Overview

<p>Our story begins with kindergarten teacher, Greg Gorman, who created ESGI (Educational Software for Guiding Instruction) in 2002. He saw firsthand that traditional, paper-based progress monitoring was painfully inadequate in providing the real-time student data needed to effectively drive instruction. Subsequently, he created ESGI as an online solution for teacher-led assessment.</p>

<p>Today ESGI is the leading progress monitoring solution for early childhood educators. Teachers guide instruction while saving over 400 hours with one-on-one assessments.</p>

<p>In 2019, ESGI joined Riverside Insights, united in our commitment to enrich lives and elevate learning potential.</p>
