Overview

Florida Virtual School (FLVS) is a State Agency and an established leader in developing and providing virtual education solutions to students in grades Kindergarten through 12. Through FlexPoint Education Cloud™, FLVS serves students outside Florida online and delivers eLearning options to students and educators. A nationally recognized e-Learning model and recipient of numerous awards, FLVS was founded in 1997 and was the country's first, state-wide Internet-based public high school. In 2000, the Florida legislature created a separate division within FLVS to serve needs outside the state with the stipulation that FLVS reinvests the revenues in research and development to maintain the highest quality courses available. In 2021, FLVS unveiled its new brand, FlexPoint Education Cloud™, to reflect its worldwide focus and provide school districts across the U.S. with tools and resources for online learning programs for students in grades Kindergarten through 12.
