Overview

Gaggle is the pioneer in helping K-12 districts manage student safety on school-provided technology. Our mission is to help ensure the safety and well-being of all students, supporting school districts in proactively identifying those who are struggling. Everything we do is steeped in helping districts see the early warning signs so they can take action to protect their students from harming themselves or others—before it's too late.

The Gaggle solution uses an effective combination of artificial intelligence and trained safety experts to provide real-time analysis and review of students' use of the district's online collaboration platforms for email and schoolwork. We offer administrators, teachers, and parents the peace of mind that students are being protected—24 hours a day, seven days a week, 365 days a year. Gaggle's intricate balance between student safety and student privacy has K-12 districts across the United States using Gaggle year after year.
