Overview

Homeland Safety Systems was established in 2003. The company has grown through the years, starting with 1 employee, to a staff of over 40 between our corporate location and satellite offices throughout Louisiana and Texas, and we are growing as we speak. We currently service over 2,000 clients, from the very small 4 camera systems or residential intrusion alarm systems, to the very large, including 400+ camera systems with full door integration at two prisons, as well as multiple school systems, having in excess of 500 cameras parish-wide, all accessible from multiple locations within the parish. We are committed to our clients, proving the finest products in the industry, with the knowledge and ability to make multiple different systems work together as one integrated solution. We are the manufacturer of many of our products, giving us the unique ability to service on site most of our equipment. Our warehouse stocks most of the parts used in our equipment and our technicians are "factory-certified" to perform any necessary repairs or replacements. We strive to have a technician respond to any service call within 24 hours, and have the problem resolved when they leave your facility.
