAE. We are involved in BOMA and TEXO as well.

The more of our customers that are TIPS members, the better off we are. We will continue to promote the TIPS program to any purchasing agents that are not currently members
