### **Overview**

Genetec, Inc., is the world leader in open-platform unified IP software solutions for the Physical Security and Public Safety industries. A privately held company since its inception in 1997, Genetec is headquartered in Montreal, Canada, with 14 additional locations around the globe. Genetec ranks No.1 in the global video management system (VMS) market, maintaining its top market position in the Americas for the eleventh consecutive year. Genetec credits its continued market leadership to the development of innovative and flexible cloud solutions, and the strength of its unified security platform, Security Center. Genetec continues to build and expand its solution platform to better support its customers' security and operations needs across the globe within diverse market segments and complex network environments. Today, Genetec solutions include video, access control, license plate recognition, IP telephony, cloud-based services, professional services, and custom integrations. Complementing those solutions, Genetec also offers a suite of operations and security-based applications, such as workflow, situational awareness, case management, and digital evidence management.
