AUTOMATED

ACTIVE SHOOTER DEFENSE

Normal Security

An active shooter could enter your building at any time. Since human security teams can't see everything at once, **response time often takes minutes to hours.**
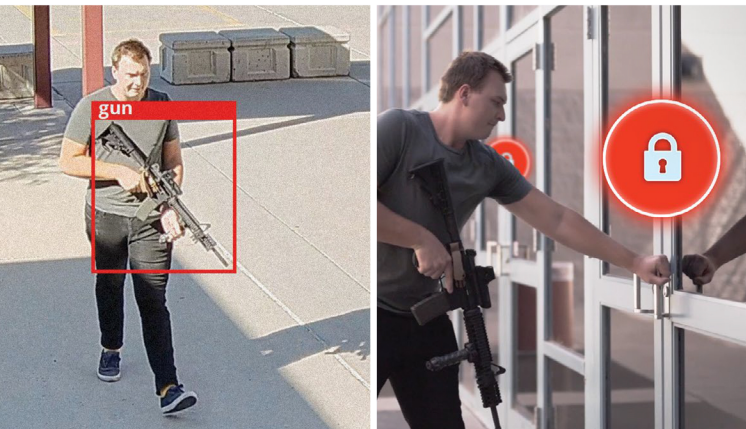

⊘ **LIMITED THREAT DETECTION**

Defendry Security

Defendry's AI-powered defense system strengthens your security by watching your surveillance cameras 24/7 to **automatically detect, deter, and report potential threats in just seconds.** *Early detection can even automatically lock a shooter out before entering.*

⊘ **INSTANT THREAT DETECTION**

⊘ **STRENGTHENS PEACE OF MIND**

⊘ **AMPLIFIES SECURITY TEAM EFFECTIVENESS**

⊘ **EXPEDITES EMERGENCY RESPONSE TIME**

How It Works

24/7 Threat Reporting

Visual Threat Detection

Defendry **automaticly detects guns, masks, & intruders** by analyzing security camera streams.

+ Auto-Lock Doors

Whether outdoors or indoors, if a threat is detected, **doors are automatically locked to prevent further entry** by the culprit.

Defendry SeeSay

If someone recognizes a threat, they can immediately report it to on-site authorities via the SeeSay app. *"If you see something, say something."*

How It Works
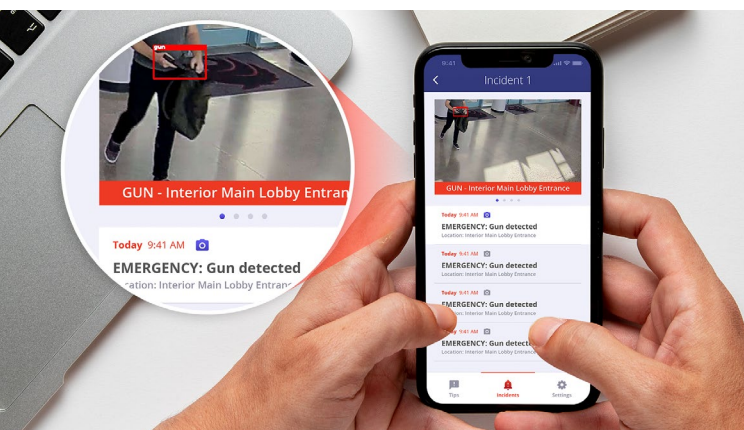

24/7 Human Verification

Human Review

Detected threats are immediately sent to Defendry's award-winning, 24/7 human verification partner, Rapid Response, for review.

Immediate Emergency Notifications

Customizable Alerts

If a threat is verified, Defendry immediately sends pictures, a description, & location of the threat to police, onsite security teams, and anyone else who needs to know.
