As an industry-leader, Digital Ally designs feature-rich products that are rugged, durable and reliable. Agencies from all 50 States and more than 90 other countries rely on our products every day.

Digital Ally was established in 2004 and revolutionized mobile video by introducing a complete In-Car Camera System integrated into a rear-view mirror. This design provides a more efficient use of space in vehicles, as well as providing a user-friendly system that can be positioned so it is not distracting to users. Our In-Car Camera Systems have high quality video ranging from Enhanced D1 Resolution to full 1080p HD Resolution.

Since the introduction of our series of In-Car Camera Systems, we have expanded our product offering to include the FirstVu HD line of Body Cameras and the patented VuLink automatic activation unit. VuLink enables the automatic activation of your In-Car Camera, wireless Microphone, and Body Camera. The FirstVu HD brings all the advantages of an In-Car Camera system to the shirt pocket of every officer. It is small and lightweight, easy to operate, and allows officers to record high quality video in full 720P HD.

Digital Ally, Inc. has also developed both a dynamic, comprehensible cloud –based solution and a back office software solution for easy management, review, and archiving of recorded evidence.
