Overview

<p>FOUR GENERATIONS OF DEPENDABILITY Architects and owners who demand quality workmanship, superior performance and aesthetically pleasing design depend upon AALCO for the specification of custom gymnasium equipment. All AALCO products are designed to provide years of dependable service and to compliment the décor of your facility. From aircraft carriers to university fieldhouses to elementary school gyms, AALCO has more than 100,000 installations to their credit. That’s expertise you can count on. Our equipment is designed for durability and maximum safety with a 100% guarantee. It is backed by personalized service you can expect from a leader. FAST FACTS Designed the first single stem backstop system in the 1950’s. Engineered the Back Roll-Fold Backstop in the mid 1960’s. First to utilize a Drive Shaft System for raising and lowering curtains. First to develop a Segmented Drive Shaft on radius fold-up curtains. First to use mesh constructed divider curtains. First to incorporate an electric actuator for backboard height adjuster First to develop the Internal Telescoping Height Adjuster for single stem backstops, Patent Number 6,368,240. First to develop “TouchMate Control” to operate all gym equipment with the touch of a finger. Developed the Spikeline Volleyball System, which allows adjustment of the net from 6' to 8' while under full tension. Designed a Volleyball Storage Cart which allows for easy roll-up net storage. Perfected the Top Roll Divider Curtain. Developed the Cable Lift-Up Batting Cage in the late 1960’s. First to offer a one-piece solid-cored Fiberglass Backboard with a better rebound than glass. Only manufacturer to offer custom inlaid school logo’s on fiberglass backboards. Engineered the Bottom Lift Grand Slam Batting Cage, Patent Pending. First to offer the high-impact contoured custom wall pads</p>
