

HVAC Components for Every Need

Tailored Solutions for Your Unique Challenges

Since 1950, CAPP has been a leading supplier of HVAC controls, offering a wide range of products tailored to meet the diverse needs of the industry. With decades of experience, we have built a strong reputation for reliability- ensuring that our customers have access to the products they need, when they need them and within good lead time. We help our customers make informed decisions by providing ongoing technical support throughout their projects and go the extra mile to make sure they achieve optimal value with the best pricing. Our customer-centric approach has made us a trusted partner in the HVAC industry, allowing us to build long-lasting relationships with our customers.
