Overview

Established over 40 years ago, Portadam offers its water management solutions to national and international clients. Our engineered, modular system is highly flexible and can be used effectively for temporary cofferdam, flood protection and fluid storage needs. For over four decades, Portadam has been utilized as an effective temporary cofferdam solution providing contractors a dry work condition while saving both time and money. FloodDefender is Portadam's rapidly deployed flood barriers. Portadam's proven engineered water storage system allows you to maximize your water storage capacity by nature of its versatile design. Portadam is your partner in flood risk mitigation, and your team can turn to us for more than a one-time acquisition of a reliable product. Count on our professionals to deliver unmatched support for essential flood protection processes.
